

How to quickly and permanently delete your LinkedIn account on your phone and computer.

LinkedIn allows users to delete their accounts and profiles. Therefore, when you no longer need to use LinkedIn, you can delete all your profiles on this social network. Deleting your LinkedIn account is quite easy with a few simple steps.

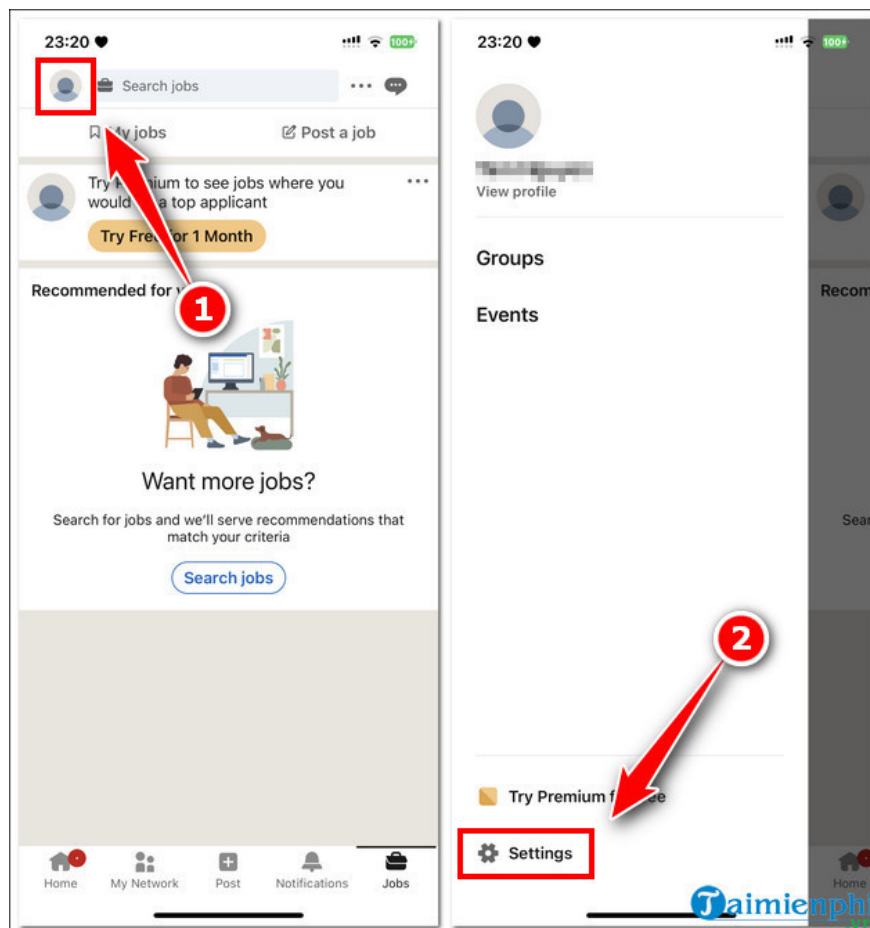

After deleting your LinkedIn account, you will lose access to all the data in your account. All the information you used to **create your LinkedIn profile** will disappear from the website and search engines like Google. However, if you wish to keep a copy of your profile as a memento, you can download it to your computer.
