

How to pin websites on Edge to the Taskbar

With a few tips in this article, you can pin Edge websites to the Taskbar for instant access without having to open the browser.

By default, Windows only has a few items pinned to the taskbar such as File Explorer, Photos, Edge... But with just a few tips in this article, you can pin the Edge website to the Taskbar for immediate access without having to open the browser. Below are instructions for pinning the Edge website to the Taskbar.

Pin Edge website shortcuts to Taskbar

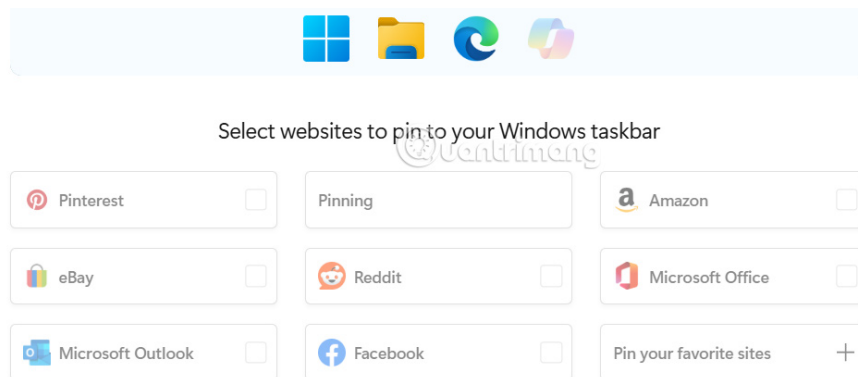

Step 1:

On Edge browser, access the website pin link below.

<https://www.microsoft.com/en-us/edge/pin-sites?form=MA13FJ>

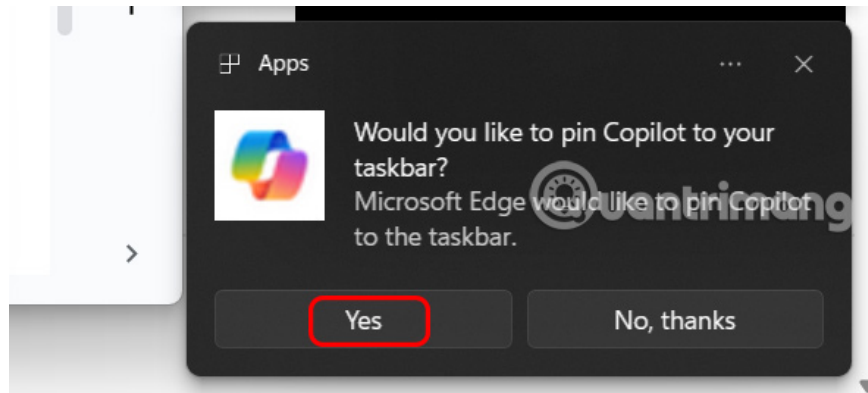

Step 2:

At this time, users will see that there are some websites that support pinning. You **select the application you want to pin to the Taskbar** on the browser.

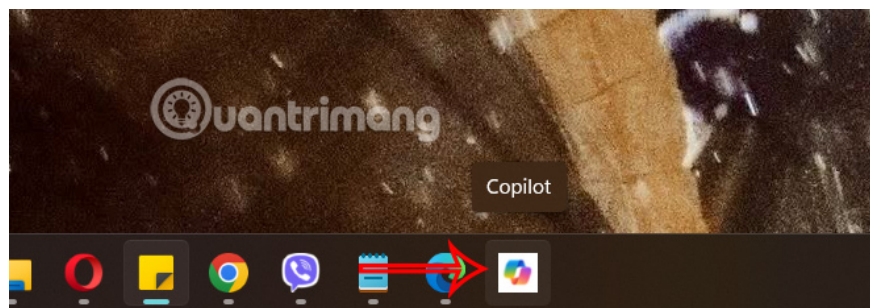

Step 3:

Now a message will appear asking if you want to pin the app, **click Yes** to do so.

