

How to play Live Stream on Instagram app

The Live Stream feature is now integrated on Instagram, enabling users to play live videos with friends on the list. Besides, people can participate in comments right on this video.

The Live Stream is no longer a strange feature for people when Facebook leads this trend. Soon, this feature has also been integrated on quite a lot of applications such as Zalo, when allowing video playback in the chat group Zalo.

Recently, the Live Stream feature has also landed with the Instagram app. Users can freely stream videos directly to friends, Live Stream videos and comment on the live broadcast. Also after playing Live Stream, these videos will not appear on the personal page and be delete it, so you won't be able to watch those videos again. In this article, Network Administrator will guide you how to read Video Live Stream on Instagram.

Note , to be able to use this feature you need to upgrade the latest version on Instagram.

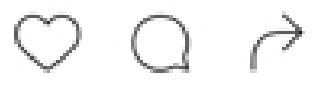

1. Download Instagram for free on iOS
2. Download the free Instagram for Android

Step 1:

We access personal Instagram accounts on the device. In the Instagram interface, we **swipe the screen from left to right horizontally** as shown below.

Several steps set up for live stream Instagram

Step 2:

Soon, we will come to **the video capture and photo interface on Instagram** . Here, you will click on **Enable Camera Access** . Next, there's a small window that allows Instagram to use Camera, click **OK** . We do the same

with the **Microphone** , also click **OK** as shown below.

