

# How to manage Chrome bookmarks effectively

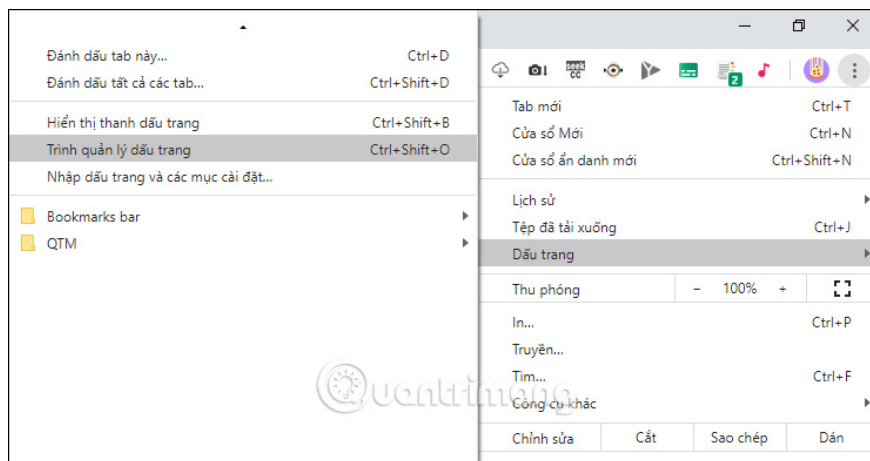

Bookmark Chrome to save webpages you need to use later. So how to manage Chrome bookmarks effectively?

Chrome has a bookmark feature so you can save webpages you want to use later, review the information or content needed without having to sit back and investigate. And when we save lots of bookmarks on Chrome, there's a way to effectively manage them. To **manage Chrome bookmarks**, you can use **Chrome's bookmark manager** right away or if you want to manage more effectively, more scientifically, users can use **the bookmark management utility** . Depending on the needs of use as well as the number of bookmarks you are saving, we can choose the way that is convenient for you. The following article will guide you how to manage bookmarks on Chrome.

