

# How to play Pokemon GO in Landscape Mode on the iPhone

Although players can play Pokemon Go in portrait mode. However, if you want to watch and play games on a large and eye-catching screen, players can switch to playing games in Landscape Mode.

Although players can play Pokemon Go in portrait mode. However, if you want to watch and play games on a large and eye-catching screen, players can switch to playing games in Landscape Mode.

## Play Pokemon GO in Landscape Mode:

### Step 1:

Download Pokemon GO to your iPhone and install (if your iPhone doesn't have Pokemon GO yet), then proceed to opening the game.

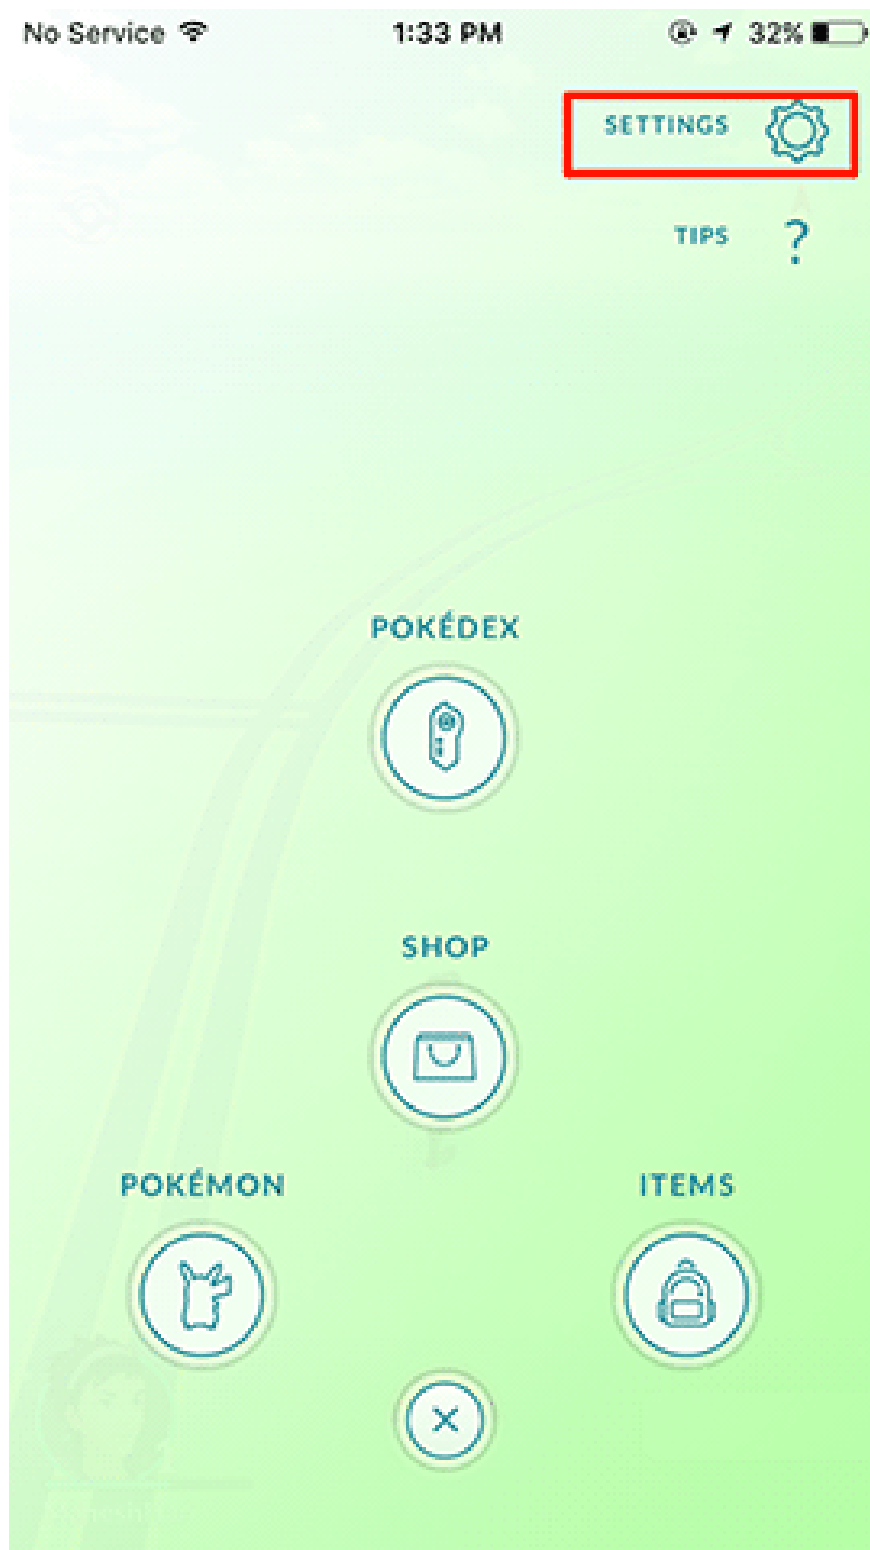

Download Pokemon GO to your iPhone and install it here.

### Step 2:

Activate LandScape mode (landscape mode) on your iPhone device.

