

How to make the computer wallpaper constantly changing on Win 10

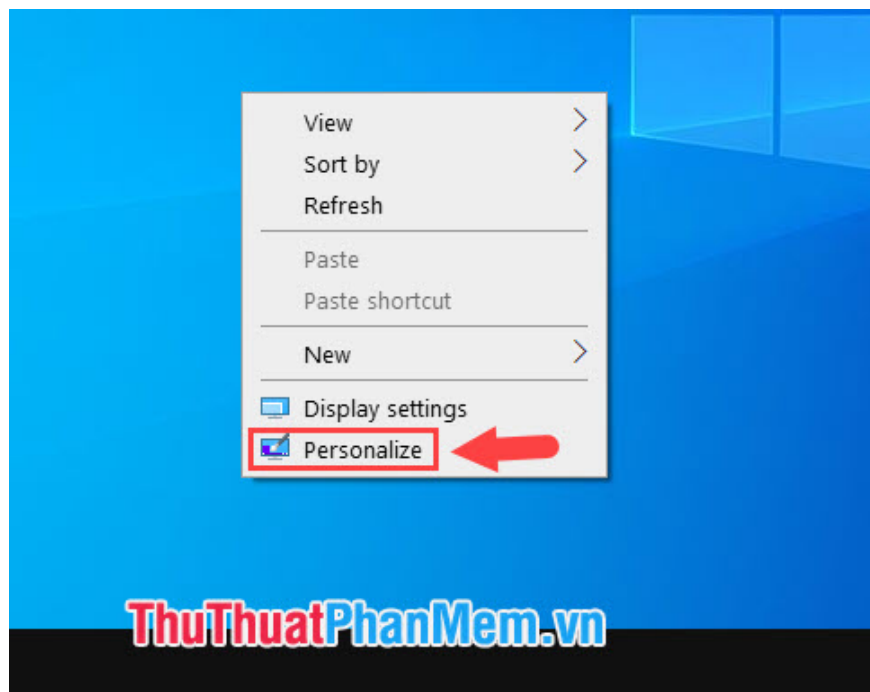

How to make the computer wallpaper constantly changing on Windows 10. The default wallpaper on Windows 10 can make us feel bored and to refresh the desktop, you should use the ways to change the wallpaper itself. in the following article.

The default wallpaper on Windows 10 can make us feel boring and to refresh the desktop, you should use the automatic wallpaper changes in the following article.

