

How to pin Google Translate to Chrome toolbar

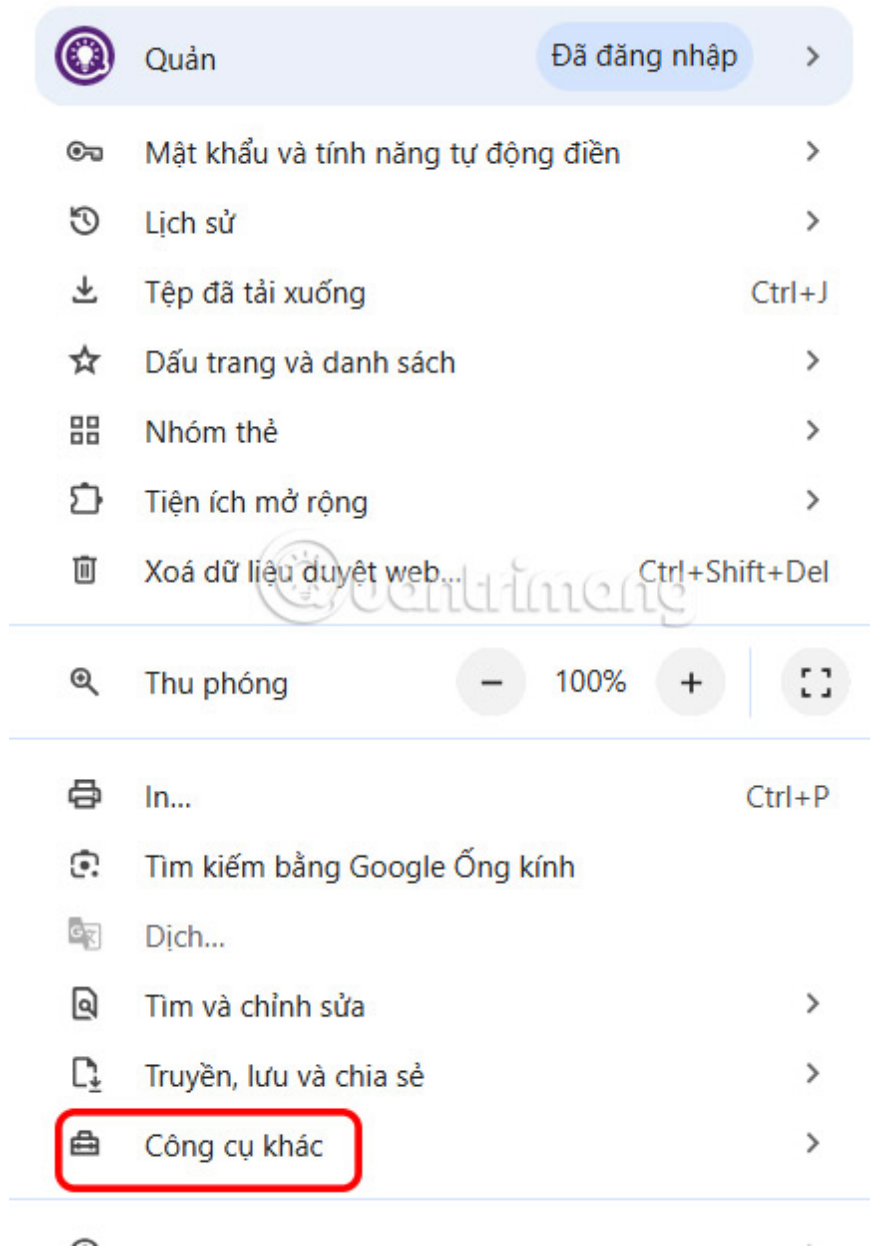

To quickly get translations without doing much extra work, you can pin Google Translate to the toolbar.

To quickly get translations without doing much else, you can pin Google Translate to the toolbar. When you need to translate a document, just click on the Google Translate icon to get the translation. Here are instructions for pinning Google Translate to the Chrome toolbar.

