Download your data

Request data

Download data

You can request a copy of your TikTok data at any time. It takes up to 30 days to process your request.

Information you can download

Your profile

Includes: your username, profile photo, profile description, contact info (such as your email address and phone number).

Your activity

Includes: your videos, comment history, chat history, purchase history, likes, favorites.

Your app settings

Includes: your privacy settings, notification settings, language settings.

Request data file

Click Request data file

Now, the **Download Data** tab will be automatically selected, with pending requests displayed on the screen. When the Tik Tok data is ready, the application will alert you. Then come back to this place to download the file.

Remember, Tik Tok will delete the downloaded file 4 days after it was created. So, remember to download it as soon as possible.

How to permanently delete Tik Tok account

1. On an iOS or Android device, launch TikTok and click on the profile tab in the lower right corner.
2. Now, click on the 3 dot at the top right corner.
3. Next, click **Manage my account** .
4. Next, click **Delete account**.
5. Based on how you've set up your account, you'll need to verify your account to continue.
6. Now, a confirmation page showing details about deleting your Tik Tok account will appear. Read all information carefully, then click **Delete Account**.

Confirmation

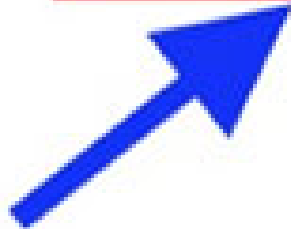

If you delete your account:

- You will no longer be able to log in to TikTok with that account.
- You will lose access to any videos you have posted.
- You will not be able to get a refund on any items you have purchased.
- Information that is not stored in your account, such as chat messages, may still be visible to others.

Your account will be deactivated for 30 days. During deactivation, your account won't be visible to public. After 30 days, your account will be then deleted permanently.
