

# How to Remove VisualBee

VisualBee is an enhancement tool for your Microsoft PowerPoint documents.<http://www.shouldiremoveit.com/VisualBee-70899-program.aspx> It's commonly advertised by free downloads, and once you have it on your computer, it also installs a...

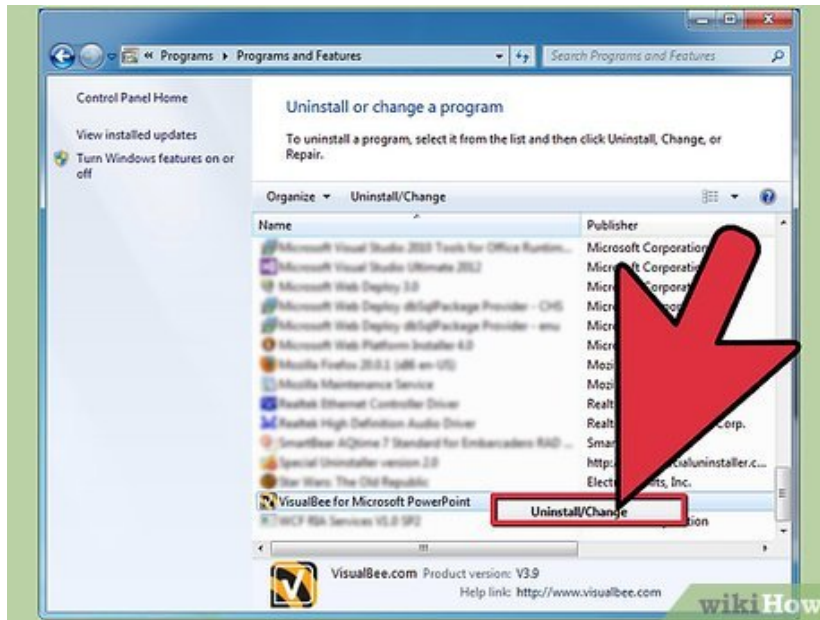

Method 1 of 4:

## Removing VisualBee from Your Computer

**Open the Uninstall control panel.** If you do not know how to get to your Uninstall control panel, you can open it directly. To do this, press **Win + R** from your desktop to open the Run dialog, then type `appwiz.cpl` and press **Enter**.

2.

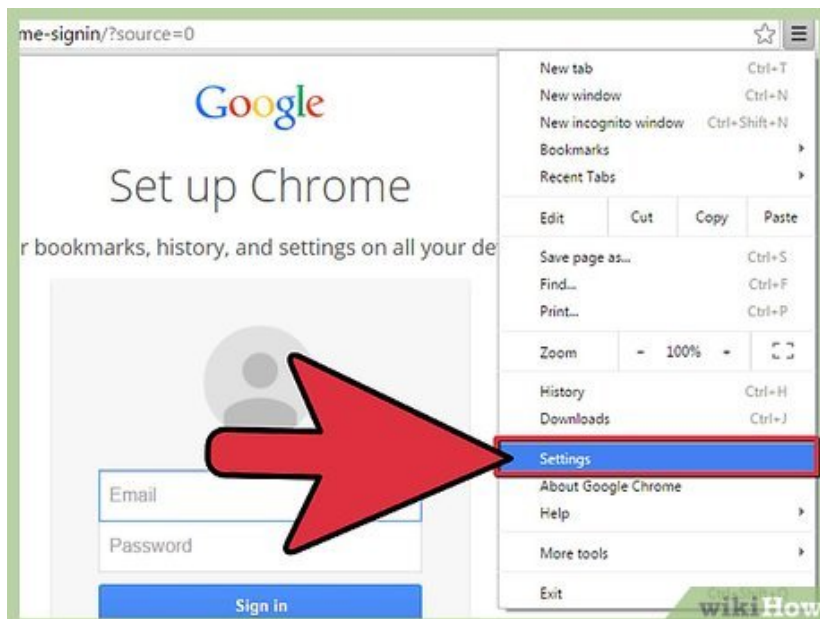

**Find and uninstall VisualBee for Microsoft PowerPoint.** If you have trouble finding VisualBee on your list of programs, click on the Name header to sort your programs alphabetically, or type VisualBee into the Search field. Right-click VisualBee and select **Uninstall** to remove the program from you computer.