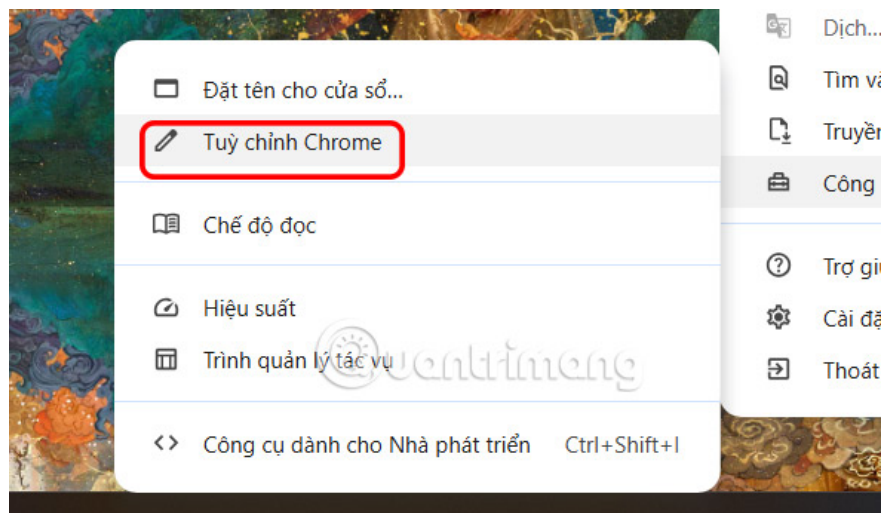

How to pin Google Translate to Chrome toolbar

Step 1:

In Chrome browser, click on **the 3 dots icon** and select **More tools** below.

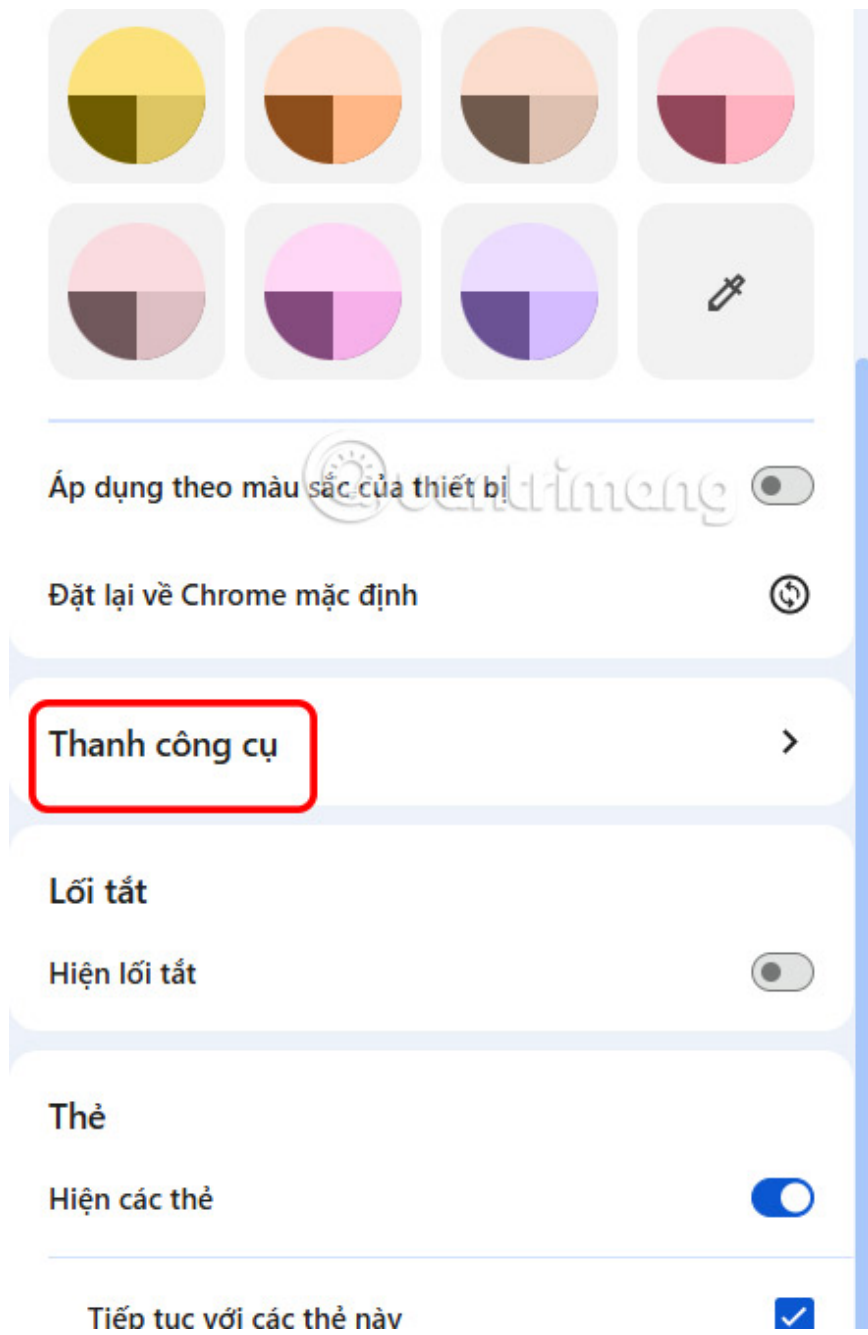

Next, click on **Customize Chrome** to change the browser interface.

