

How to rename Facebook 1 word

You are familiar with Facebook's name with 2 words, because by default when you create Facebook, Facebook requires you to enter 2 full Name and First names boxes. Do you want your Facebook name simpler and more unique with 1-word Facebook name? Very simple, you just need

You are familiar with Facebook's name with 2 words, because by default when you create Facebook, Facebook requires you to enter 2 full Name and First names boxes. Do you want your Facebook name simpler and more unique with 1-word Facebook name? Very simple, you just need to change the language to Indonesia, and change the Indonesian Proxy address to rename Facebook 1 word because only Indonesia country Facebook allows you to name with 1 word.

Below is a detailed guide on how to rename Facebook 1 word, invite you to refer and perform.

Step 1: Log in to Facebook

Log into the Facebook account you want to rename 1 word, on the interface you select the upside triangle icon and select Settings.

Step 2: Change the Facebook language to Indonesian

In the settings window, select **Language** in the list on the left.

On the right at the line **What language do you want to use Facebook?** select **Edit**.

Next you choose the language **Bahasa Indonesia** and select **Save changes**.

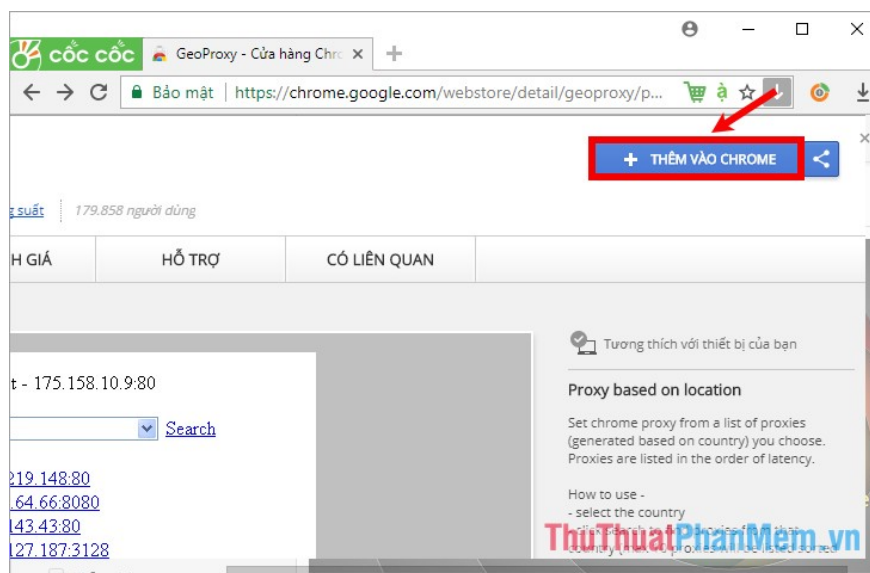

Step 3: Change the proxy on the web

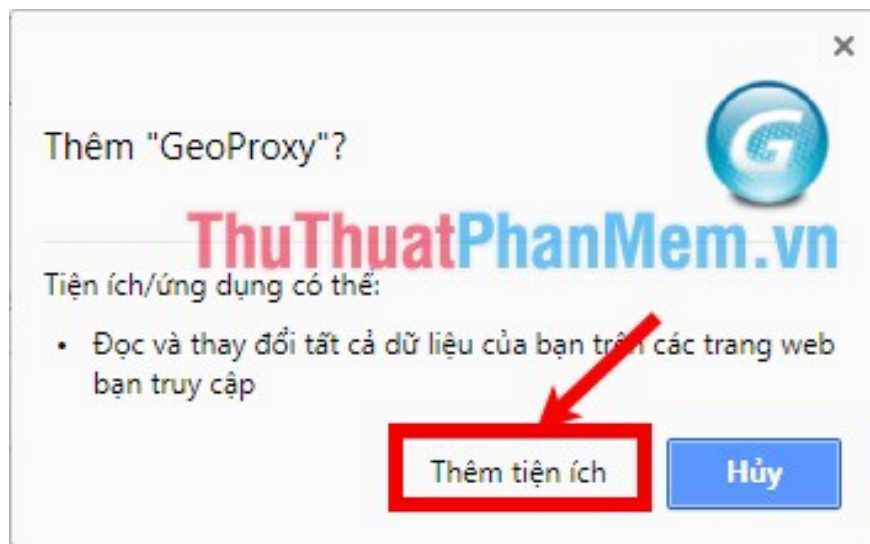

There are two ways to help you change the Proxy that is using the **GeoProxy** utility on **Chrome (Coc Coc)** and changing the Proxy on the web browser. You can follow one of the 2 ways below.

