

# How to play Shyvana season 7, build Shyvana Dragon God item

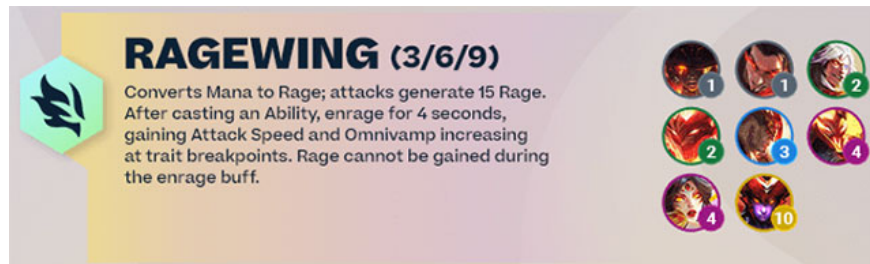

Items for Shyvana Arena of Truth season 7 will focus on resistance support items along with recovery support items.

Among the Dragon God generals of **DTCL season 7**, Shyvana and Shi Oh Yu are two characters capable of controlling opponents. Shyvana's Cuong Long is ranked higher as this is a higher priced champion and has quite a bit of support from DTCL's Cuong Long champions this season 7.

Even if you have a 3-star Shyvana with full gear, you still need to have more forces behind her. So what will Shyvana need and who should she go with to get the greatest effect? ??Please take a look at the content below.

## Shyvana's basic stats, skills, and clan

### Clan

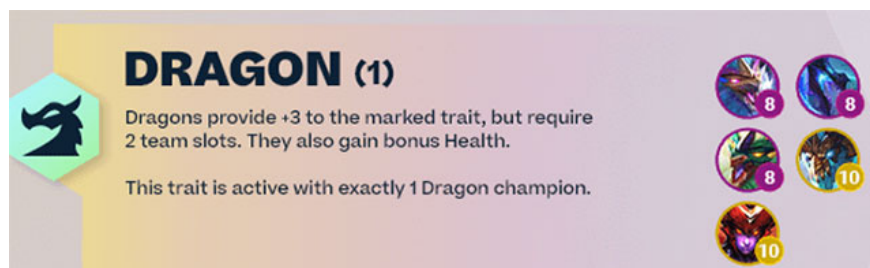

**RAGEWING (3/6/9)**

Converts Mana to Rage; attacks generate 15 Rage. After casting an Ability, enrage for 4 seconds, gaining Attack Speed and Omnivamp increasing at trait breakpoints. Rage cannot be gained during the enrage buff.

This card features a green dragon head icon on the left. To the right of the text is a collection of champion icons with numbers indicating their level of the trait: 1, 1, 2, 2, 3, 4, 4, and 10.

**DRAGON (1)**

Dragons provide +3 to the marked trait, but require 2 team slots. They also gain bonus Health.

This trait is active with exactly 1 Dragon champion.

Transformation provides more health when transforming, Cuong Dragon absorbs blood and supports attack speed, so Shyvana only needs to appear in the team with +3 of her clan to max out Cuong Dragon's buff mark. She is a late-game champion and is needed to complete **the Cuong Long squad** this season 7.

Most of these will be defense-oriented equipment such as Blood Armor, Thorn Armor, Dragon Claw, and Stone Armor Beast. Some support equipment such as Hextech Gun Sword, Atonement Necklace, Darkness Cloak, and Necromancer Cloak, if you have them, should be thrown to Shyvana.

Because she has received health and attack speed buffs from Dragon's Fury and Shapeshifting, defensive items will keep Shyvana at bay longer.

### Shyvana 9 Crazy Dragon

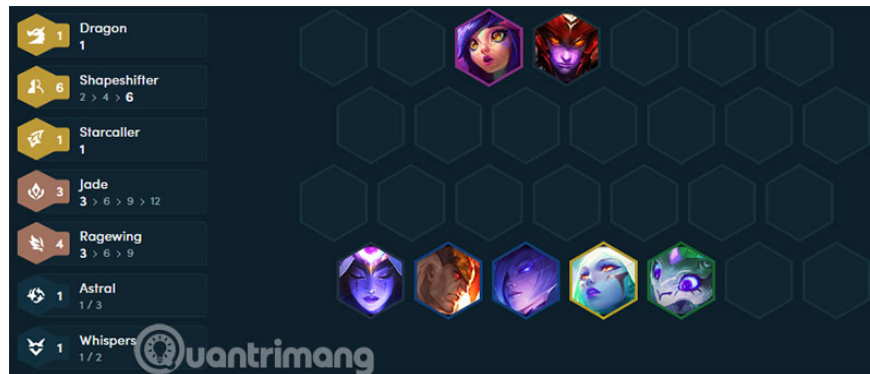

Shyvana will be the last character to appear and is also the champion for you to activate 9 Cuong Dragon. You can also activate 9 Fury Dragons without Shyvana, but doing so is very difficult.

When you find Shyvana, put all your belongings on her. Shen, Hecarim and Sett can all carry Shyvana's items. Below Swain, Senna and Xayah will be the champions that deal damage. Xayah will be the main force of the team, Swain who uses magic items will be the secondary carry.

## 6 Transfiguration

Place Neeko next to Shyvana and you will have a "fake" Shyvana supporting the "real" one. This team doesn't have Xayah so the main damage comes from Swain and Elise. Elise is quite an annoying champion as she can continuously jump across the board if her bite kills the enemy.

You can rotate to this squad from the 9 Cuong Dragon squad, find Shapeshifting champions like Elise, Gnar and Nidalee from the beginning of the game and rotate your cards when you reach level 8 to find Shyvana in time.

Now it's not just a high-priced champion that costs 3 gold but can cost 1 kilo like previous seasons. Shyvana is really powerful, but without a support team like Cuong Long or Hoa Hinh, even with full gear and 3 stars, she will still be beaten as usual, because anyone can have BARD in the squad.