## 1. Manage bookmarks with Chrome manager

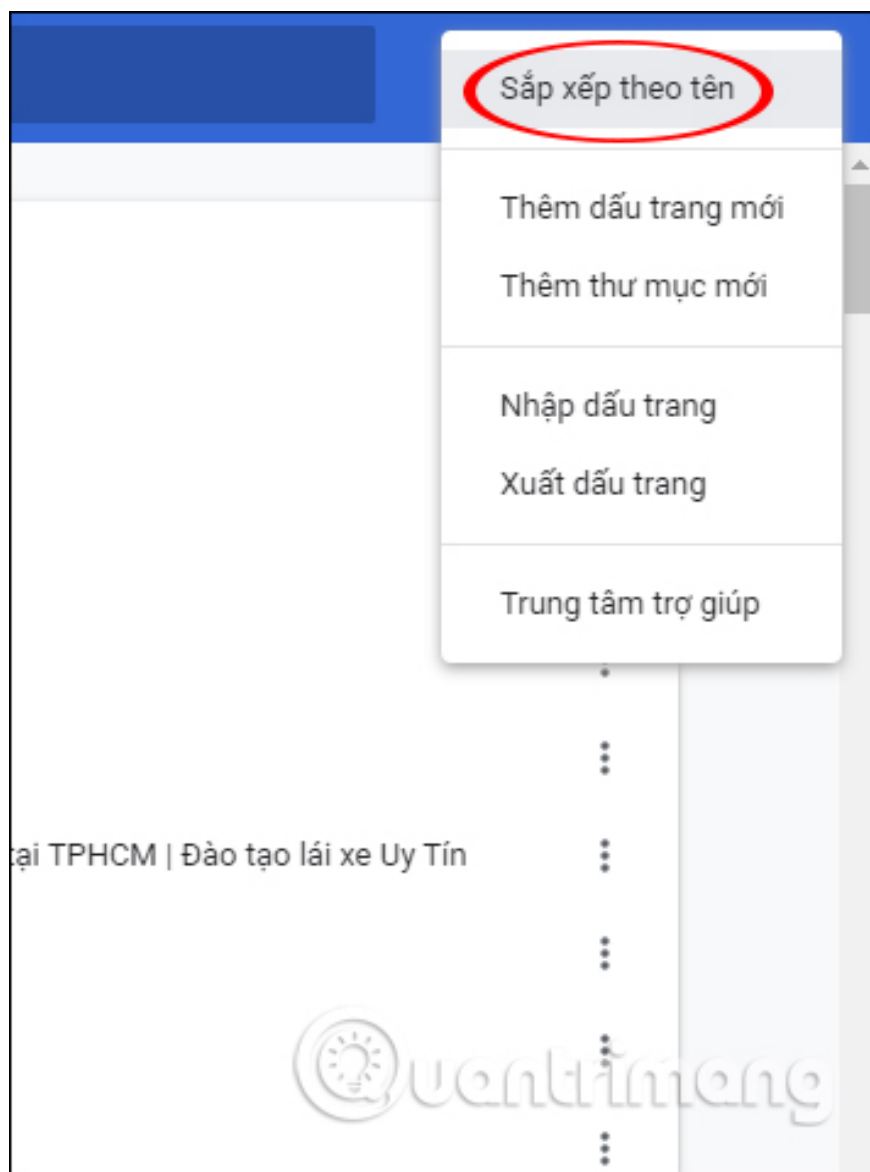

### Step 1:

At the Chrome browser interface, we click on **the icon 3 vertical dots** and then select **Bookmarks** , click **Bookmark Manager** .

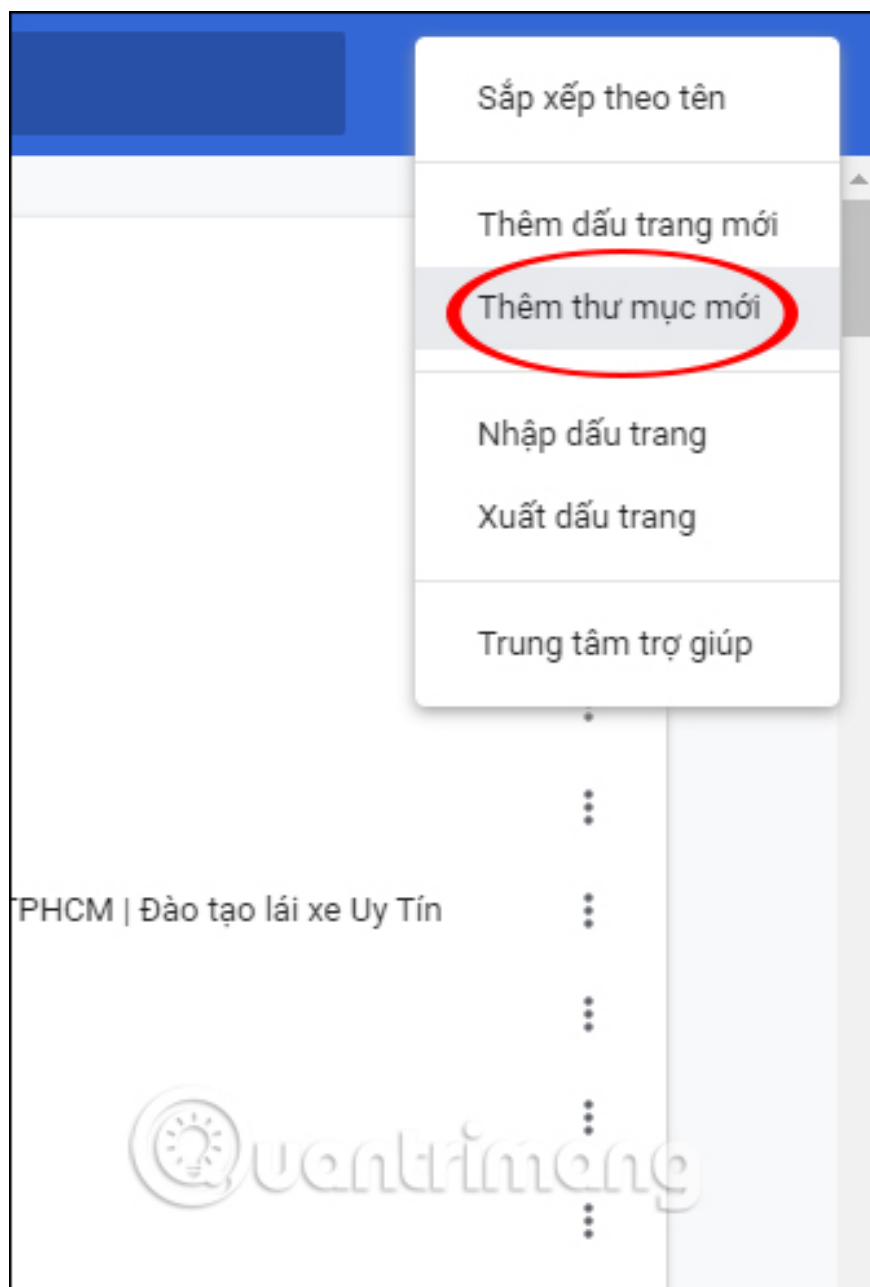

### Step 2:

Now show all the bookmarks you have created. Here you can change the location of bookmarked pages. In case you have many bookmarks, it is necessary to arrange alphabetically. Click **the 3-dot icon** and choose **Sort by name** .

