

How to Present from a Browser in Prezi

Prezi is a presentation creation web application that allows you to create presentations consisting of text, images, and videos. Prezi differs from traditional presentation software by using a single canvas and frames opposed to...

Method 1 of 4:

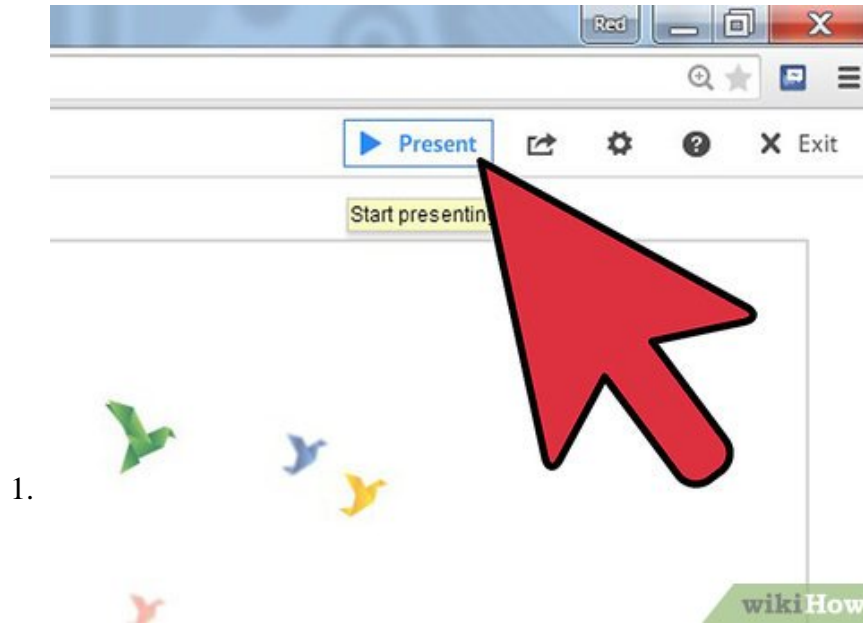

Resize the browser

Resize the browser to make it small before plugging in the projector. This is because the resolution may change when plugging in the projector, making it difficult to resize the window.

Method 2 of 4:

Don't switch to fullscreen

Don't switch to Fullscreen mode until after you've plugged in the projector and clicked 'Show' from presentation mode menu.

Method 3 of 4:

Use browser fullscreen for keyboard shortcuts

Use your browsers built in Fullscreen mode if you wish to use keyboard shortcuts. This is because Prezi's fullscreen button may disable keyboard shortcuts when presenting from a browser.

Method 4 of 4:

Hide the Prezi menu

Type 'm' to hide the Prezi menu when presenting in a browser. Note: This option is for advanced users that can present using keyboard shortcuts.