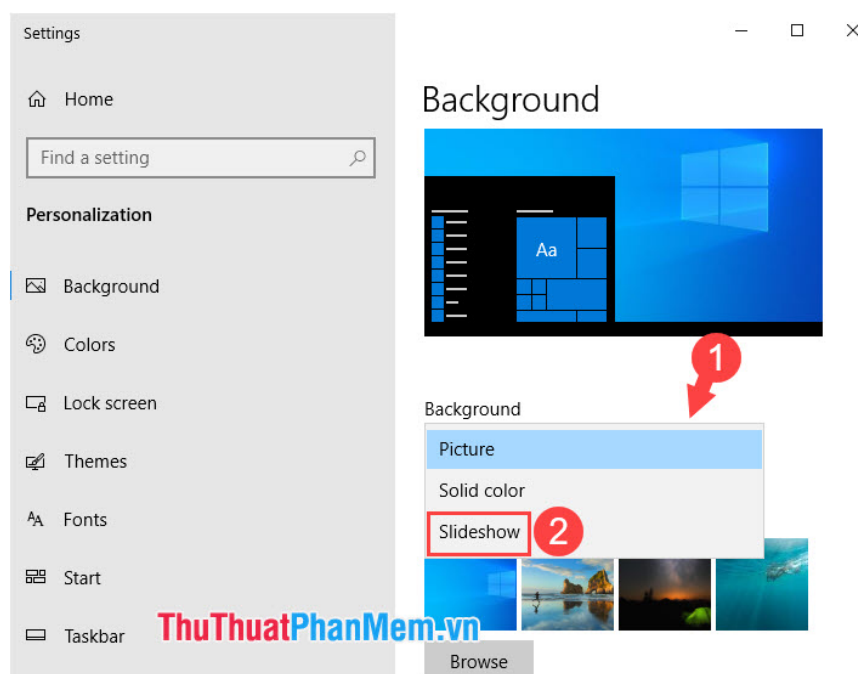

1. Use the Silde Show feature

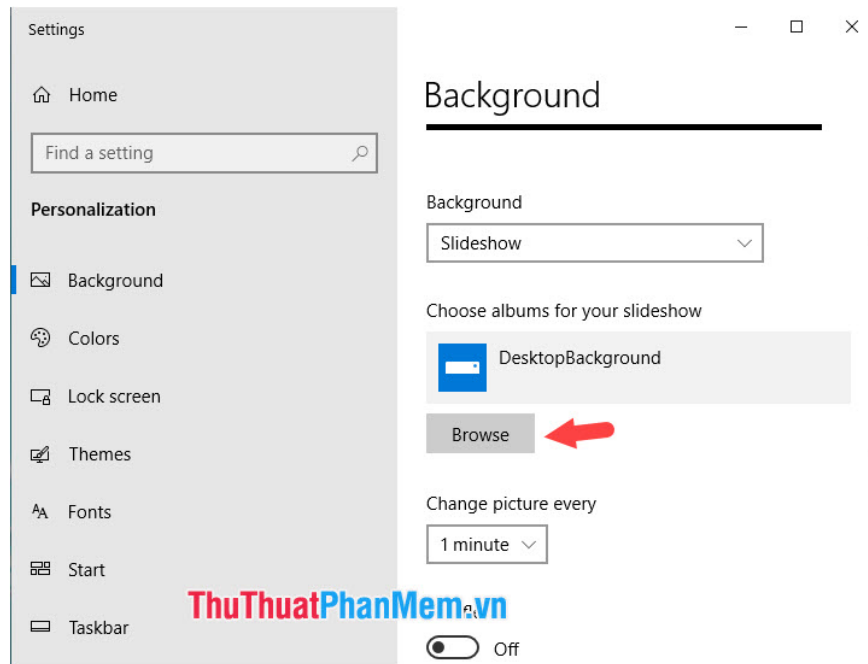

Step 1 : Right-click on the desktop => select **Personalize** .

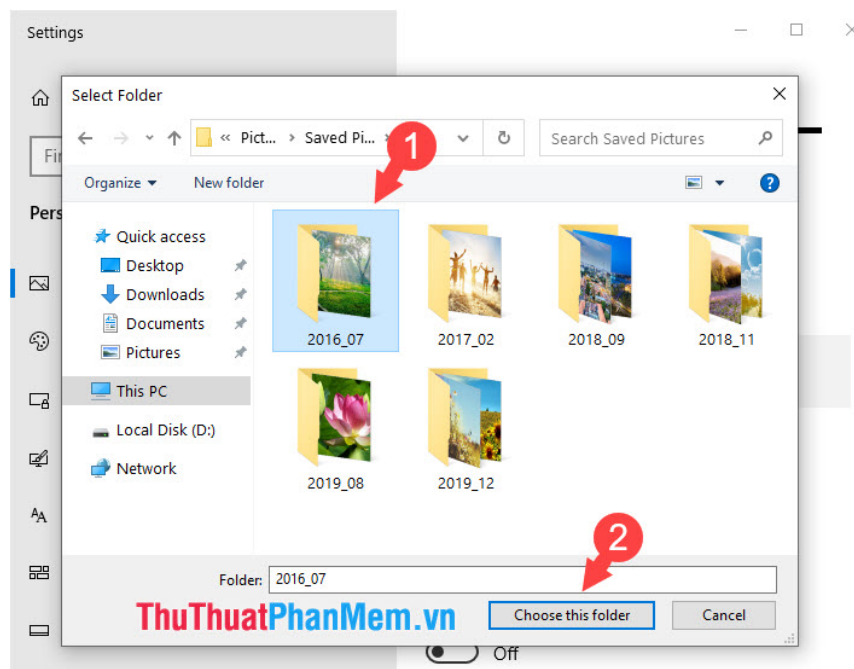

Step 2: Click on the **Background** (1) => **Slideshow** (2) .