Method 1: Add the GeoProxy utility

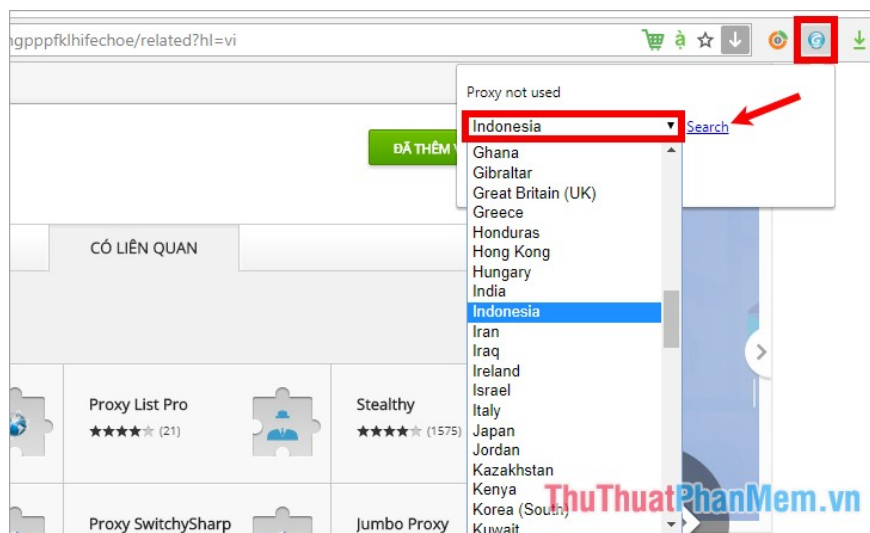

Step 1: Open a new tab on Chrome (Coc Coc) and visit the link <https://chrome.google.com/webstore/detail/geoproxy/pooljnboifbodgifngpppflkhifechoe?hl=en>, then click **Add to Chrome** to add extensions **GeoProxy** into the browser.

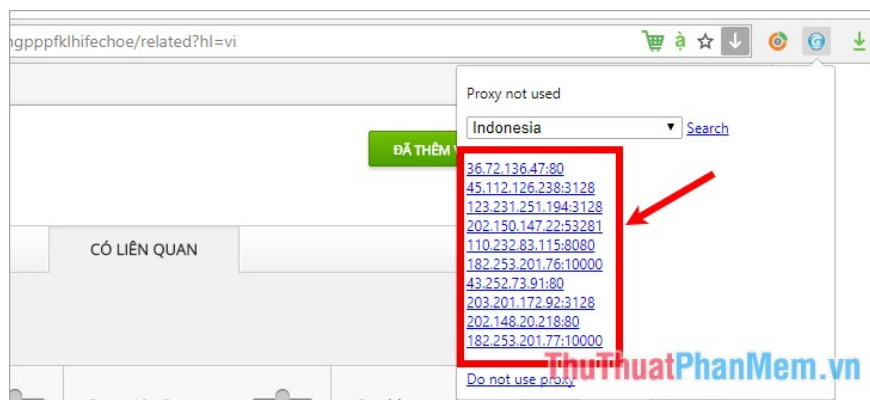

Confirm confirmation **Add GeoProxy** you choose **Add utility**.

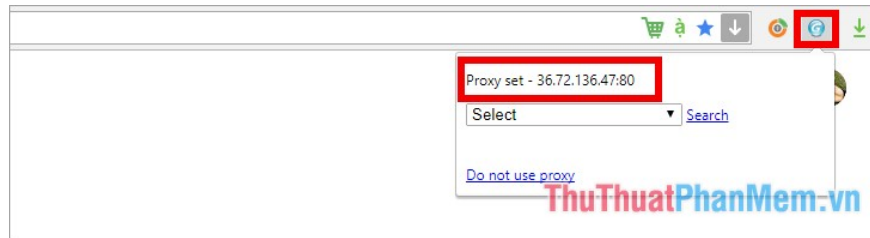

Step 2: Once **GeoProxy** has been added, the **GeoProxy** icon will appear at the end of the address bar. You select the icon of **GeoProxy** (the icon of the letter G) and select **Indonesia** and click **Search**.