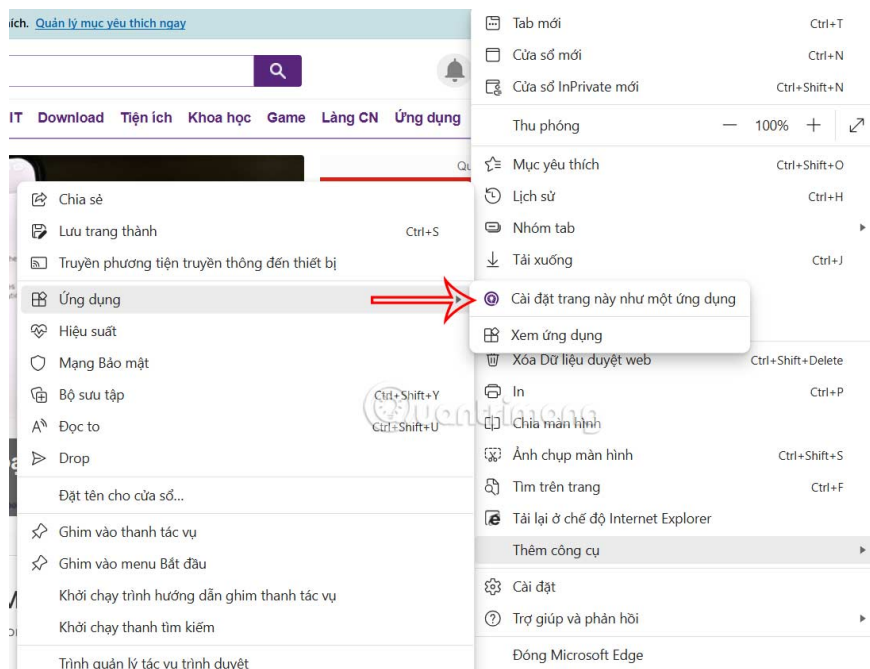

As a result, you will see the pinned application under the Taskbar as shown below for access.

Move website to Taskbar pinned application

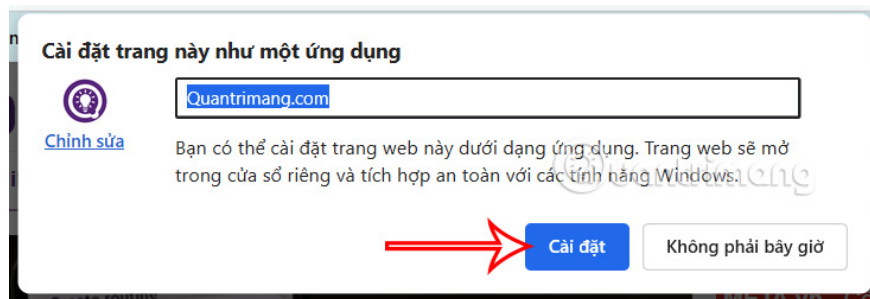

Step 1:

Open Edge browser and go to the website you want to pin to the Taskbar. Then click on **the 3 dots icon** and **select More tools** below and look at the side menu, **select Apps** and **select Install this site as an app** .

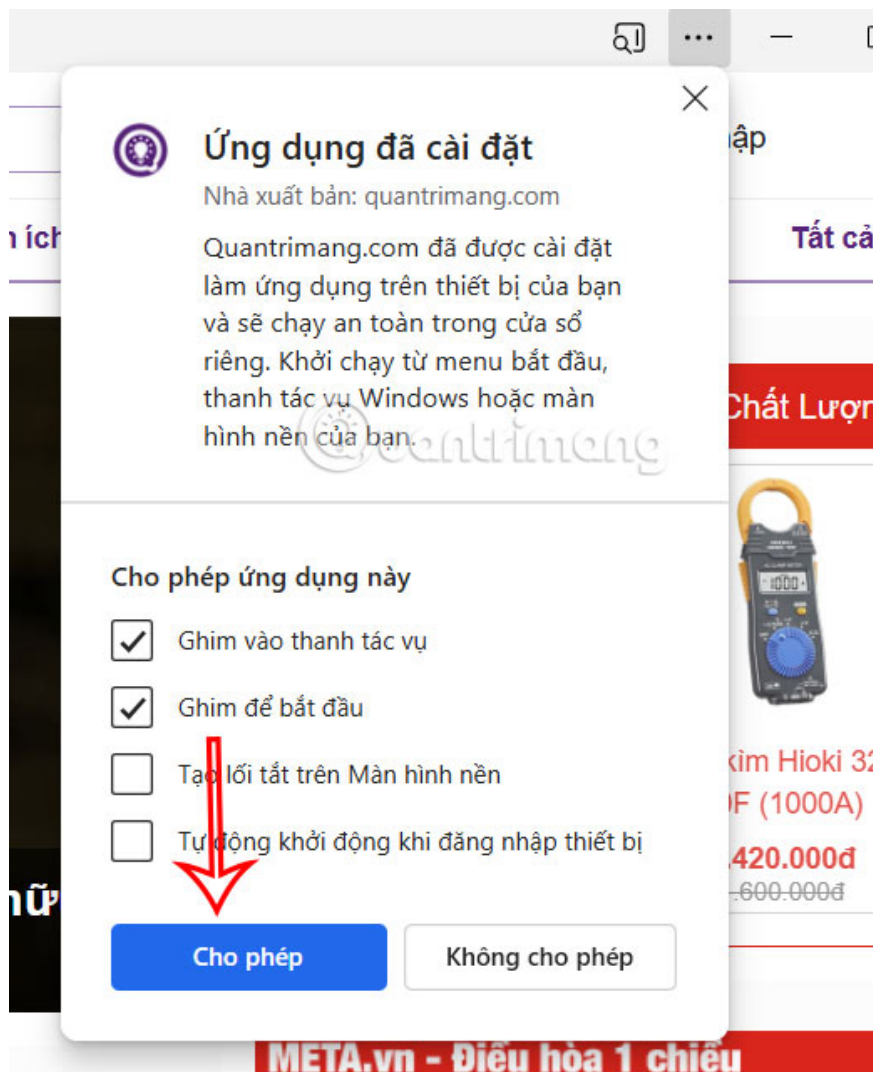

Step 2:

A pop-up notification appears as shown, **click Install** to install the pop-up. You can change the name if you want.

