

How to manage Chrome gadgets on the toolbar

To manage Chrome widgets right on the toolbar, we just need to change the settings on the browser.

Chrome 75 browser launches users with many new features but is still in the process of experience, such as Tab Preview on Chrome to view thumbnails of the website, or manage installed utilities at the taskbar. Tools without the need for additional utilities or multiple operations, via the Extensions Toolbar Menu feature.

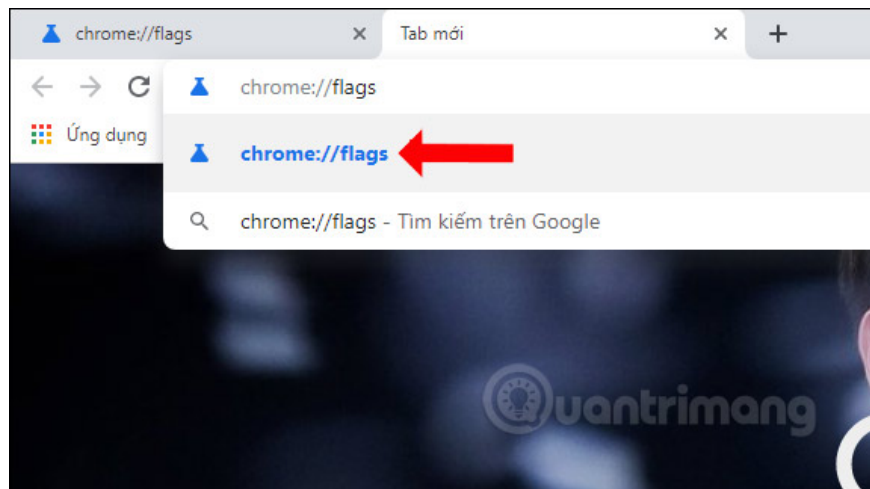

Normally, to review the installed utilities on Chrome, users access the Utilities section under the `chrome://extensions/` link. But when using Extensions Toolbar Menu, you only need to see what utilities you are using from Chrome's toolbar, including the hidden utilities from the browser address bar. Currently the feature has not been publicly announced, but users must manually activate according to the following article of Network Administrator.

1. 10 utilities on Chrome you should not ignore
2. How to control gadgets that work on Chrome
3. How to turn off all utilities on Chrome with just one click
4. How to install Chrome utility on Opera browser

Instructions for enabling Extensions Toolbar Menu on Chrome

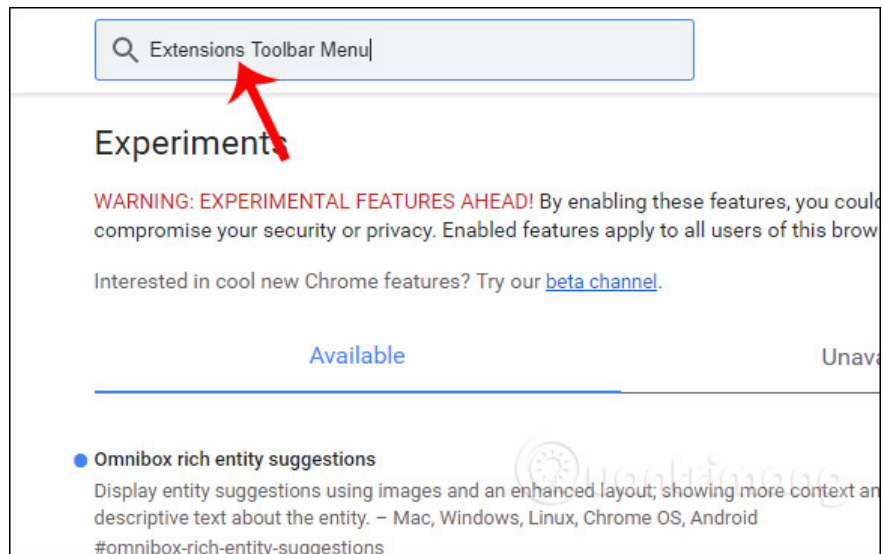

Step 1:

We enter the path **chrome://flags** into the address bar and press Enter.