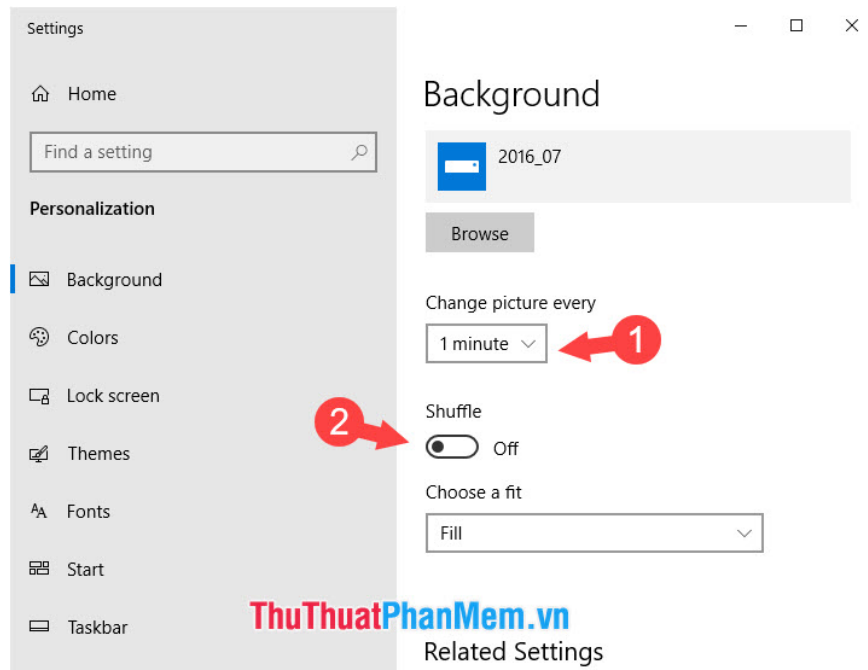

Step 3: Click **Browse** to open the image folder.

Next, click the image folder to set as a wallpaper (1) => **Choose this folder (2)** .

