

How to make the screen transparent iPhone

To set a transparent screen for your iPhone, just follow the instructions in this article to make your iPhone screen transparent.

The transparent iPhone screen is something that many users are curious about. The transparent screen here is that you can see the hardware on your phone and if you glance at it, your screen is like a transparent glass.

Many people wonder how to have a transparent screen on a smartphone. All you need to do is simply use the correct wallpaper with the hardware on that machine. To make the iPhone transparent screen, download the hardware wallpapers corresponding to the model you are using below this article.

How to make the lock screen transparent iPhone

In addition to the hardware-transparent iPhone wallpapers here, you also have an X Ray scan wallpaper for some iPhone models. Here are iPhone and X-Ray transparent iPhone wallpapers.
