You want to insert your handwritten signature into a Word document but don't know how? Below I share with you how to quickly and beautifully remove signature background in Word today.

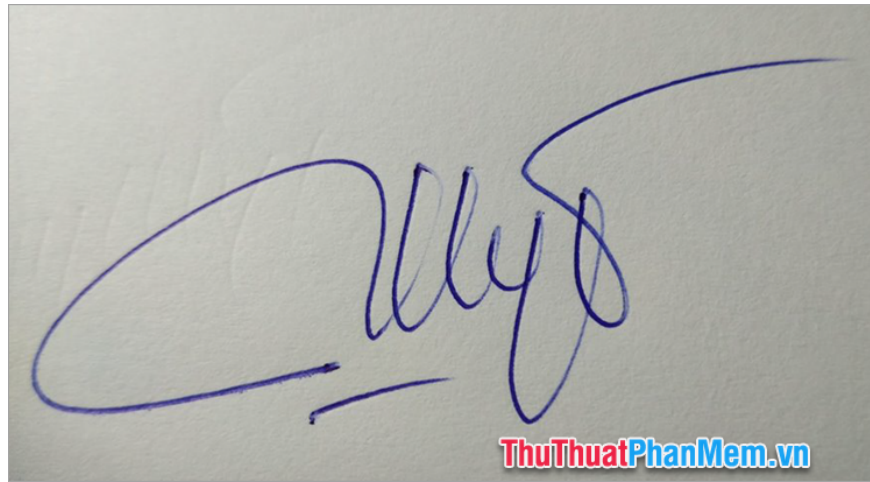

You need to insert your handwritten signature into a Word document but don't know how to remove the signature background in Word to make your signature more beautiful. So please join TipsMake to learn how to quickly and beautifully remove signature background in Word in the article below.

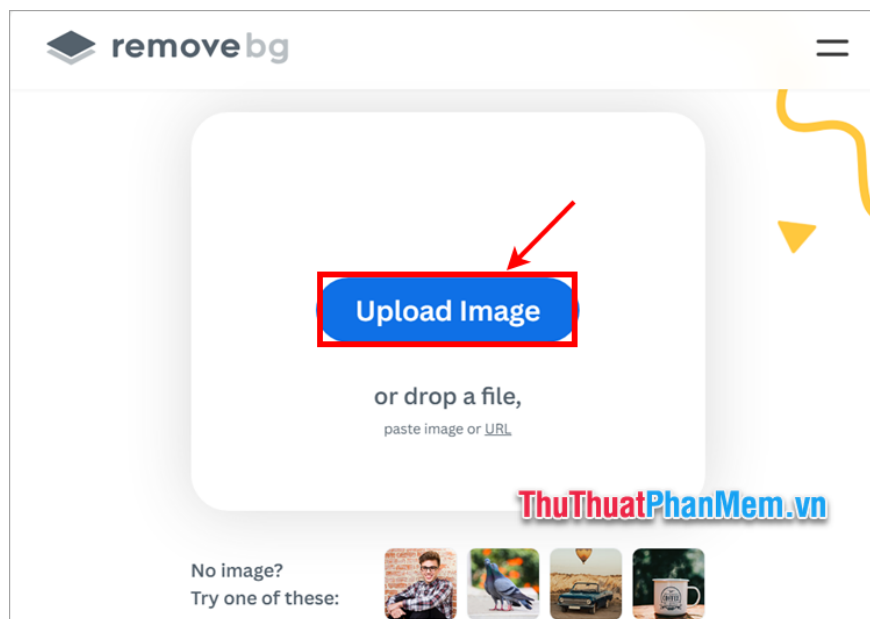

Below TipsMake shares with you how to quickly and beautifully remove signature background in Word, please refer to it.

In Word, it supports you to delete the image background and keep only the parts you want, but with signatures, the signature lines are very slender and it will be difficult for you to delete the signature background in Word. So you can use online websites that support removing the signature background with just one click, then you add the signature to Word. Please do as follows:

