Step 3: Select Start and start the game experience.

You can see, the image in the Game is exactly the same as we used to play electronic tape game.

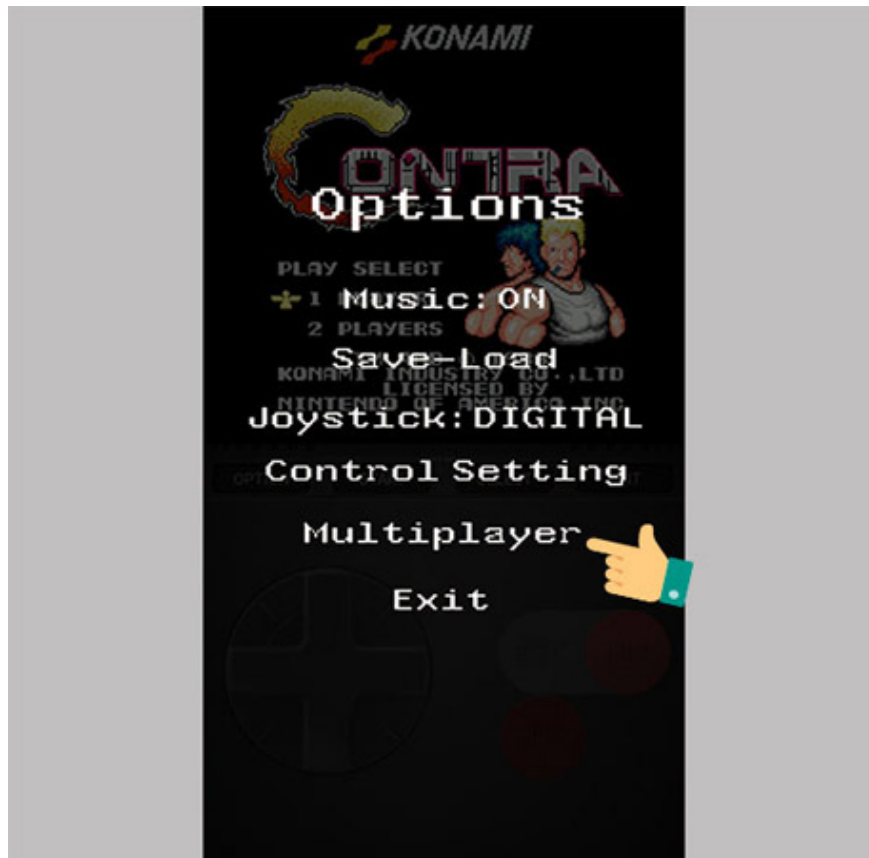

How to connect 2 phones together to play Contra game

A nice feature of the application is to allow users to connect 2 phones together to play games with 2 Player mode. To play this mode, two devices must turn on Bluetooth or connect to a Wifi network. The article will guide you through the Bluetooth connection.