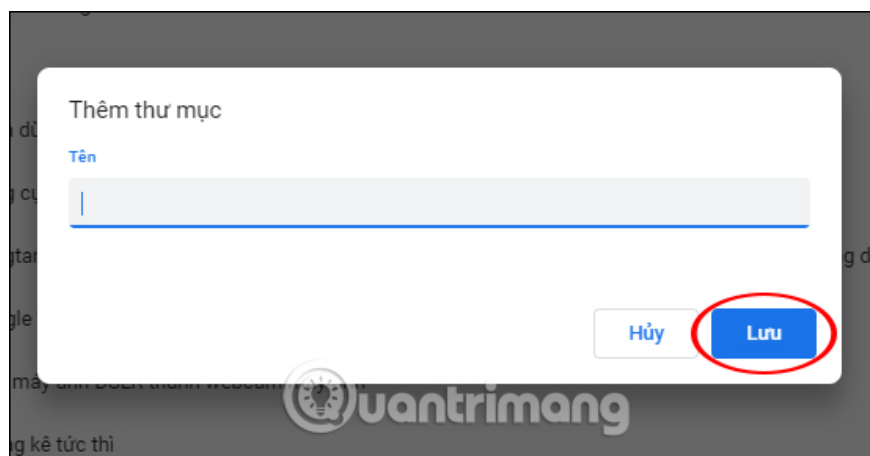

**Step 3:**

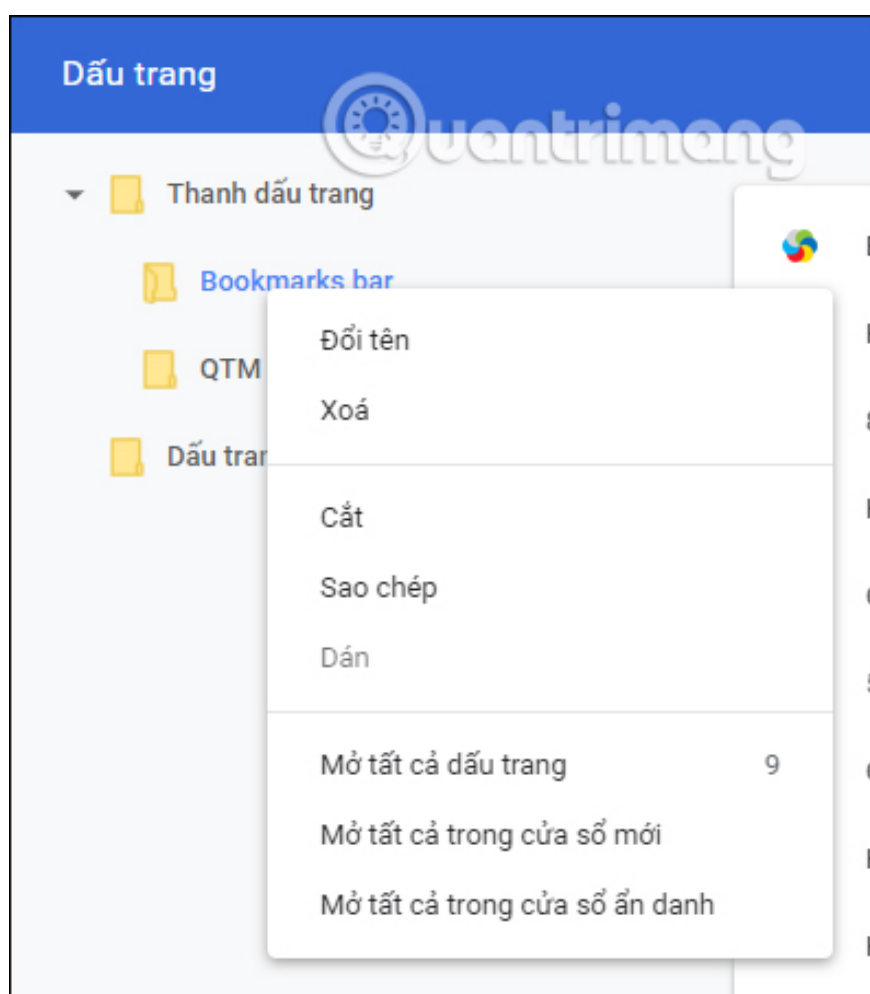

With bookmarks on the same topic as entertainment, technology, etc., we should combine them into one directory, instead of spreading. **Click the 3-dot icon and select Add new folder .**

Display the content so that you **enter a new folder name and** then **click Save** . So when you save a new bookmark you can save to a folder, or move an existing bookmark to the folder.