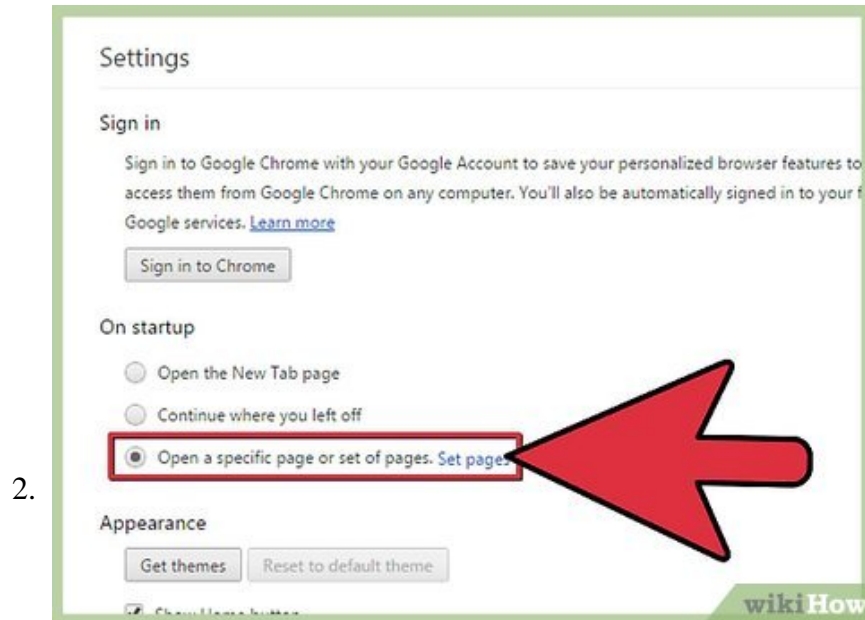

Method 2 of 4:

## Removing VisualBee from Google Chrome

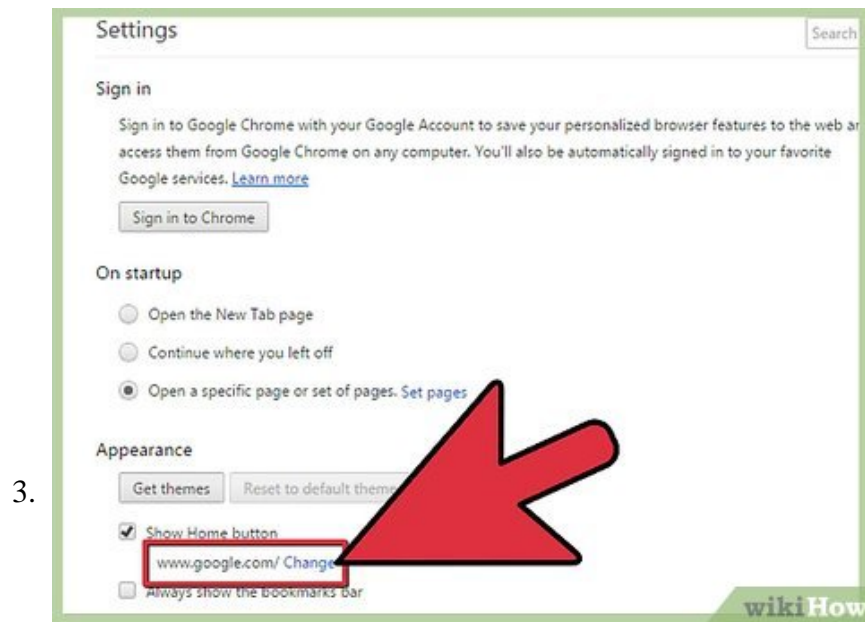

1.

