

How to Print Multiple Photos on One Side of Paper on PC or Mac

This article will show you how to print multiple photos on one side of paper on a PC (personal computer) or Mac. Make sure the printer is turned on, has the correct paper size, and is properly connected to the computer before starting.

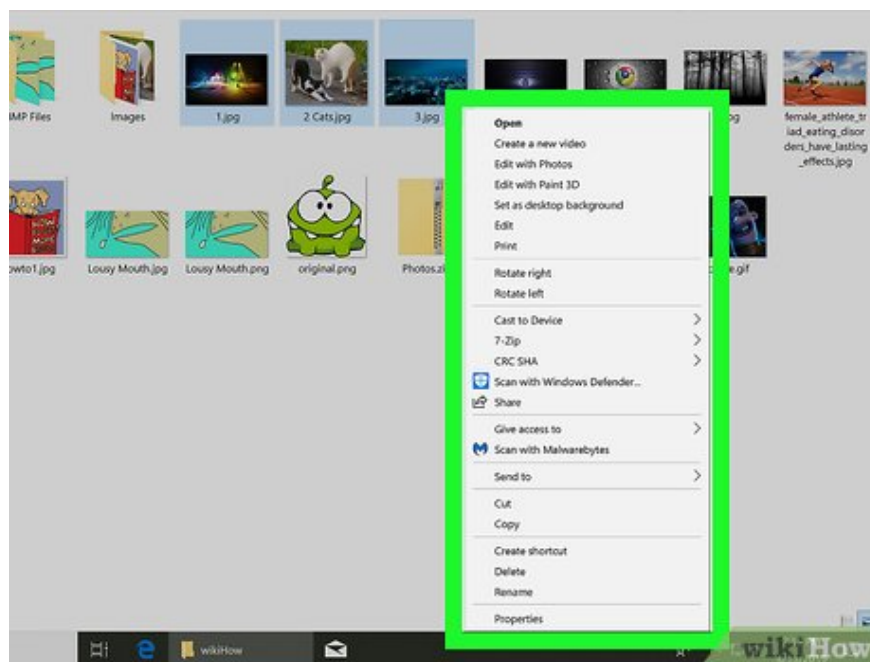

Use Windows

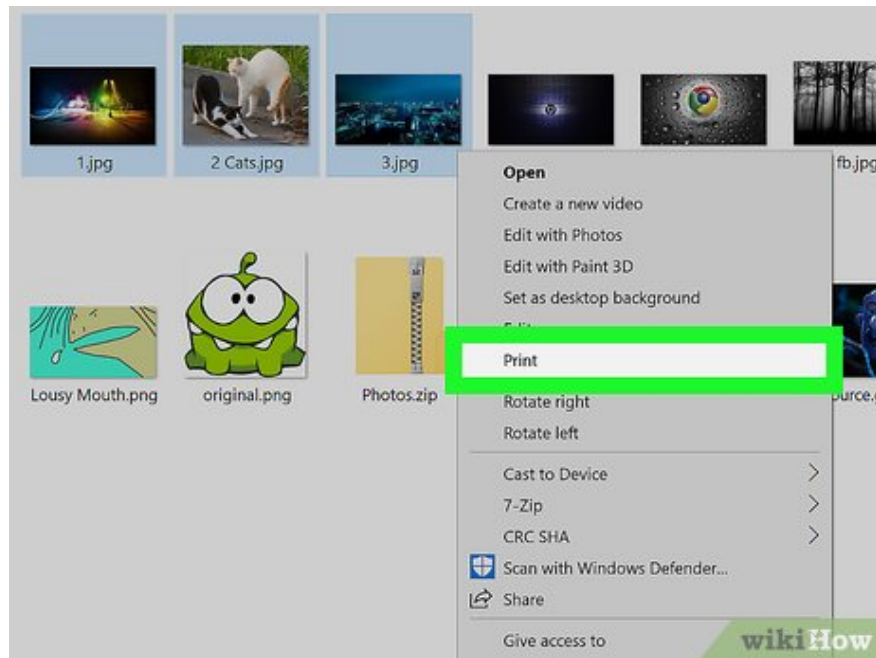

Open the folder containing the photos you want to print.

