

How to move photos from Picasa to Google Drive

Google Drive allows you to store and synchronize images, videos and files between computers, tablets and mobile devices. You can access Google Drive on any computer or mobile device with an Internet connection.

Google Drive is a cloud storage and synchronization service. This is where you can back up photos, videos, important documents to access when needed.

Google Drive allows you to store and synchronize images, videos and files between computers, tablets and mobile devices. You can access Google Drive on any computer or mobile device with an Internet connection.

Picasa is a utility that displays and manages digital images on computers.

If you want to move photos from Picasa to Google Drive, follow the steps below:

1. Visit <https://picasaweb.google.com/> then log in to your account.
2. After logging in, you will see all your photo albums and videos.
3. Click on any image on the album you want to download.
4. At this point you will see a larger image.
5. Next click on **Actions** located above the image.
6. Then select the option **Download image** (Download photo).

7. On your browser will prompt you to save the .zip file , then select **Save** and choose the location to save the file you downloaded.Download zip files containing photos on Picasa.
8. All your downloaded images are saved on the computer.
9. Next visit <https://drive.google.com> then log in to your account.
10. Click **Create** in the left corner and then select the **Folder** option. Create folder names for your photo albums. This is the image storage folder that you will upload.
11. Click on the folder you just created. Then click the **Upload** button next to the Create button to upload the image.
12. Select the **File** option.
13. At this time, the **File Upload** window will appear (upload file). Your task is to browse and select the image you want to upload.
14. After your images have been uploaded successfully, you will receive an **Upload complete** message.
15. There is also another way to upload images to Google Drive, using the **Drag-and-drop option** . You just need to drag the image directly from the computer to a location on Google Drive.
