

# How to register for a Spotify account to listen to music online

Spotify has officially launched in Vietnam, making it easy for you to listen to music online and search for any song you want. Currently, the service allows for Premium trial 30 days before you buy for 59,000 VND / month.

After the official announcement, **on 13/3 Spotify is officially released in Vietnam, so you can register for Spotify account**, music streaming service with the largest number of users in the world. Like other online music services, Spotify helps you search for songs, artists or any genre like Metal, Jazz Fusion, Hard Rock, Nu-Metal, Pop, K-POP with fast speed. .

Besides, Spotify also creates smart music finder when suggesting music based on personal preferences of each person. With the paid version, we can download the song to listen without a network connection. Currently, Spotify is sold in Vietnam for VND 59,000 / month, a "bargain" price much more than many other markets like the US is VND 227,000. The following article will guide you how to register a Spotify account on your computer.

1. How to send music, MP3 songs through Messenger to listen
2. How to extract the lyrics from the music to get the beat
3. Is it possible to set a ringtone from Zing MP3 for iPhone?

## 1. How to create Spotify account to listen to music online

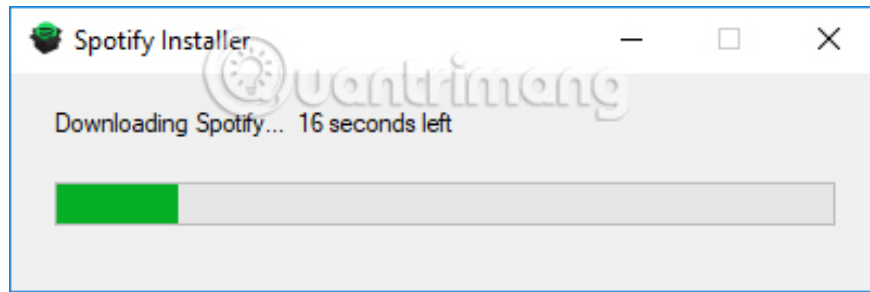

Currently, Spotify offers a lot of ways to sign up for an account. We can register on Spotify software or via the Spotify website online.

### 1. Create a Spotify PC account

#### Step 1:

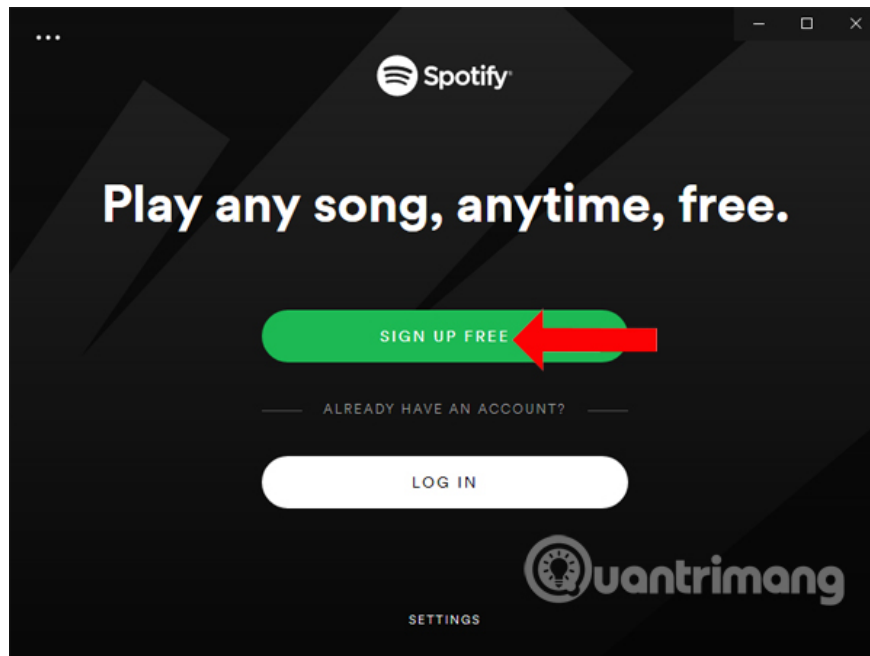

Readers click on the link below to download the Spotify installation file to the computer. The Spotify installation file is very light and the software does not take up too much space on the computer.