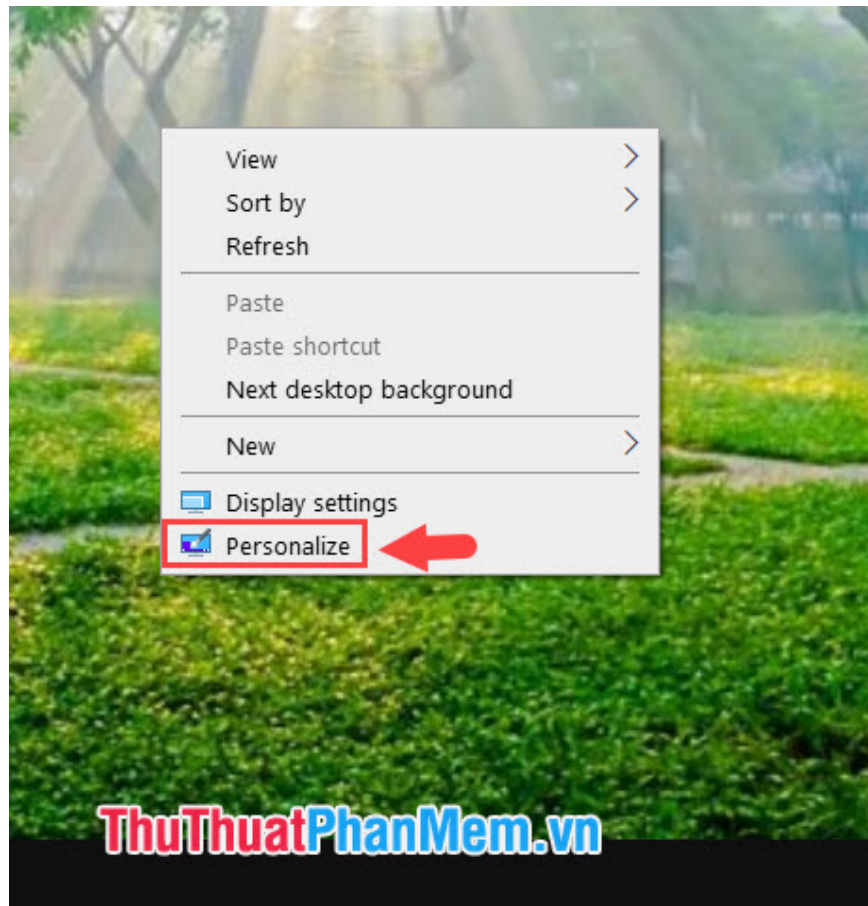

Step 4: Click **Change picture every (1)** to change the time automatically switch wallpaper. If you do not like the background switch in the order of images in the folder, then turn the **Shuffle** switch (2) to **On** to shuffle the folder wallpaper randomly.