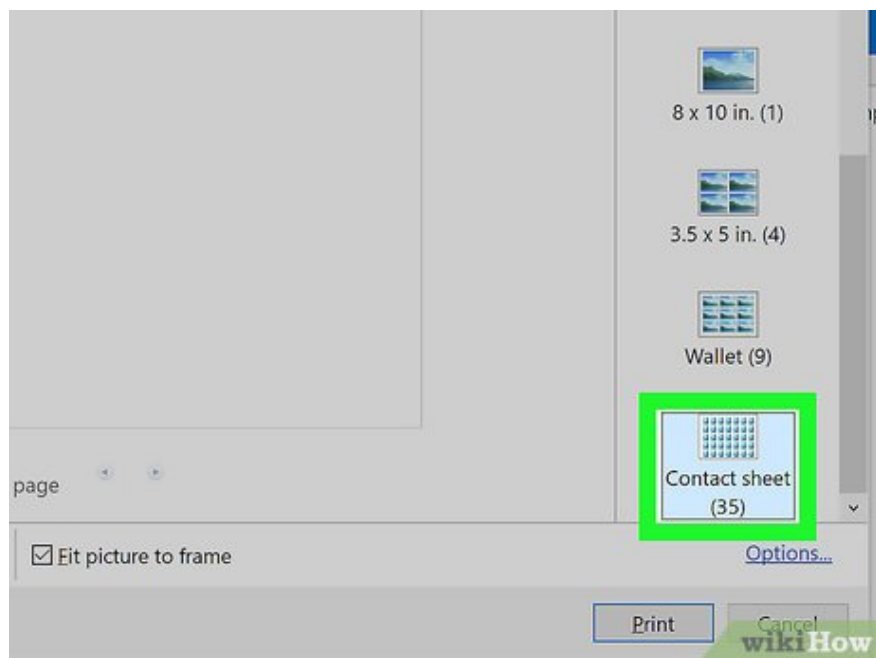

Select the photo you want to print. To select multiple photos, hold down the key `Ctrl` as you click each file. You can also click and drag your mouse on multiple photos.

Right click on the selected image. This step opens the context menu.

Click Print in the menu. This step opens the print preview screen, showing you the selected image to prepare for printing.

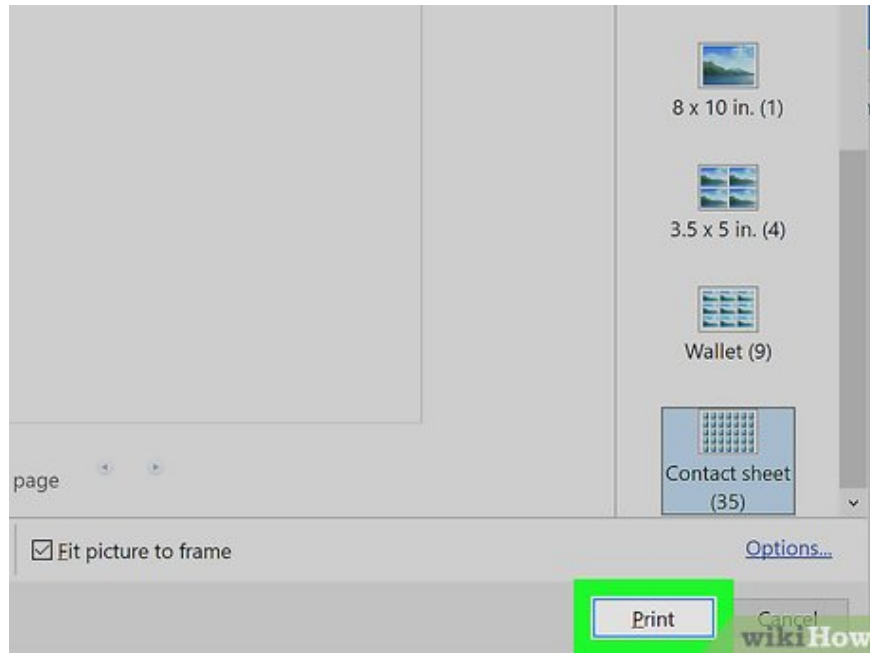

Click the Contact Sheet option . This option is on the right side of the window, and you may need to scroll down to see it. This option can print up to 35 photos on the same sheet of paper. If you don't like the image in the preview, you can try one of these other options:

Wallet allows you to print up to 9 photos that fit on one side of paper.