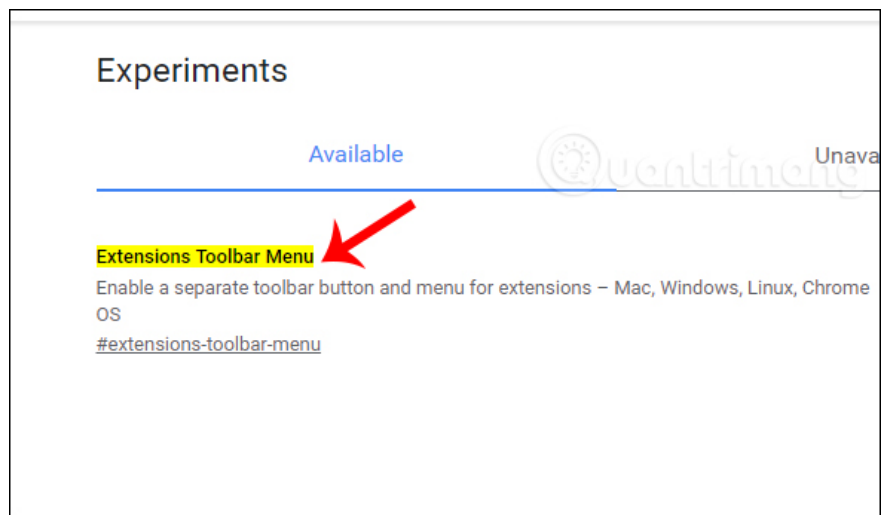

Step 2:

Display the interface with hidden features on the browser. Here users enter **the Extensions Toolbar Menu keyword** into the Search flags bar and then press Enter to search.

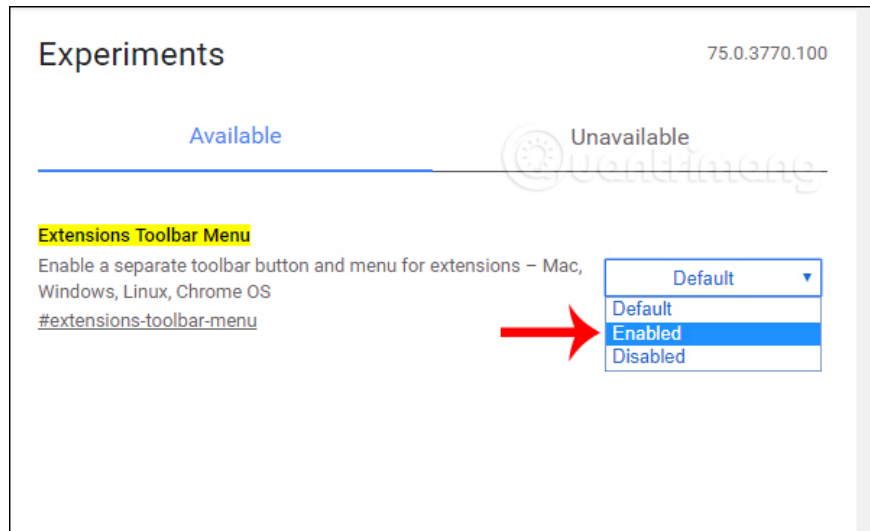

Display results flag Extensions Toolbar Menu right below.

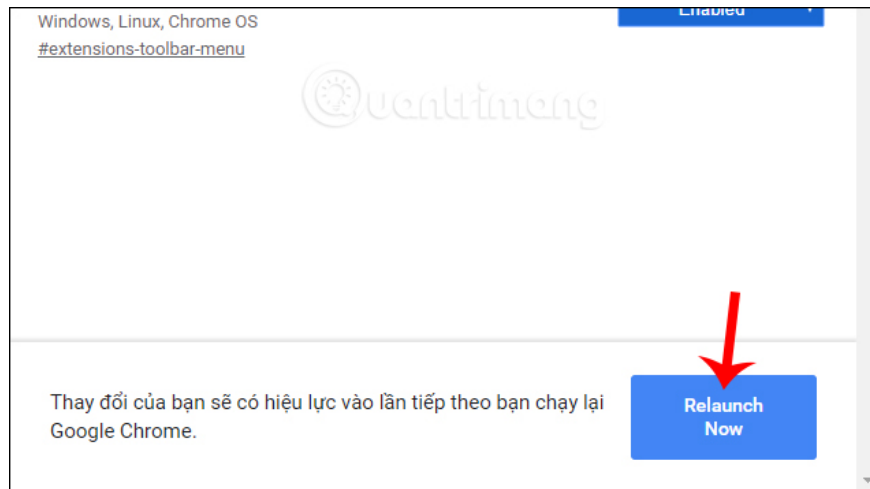

Step 3:

Users need to switch **Default mode to Enabled mode** to enable this feature on Chrome browser.