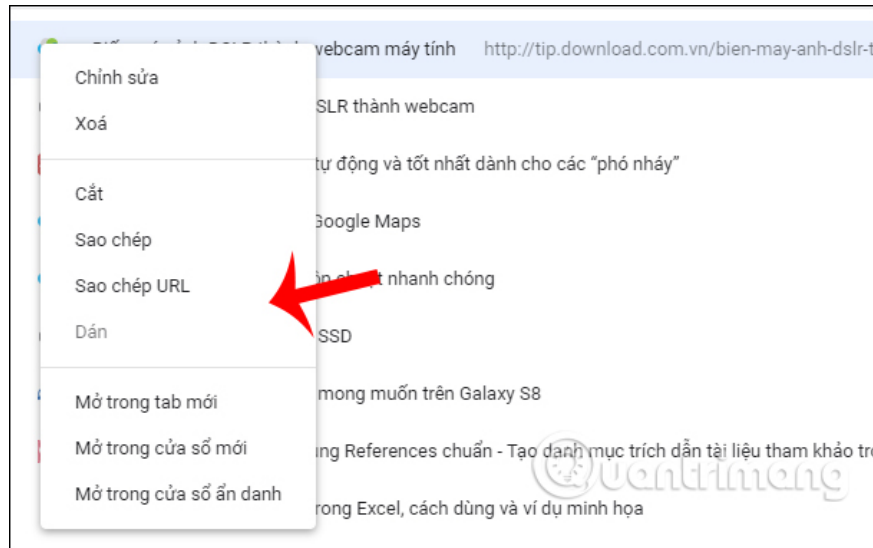

The newly created **bookmark folder** when you **right click** to select will display the list of options as below.

**Step 4:**

**Right-** clicking on a saved **bookmark** will display the following options list for you to edit, delete or copy the website URL.

Chrome has the ability to export bookmarks as HTML files and re-import bookmarks in case you reinstall Chrome or reinstall your computer. Content made reference How to save bookmarks on Google Chrome and Coc Coc to your computer.

## 2. Guide to managing bookmarks with BrainyTab

The feature of managing bookmarks on browsers just stops saving bookmarks and searching through the toolbar, so it is not really convenient for users. If so, we can use the BrainyTab utility to make the bookmark manager on Chrome browser more intuitive, more scientific, better served when you browse the web. The following article will guide you how to manage Chrome bookmarks with BrainyTab utility.

### Step 1:

We download the BrainyTab extension on Chrome by following the link below.

1. Download the BrainyTab Chrome extension

### Step 2:

After installing the utility and opening a new tab, you will see the bookmark management interface at the New tab interface. To **add bookmarks** you can **follow 2 different ways** .

The first way is to open the website you want to bookmark and click **the BrainyTab icon** on the toolbar. Now display the interface with information of available websites and can add website logos if desired. Click Save bookmark to save.

**Add Bookmark**

**Title**  
Website này sẽ giúp bạn cập nhật liên tục tình hình dịch viêm pt

**URL**  
https://quantrimang.com/website-cap-nhat-tinh-hinh-dich-cum

**Logo/Image URL**  
Enter Image/Logo URL(optional)

**Save bookmark** ✓

Or at the New Tab interface, click **the blue plus icon** in the bottom left corner and enter the name, URL and website logo to save the site yourself.

