

How to post multiple photos on Tweet on Twitter

Users can post multiple images at once in a Twitter post.

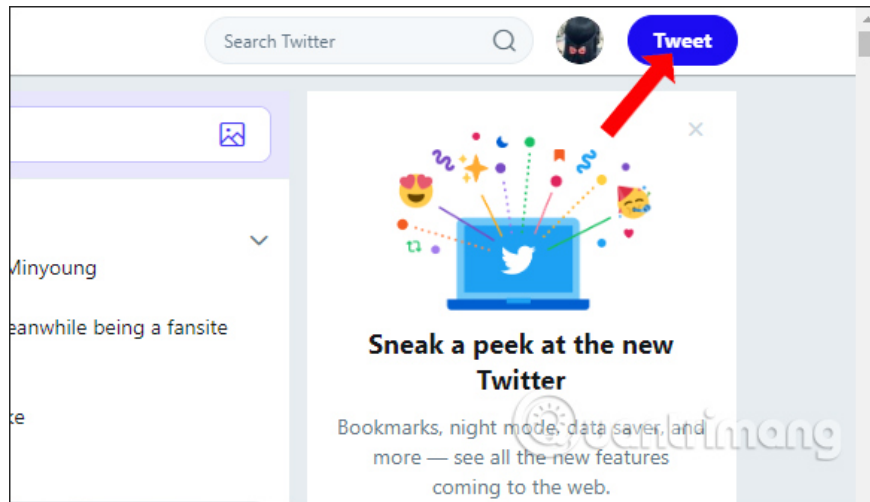

Social networks now all support posting multiple images at once, including Twitter. Users do not need to post an image for each post, but can aggregate images into one post to save time and manipulate execution. On Twitter maximum users can only post 4 images at the same time, unlike Facebook without limit the number of images posted. Images posted on Twitter also have the option to tag accounts, insert locations, or add sitcker fun. The following article will guide you how to post multiple photos on Twitter.

1. How to post photos to Instagram from a computer
2. Instructions for changing your username and display name on Twitter
3. How to download Twitter videos on your computer
4. How to link Facebook to Twitter and vice versa

1. How to post multiple photos on Twitter web

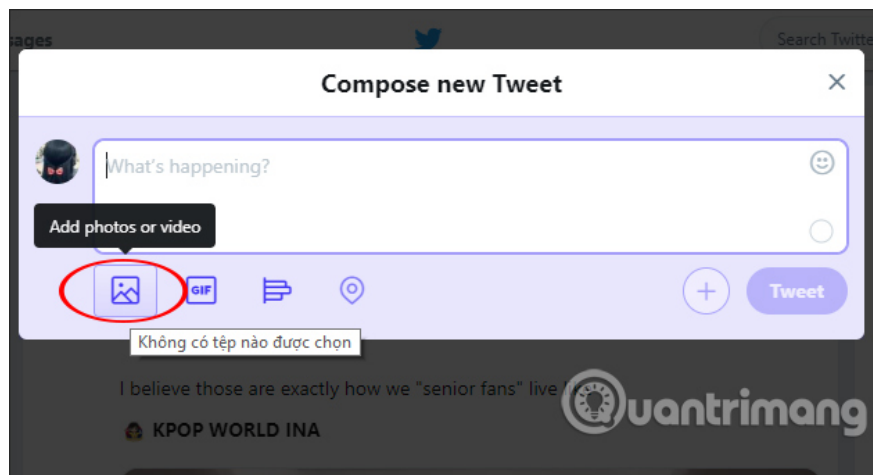

Step 1:

Users log into their Twitter account and click **the Tweet button** in the top right corner.

Step 2:

Display the frame to enter the post content, click on **the image icon and** then select the first image you want to post to Twitter.

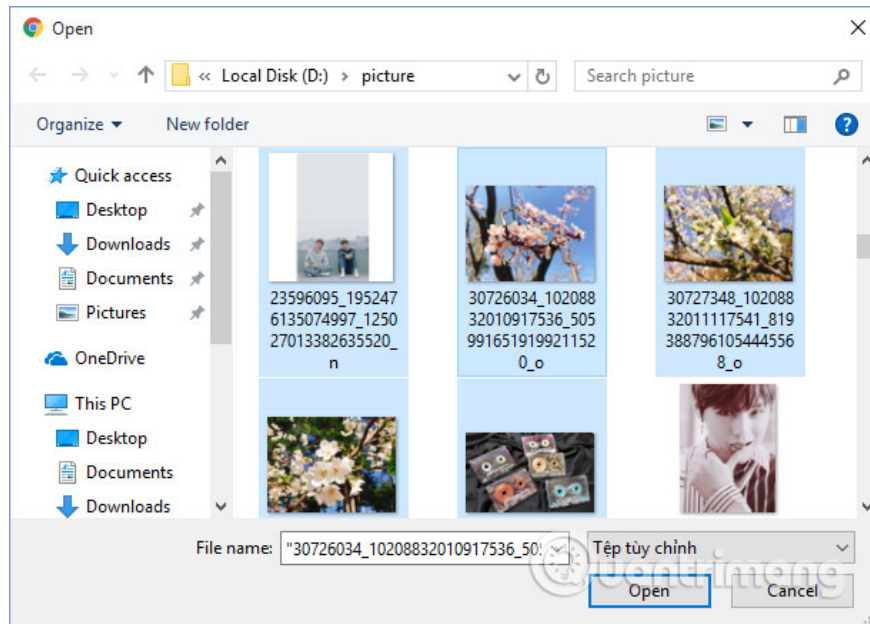

Next, click the image icon again to select the remaining images.

