

# How to rename Facebook 1 word fastest

To rename Facebook to 1 word, we need to change Proxy to Indonesia. Users can then change Facebook to an arbitrary word.

When you create a Facebook account by any method, will default to the Facebook name will have 2 or more words. This means that you must enter the new Full Name and Name in full and proceed to the next steps. However, we can now name Facebook 1 word.

Your Facebook will have only 1 word, completely different from other Facebook that displays 2-letter names. To do this, the user is forced to change the Proxy from Vietnam to Indonesia, then select the appropriate Proxy address. This will not affect your personal Facebook account, so you can rest assured. Here are 2 ways to rename Facebook 1 word.

1. The fastest way to download Facebook videos to your computer without software
2. How to recover deleted messages on Facebook
3. 2 ways to rename Facebook when less than 60 days or more than 5 times

## Instructions to rename Facebook into 1 word

### Method 1: Use GeoProxy utility

#### Step 1:

Log in to your personal Facebook account and click on **Settings** .

## Step 2:

Switch to the new interface and click on **the Language section** to proceed to change for Facebook.

Look to the right of the section **What language do you want to use Facebook?** We will select **Indonesian** language and then click **Save changes** button.

Thus the Facebook interface has changed to the Indonesian interface.

### Step 3:

Continue to click on **the Umum section** and then look to the right of **Nama** , click on the current Facebook name and click on **Sunting** to edit the name.

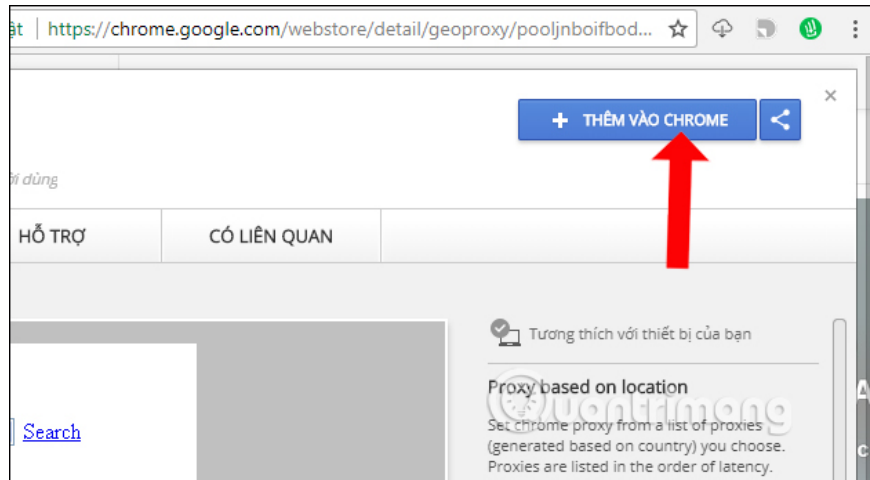

The interface of Facebook name changes appears as shown below. You just keep this interface.

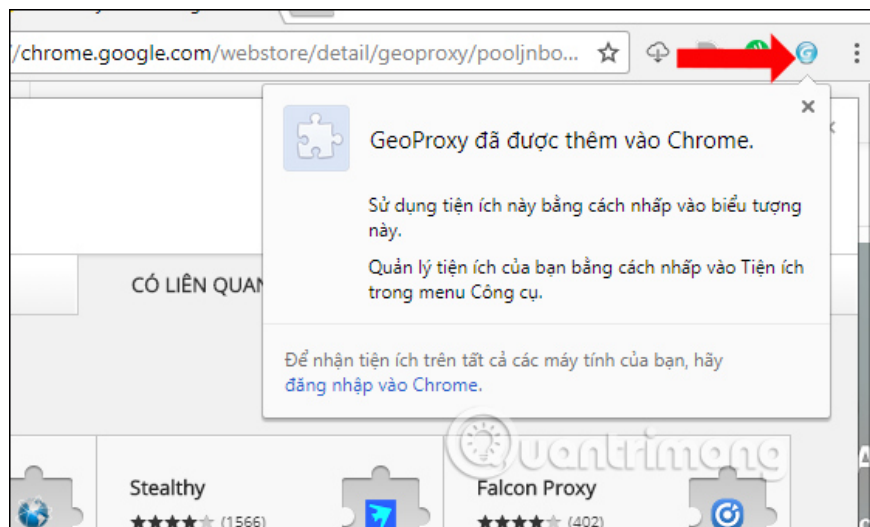

#### Step 4:

Open a new tab on Chrome and then access the link below to install the GeoProxy utility. Click **Add to Chrome** to install.

##### 1. Download the Chrome GeoProxy utility

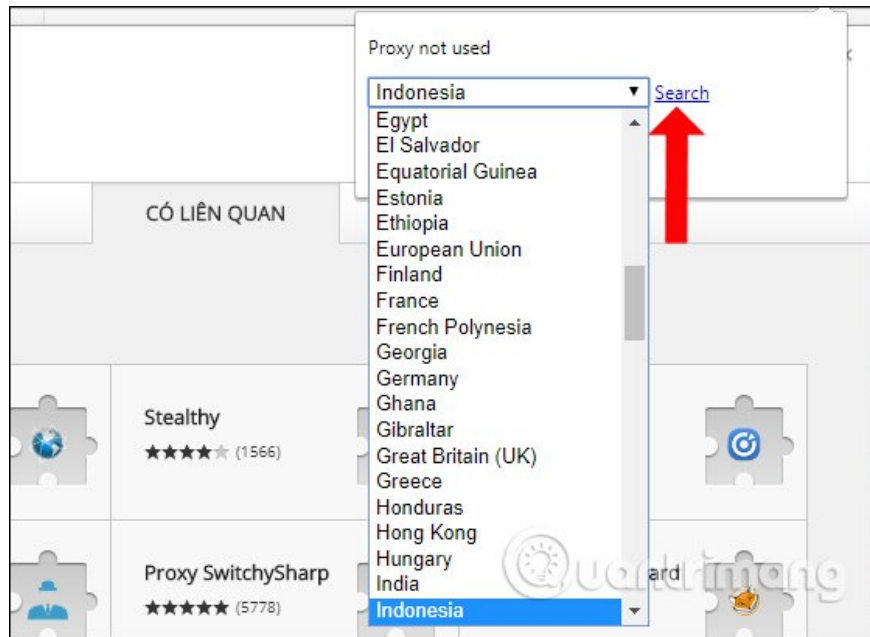

The successful installation wizard will appear with a picture like the one below, followed by a **G symbol** at the end of the address bar.