If you only need to print 2 photos, you can choose between two options of printing on the same paper with a size of 4 x 6 in. (10 x 15 cm) or 5 x 7 in. (13 x 18 cm).

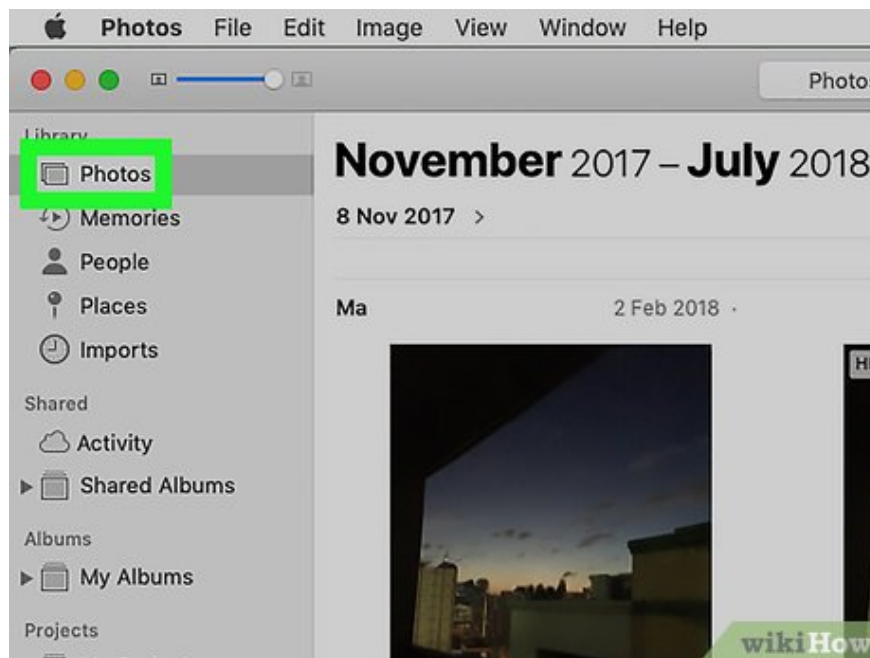

If you want to print 4 photos, you can click the 3.5 x 5 in option. (9 x 13 cm).

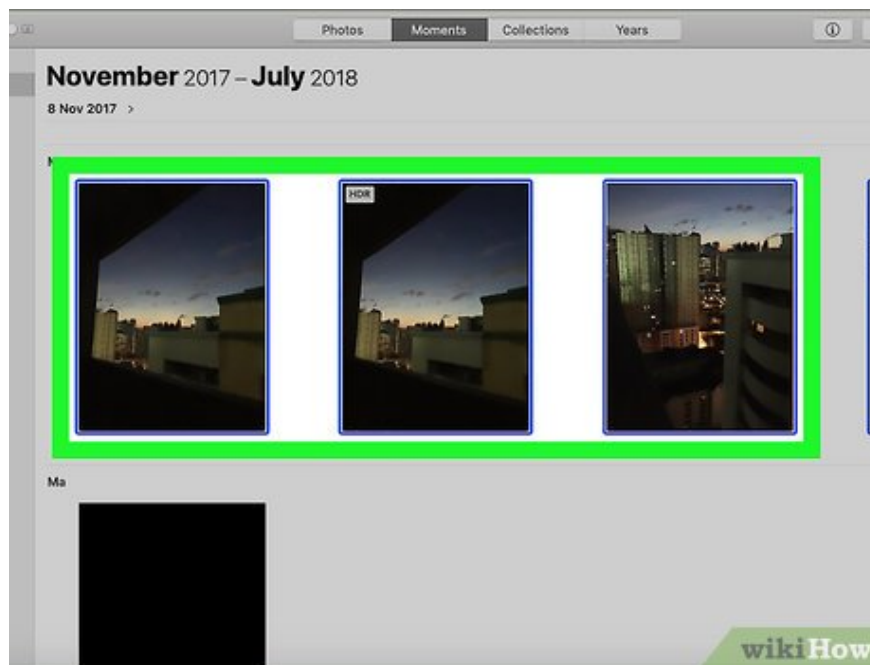

Click Print . The selected photos will be printed on the same side of paper.

