

How to make free calls from computer to phone

Here are some services that allow making calls from PC to phone (pc-to-phone) that are considered the most popular and effective today. All of us have checked and confirmed, please rest assured to use.

TipsMake.com - **There are a lot of 'FREE Internet to Phone Calls' services available on the market (unfortunately, free calls via the internet), but unfortunately most are fraudulent or fake, making it easy for users to mistake when using.**

Today, making PC-to-PC (PC-to-PC) calls has become very simple, convenient and completely free, built on most chat client websites. However, the free call services from computers to phone numbers are still really limited. Posts after TipsMake.com Please introduce to us a number of services that allow making calls from PC to phone (pc-to-phone) that are considered the most popular and effective today. All of us have checked and confirmed, please rest assured to use.

1. Globfone.com

GlobFone is a free and innovative Internet service that allows you to make phone calls from free computers, online video chat, share P2P files and send free texts to family and friends all over. world.The use of Globfone is extremely simple, no need to register an account or install software.

During the search process, we called, the connection waiting time was less than 1 minute, you need to allow the mic access service to be able to chat when calling.Remember not to close the website window until you finish the call.

This is the link to make a free phone call: <https://globfone.com/call-phone/>

2. VoipBuster

VoipBuster is a desktop application, allowing users to make calls at different points around the world. Free calls only work in certain countries (see list).

To use **VoipBuster** first, download this application [here](#), then register your account on VoipBuster. During the VoipBuster trial period, each account is allowed to use 60 minutes of free calls at designated locations. After the trial period you need to register for your account by purchasing a card to receive additional free minutes.

Each registered account will receive 300 minutes of free calls per week, which will be summarized on weekends according to each IP address.

Interface: Desktop Client

Active country: See the list [here](#)

Call time (before automatically disconnecting): Free 60 minutes

Limit calls every day: Up to 60 minutes

3. Other websites

In addition, there are some more sites for you to make free calls from your computer to your phone as below. However, when testing, the pages are not signs of calling or not supporting Vietnam. You can save it in case of overseas and need free phone calls:

1. <https://www.letsbrik.co/>
2. <https://www.citrustel.com/free-phone-calls>
3. <https://www.reverse-lookup.co/>
4. <https://www.zlookup.com/>
