

# How to read, view .swf files, Flash files on computers

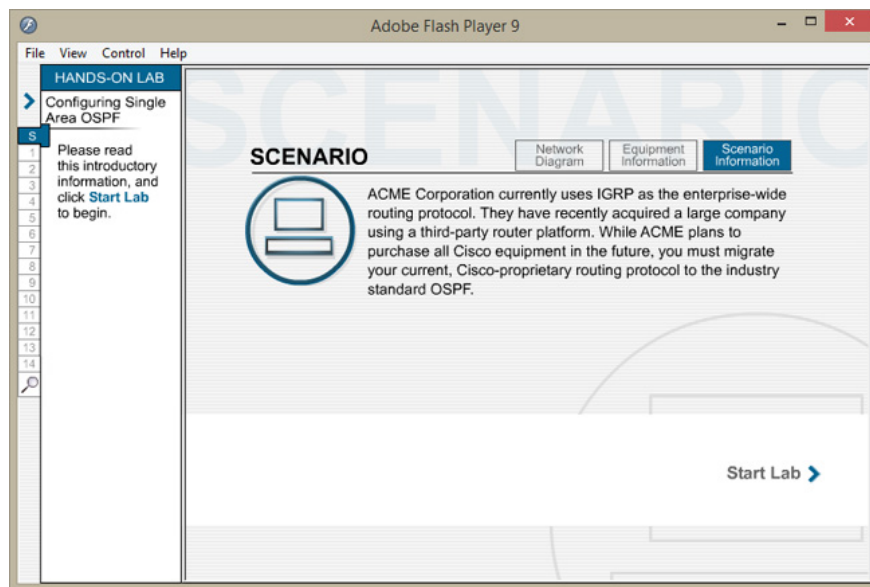

You are trying to open the swf file, watch the swf video, but don't know how? Please use the small software that we introduced in this article.

.swf is a fairly popular file format a dozen years ago, many games and videos are saved in this format. Previously, you could easily view the .swf file right on the Google Chrome browser, but now, it will be much more difficult when Chrome is very strict with .swf files.

A much faster solution is to download Adobe Flash Player 9 to your computer, you can view all the .swf files you need, including videos from the Cisco Lab on Network Administrator. This software is quite compact, less than 1.5 MB in size, easy to use and open extremely fast .swf file.

To get started, download Adobe Flash Player 9 to your computer.

You do not need to install, after downloading just double click on the .exe file to run, drag any .swf file into the interface of the application to view.

*Interface of Adobe Flash Player 9 when watching Cisco videos*

When downloading .swf file, you will be warned by Google Chrome browser that this file can be dangerous to your computer, if you want to download it, click Keep / Keep to download the file, if you are sure that the file Does it matter.

Good luck!
