Here you enter the phone number that has been verified to let Google send the code to the smartphone. On the phone you will receive a confirmation code of 6 characters as shown below:

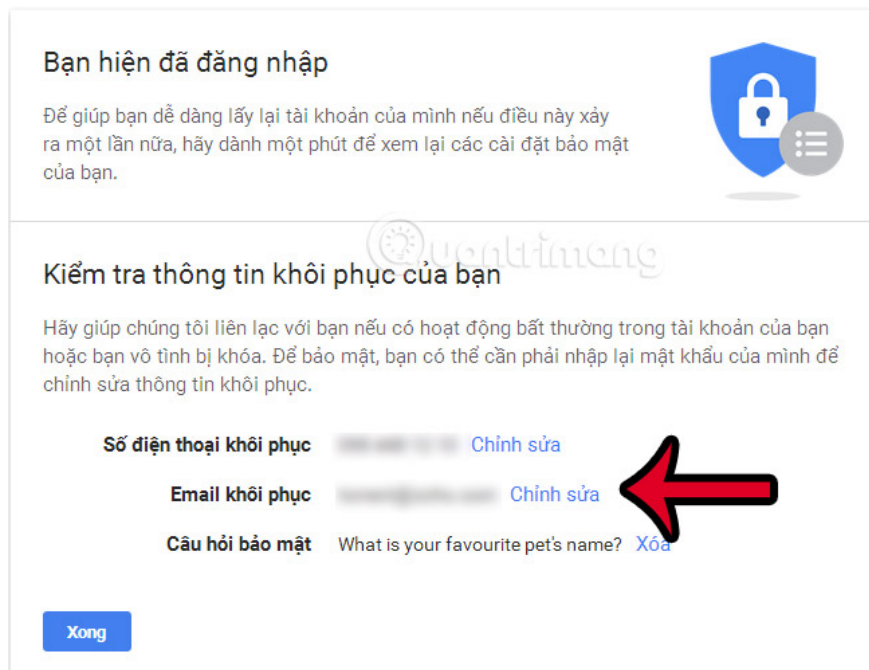

You enter this string into Gmail's confirmation table and change your password to be:

Thay đổi mật khẩu cho
letuananh11091984@gmail.com

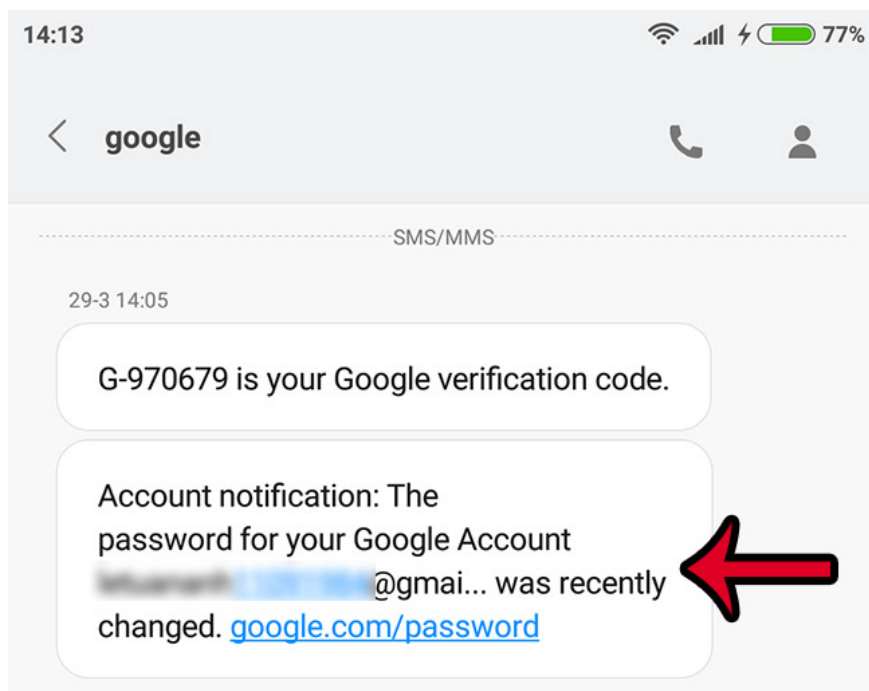

[Tìm hiểu thêm về chọn mật khẩu thông minh](#)

A screenshot of the Gmail password change interface. It features a circular icon with a padlock and a refresh arrow. Below the icon, the text reads: 'Tạo mật khẩu mới mạnh mẽ mà bạn không sử dụng cho các trang web khác.' There are two input fields: 'Tạo mật khẩu' and 'Xác nhận mật khẩu'. A blue button labeled 'Đổi mật khẩu' is at the bottom. Two red arrows point to the right, highlighting the input fields.

And after changing the password, logging in successfully, Gmail will display information like this so we can check it again:

Also on the phone there is a notification sent from Google, which looks like the following:

In case you remember the backup email account, do the same. The process is also to send questions, security information to confirm your backup account, when you get the confirmation code, you enter Gmail, and finally change the password based on that confirmation information.