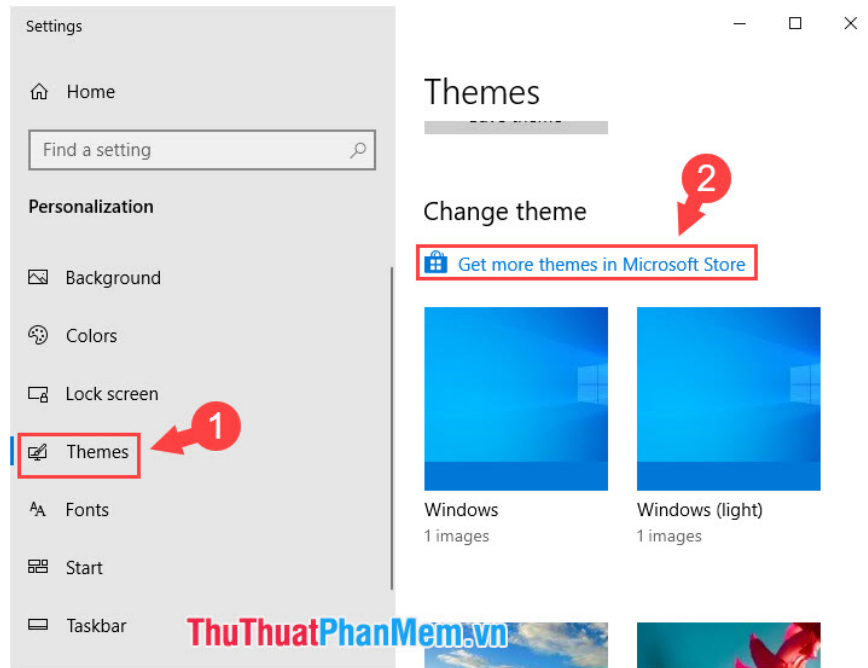

2. Use Themes from the Microsoft Store

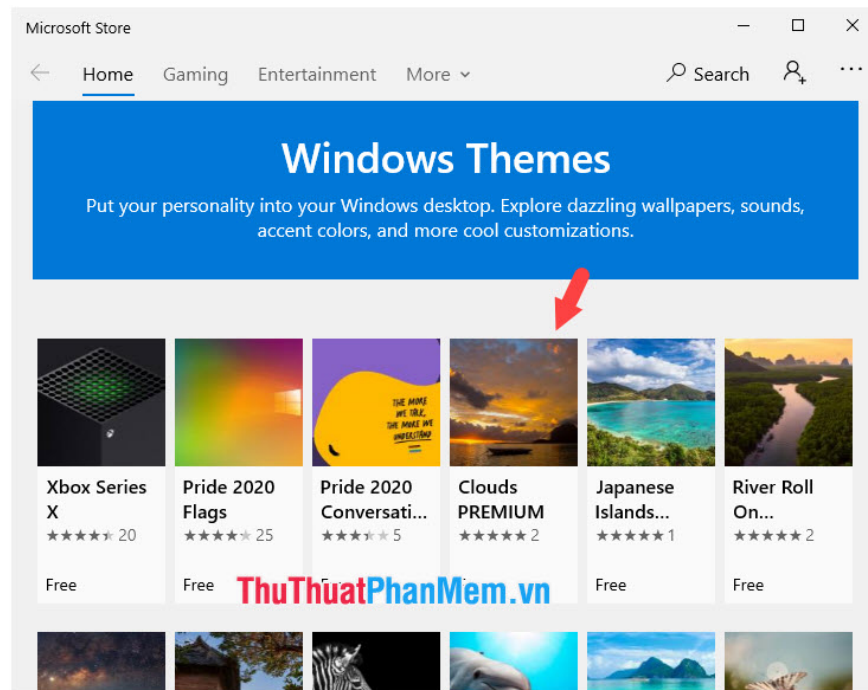

Step 1: Right-click on the desktop and select **Personalize** .

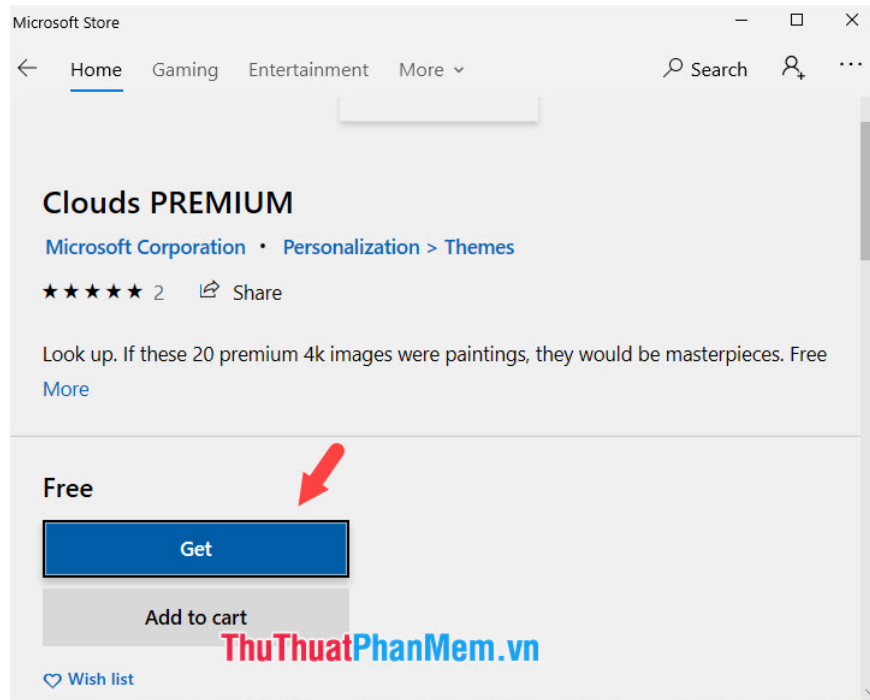

Step 2: Click on **Themes (1)** => select **Get more themes in Microsoft Store (2)** .

