

How to replace the new tab wallpaper on Chrome

Chrome 69 now has the option to download personal images as wallpapers for new tabs, instead of the default white background.

Chrome 69 version has officially launched users and all used computers can upgrade to this latest version. It's easy to see that the design in Chrome 69 has been transformed into a nice rounded design. In addition, the manufacturer also offers many new options in this Chrome version, such as changing the location of the New Tab button on Chrome, or choosing a personal image to create a background image for the new browser tab.

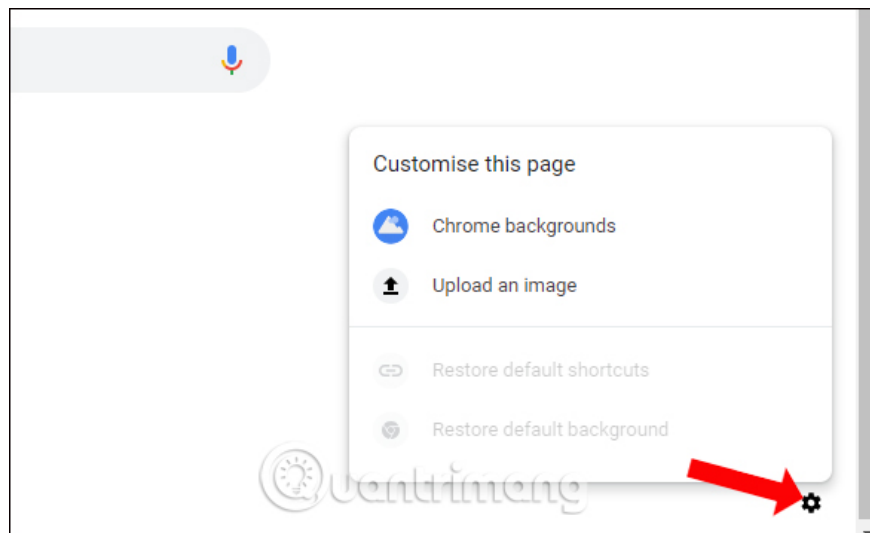

With previous versions of Chrome, users need to install a support utility to be able to change the wallpaper, and create a theme for the browser. However, when you upgrade to Chrome 69, you can immediately use your photos on your computer as a Chrome wallpaper. The following article will guide you how to change the background image on Chrome 69.

1. How to create standby screens, reminders on Google Chrome
2. How to put videos for New Tab interface on Chrome
3. How to install Material Design interface into Firefox

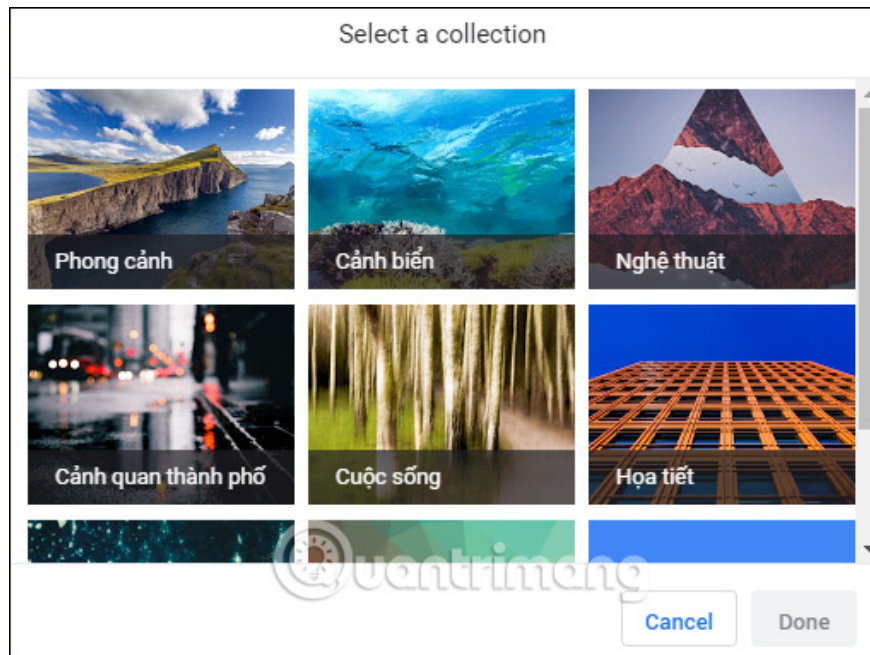

How to change New Tab wallpaper on Chrome 69

Step 1:

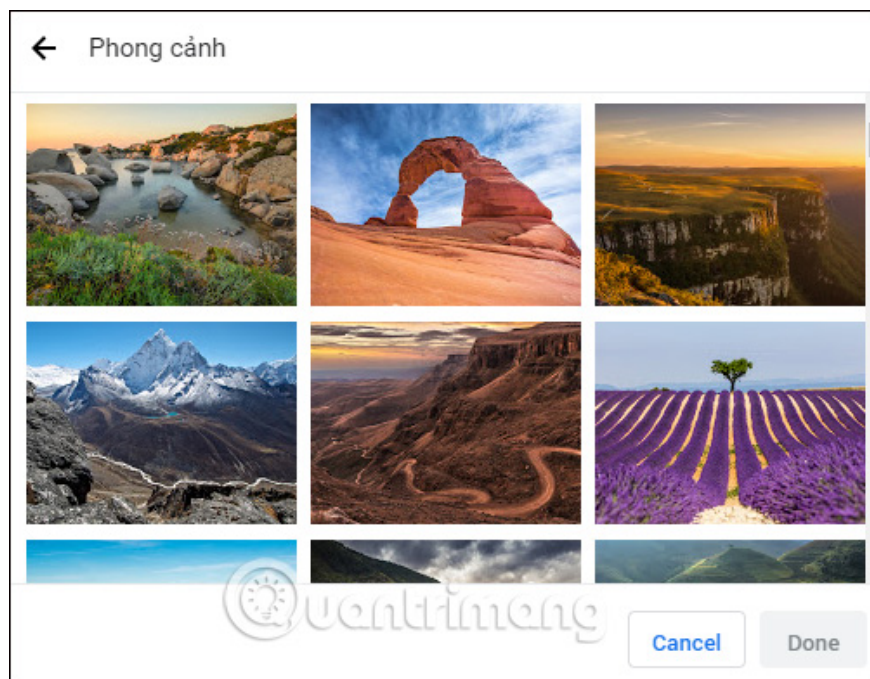

After upgrading to Chrome 69 at the new tab interface we will see a **jagged icon** . When you click on the jagged icon you will have 2 different image loading options, Chrome backgrounds and Upload an image.

Chrome backgrounds will take **background** images available on Chrome with different themes like Nature, Landscape, Seascape, Textures, .

Clicking on each topic will bring up another wallpaper for us to choose to use.

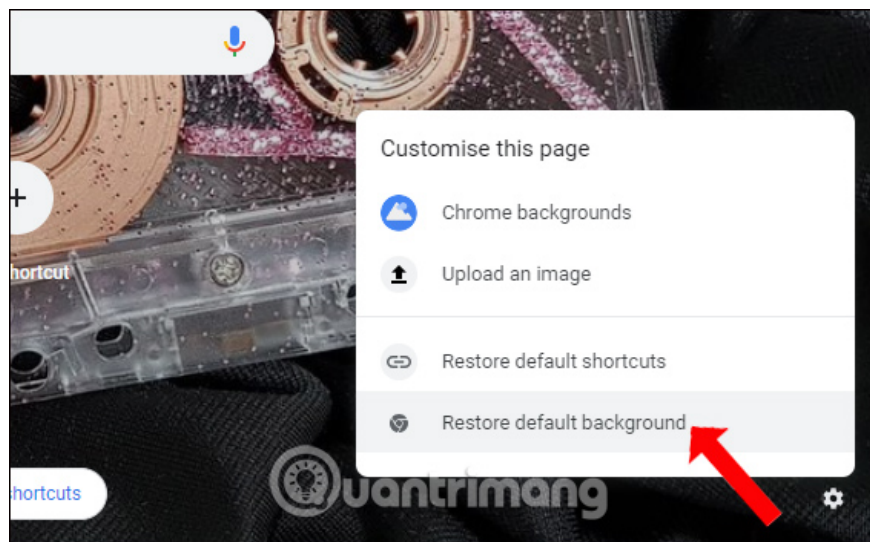

Step 2:

To download the wallpaper available on the selected computer to **Upload an image** . Display the folder on your computer to click on the wallpaper you want to use. Back to the new tab interface on the browser we will see a wallpaper for Chrome.

Step 3:

If you want to go back to the default white wallpaper on Chrome, click the gear icon to select the **Restore default background** .

So every time you open a new tab on Chrome, you will see the tabbed interface change with wallpaper according to different themes and styles. You can use wallpapers that Chrome provides or use images available in computers. With this new enhancement on Google Chrome 69, the manufacturer hopes to bring a new experience that is very simple to implement.