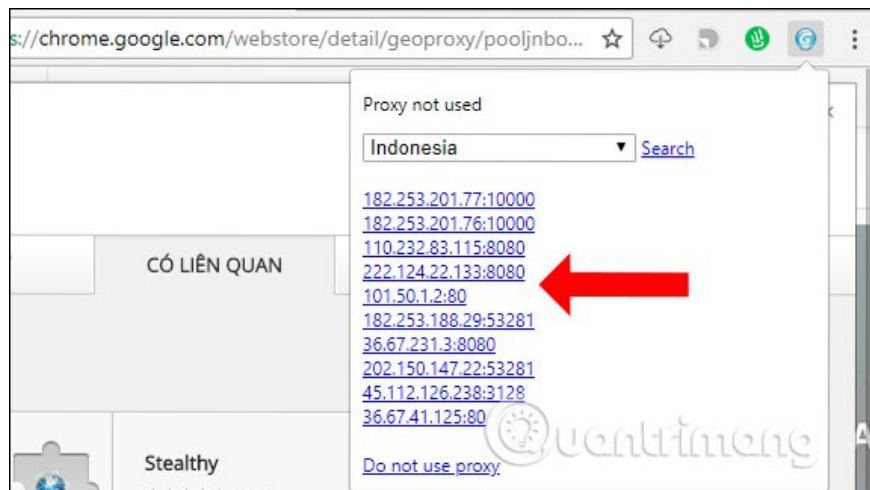

#### Step 5:

Next click on **the letter G icon** and select the **country as Indonesia** in the Select section and then click **the Search button** next to it.

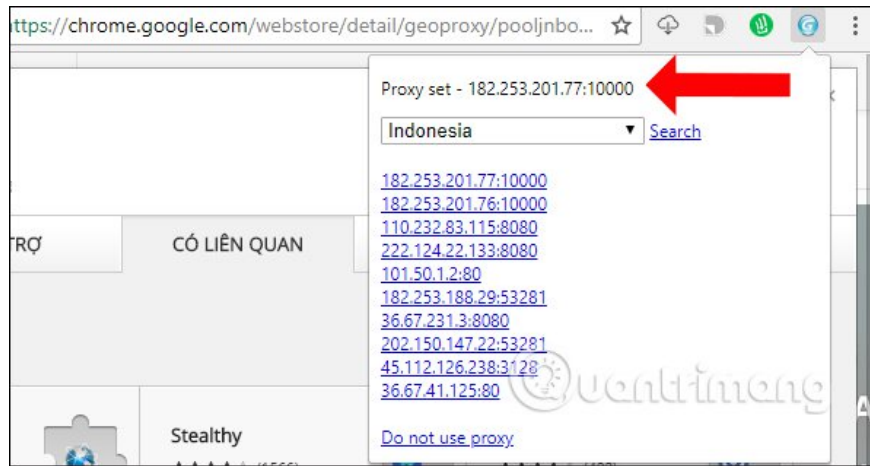

**Step 6:**

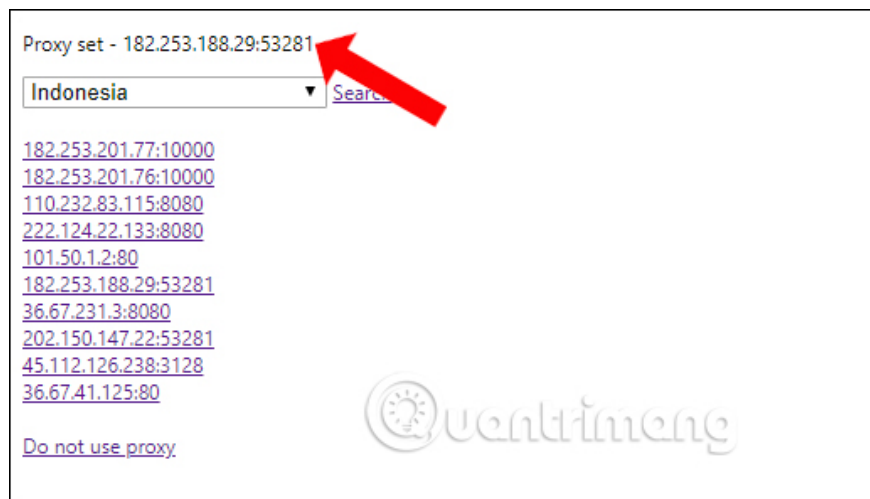

A list of a variety of **Proxy addresses** appears for users to choose from. Click on a Proxy to use.

Then, the utility will notify the Proxy address that you are using in **Proxy set** .

**Note to users** , when you choose to use Proxy addresses, there will be a case of Internet connection loss, so try each Proxy. TipsMake.com tried it on the device and the address 182.253.188.29 m<sup>2</sup>3281 is relatively stable.

### Step 7:

Go back to the Facebook renaming interface. Now we just need to **enter the Facebook name 1 word to change**, click **Tinjau Perubahan** to save.