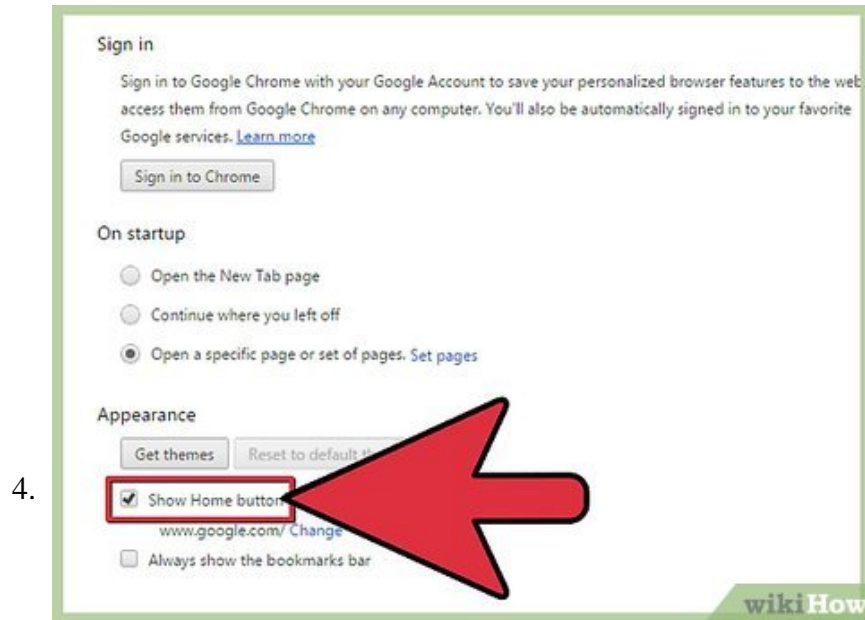

**Open Google Chrome and go to Settings.** Type `chrome://settings` into the address bar and press `? Enter` .

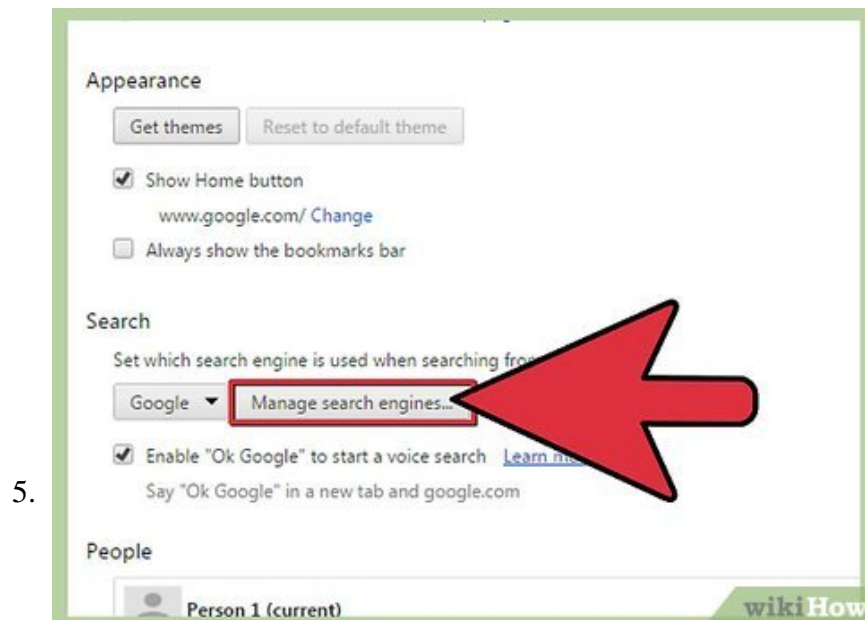

**Restore your startup page.** Below "On startup", select "Open the New Tab page" or restore your previous setting.

**Restore your homepage.** Below "Appearance", check "Show Home button" if it is unchecked, then "Change".

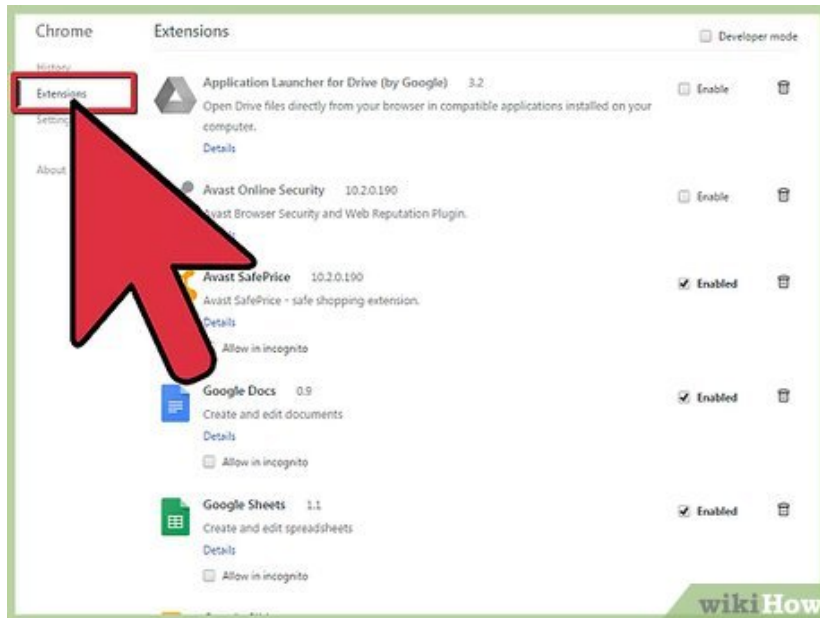

Select "Use the New Tab page" or restore your previous homepage. Click  when you are done. Uncheck "Show Home button" if you prefer not to have the Home button shown.

Restore your search settings. Below "Search", click . Mouse over your preferred search engine and click . You can also mouse over unwanted search engines and click the  to the right to remove them.