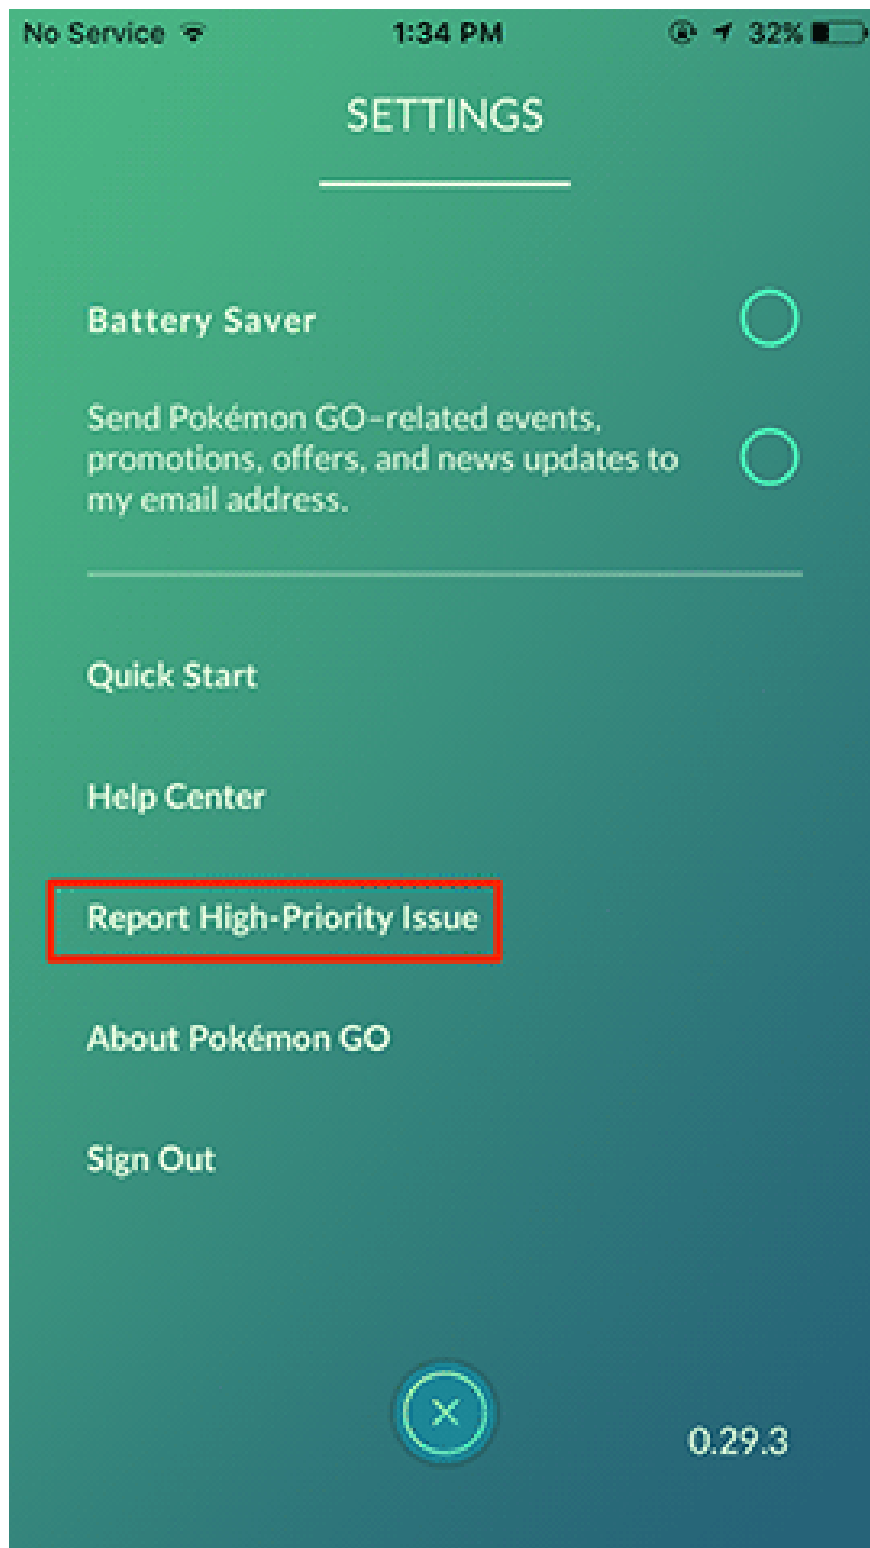

### Step 3:

Click the PokeBall icon to access the Menu, at the Menu, click the **Settings** icon to open the game installation window.