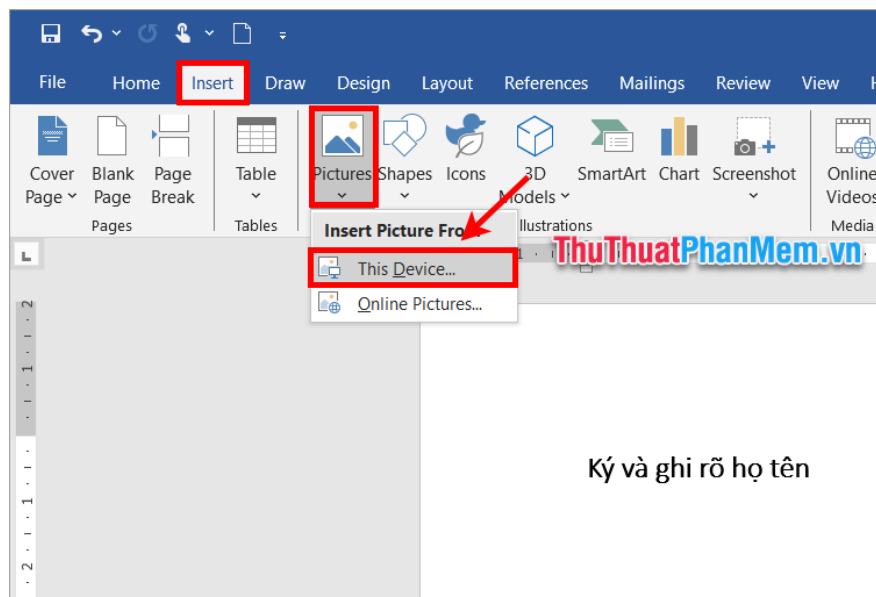

Step 1 : You need to prepare a signature to insert into Word. If it is a handwritten signature, you can sign it on paper and scan the signature and save it to your computer. After you have a signature image you want to insert into Word, visit the free signature background removal website **remove.bg**

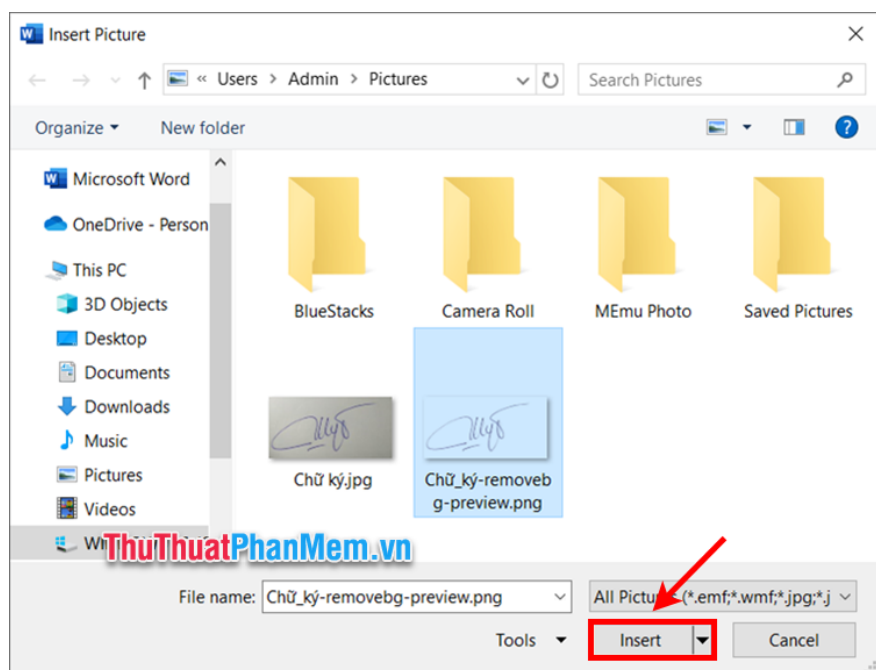

Step 2 : On the website home page interface, select **Upload Image** .

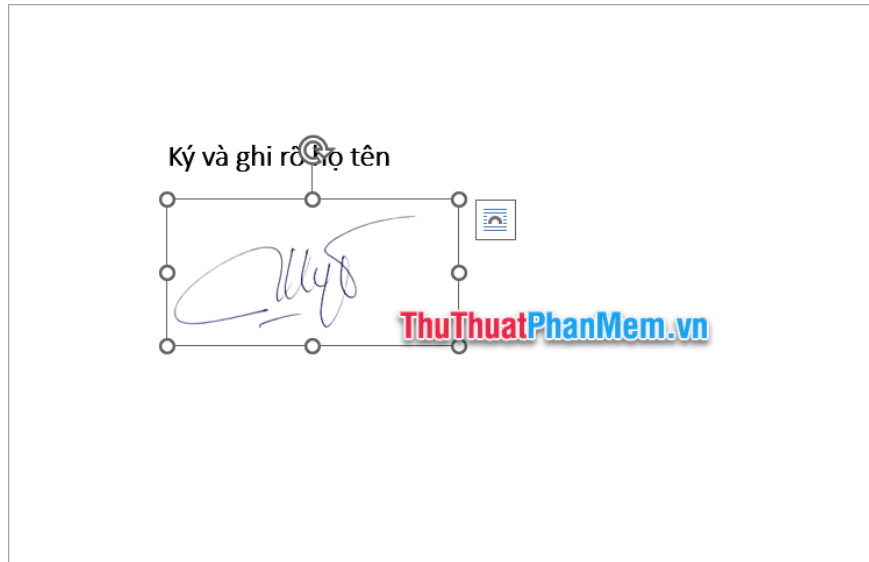

Step 3 : The Open window appears, select the signature image whose background you want to remove and select **Open** .

Then add the signature image to Word.

Step 6 : Finally, you just need to move and align the signature to a reasonable position.

Above, TipsMake has shared with you the fastest and most beautiful way to remove signature background in Word with the support of a website that supports quick background removal. So, with just very simple steps, you can quickly remove the beautiful signature background and insert it into Word for use. Hope this article will help you.