You may need to select the printer name in the "Printer" drop-down menu first.

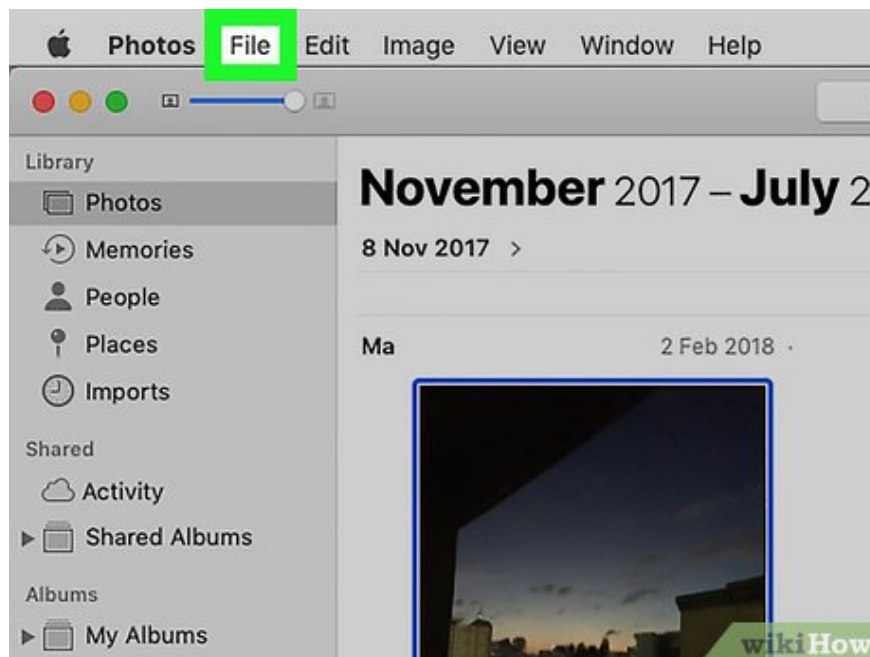

Use macOS

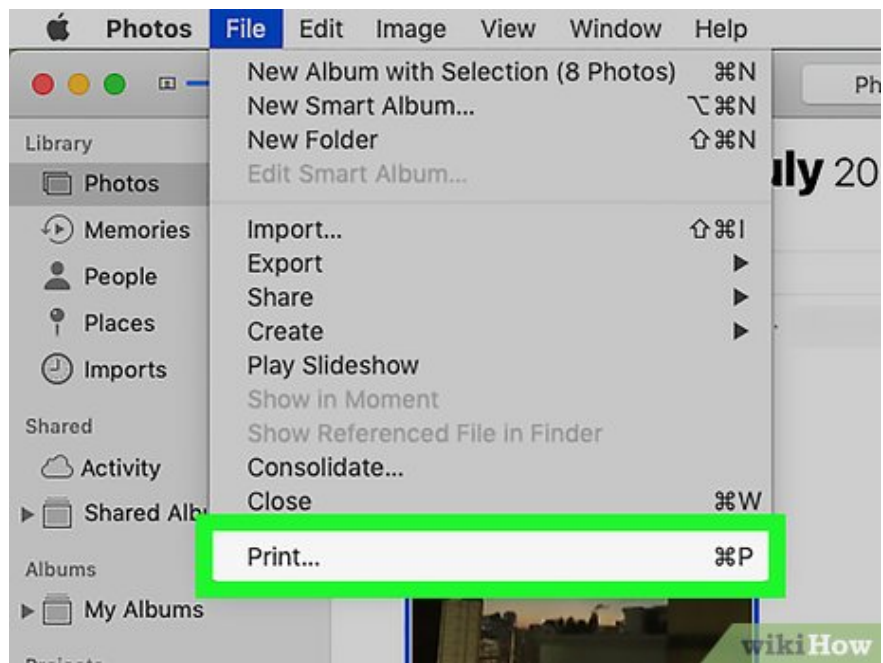

Open the folder containing the photos you want to print.

