Wait a moment for Tencent Gaming Buddy to complete the installation and press **Start** to launch the emulator

Once you install Tencent Gaming Buddy, the emulator will automatically install Free Fire on it. All you need to do is wait for Tencent Gaming Buddy to finish installing Garena Free Fire.

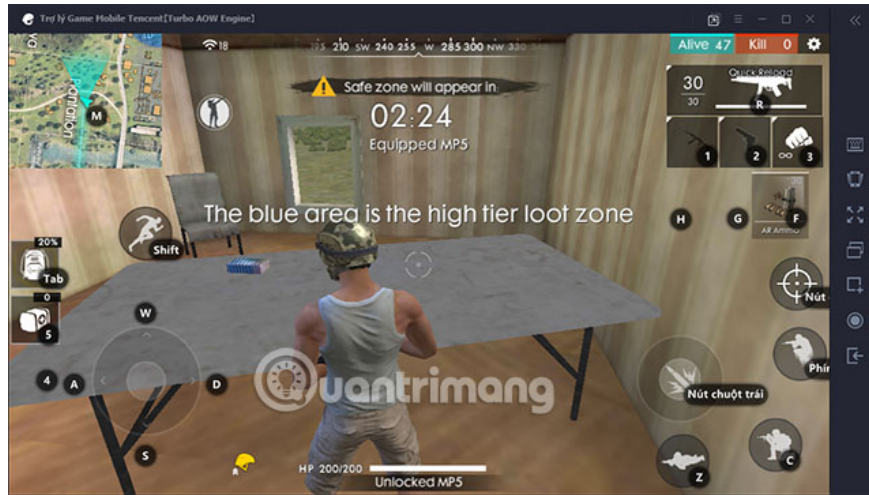

When the game finishes installing, Free Fire will automatically run. In the main interface, select the method to log in with your Facebook account, Free Fire account or guest mode (avatar icon).

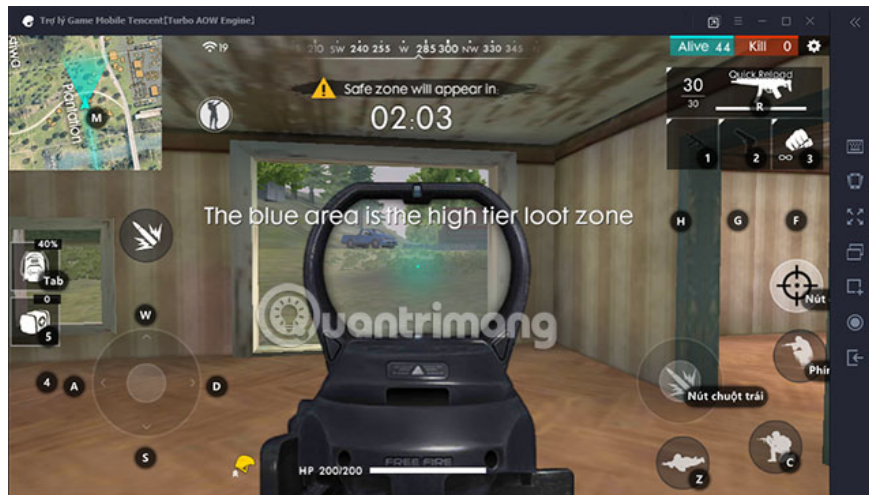

After logging in, click Start to select gender, create a character name and then play. In the main lobby of Free Fire, select the map (Classic), **Squad**, **Solo** or **Duo** mode in the next icon. After selecting, click **Start** to play.

When entering the game you can see every character control icon on the screen has a shortcut on it. The way to control Free Fire on TGB will be exactly the same as PUBG Mobile, so those who have played PUBG Mobile on this simulator will have no trouble controlling it.

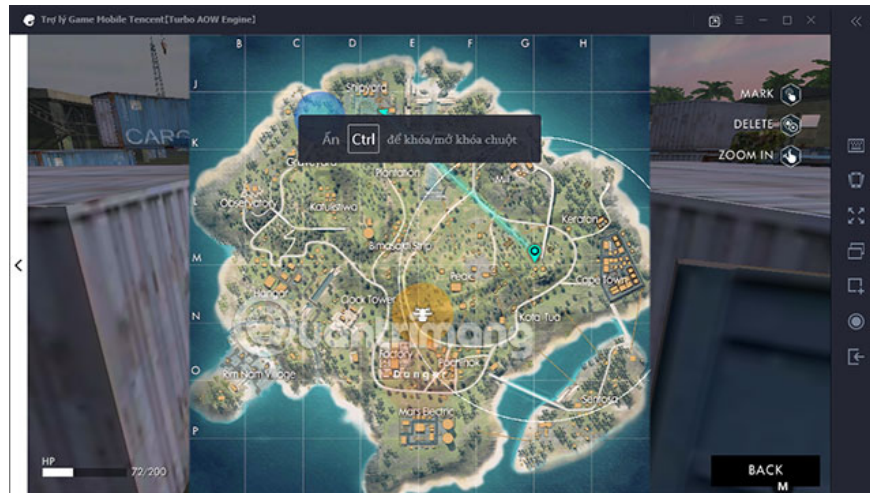

Although there is a light graphics level, you should not turn on too many programs when playing Garena Free Fire on TGB.

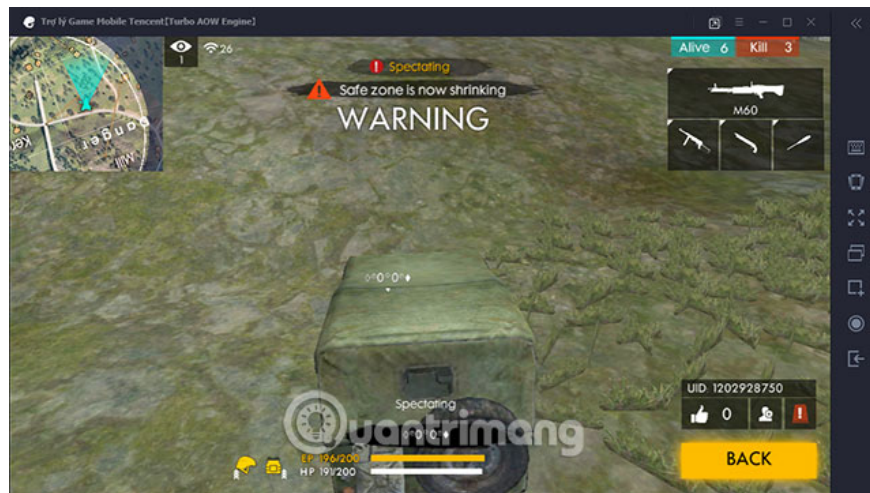

As well as controlling the vehicle, you will be guided by shortcuts when you are on the vehicle.

You can press Ctrl to hide or show the mouse on the screen.

In some cases, if you are shot dead and must leave the game, use the mouse to press the Back button to exit.

Previously in the Tencent Gaming Buddy game list, Garena Free Fire was not available, players can still download the external APK file to install it on Tencent Gaming Buddy. However, the control is still not well supported by the current.