1. Download Spotify software on PC

### Step 2:

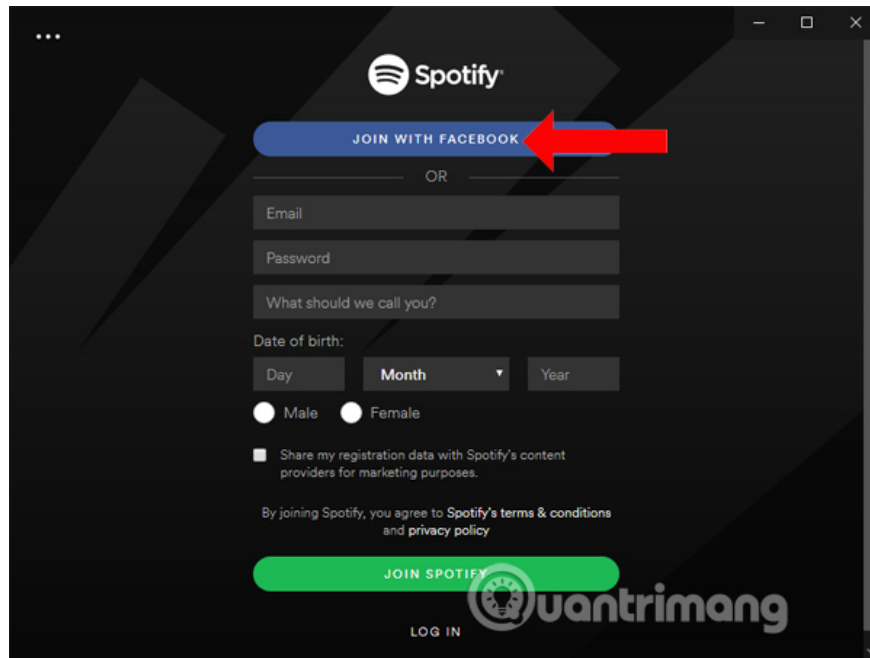

After the installation process is finished, users will come to the Spotify account registration interface. If you already have a Spotify account, you will click Log In to login, not yet, click **Sign Up Free** to register for a free Spotify account.

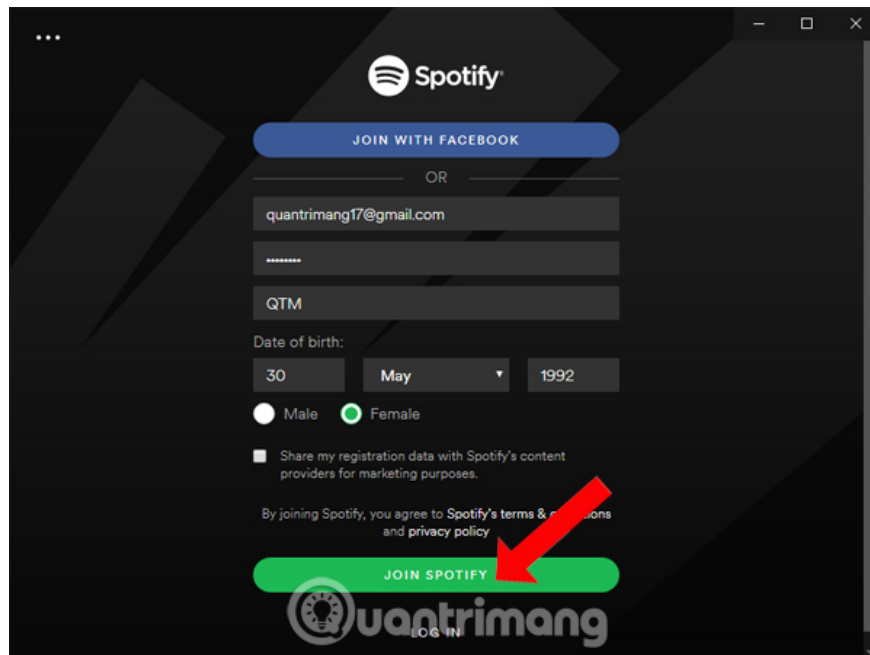

### Step 3:

Users will have 2 ways to register for a Spotify account, via Facebook account or create a new account.

To **sign up for Spotify with Facebook** , click the **Join with Facebook** button, then log in to your Facebook account to link to Spotify.