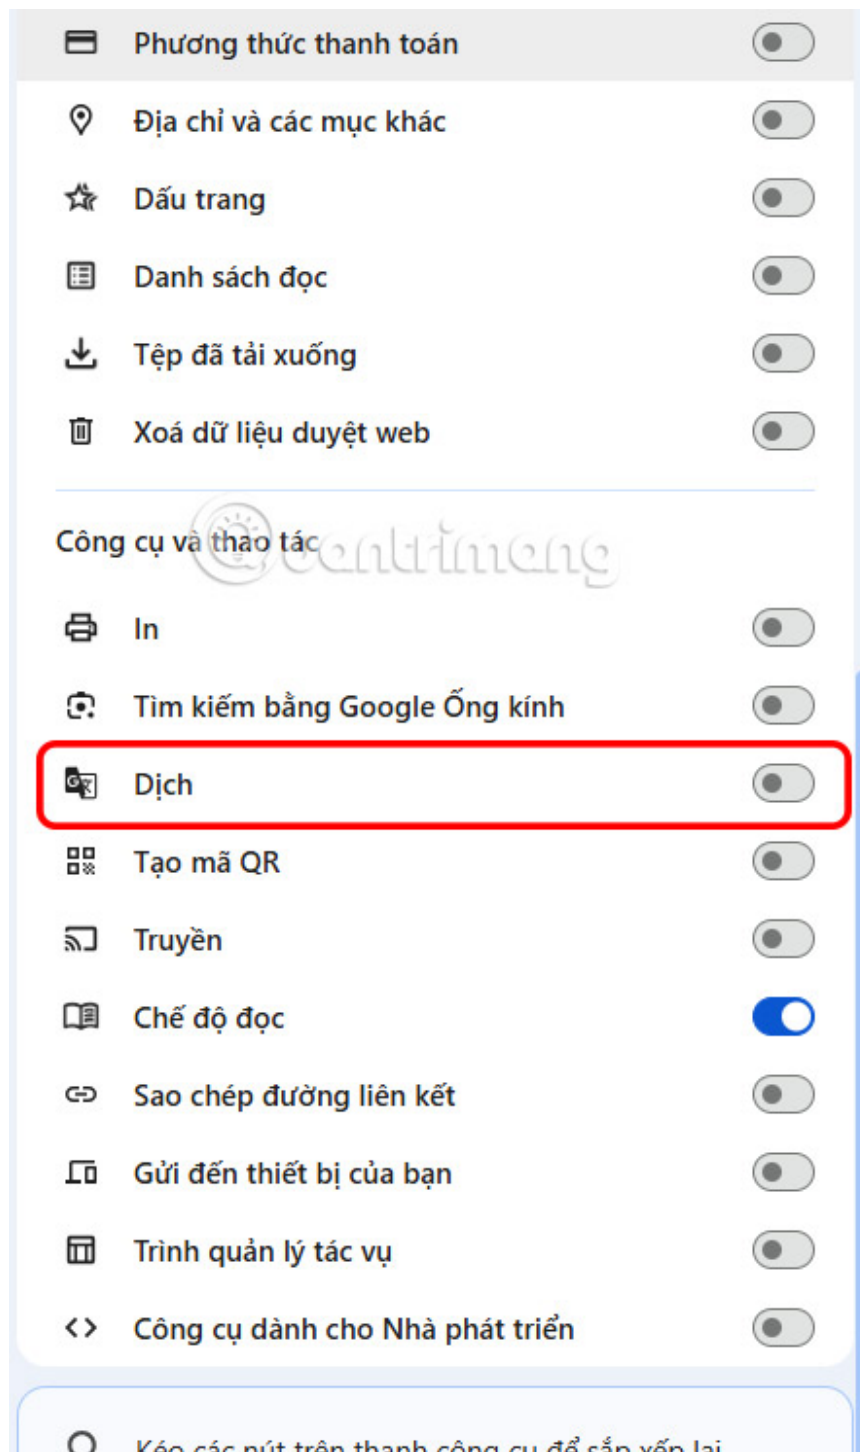

Step 2:

On the right side of the screen displays the custom interface for the Chrome browser, you scroll down and **click on Toolbar** to adjust the toolbar on the Chrome browser.