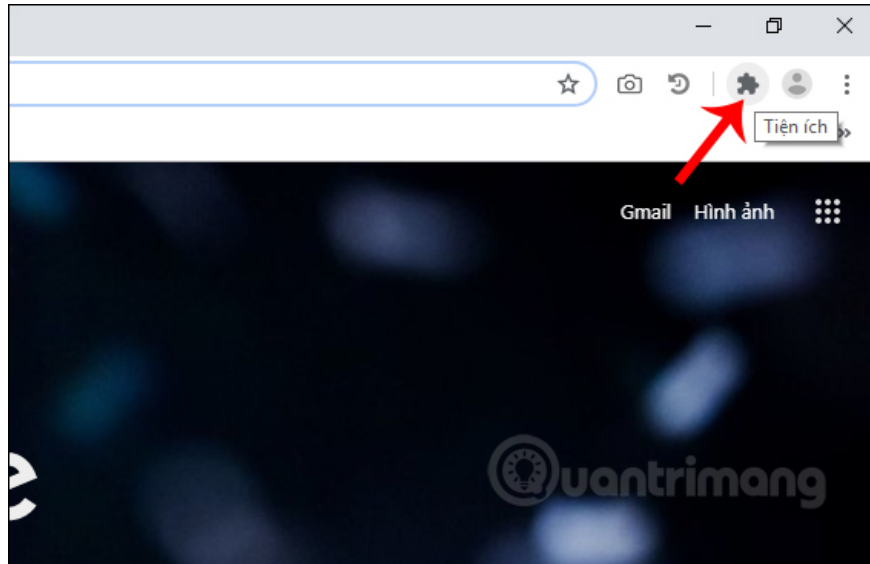

Then **press Relaunch Now** for new changes to apply to the browser.

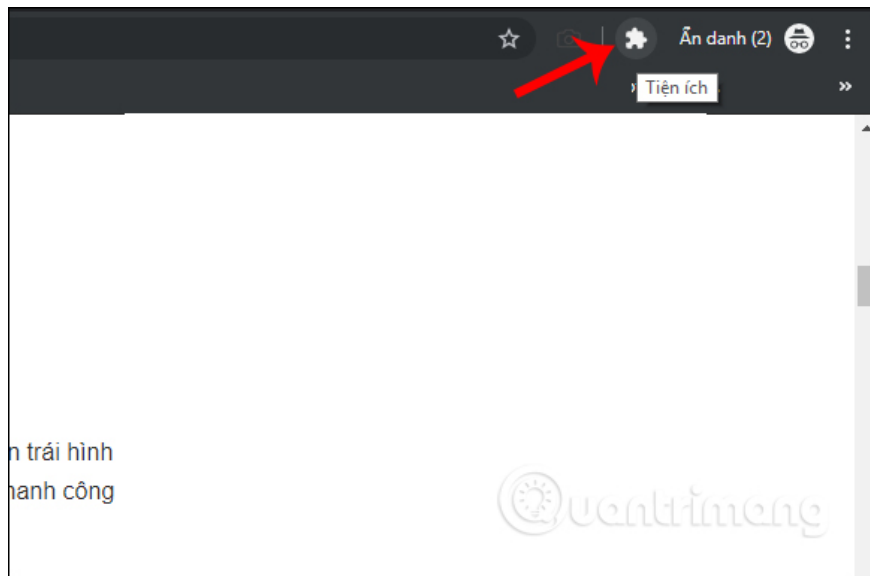

Step 4:

As soon as the user accesses the browser again, you will see a **widget icon** displayed at the Chrome browser toolbar.

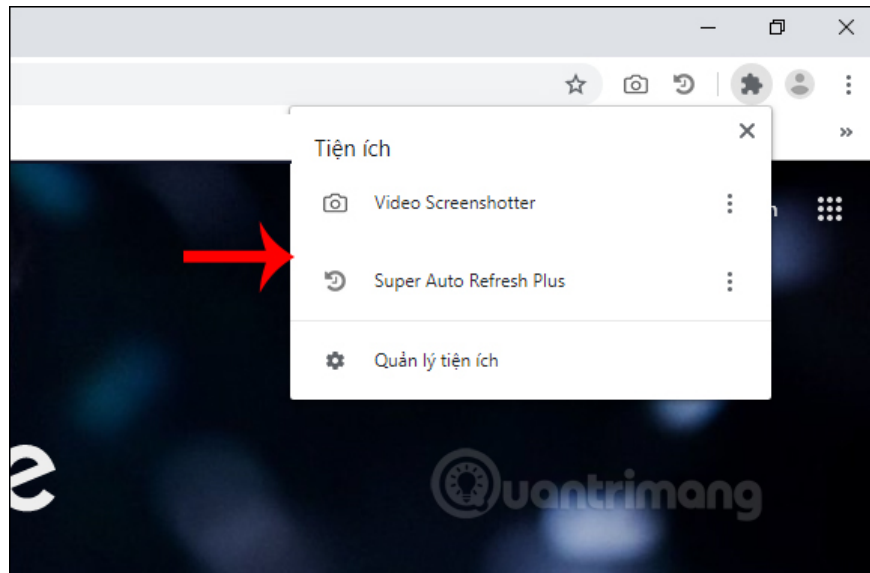

This feature works in an anonymous browsing mode to manage all of the utilities you install on Chrome.

