

How to play Lien Quan on computer smoother than phone

Lien Quan Mobile is a game on mobile devices. However, you can still play it on your computer with more flexible operations and a larger screen.

You are a Lien Quan gamer but your phone is having problems, or playing Lien Quan on your smartphone with a tiny screen does not satisfy you. So why don't you try bringing this game to your PC and experience it? With emulator software, not only Lien Quan, but any mobile game you can play on your computer. Today, let's explore with Hanoicomputer how to play Lien Quan on PC with Nox Player emulator!

Configure to play Lien Quan on PC with NoxPlayer.

Nox Player is the most popular Android phone emulator on the Internet today. Nox Player will help you play games on your phone with simulated operations that can be performed on the keyboard and mouse. To be able to **play Lien Quan on PC** with NoxPlayer, your computer needs to ensure the following minimum configuration:

Operating system: Windows 7 or higher

CPU processor: minimum Dual Core

RAM: greater than 2 GB

Video card: supports OpenGL 2.0 standard

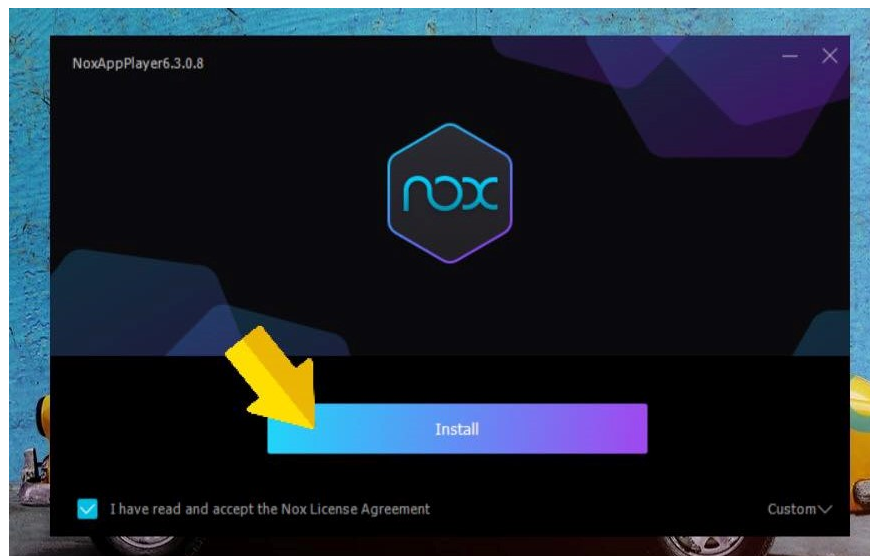

Free memory: Greater than 2GB

Instructions for playing Lien Quan on PC with NoxPlayer

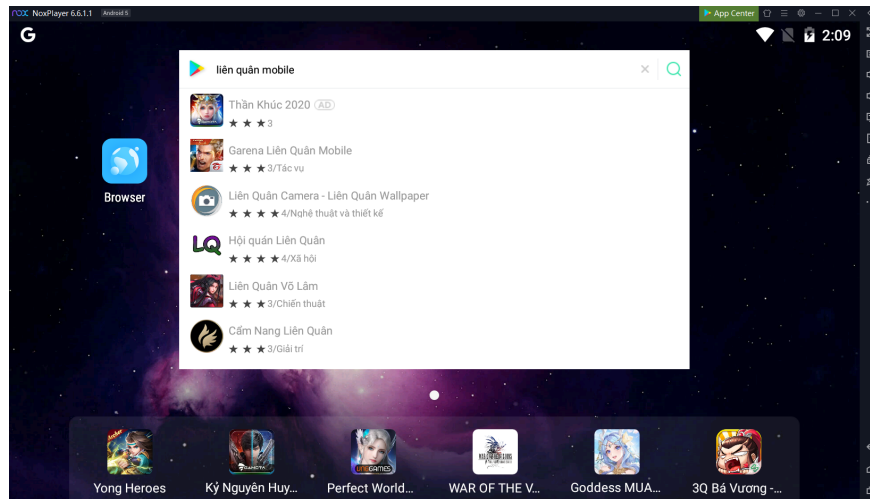

First, you need to download the latest version of NoxPlayer [here](#)

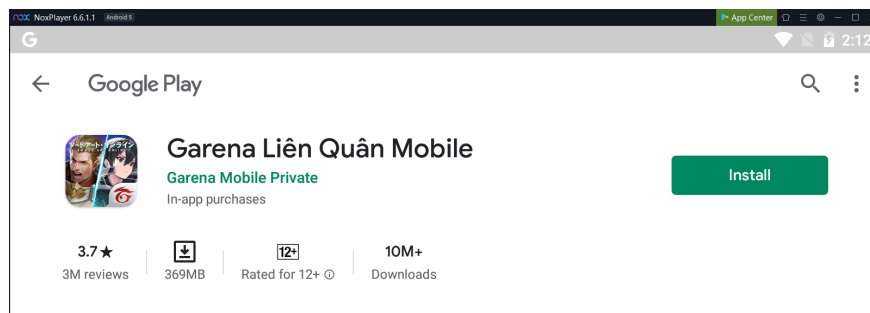

Then, press Install to install the emulator.