Step 3: A list of Proxy addresses of **Indonesia** appears, you choose any **Proxy** to use, try each Proxy, if any Proxy is stable, use.

After selecting, you will see the message Proxy address you are using on the **Proxy** line .

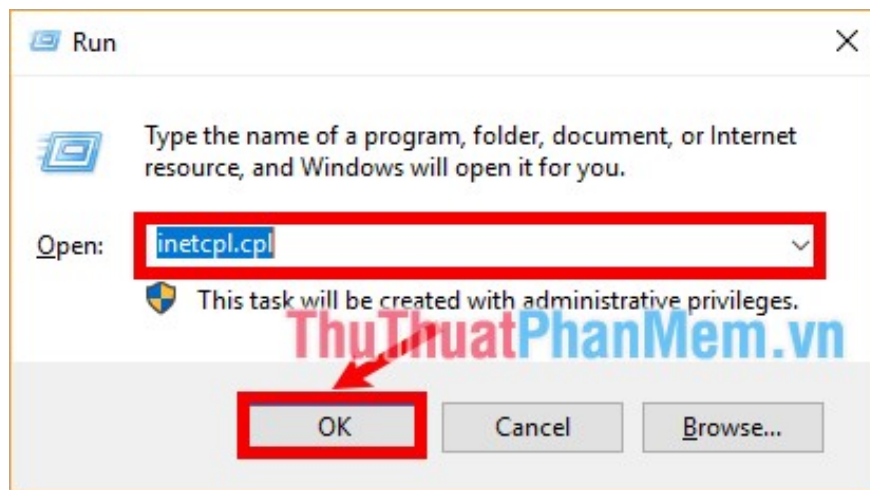

Method 2: Change the Proxy on the web

Step 1: Open a new tab on the web and visit the link <https://www.proxynova.com/proxy-server-list/country-id/>, here is the Indonesian Proxy list. You choose 1 **Proxy IP** and any **Proxy Port** .

