

# How to mark the map position in PUBG Mobile

How to mark the map position in PUBG Mobile will help you share items and coordinate with teammates better in the game

In PUBG Mobile's Solo mode, it is not important to mark the location of the map, because if you are alone, you want to do it, but when playing 2 people or according to Squad, if you have extra items, mark your teammates My friend comes and picks up, so your teammates will have more weapons or items and thus better support the other teammates, including you.

But this way of marking is only appropriate when your teammates are near, usually about 200m is poured. Many players have Duo or Squad mode, they don't have a mic, and they don't know how to mark their teammates for a fee. Through the article below you will know how to mark items in PUBG Mobile to support your teammates.

1. Download PUBG Mobile for iOS
2. Download PUBG Mobile for Android
3. Download PUBG Mobile for Windows

## Instructions for marking items in PUBG Mobile

**Step 1:** See ADS on any item you want to notify your teammates.

**Step 2:** Then click on the chat icon, select I have the item watching ADS.

**Step 3:** You will then see the message with the item sent to your group. Your teammates will see the marked location and will go to loot.

Quite simply, with this map location in PUBG Mobile you can support teammates physically, but even if the matter is spiritually high. So if you've looted enough items, tell your teammates to get it.

There are many features in PUBG Mobile that users do not fully exploit because the language of the game is in English, according to the latest information from Tencent, in November this gamer will be able to switch the language of PUBG Mobile into Vietnamese So, gamers can participate in events and use the game's full features. Instructions for switching Vietnamese language PUBG Mobile can be found in the article [How to install Vietnamese interface in PUBG Mobile](#).