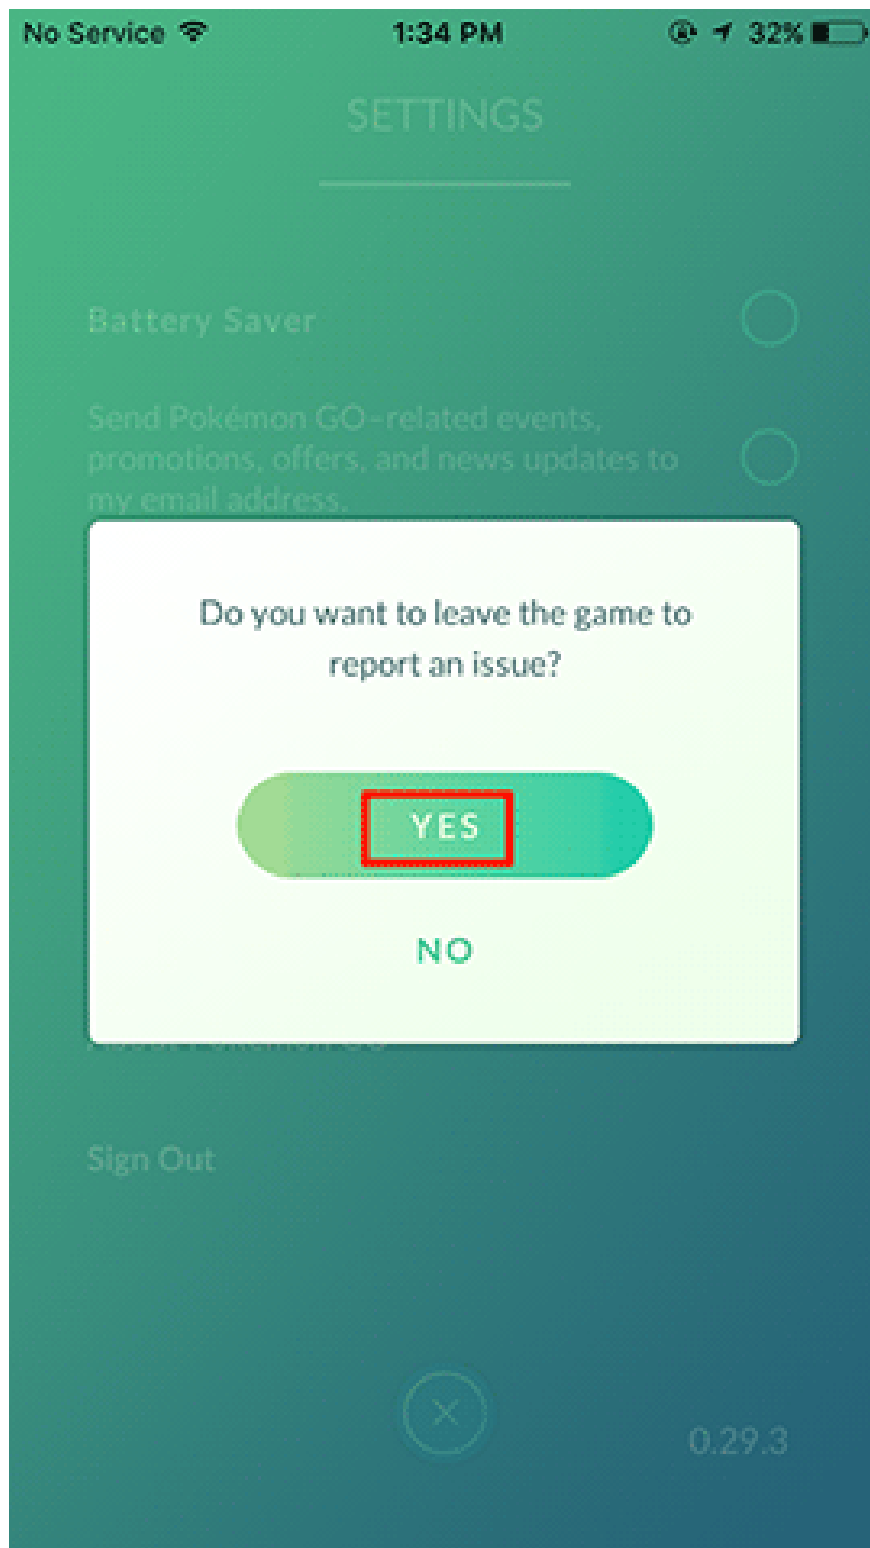

**Step 4:**

Next scroll down to find and click the option **Report High-Priority Issue** .

**Step 5:**

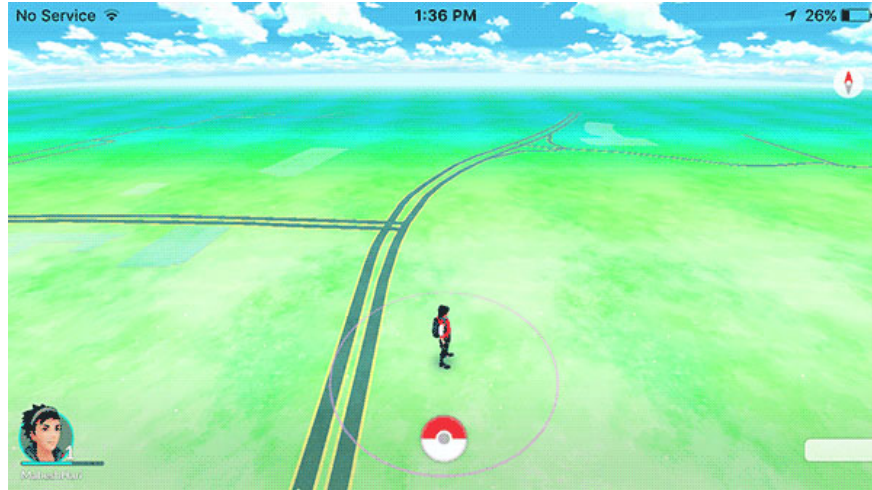

Click **Yes** if the message appears on the screen of your iPhone device.

### Step 6:

Now you will be redirected to a website via Safari browser. At this point, all you need to do is press **the Home button** on the iPhone to return to the Home Screen screen, then click the Pokemon GO icon to reopen the game again.

Now you can play the game in landscape mode (landscape mode) very beautiful on your iPhone phone.