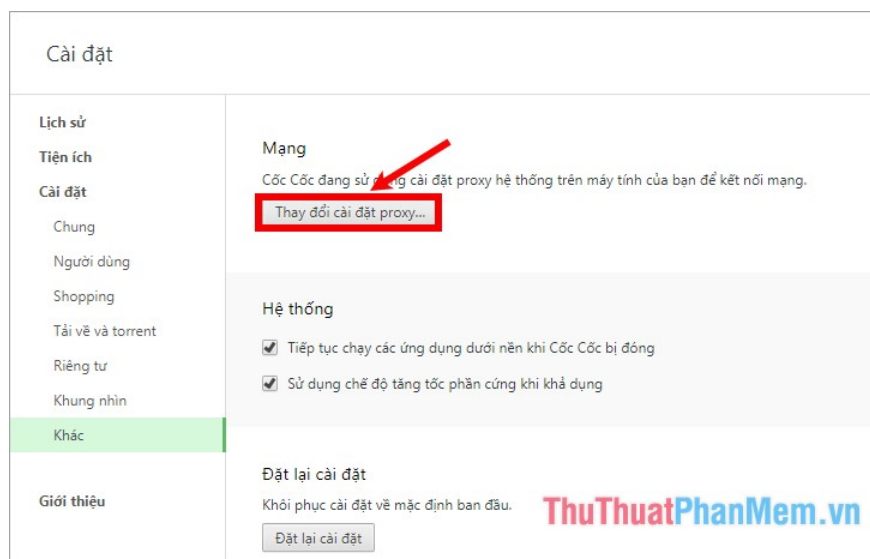

*Note: should choose ip with green **Proxy Speed** , high **Uptime** .*

Proxy IP	Proxy Port	Last Check	Proxy Speed	Uptime	Proxy C
103.254.126.145	88	✓ 39 sec ago	3560 ms	22% (231)	Indonesia
110.136.104.187	80	✓ 40 sec ago	1558 ms	97% (81)	Indonesia - S
43.249.141.114	80	✓ 42 sec ago	2821 ms	57% (127)	Indonesia - S
36.72.230.27	8080	✓ 1 min ago	3445 ms	25% (217)	Indonesia - S
222.165.248.1	8080	✓ 1 min ago	4459 ms	5% (381)	Indonesia - S
203.128.65.227	8080	✓ 1 min ago	2949 ms	62% (117)	Indonesia - S
210.57.214.34	3128	✓ 1 min ago	2203 ms	75% (104)	Indonesia - S
180.241.128.136	8080	✓ 1 min ago	2076 ms	72% (107)	Indonesia
202.51.17.246	80	✓ 1 min ago	4366 ms	10% (317)	Indonesia - S
36.67.37.203	8080	✓ 1 min ago	2637 ms	83% (95)	Indonesia

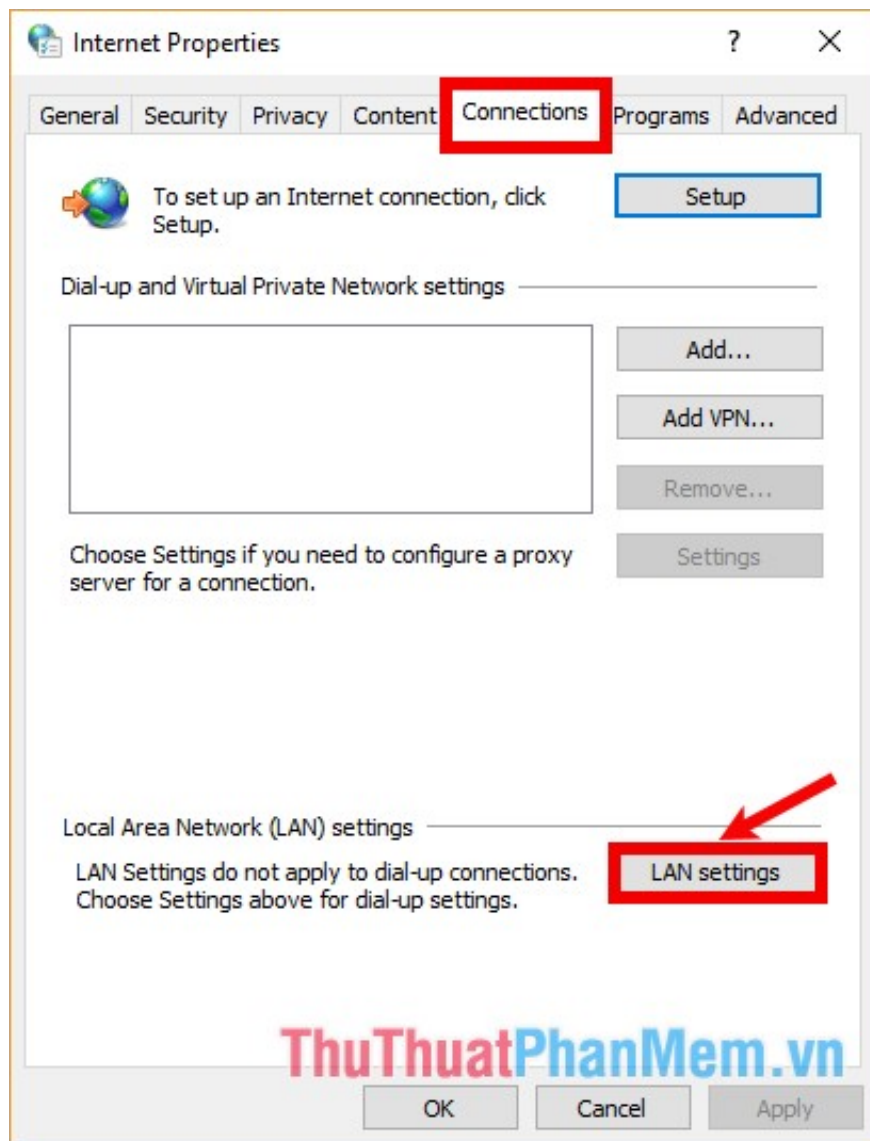

Step 2: Press the **Windows + R** combination , and enter the keyword **inetctl.cpl** into the **Run** dialog box and click **OK** .