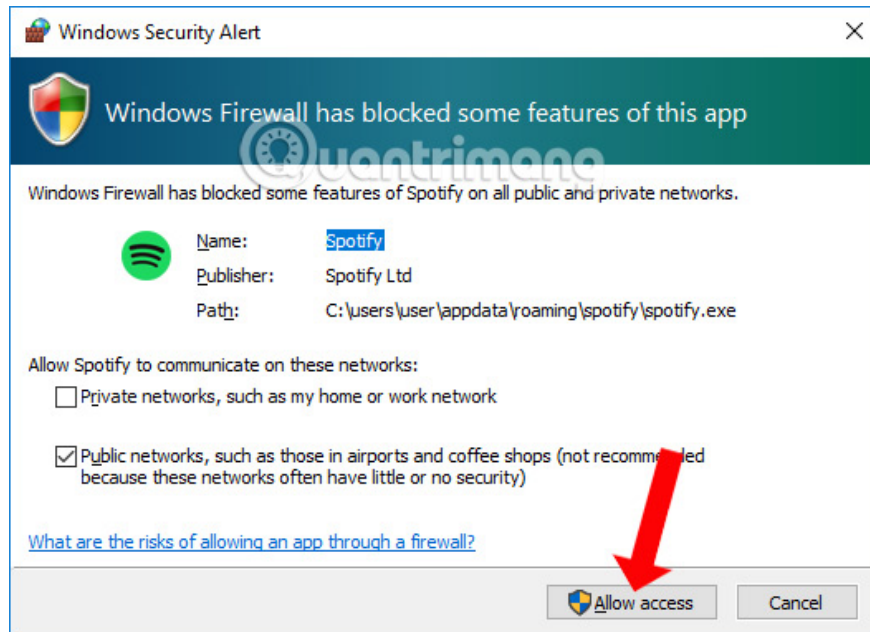

If you want to create a new Spotify account, you only need to enter the required information in the interface, including email address, password, name, date of birth and click **Join Spotify** below to register.

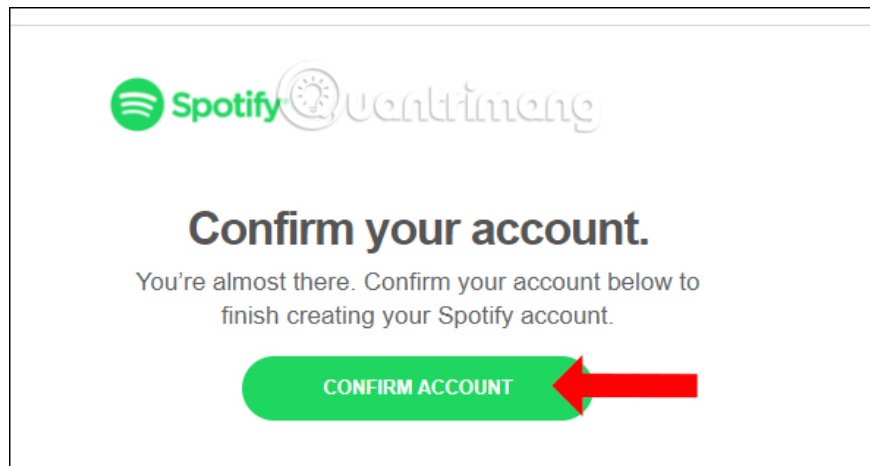

#### Step 4:

The **Windows Security Alert** dialog box appears asking for access to Spotify, and clicking **Allow Access** to allow it is done.