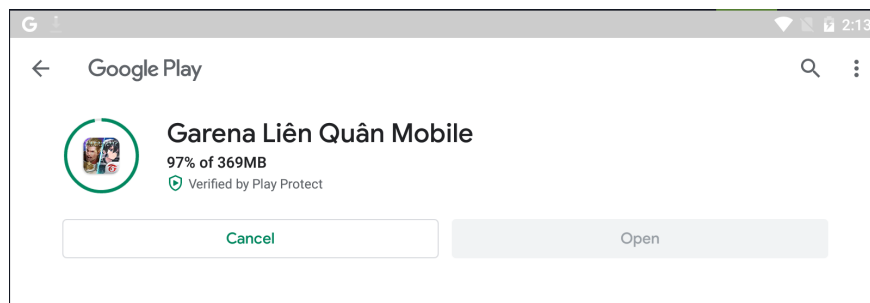

After installation is complete, you need to log in to your Google account to use Google Play integrated on NoxPlayer. In the search bar on the screen, we type "Lien Quan Mobile" to find the game.

Select the suggestion below to access and download the game to the emulator. Click Install to install the game.

Wait a minute for the game to download

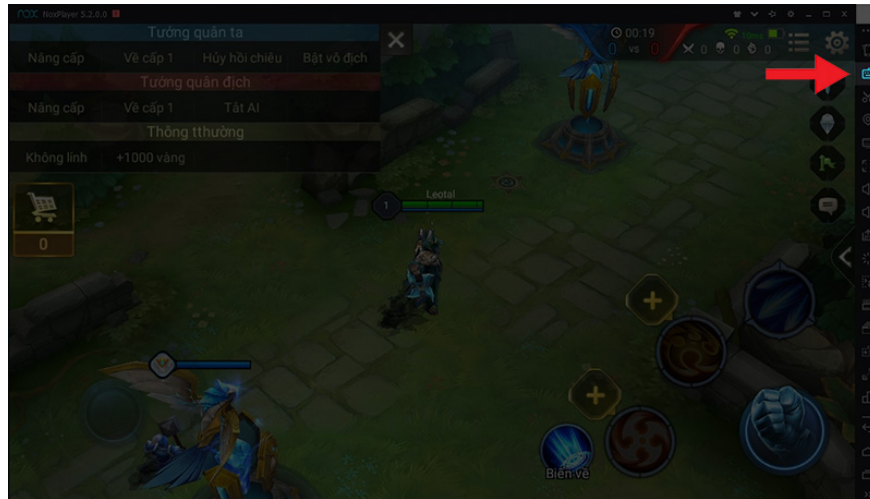

After the game is installed, click Open to open the game. Now we can play Lien Quan on the computer.

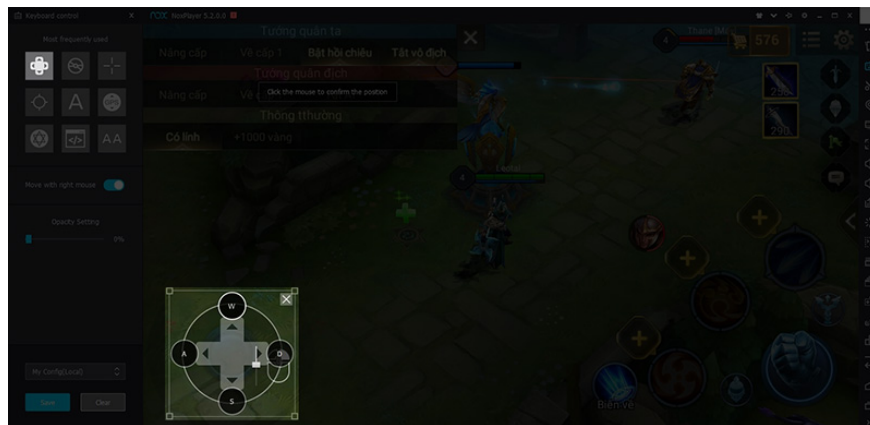

Instructions for setting up shortcut keys

Because **playing Lien Quan on the computer**, we cannot perform operations like on the touch screen on the phone. Therefore, you need to install keys to perform movement operations as well as skill casting. If you have played League of Legends on PC, then operating on the keyboard is not difficult, on the contrary, it is sometimes easier.

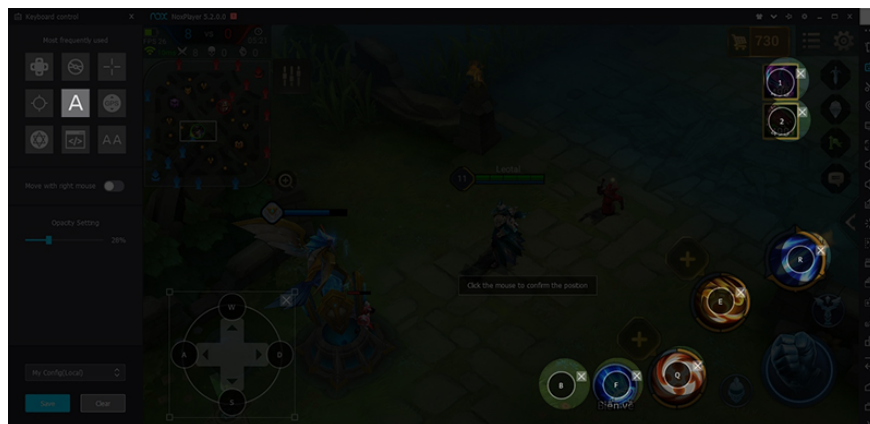

After entering the game, or you can install it while in the practice room, select the keyboard icon on the right edge of the application.

Move the navigation settings to the left to coincide with the in-game navigation area. By default, the movement buttons will include 4 buttons: W, AS, D corresponding to up and down, left and right.

To set up shortcuts for the shop to buy items and use skills, click on the letter A icon, then click on the corresponding action positions to set up according to your preferences.

Evaluate

If you have a powerful enough computer configuration, playing Lien Quan on your computer can be much smoother than on your phone. With a larger screen, your gaming experience will definitely be much more enjoyable. However, at first, you may have to spend some time getting used to operating on the keyboard instead of on the touch screen on your phone.