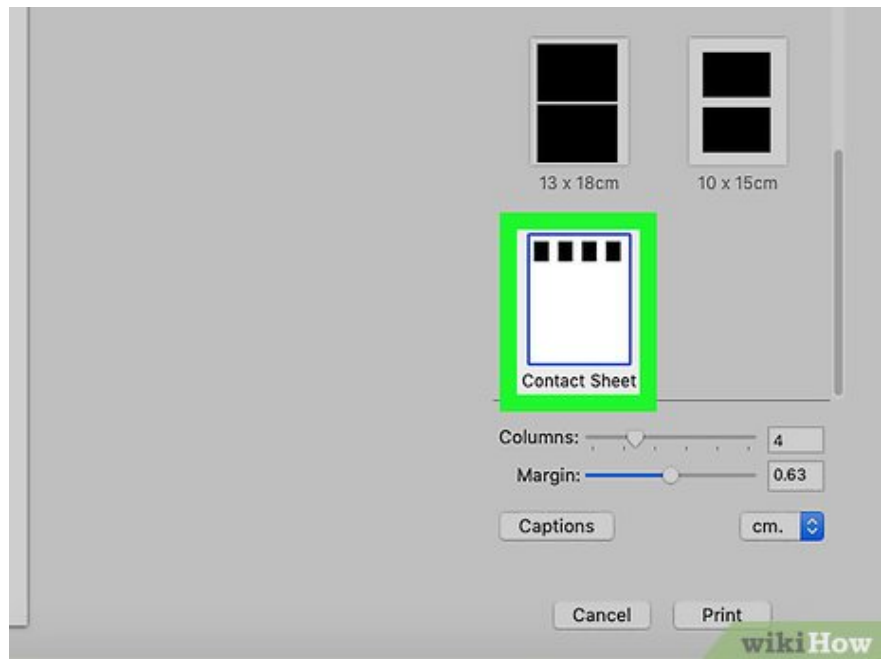

Select the photo you want to print. To select multiple photos, hold down the key ? Commandas you click each photo. You can also click and drag your mouse on multiple photos.

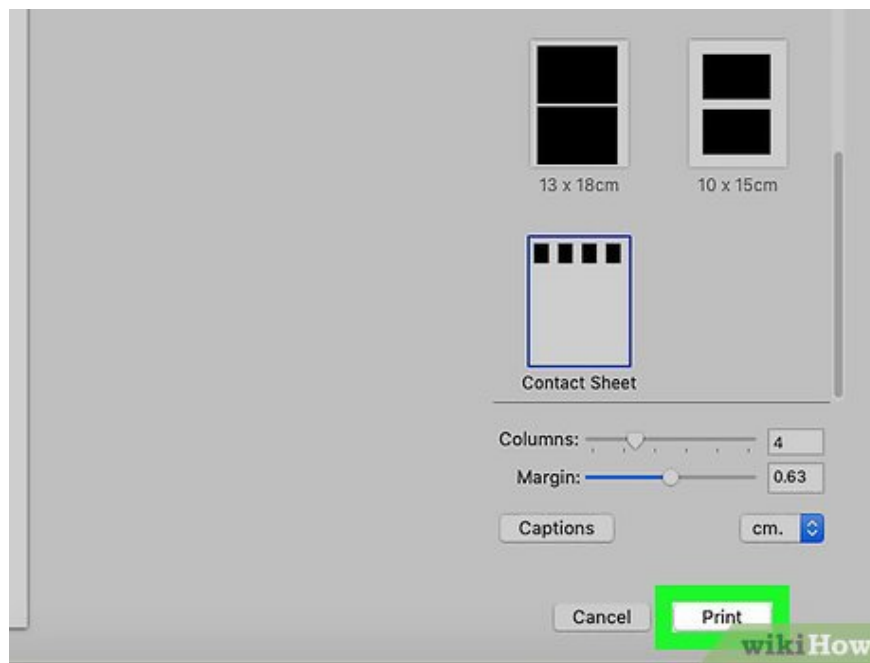

Click the File menu . This menu is located in the upper left corner of the window.

Click Print . This option is in the drop-down menu after you click **File** . This step opens the print preview screen, showing you the selected image to prepare for printing.

Click the Contact Sheet option . This option is to the right of the print menu.

Click Print . The selected photos will be printed on the same side of paper.

You may need to select the printer name in the "Printer" drop-down menu first.