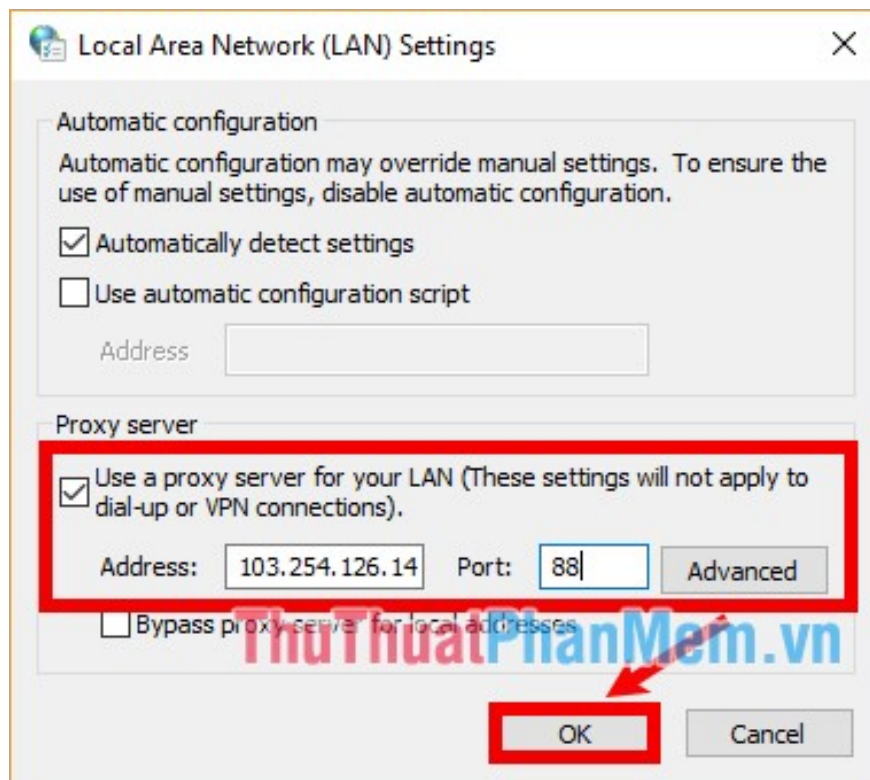

Or you can also go to your web browser's **Settings** and choose Change **Proxy Settings**.

Step 3: In **Internet Properties**, select the **Connections** tab , select **LAN Settings**.

Step 4: On the **Local Area Network (LAN) Settings** interface, select **Use a proxy server for your LAN** and paste the **Proxy IP** into the **Address** box , **Proxy Port** into the **Port** box and click **OK** .

After you have changed the proxy for the web browser, you go to step 4 to change the name of Facebook 1 word.

Step 4: Rename Facebook 1 word

Go back to the Facebook tab, in the Facebook settings interface , select **Umum** , and select **Edit** in the **Nama** line . Next, enter the name of Facebook 1 word you want to change into **Depan** , leave **Tengah** and **Belakang** blank , then click **Tinjau Perubahan** .

Appears interface asking for a Facebook password you enter the **password into the Kata sandi box** and select **Simpan Perubahan** to rename.

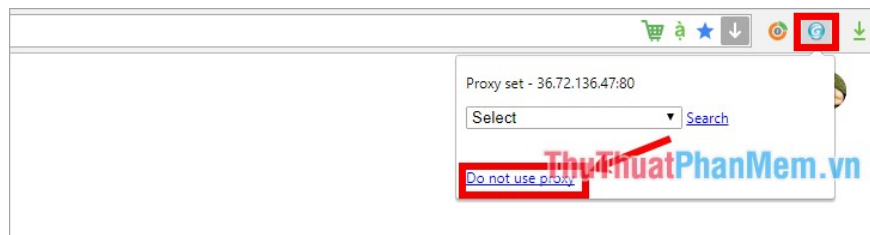

So you have successfully renamed Facebook 1 word.

Step 5: Set as the original

To return to the original you just need to delete Proxy in **LAN Settings** or un-use **GeoProxy** .

Next select the **Bahasa** section and change the Facebook language to **Vietnamese** or **English** .

Thus, the article has detailed instructions for you to change Facebook name 1 word, hope you will quickly change Facebook name 1 word after referencing this article. Good luck!
