Step 1:

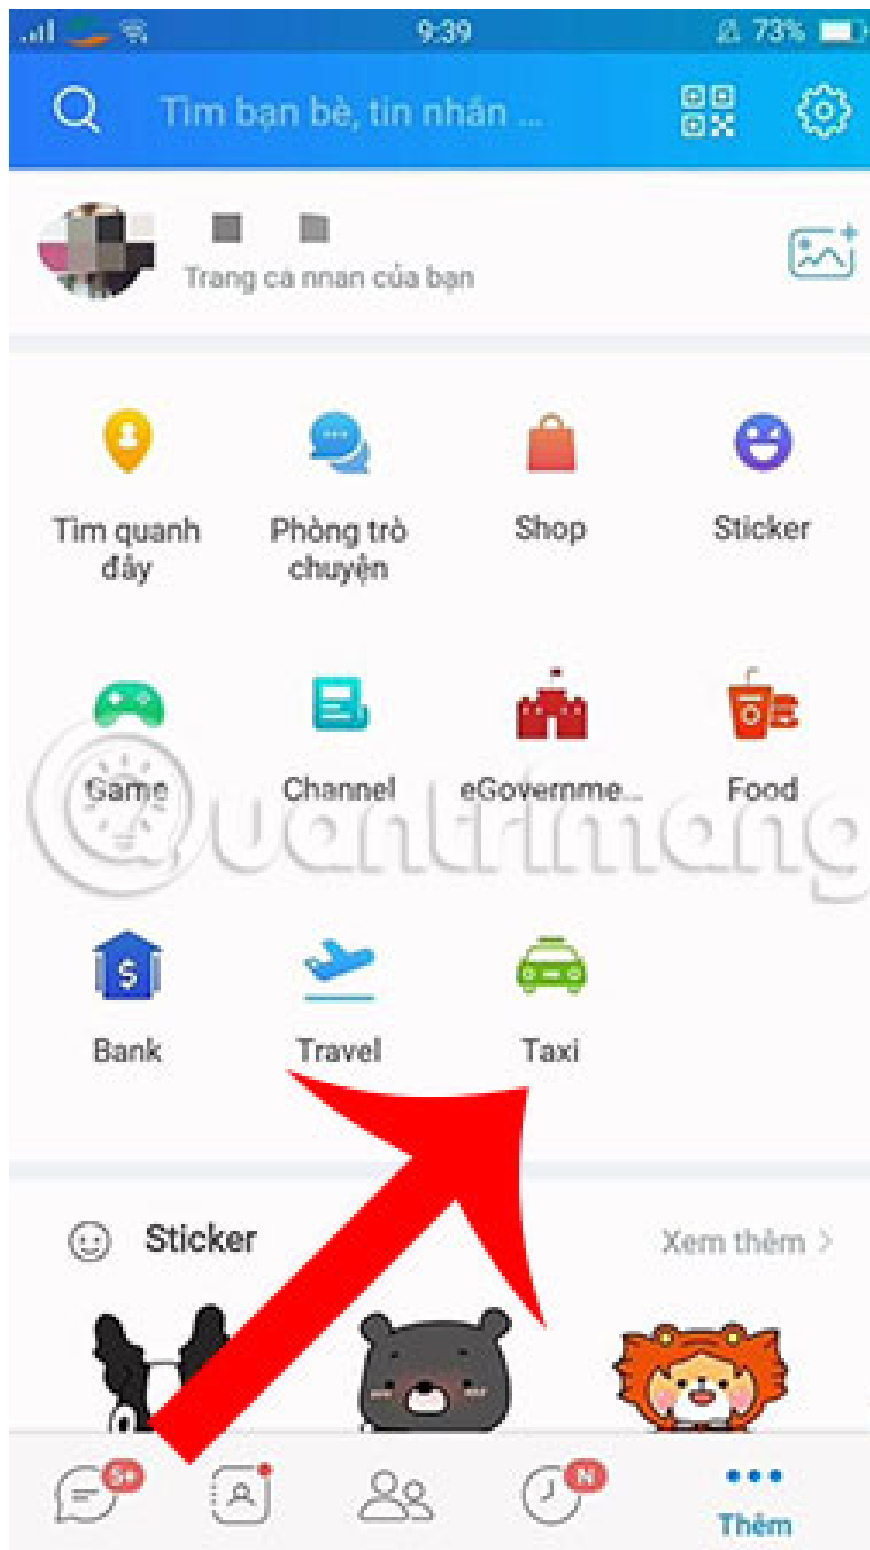

To call a taxi on Zalo you have to make sure the Zalo application you are using has been updated to the latest version. If you use the old version you will not be able to experience this feature. Please click on the link below to update the latest Zalo for Android and iPhone.

1. Download Zalo for Android
2. Download Zalo for iOS

Step 2 :

You start up the application to access the main interface of Zalo. Here, click the **Add** item (**3 dots icon**) in the bottom right corner of the screen. The list of Zalo's features will appear, search and select **Taxi** .

