To use BKAV antivirus software more effectively, today TipsMake will provide you with the basic steps to scan your computer for viruses using BKAV. This will help protect your computer system against viruses and other malicious software more effectively.

Remove viruses using BKAV, by using BKAV software.

Instructions on how to use Bkav antivirus software.

Step 1: First, download and install Bkav on your computer: **BKAV**.

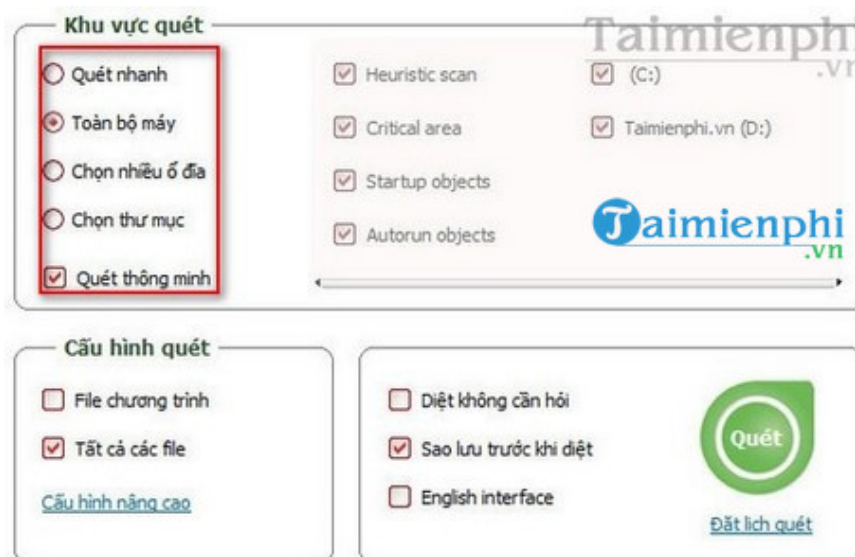

After installation, you will see **the Bkav antivirus software** interface as shown below.

To scan your computer system for viruses, select "**Scan**".

Here you will have different scan options to choose from, such as: full scan, quick scan, select multiple drives to scan, scan by selected folders, or choose scan configurations for your computer such as: program files, scan without asking, or back up before scanning.

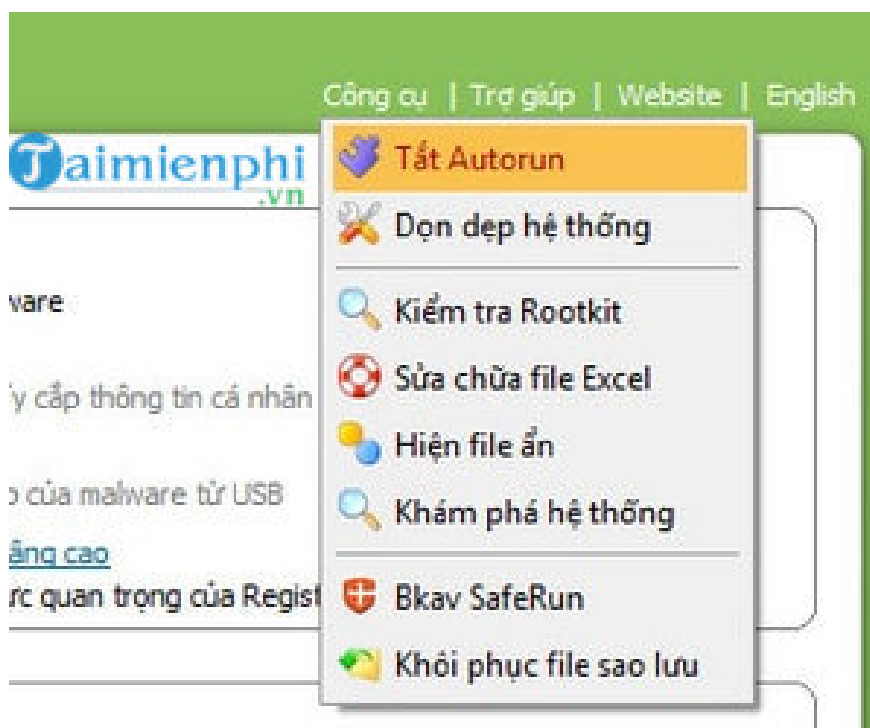

Step 2: Using Bkav antivirus software isn't too simple; you just need to select the area you want to scan and then select "**Scan**".

Step 3: You can also configure the scanning mode in the "Options" section. Here you can click to enable absolute protection mode or use advanced modes to control internet access.

Step 4: You can then use the "Tools" tab to access additional system features such as: disabling autorun, cleaning up the system, checking for rootkits, etc.

So, that completes the guide on using BKAV antivirus software. You can choose from various scanning modes to suit your needs, such as folder scans, full scans, etc. BKAV is a Vietnamese product that helps secure your computer. To better protect your computer, you can also use other software like Avira or Avast. These programs have free versions, but their functions are truly useful and powerful. You can download **Avira** or Trojan antivirus software to protect your data and computer system from intrusive agents. You can also refer to the top antivirus software for computers in 2022 here and choose the most suitable software for you.

Additionally, if you no longer wish to use BKAV software, you can refer to the article **on uninstalling BKAV** from your computer on Thuthuat.Taimienphi.vn.
