

How to post animated images, GIFs to Facebook?

Facebook has appeared on the market for many years, but it has not yet fully supported the popular animation format on the Internet, which is GIF. In the article below, TipsMake.com will introduce you how to upload GIF images to your Facebook account, based on the support website.

Facebook has appeared on the market for many years, but it has not yet fully supported the popular animation format on the Internet, which is GIF. In the article below, TipsMake.com will introduce you how to upload GIF images to your Facebook account, based on the support website.

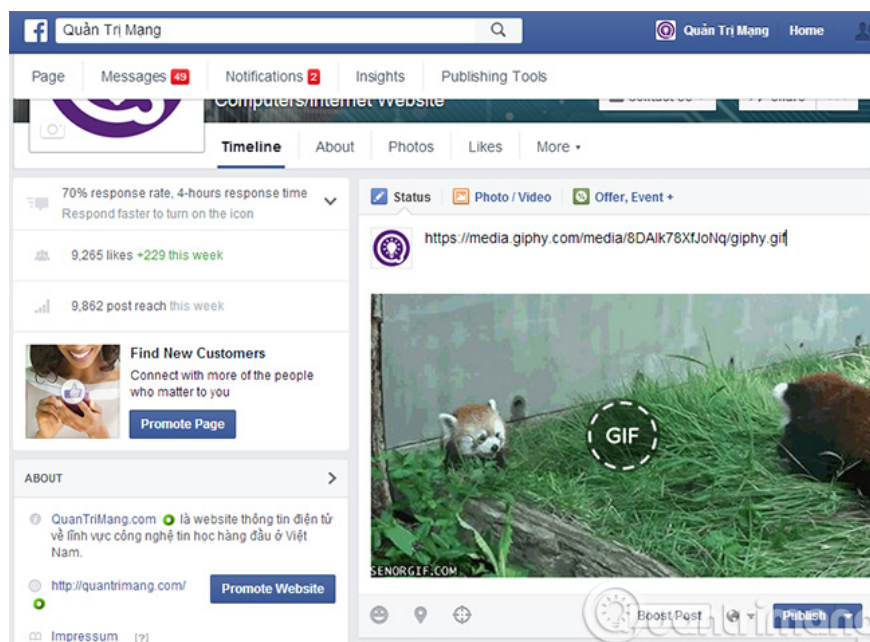

How to post photos, GIFs on Facebook based on Giphy:

On the internet today there are many tutorials on how to post GIF images to Facebook, mainly:

1. Post a GIF image from 1 URL, after Facebook loads it all, delete it and click Post => **ca n't do it !**
2. Using Plugin included> **can't do it either !**

After testing many methods, try multiple host upload photos, TipsMake.com found that currently Giphy.com is also allowed to post animations, GIFs on Facebook (somehow that other photo hosts cannot do). All you need to do is get the image URL from Giphy.com (with the * .GIF extension), then post it on your personal page:

1. The URL will look like: <https://media.giphy.com/media/8DAIk78XfJoNq/giphy.gif>
2. Paste that URL on **personal Facebook, Fanpage or Group** :

1. When Facebook loads all the photos, you delete that URL and add Caption. This method is also applicable in the Comment section, but unfortunately only the animation on Giphy "moves".
2. Link example on Fanpage TipsMake.com.

Hopefully, this approach can help you to be creative while using Facebook. *Good luck!*
