

# How to play Google's Emoji Scavenger Hunt on your phone

There are many applications developed based on AI for important purposes, and there are many applications just for fun for users - like Google's new Emojis Scavenger Hunt game.

While many scientists voiced concern about artificial intelligence (Artificial Intelligence - AI), we cannot deny its power. AI can save you time, ensure smarter mobile experience, even turn you into a good artist. There are many applications developed based on AI for important purposes, and there are many applications just for fun for users - like Google's new Emojis Scavenger Hunt game.

1. Free online learning about AI and Machine learning on Google website

## What is Google's Emoji Scavenger Hunt?

Google Scavenger Hunt is an interesting game on mobile phones. Basically, you download the website and start the hunt, looking for images that are similar to the icons Google gives you. The artificial neural network will determine the image your camera is shooting.

*What do you need to get started?*

1. Visit the website [emojiscavengerhunt.withgoogle.com](https://emojiscavengerhunt.withgoogle.com) with your phone.
2. Click the **Let's Play** button.
3. Initially you will have 20 seconds. The time will then be added depending on how fast you find the same item in the scavenger hunt. The faster you find an item, the more time you have.
4. You will have to click on **Next Emoji** to move to the next item.

You should keep the sound when playing to hear the prompt. However, you can also turn them off, because when the camera turns to the specified image, the prompt will still be issued.

Google said the game works best on the latest versions of browsers, Android and iOS operating systems. According to Google, you can be assured of privacy, no images are collected or stored. You can also view their open source on GitHub: <https://github.com/google/emoji-scavenger-hunt/>

If you are looking for interesting Google games and experiences, there are many things to choose from. Google has announced compelling AI tests and exciting games on Google Search.
