

# How to make cats go crazy in Adorable Home

If you want your cat to go away in the Adorable Home, you can try it in this article. While it won't make all cats go away, at least some will let you touch again.

Cats don't just pester you in real life, they do in Adorable Home. If taken care of them improperly, they will pout you. Sooner or later, they will run out of days, if not, it will take several days. And while they sulk, you can't touch them.

You have no choice but to wait for them to finish, while at the same time prepare enough food and do not let them hungry. If not, they will leave to eat elsewhere. That's also one of the reasons when you go inside and see some cats leaving.

If you want to know how to get rid of cats, try following the instructions below.

## How to make cats go crazy in Adorable Home

**Step 1:** Firstly, completely exit Adorable Home with cats, but also those that have not been sucked must still take care. After exiting Adorable Home, go to **Settings> General Settings> select Date & Time** .

**Step 2:** Select a time zone, here you get the time zone in Tonga. This is 6 hours faster than Vietnam's current time zone, if you successfully change the time zone, you will see the time on your phone change.

**Step 3:** Then go into the game, maybe all 12 cats are not over, but there will certainly be a few that no longer turn back to you.

It is enough for you to "steal" from them a little heart already. In addition, if you feed the cat earlier, you will also gain a heart immediately and maybe your spouse will go home.

Another way is to completely exit Adorable Home, select **Samoa's** time zone (the slowest time zone compared to Vietnam)> go into the game, whichever will take care of, any longer will leave it there. Next, completely out the game, from Samoa's time zone, choose Tonga's and re-enter the game.

So with the above tip you can touch the females in the Adorable Home. Although it may not completely stop the cats, you will at least be able to take care of a few cats that previously did not let you touch them.