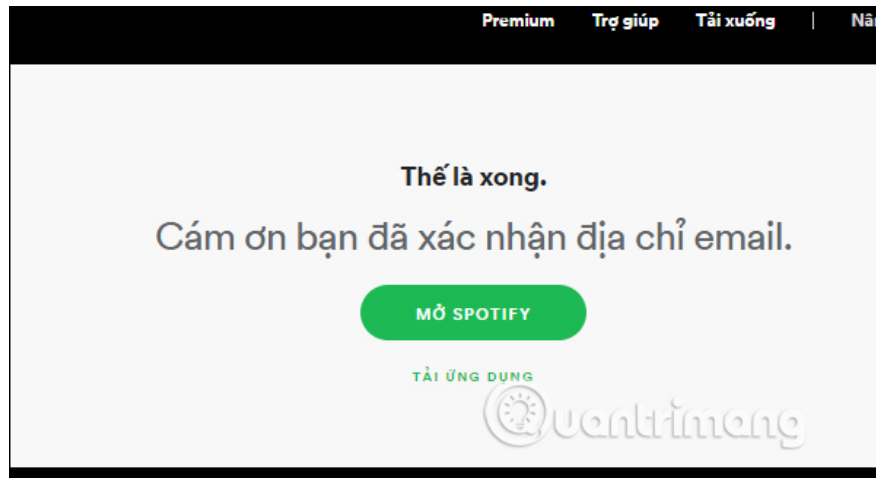

### Step 5:

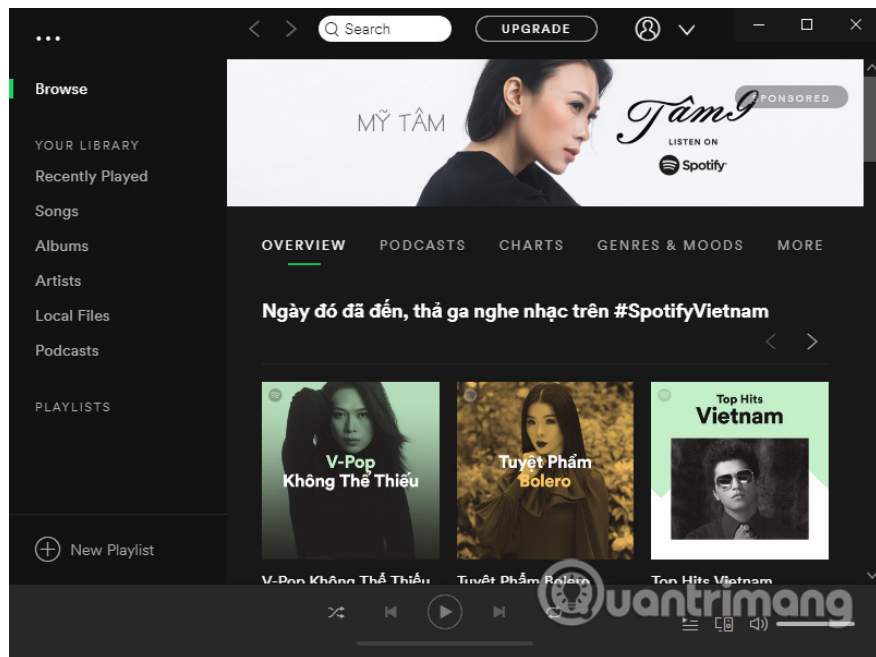

Open the Spotify registration email account and click the **Confirm account** button to confirm the newly registered Spotify account.

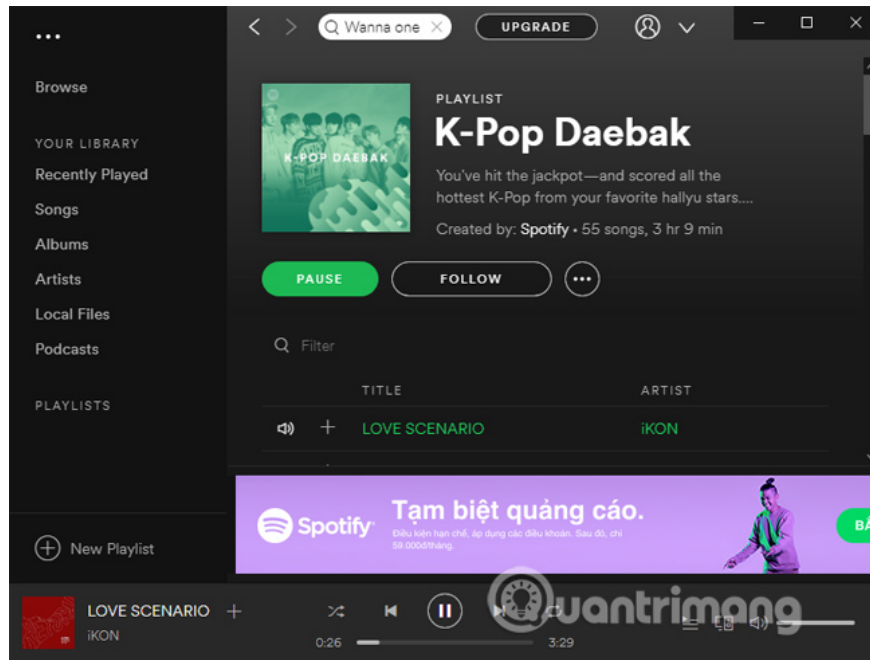

Spotify will send a **confirmation of successful registration** .