**Add Bookmark**

**Title**  
Enter Bookmark title

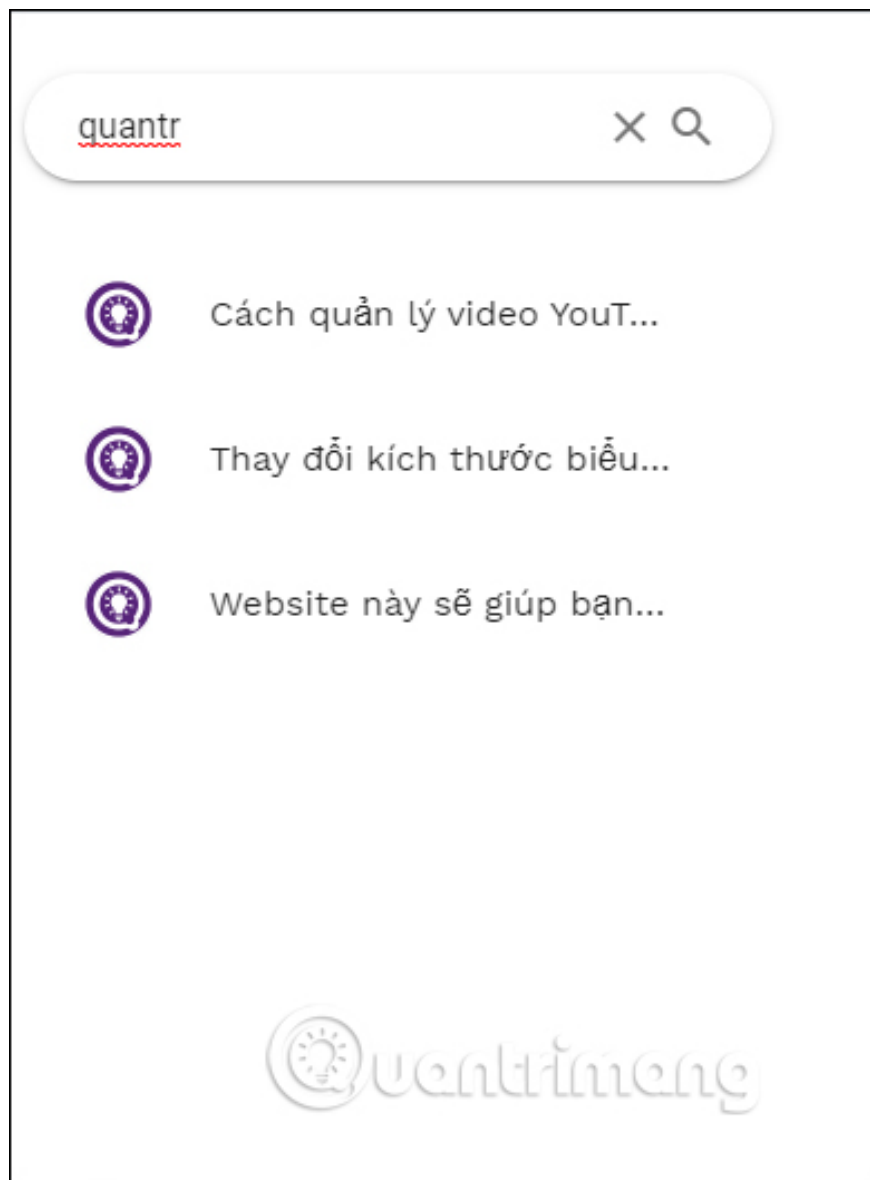

**URL**  
Paste or type the URL

**Logo/Image URL**  
Enter Image/Logo URL(optional)

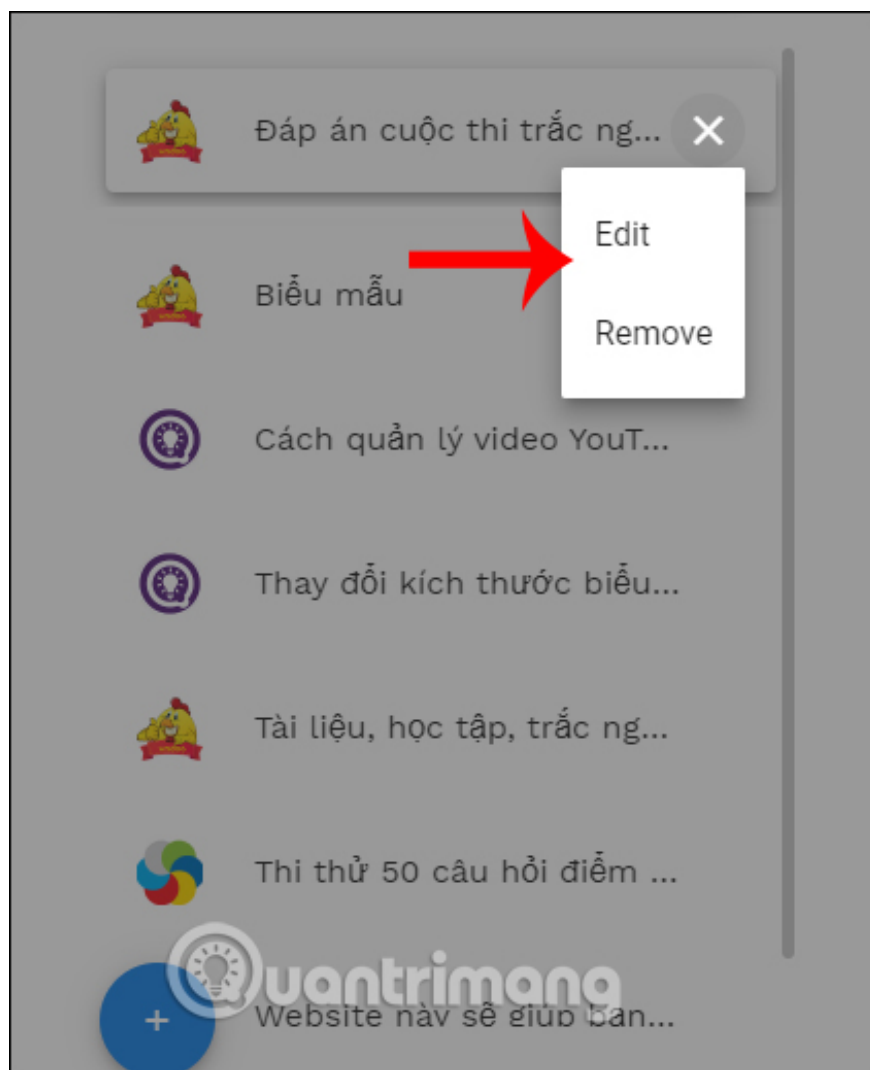

Cancel ✕ **Save bookmark** ✓

### Step 3:

All saved web pages are displayed in New Tab interface. They are sorted by which site the most recent bookmark is shown above. To **search for any bookmark** , you just need to **enter the keyword** into the search bar, including keywords in the article name or site name.