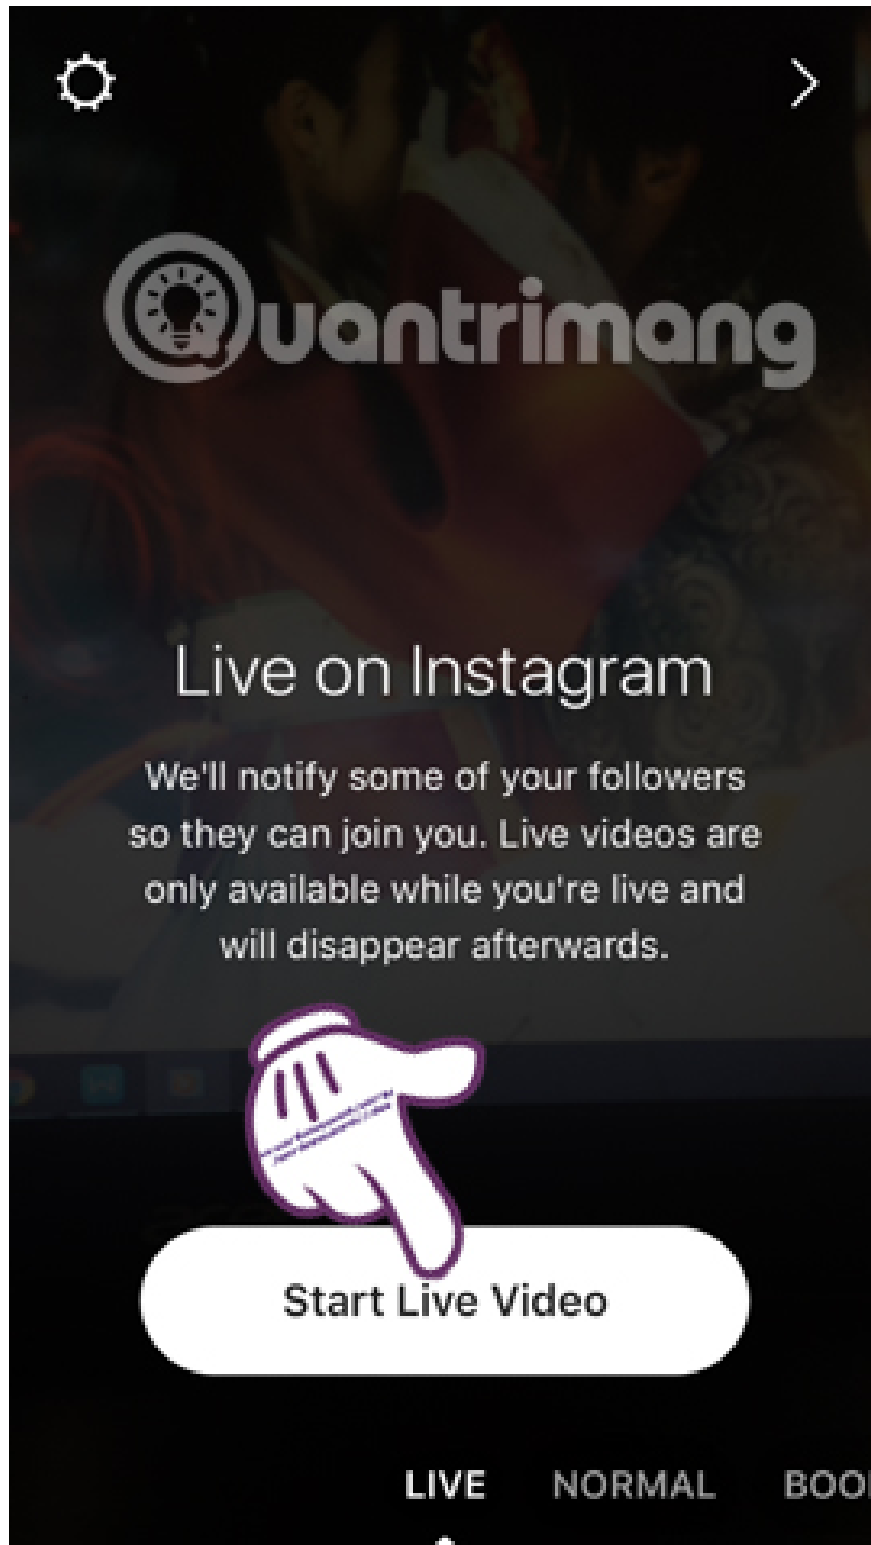

Select OK to play live video Instagram

Step 3:

Next you will be in the photo capture, video recording interface, we click on the **Live** item. You will be immediately transferred to the Live on Instagram interface, then click the **Start Live Video** button.

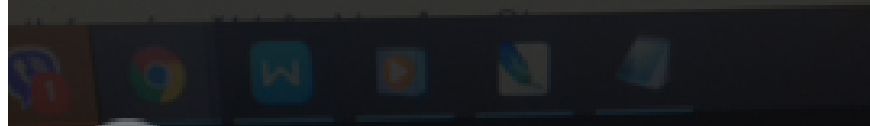

Step 4:

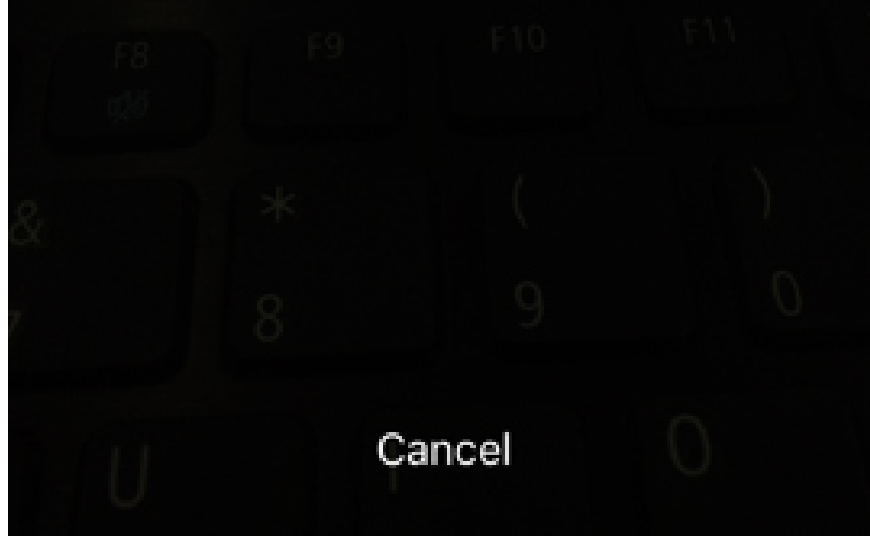

We waited a few seconds for Instagram to check the Internet connection and when we announced **You're now live it** was possible to stream the video.

