

How to make lovely snowmen from balloons and wool to decorate Christmas

The Christmas season has already begun, hand-made lovely decorations as well as cute gifts to give everyone.

The Christmas season has already begun, hand-made lovely decorations as well as cute gifts to give everyone.

The snowman is an indispensable image in every Christmas, in addition to decoration people also consider this as a symbol of bringing luck. Therefore, you can manually make snowman handmade for decoration as well as Christmas gifts for friends and relatives.

Here's how to make snowmen with simple and easy-to-find ingredients, balloons and wool, for your reference.

Resources:

1. Balloon
2. White microfiber wool (or small frightened string)
3. Small black daisies
4. Hardcover
5. Milk glue (purchased at gift shops, in handmade accessories stores)

How to make a snowman model

Blow 5 balloons to make snow body parts: head, body, legs and arms. Depending on the parts you blow, they have different sizes.

Use a white microfiber wool dipped in milk glue and wrap it around the balls. Wait for the milk glue to dry, use a needle to pierce the balloon and remove the body. We have snow body parts with wool balls. You can use 2 small dry branches to make the hands of the snowman.

Use milk glue to attach the balls together to form a snowman.

Decorate the snowman

The nose of a snowman, you use a small piece of red cardboard to twist the funnel shape and attach it to a gun. Cut the eyes and mouth from the black paperboard to create a lovely smiley face for the snowman to celebrate Christmas.

You can either add a cloth towel or cut a scarf with colored paper to cover the head and neck joint and increase the "handsome" look.

Next, print the pattern to make a hat on paper, cut and paste them to create a lovely hat for the snowman.

Finally, you add black buttons to complete a lovely snowman to decorate your house on Christmas day.