Step 3:

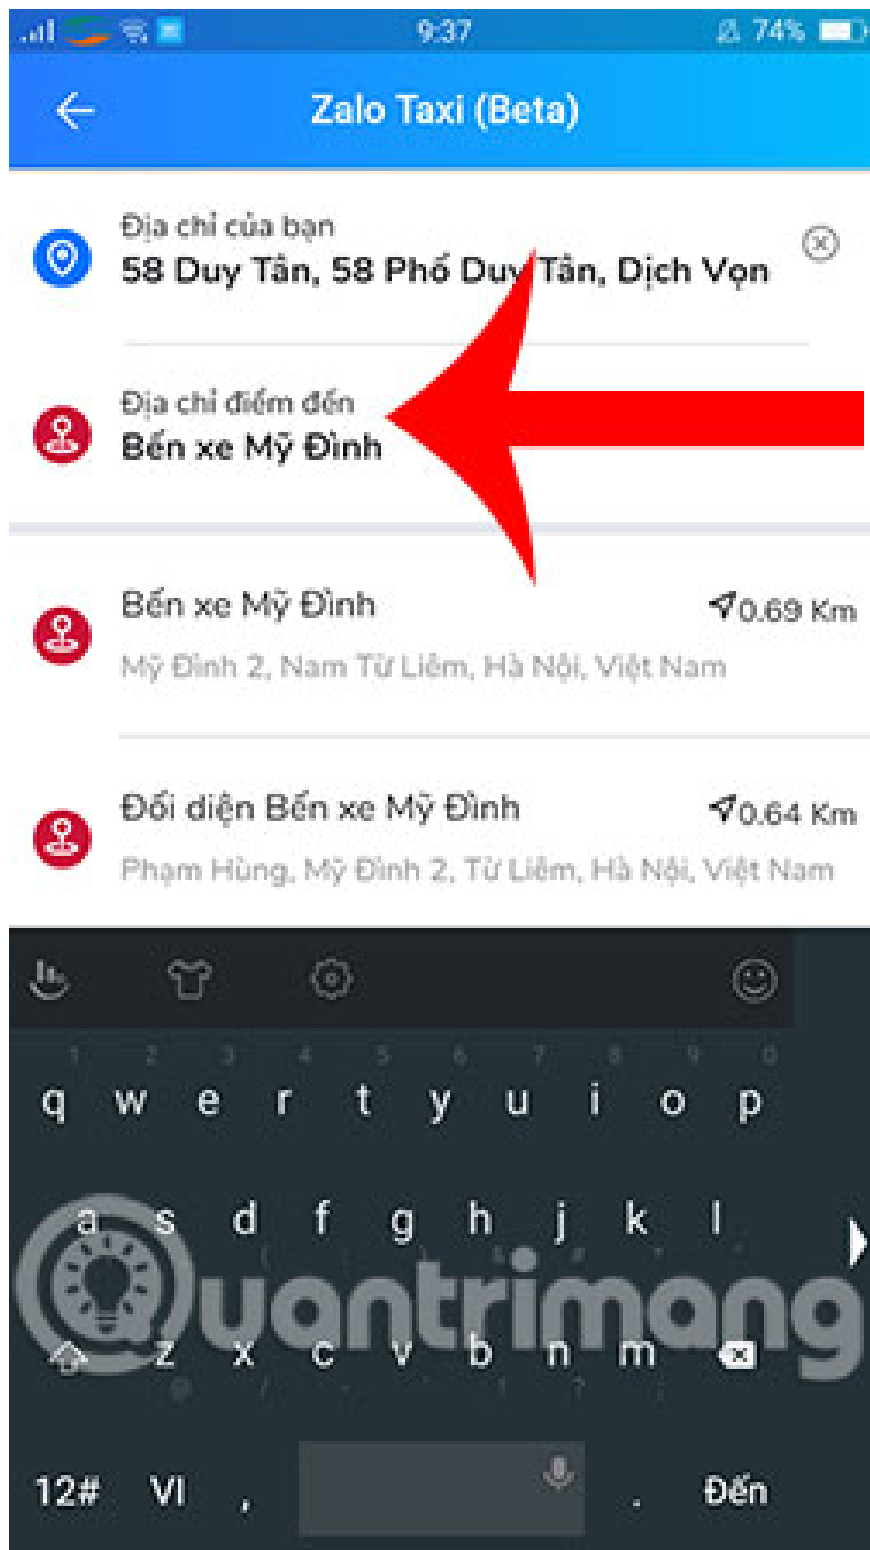

Shortly thereafter, Zalo will display the taxi booking function interface on this application. By default the application will automatically identify your current location, so you just need to enter the **Address to visit** . For example, in this example, we enter the destination as My Dinh Bus Station.