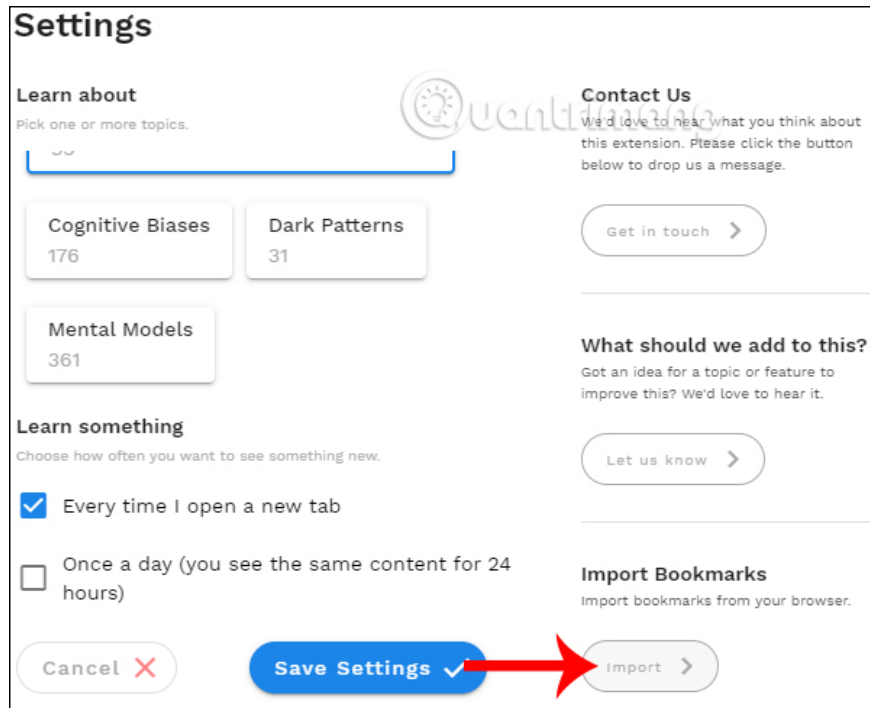

At each bookmark when clicking **the 3-dot icon** will have Edit options to edit the bookmark and Remove to remove from the list.

#### Step 4:

Bookmark on the BrainyTab widget is completely separate from bookmarks on the browser. If you want to **manage your browser bookmarks**, you need to enter them manually. Click **the three-dot button** at the top right corner of the utility management interface, and then click **Import in Import Bookmarks**.
