

How to play Valorant for newbies

This is a guide to playing Valorant for beginners, if you have never seen a video on how to play Valorant, please refer to how to play Valorant in this article.

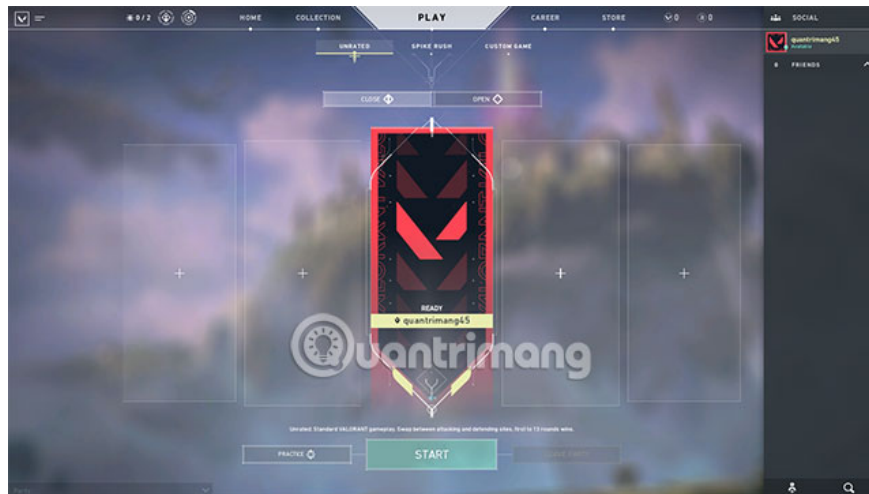

Valorant is a shooting game with "home" with League of Legends and LOL Toc Chien - Riot Games. As a FPS game like Overwatch, PUBG, CS GO . but Valorant is a bit different.

In addition to the battle you have to hold a gun to deal with the enemy team according to the different game modes, you can also use specific skills with the characteristics of each character in the game. These skills will assist you to fight alongside the main weapon is a gun.

How to play Valorant is not too difficult, with many gamers who are familiar with FPS games, getting acquainted with Valorant does not take too much time. But for gamers who have never played FPS games, please see the instructions for playing Valorant in the article below.

Guide to play Valorant for newbies

Step 1: First you get acquainted with **Spike Rush** mode , also known as fast bomb setting. Click **Start** to start the match, if you have friends, click the plus sign to add your friends

Choose your character below before the countdown into the game ends.

When new to the game, you will be given a period of time to prepare weapons and tactics. See where your team goes, follow it. When the countdown timer in the middle of the timer runs out, the walls will be removed, and now your team and the enemy team will start moving around the map.

The bar below the middle of the screen will show you the skills you have. Press the corresponding key to use.

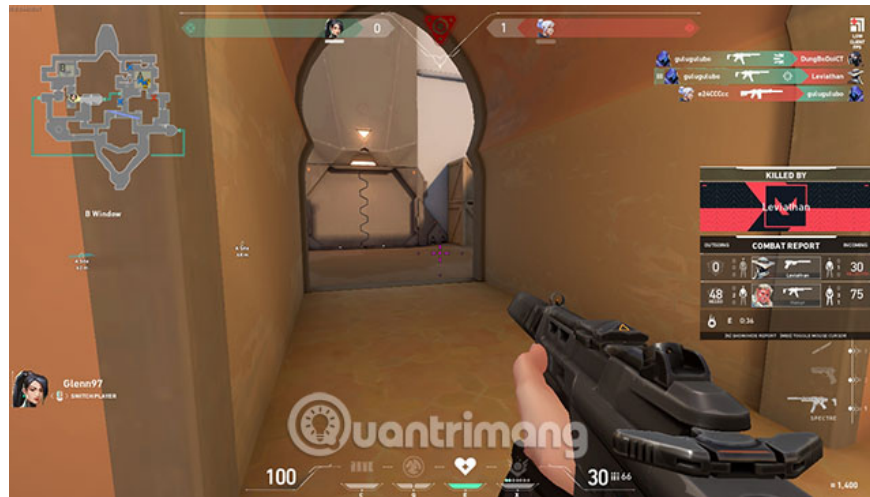

Go to the target, press 4 to remove the bomb and place it there. If the time limit specified and you have not set the bomb, your team will lose. When the game has only 30 seconds left, a notification will be issued to let you know.

If you die before the bomb is set, the bomb will drop and your team can pick it up to place it.

When you finish setting the bomb, the time in the half will change to the time the bomb explodes.

The winning numbers for both teams will be shown above, and you'll also know which members are still alive on both teams.

The number of rounds for you to win in the game is 4 rounds, so the pace to complete a bombing match in Valorant will not be too long.

Hopefully, the above guide to playing Valorant will help you who have never played FPS games and who want to learn how to play Valorant before entering this battlefield. Fighting in the game.