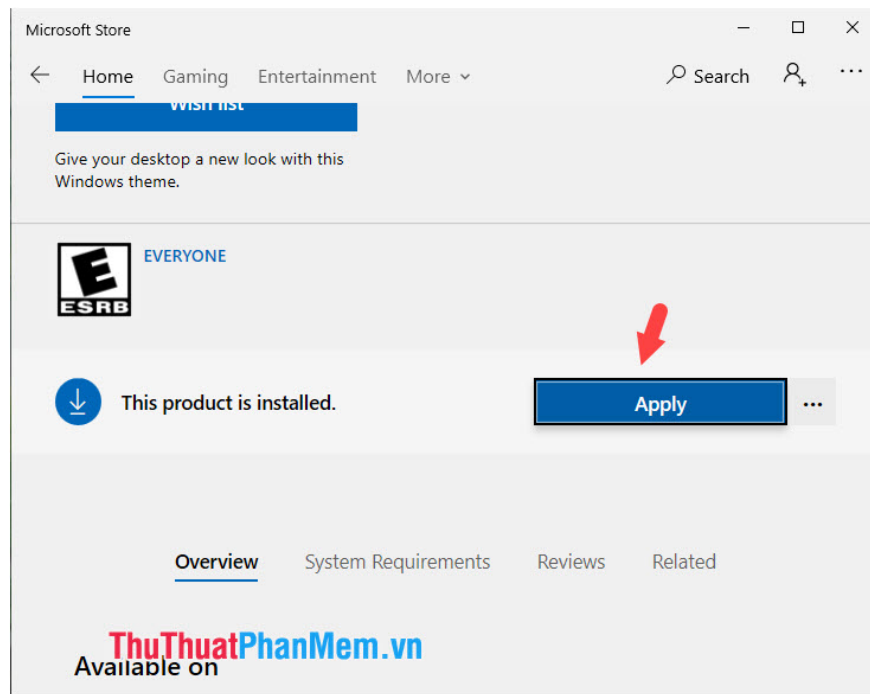

Step 3: Click on any **Themes** you like to select the photo collection in it as the theme.

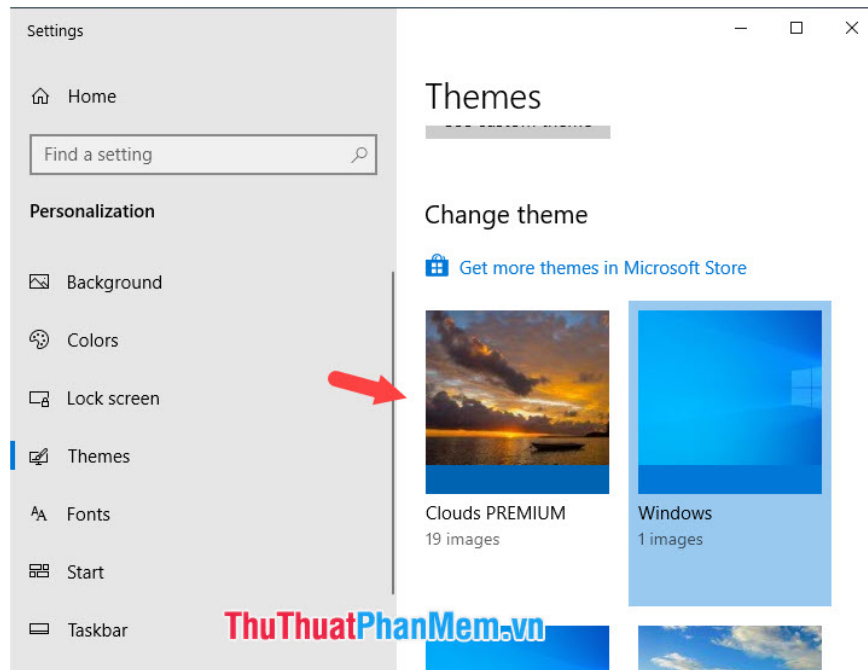

Next, click **Get** to download Themes to your computer.

After successful download, click **Apply** to apply Themes on the computer.