6.

**Go to Extensions and remove VisualBee related extensions from Chrome.** Type `chrom://extensions` into the address bar and press `?Enter`. Go through your list of extensions and remove the **VisualBee Toolbar** and **BrowserProtect** extensions by clicking on the trash can icon to the right of these extensions.<sup>[2]</sup>

1. It is a good idea to remove other suspicious or unwanted extensions as well.

Method 3 of 4:

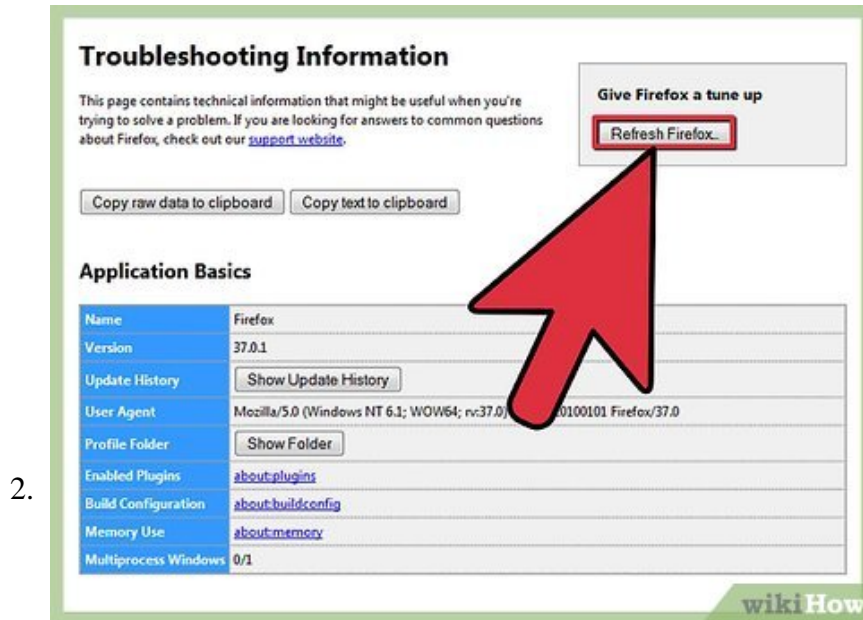

## Removing VisualBee from Firefox

1.

**Open Mozilla Firefox and go to Troubleshooting Information.** Troubleshooting Information can be found in Firefox's Help menu, or by typing `about:support` into your address bar and pressing `?Enter`.

