

How to pin, pin a window of any Google Chrome?

The Google Chrome application window is always in Always On Top mode, why not? And how to do so?

Hi guys, a lot of readers have inbox for me and ask if there is any way to pin, pin a Google Chrome window any time in Always On Top mode - that is always floating on apps, doors Can other books be? After 1 time of searching, I found that Coc Coc is supporting this pin mode, but it is applicable to YouTube videos, what about other applications?

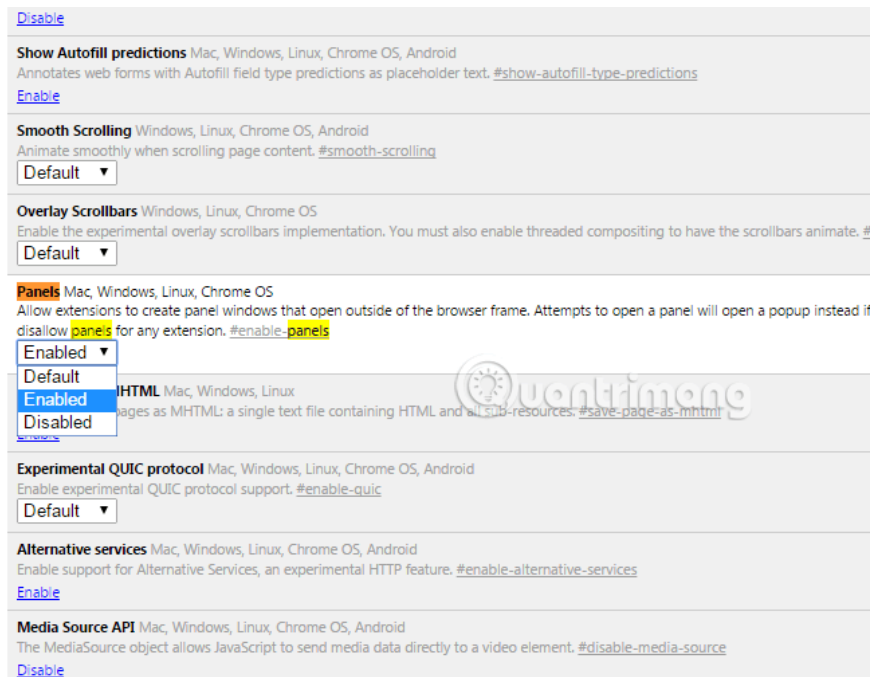

1. How to pin YouTube videos.

The answer given here is that you refer to and use Always on Top plugin for Google Chrome at the following address:

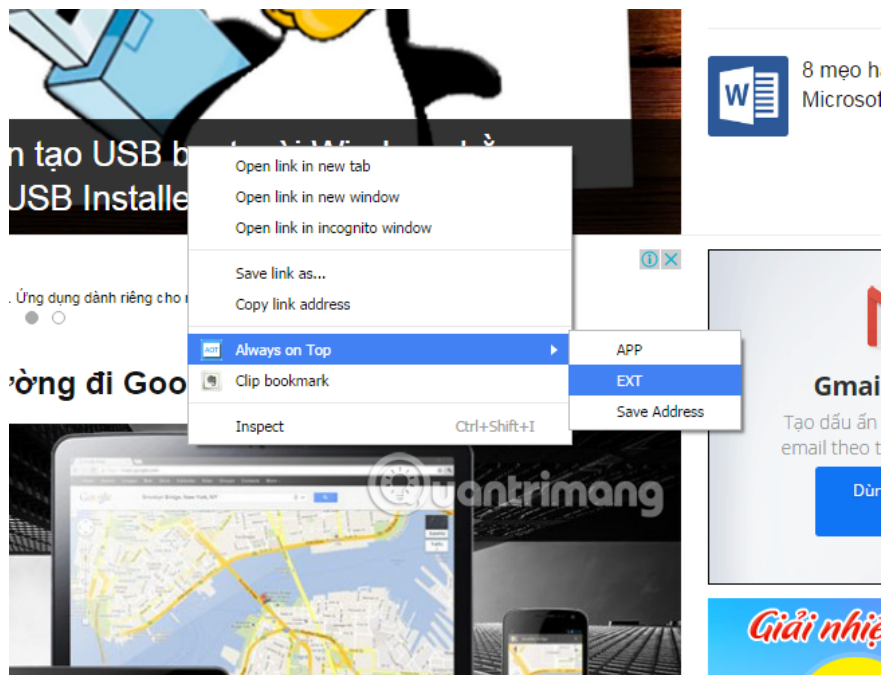

1. Download and install Always on Top for Chrome from Google Store.

After successfully installing **Always On Top for Chrome** , go to **about: flag** and turn on **Panels** on (switch from **Disable** to **Enable**):

1. Type **chrome: // flags /** into the Google Chrome address bar.
2. Find (press Ctrl + F) to the Panels section and switch from **Disable** or **Default** to **Enable** .

Save changes, restart Chrome. Basically, we have completed the setup. From now on, if you want to open any website, address, domain in the Google Chrome window in Always On Top mode, just right-click on the link and select > **Always on Top> EXT** as shown below:

Always On Top will display that link in a collapsed window, and of course always on other applications:

Very simple and easy, this Always On Top mode seems suitable for many people who want to use online translation support tools. **Good luck!**
