On the occasion of the upcoming **Lunar New Year of the Rooster** , the Network Administrator would like to share with her sisters to consult how to plug a vase of gladiolus flowers spread out "thousands of hands" to be able to play in Tet days.

## Ingredients to prepare

1. 30-40 branches of gladiolus flowers. You should choose stout and have many buds to be able to play long
2. 1 flower foam sponge
3. 1 disc of deep hearts has a larger diameter than the mouth of the jar
4. High average
5. Adhesive tape, scissors
6. Leaves set magnolia

## Doing

**Step 1** : First place the plate on the vase, continue to put the sponge on the plate, you notice, the sponge you should soak in the water so that the flower can be fresh. You use tape to fix firmly between foam, disk and vase

together, so that when flower arrangement can help the flower stand upright without leaning to break the foam.

**Step 2 :** The flower you buy will be used to cut and cut the gladiolus flower buds at a 45 degree angle, so the cut of flowers will help the flower to easily absorb water, and create a sharp point to easily plug into the foam. sponge. You start to flower from the middle and then radiate out. The central flower will be the highlight of the flower vase so you should choose a beautiful, healthy and higher flower than other flowers. To the second layer plug 5 flowers around and a little lower than the central flower branch.

Next to the 3rd floor, you staggered against the 2nd floor and also lower the 2nd floor. Like that, the next floor you do the same, gradually lower until close to the mouth of the bottle.

**Step 3** : After plugging in all the flowers, you can use some more magnolia leaves to decorate and cover the excess of the sponge, contributing to the softness of the vase.

With these simple steps, you can create a vase of flowers to thank "thousands of hands" to play in Tet holiday.

## Some things to note

1. Gladiolus is a straight flower, so before you plug it, use your hand to gently bend the tip of the cotton to make it slightly curved. Then, overnight, the flowers will curl and create a softness to the flowers.
2. Before plugging in, you should determine the exact plug position of the flower branch, avoiding unplugging and re-plugging it, causing the sponge to break.
3. Because gladiolus flowers are very many flowers and quite heavy so you should plug deep into the foam to avoid the case of falling branches.
4. This hang, you should pour water into the flower plate to help the sponge always have moisture and provide water for flowers to help the flowers long.