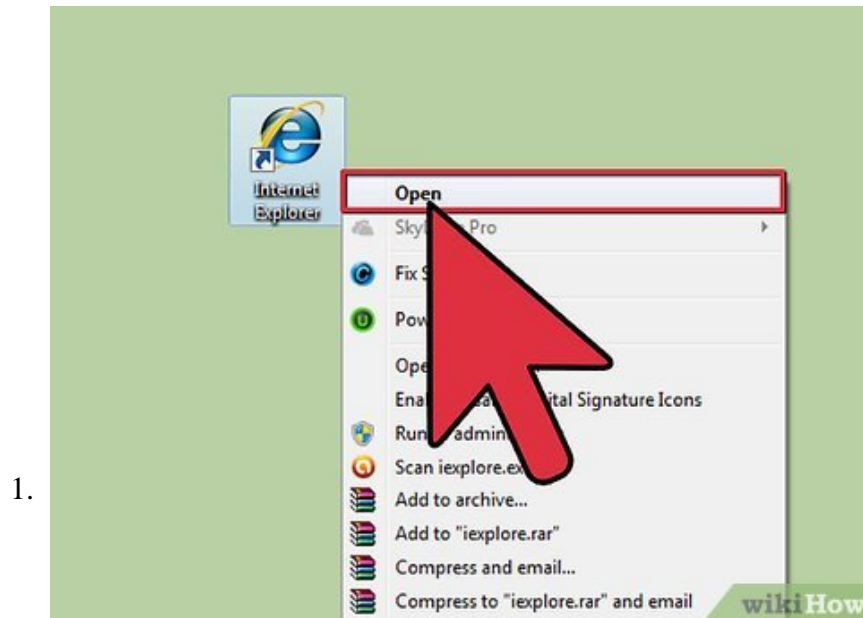

[1]

Click **Reset Firefox...**. Resetting Firefox will keep your history, bookmarks, passwords, saved forms, and cookies, and restore everything else to Firefox's initial state. If you use any browser extensions, you will have to reinstall them after the reset process is complete.

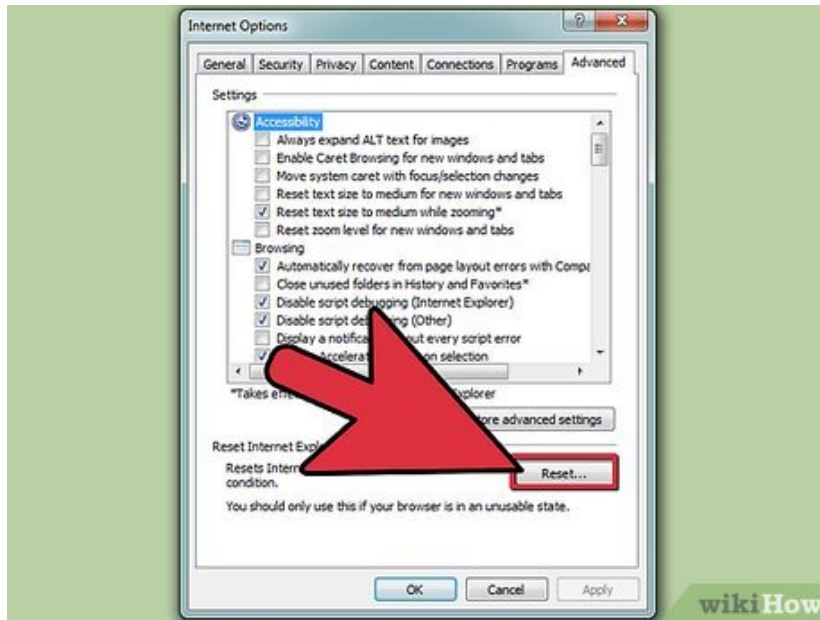

Method 4 of 4:

## Removing VisualBee from Internet Explorer

**Open Internet Explorer and select Tools from the menu.** Tools is represented by a gear icon in later versions of Internet Explorer. From Tools, select Internet Options.<sup>[2]</sup>

2.

Click on the **Advanced** tab and click **Reset...**. Resetting Internet Explorer will remove all components of VisualBee from your browser. It will also delete your browser add-ons and saved passwords, so make sure you have your saved passwords written down elsewhere before completing the next step.

3.

Check off **"Delete personal settings"** and click **Reset**. Restart Internet Explorer and reinstall any add-ons that you regularly rely on.