Comment

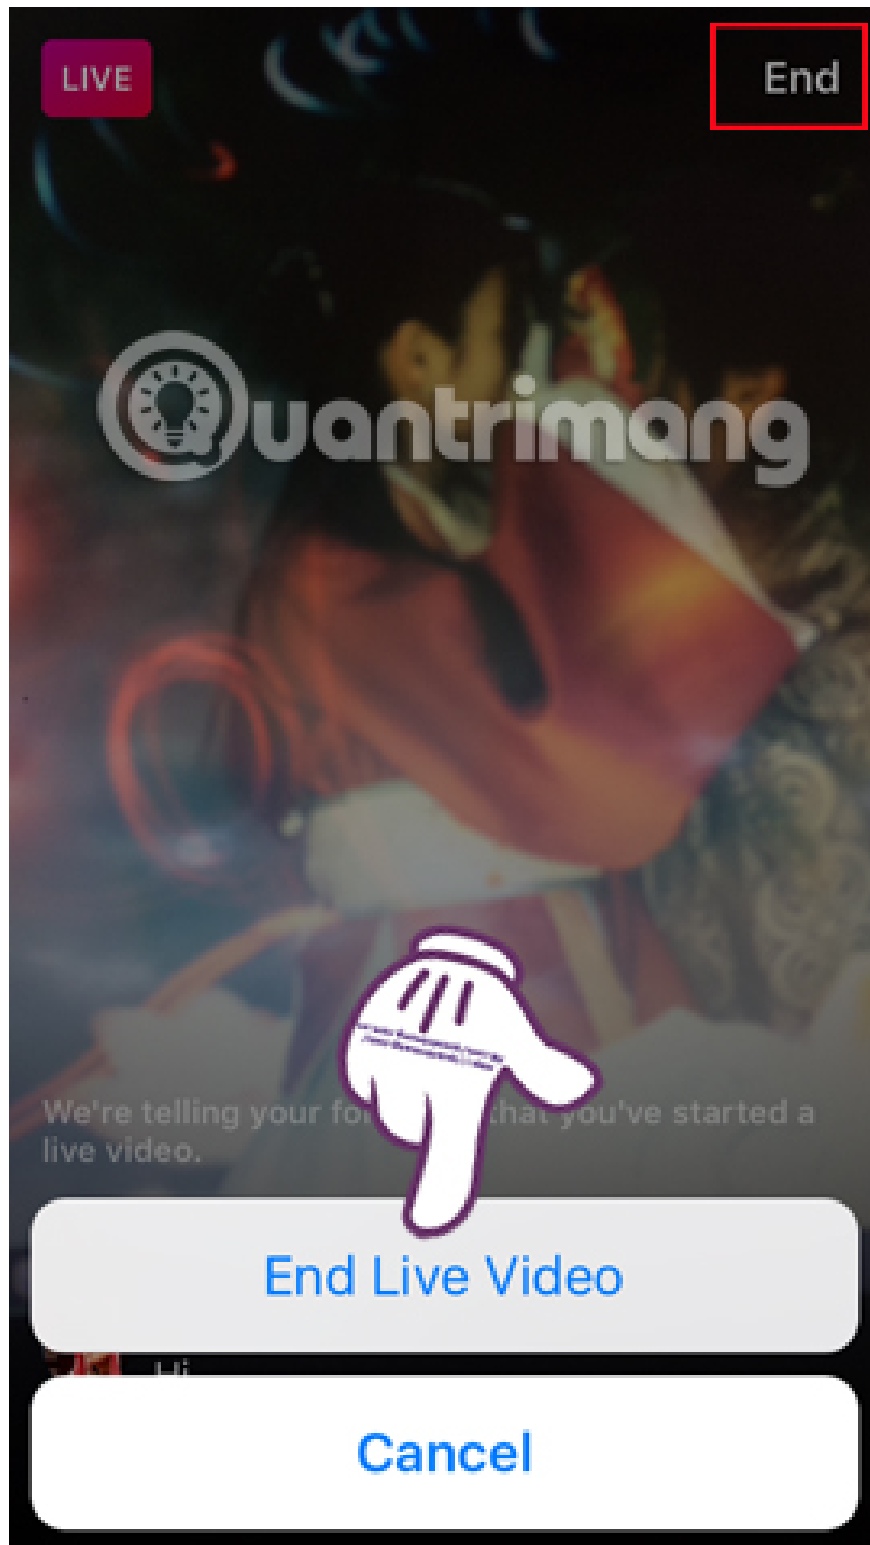

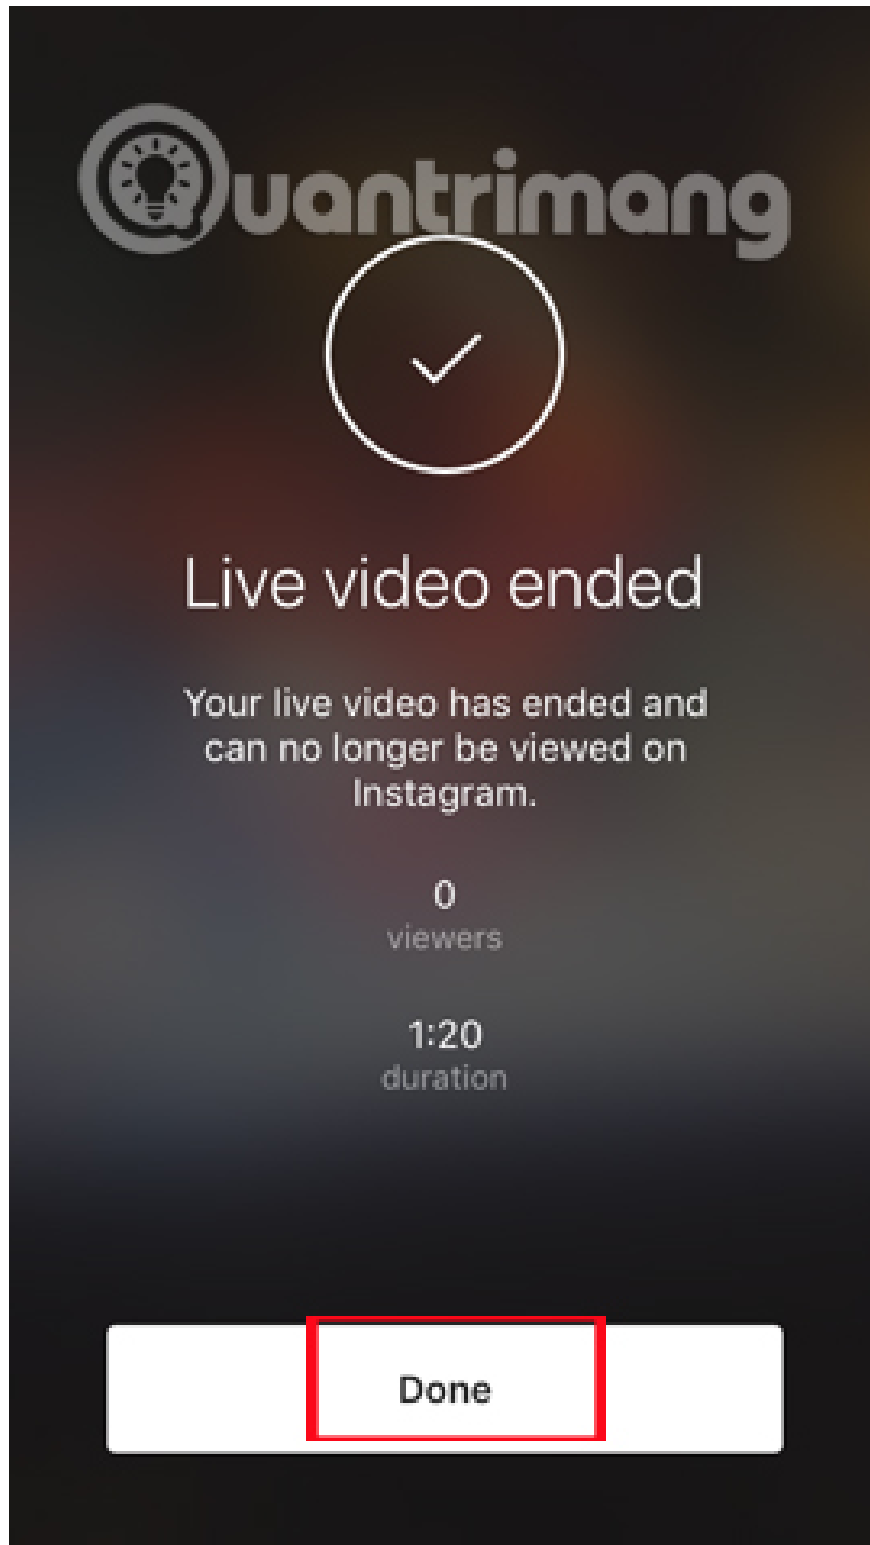

Step 6:

To end the live video playback, we click the **End** button on the right of the same interface. Click on **End Live Video** . After that, Instagram will announce the time of live video playback, as well as the participants in that video. Click the **Done** button to return to the Instagram interface.

Note , the live video after the end click will not be saved on personal Instagram account and we will not be able to review these videos.

Currently Instagram features are in the process of implementation and in the future will be more complete, with more new attractive features. If your device does not yet have this feature, please update to the latest Instagram version or wait in the near future.
