

How to renew an ATM card when the ATM card expires

When the ATM card expires, the user cannot withdraw or make money transfer transactions at the ATM. Therefore, you need to apply for an ATM card renewal procedure when the ATM card expires.

ATM cards today have become a popular transaction method and are used by many people instead of the traditional way, because it brings great convenience to users. And every bank has its own rules about the **expiry date of ATM cards**. When the ATM card expires, the card owner cannot make money transfers or withdrawals on the ATM. To unlock the ATM card again, you need to **renew the ATM card** in accordance with the regulations of each bank. So how to extend ATM card.

1. ATM card expiry date

Domestic ATM card usage time of each bank will be printed on ATM card.

1. **Agribank's domestic ATM cards** are valid for 5 years from the date of issue, Visa, MasterCard cards are valid for 2 years and Student Link cards are valid for 2 years.
2. Domestic **ATM ATM card** has a validity of up to 7 years, Vietcombank international ATM card has 5 years of use.
3. **VietinBank ATM card is** valid for 5 years.
4. **VPBank ATM cards** are valid for 5 years.
5. **Techcombank ATM card is** also valid for 5 years.

Thus, in general, banks will have ATM card usage period within 5 years. However, the ATM card expiry date depends on the Bank that issued the card, the type of registration card and the type of registration individual or enterprise.

2. Instructions for renewing an ATM card when it expires

Bank ATM card renewal is generally the same.

1. The cardholder selects a branch / transaction office near you.
2. Inform the staff at the Bank to extend the card and produce ID, ID card to complete the procedure.
3. The Bank gives a declaration of card remitter information to confirm and submit to the Bank.
4. In about 5-7 days, customers return to the branch / PGD and present identification to get a new ATM card. The old ATM card will lock shortly after.