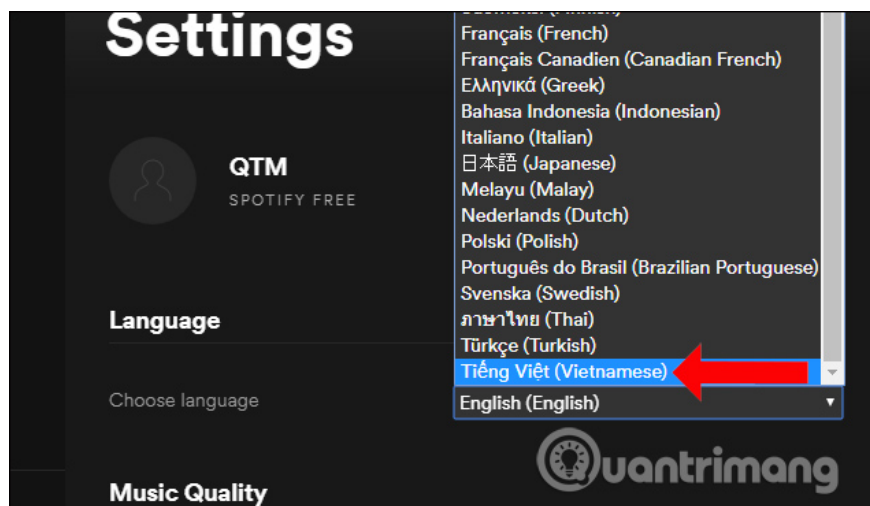

So you have completed the Spotify account on your computer. The music listening interface on Spotify is designed very simply and bar many different items.

You can search for any keyword about the song, album, artist you want to listen to in the search bar to listen to music on Spotify.

In addition, Spotify also provides Vietnamese language for you to use on the Spotify computer version. Click on the **arrow next to the account and select Settings** . In the interface settings **Language** section select language is **Vietnamese** , then restart the Spotify software to apply the changes.

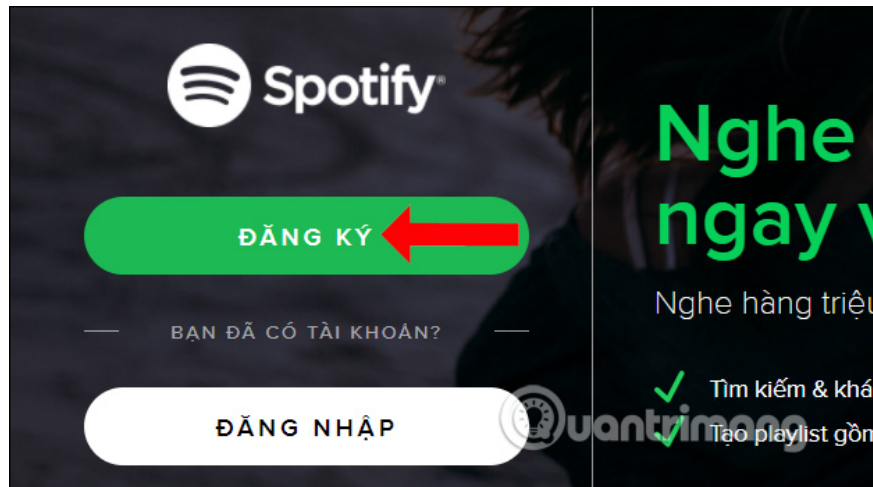

## 2. Register for a Spotify online account

If you don't want to download and install Spotify software, you can register for Spotify account on the web.

### Step 1:

Visit the link below to access the Spotify web-based registration interface. At this interface click **Register** to create a new Spotify account.

1. Sign up for Spotify web-based

**Step 2:**

Users also have 2 ways to register for a Spotify account, via Facebook or enter information to create a new Spotify account.