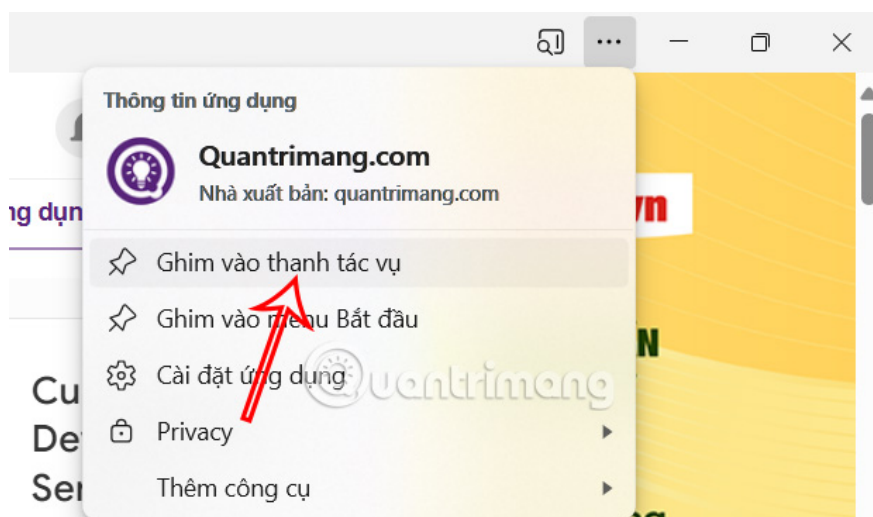

Step 2:

Immediately after that, the application interface displays with custom application permission modes, you **select Pin to taskbar** and then **press Allow**.

Step 3:

Then you open the application on the browser, then click on **the 3 dots icon** and select **Pin to taskbar** .

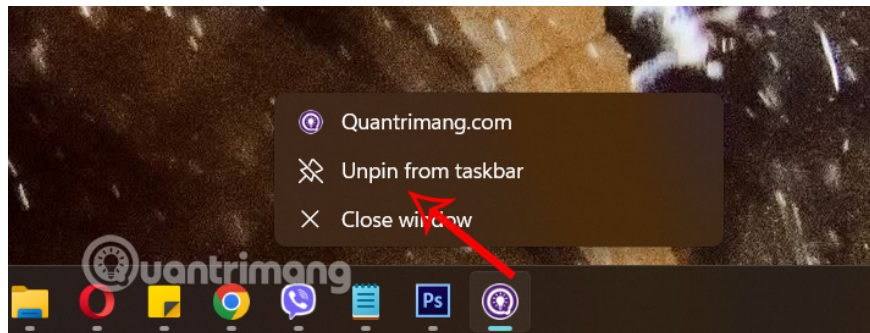

As a result, we see the application on Edge pinned under the Taskbar.

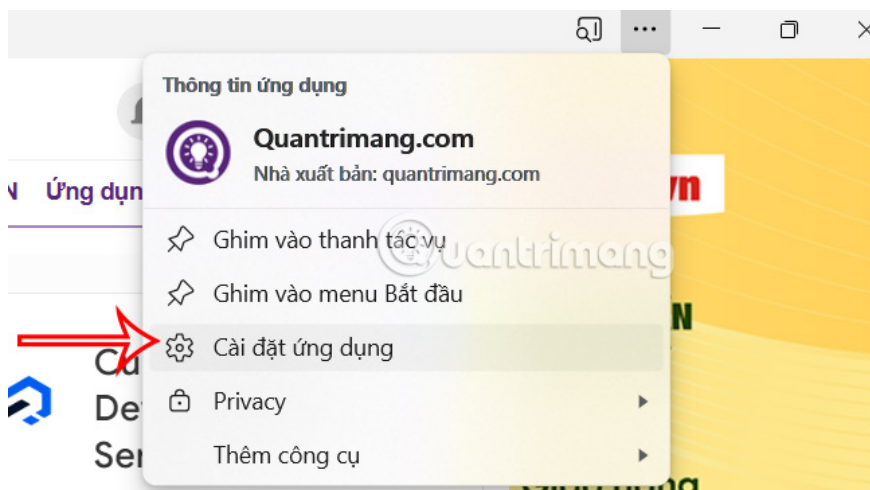

How to unpin Edge websites from Taskbar

Right-click on the website icon in the Taskbar and **select Unpin from this taskbar** .

For web apps, open the website and click on the 3 dots icon and select **App Settings** .

Then you **click Uninstall** to remove the website application on Edge browser.