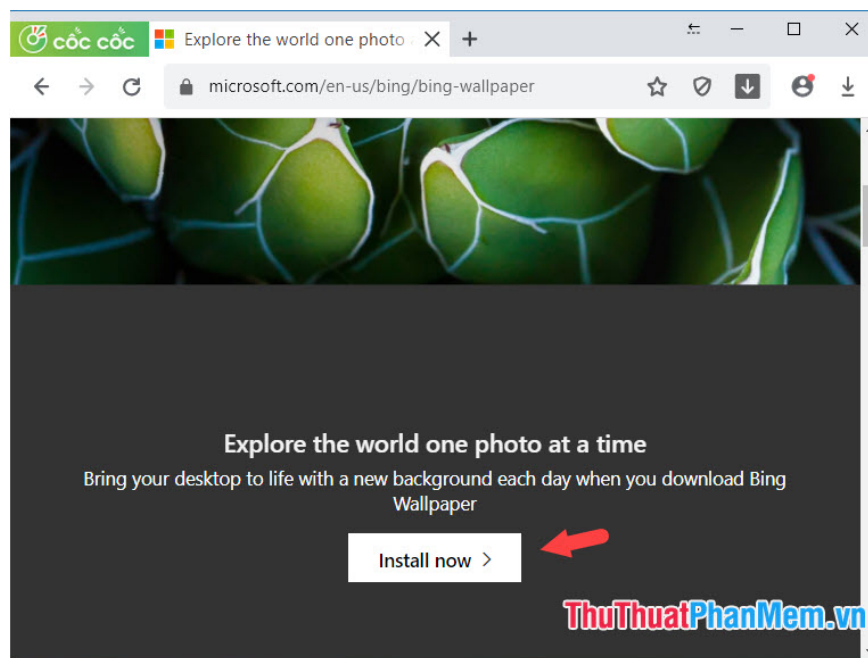

Step 4: After applying the Themes to your computer, the computer will switch you to install Themes. You just need to click on the downloaded Themes to set up the computer and you're done.

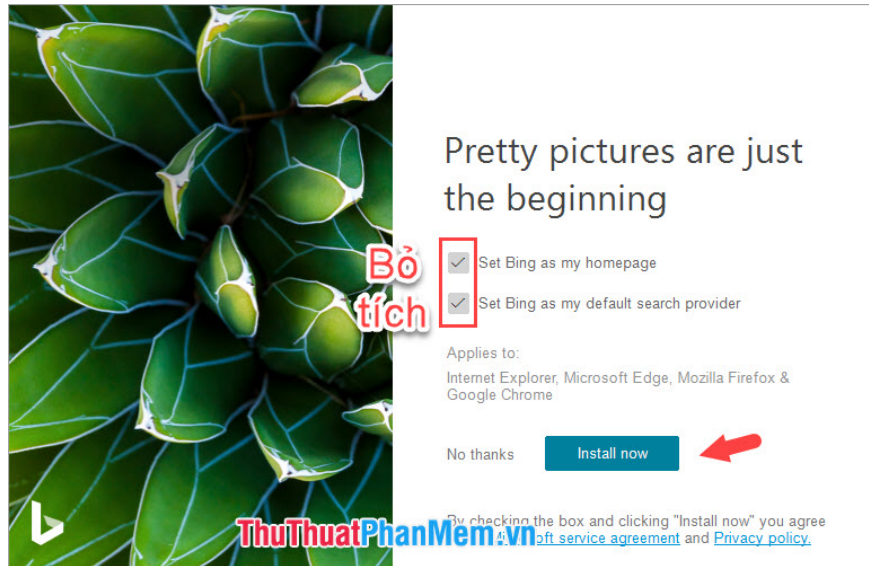

3. Use Bing Wallpaper

Step 1 : Visit the website <https://www.microsoft.com/en-us/bing/bing-wallpaper> and download the Bing Wallpaper tool.

Step 2: After downloading, open the file to install. Remember to uncheck the **Set Bing as my homepage option** and **Set Bing as my default search provider** if you don't want to set Bing as your default homepage and search engine instead of Google.

With the sharing in the article, you can bring "new breeze" to your desktop without spending too much time. Good luck!