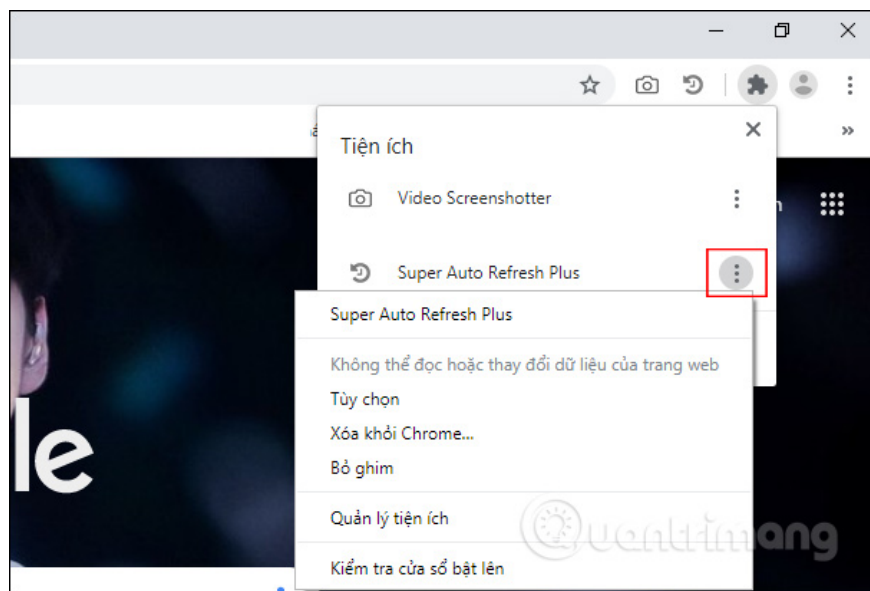

Step 5:

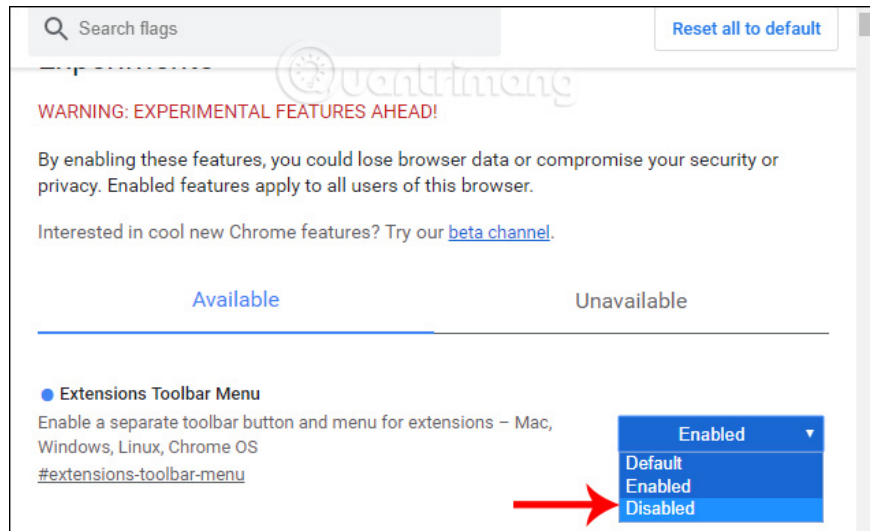

When you click the Extensions Toolbar Menu icon, display all the active widgets on Chrome and hide from the toolbar.

Each extension managed in Extensions Toolbar Menu has options like when you click directly on the widget, by clicking on **the 3 dot mark icon** . Below is the Utility management option to access the Chrome utility management interface.

Note , Extensions Toolbar Menu icon is displayed permanently on Chrome's toolbar and cannot be hidden. If you want to hide it, you must disable flags Extensions Toolbar Menu, by switching to Default or Disabled.

The utility management on Chrome is shortened even more when we enable the Extensions Toolbar Menu feature. The steps to manage utilities from the list of Extensions Toolbar Menu are the same as when you clicked directly on the utility.

I wish you all success!