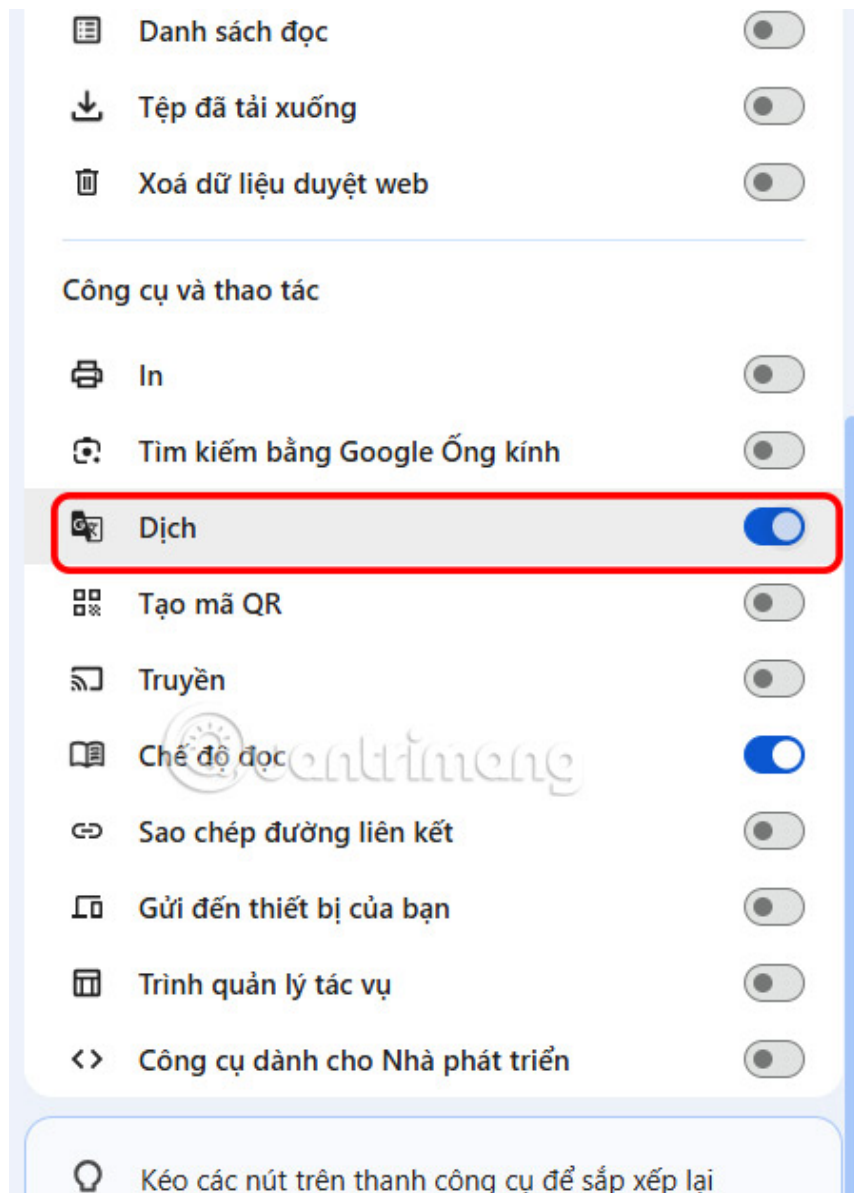

Step 3:

Now we will see the tools for the toolbar on the Chrome browser, you find **the Tools and actions section** , you **activate the Translate tool** .

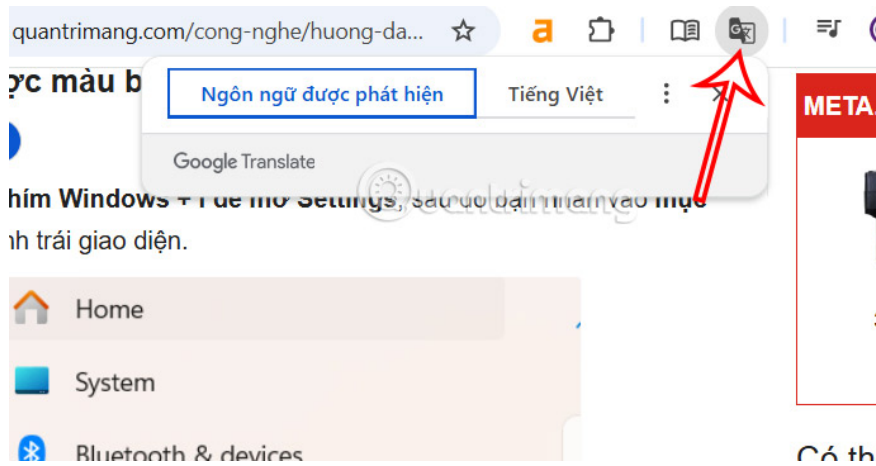

The translation tool will then appear on the Chrome browser toolbar.

Step 4:

You open the website as usual on the browser and then **click on the Google Translate icon** on the Chrome toolbar and then select the language you want to translate. The result is that you get the website with the language you choose to translate.