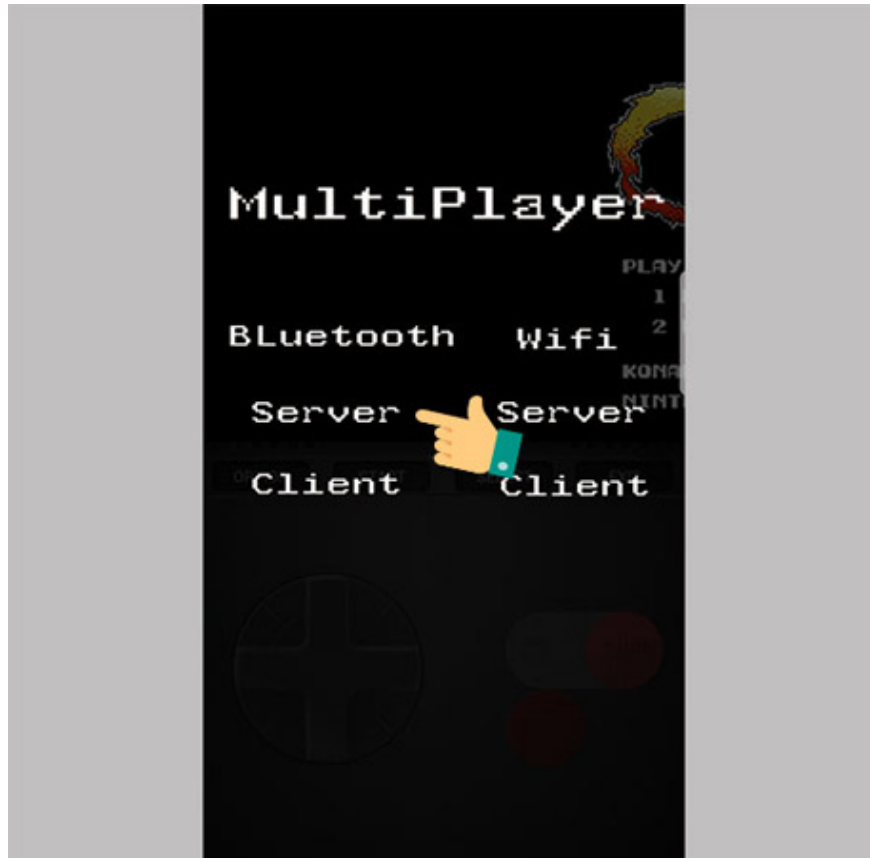

Step 1: Open the game and select Option.

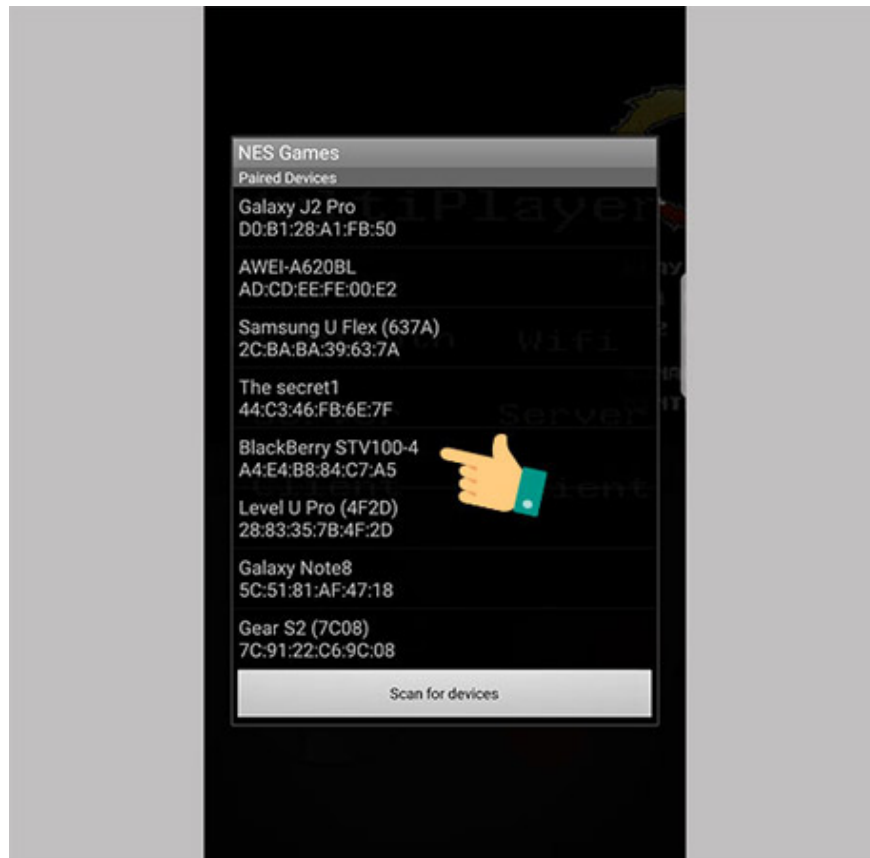

Step 2: Select Multiplayer.

A new interface appears, at the Bluetooth section, Phone A clicks on Sever, Phone B clicks on Client.

At this time, on phone B, a list of available devices appears, select the device name of the device A.

Step 3: Phone B will display as shown in the picture if the connection is successful. At that time, your B will be like a game handle and the display will be on machine A.

Step 4: You select 2 player mode on phone A by selecting Select and then clicking Start to start playing.

And this is the interface when connecting two machines.

Above is the application that supports Contra Legend without any complicated operation. In addition, NES Emulator application also supports many other games like Mario, tank car shooting, . Let's join your mobile phone to hold a 'ticket' back to your childhood.

Wish you have fun playing games.