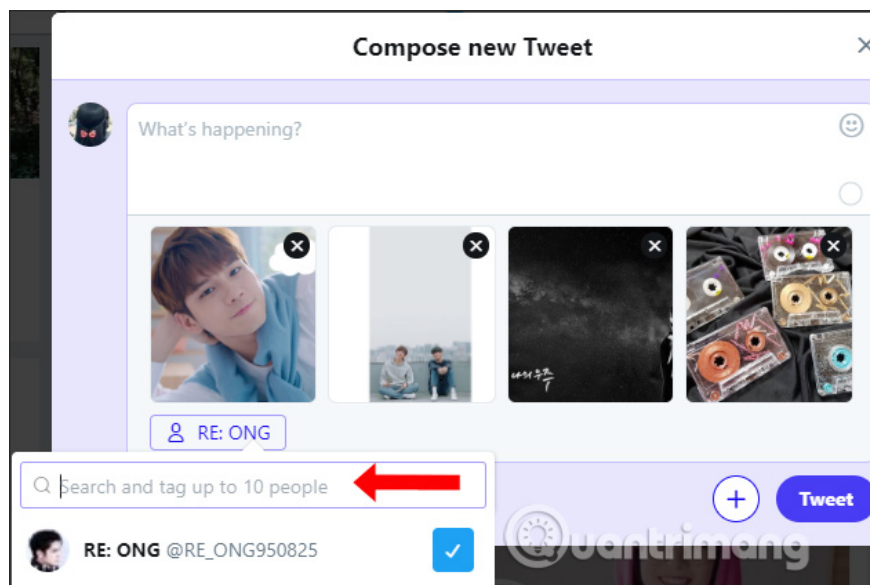

Step 3:

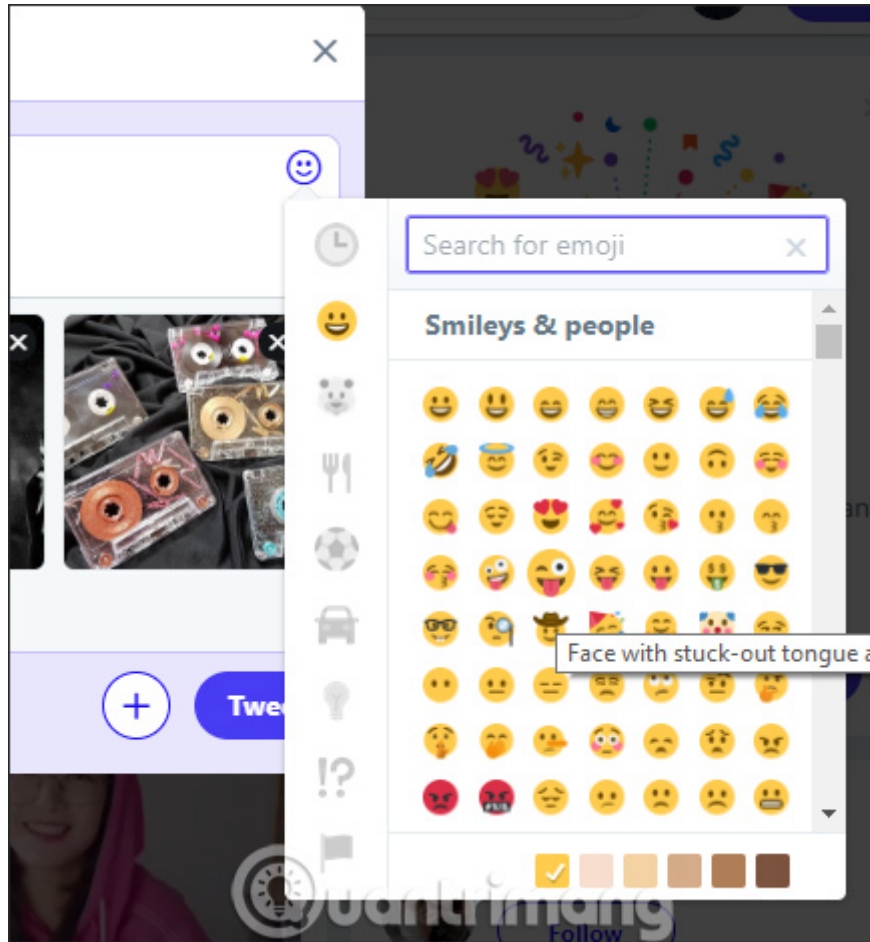

Select the remaining 3 images to post to Twitter and click **the Open button** .

Soon it will display the image in the post frame. If you want to delete any image, click on the x sign icon. Also in this frame you can **tag 10 other Twitter accounts** .

Or click **the icon icon** to add emoticons to the post. Finally write the content, insert the location for the post if you want and click Tweet below to post the content.

The results of the images will be displayed on the Twitter account as shown below.

2. Post multiple photos to Twitter Android, iOS

Step 1:

Also at the Twitter account interface, click on **the blue circle icon** to post the content. In the post frame click on **the image icon** to post a photo.

Posting images to Twitter applications will have additional photo editing parts, especially color filters, and the Twitter version of the web will not have those options. The number of photos posted in an article on Twitter is also limited, not as much as when posting photos on Facebook or Instagram.
