

How to play music when the laptop screen is folded

In the Windows default mode, the music you are playing will automatically turn off when the laptop screen is folded. However, just a few simple steps, users can still listen to music when the device is folded.

Listening to music is an indispensable need for everyone. When using a Windows laptop, if left in the default mode, the music player will automatically turn off when you fold the screen. However, just follow the steps below, users can still listen to music even though the screen is folded.

Step 1: Open the Control Panel.

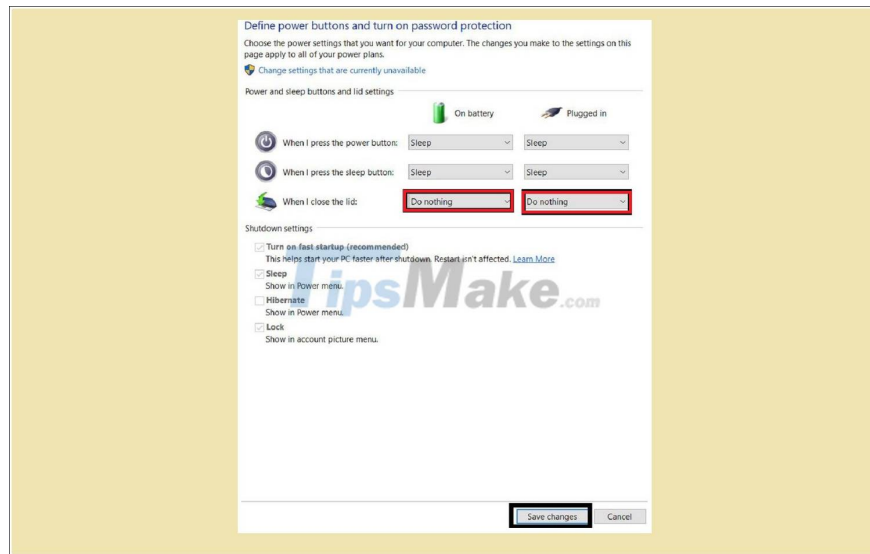

Step 2: Click on Power Options.

Step 3: Select Choose what closing the lid does.

Step 4: In the row When I close the lid, select Do nothing for both On battery and Plugged in columns. Then, select Save changes.

Thus, we have completed all the steps and can enjoy the music we love even when the laptop screen is folded.

Hope this tip is helpful to you. Good luck.
