

# How to resize cells in Google Sheets

There are several ways to adjust cell size in Google Sheets, including manually resizing cells or automatically adjusting column widths.

There are several ways to resize cells in Google Sheets, including manually adjusting cell sizes or automatically adjusting column widths to save time and effort. This article will guide you through the different methods for resizing cells in Google Sheets.

## Automatically resize columns in Google Sheets

To automatically resize cells in Google Sheets, **place your cursor at the right edge of the column header** you want to adjust until the cursor changes to a double-headed arrow.

	A	B	C	D
15	Họ tên	Ngày bắt đầu	Thâm niên ngày	m niên
16	Nguyễn Văn A	11/2/2000	8719	28
17	Trần Văn B	25/6/2005	6758	22
18	Phạm Thu Thủy	7/3/2012	4311	14
19	Hà Thị Mai	4/11/2015	2974	9
20				
21				

**Double-click** , and Google Sheets will automatically adjust the column alignment in the table.

	A	B	C
15	Họ tên	Ngày bắt đầu	Thâm niên ngày
16	Nguyễn Văn A	11/2/2000	8719
17	Trần Văn B	25/6/2005	6758
18	Phạm Thu Thủy	7/3/2012	4311
19	Hà Thị Mai	4/11/2015	2974

21			

To adjust the width of multiple columns at once , press the Ctrl key and then select the columns you want to adjust.

	C	D	E
	Thâm niên ngày	m niên th	Thâm niên năm
	8719	286	23
	6758	222	18
	4311	141	11
	2974	97	8

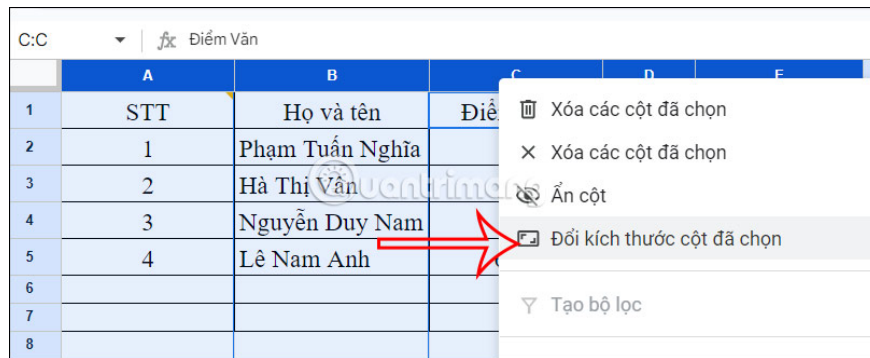

Next, place the cursor to the right of the selected column header. When the double-headed arrow appears, double-click .

	C	D	E
t đầu	Thâm niên ngày	m niên th	Thâm niên năm
000	8719	286	23
005	6758	222	18
012	4311	141	11
015	2974	97	8

**Adjust the cell size to fit your Google Sheets data.**

Step 1:

You select one or more columns in Google Sheets, then **right-click on any column** . An option will appear; click on "**Resize selected column** ".

## Step 2:

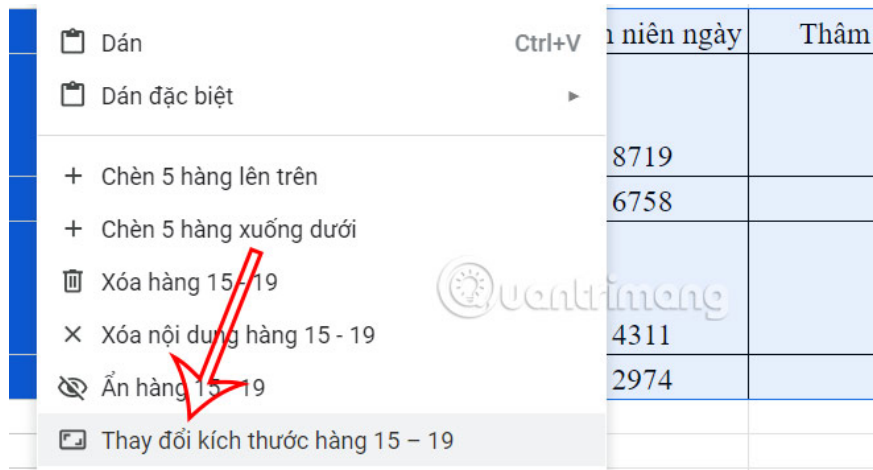

Once the interface is displayed, check the "**Fit data**" option and then click OK below to proceed. Immediately afterwards, the width of each column will automatically change to match the length of the data.

This will align the content displayed within one column without overflowing into cells in another column of the table.

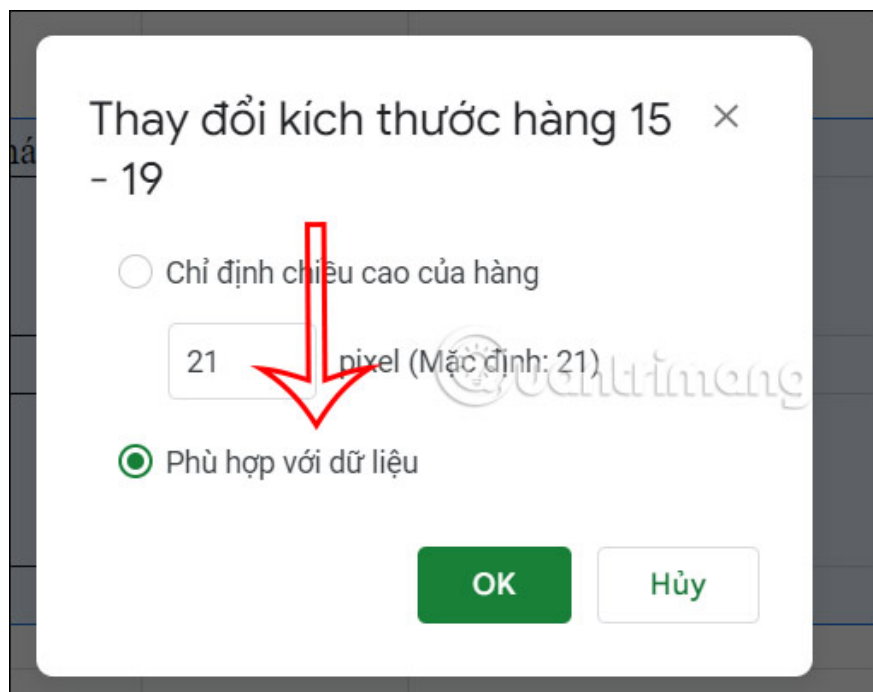

## How to adjust row size based on data in Google Sheets

We will select one or more rows in the Google Sheets table . Next, right-click on any selected row and click "**Resize row**" in the list.

A table similar to the image will appear; select "**Match data**" to proceed.

Immediately afterward, the rows automatically adjust according to the data in each row.

	Họ tên	Ngày bắt đầu	Thâm niên ngày	Thâm
15				
16	Nguyễn Văn A	11/2/2000	8719	
17	Trần Văn B	25/6/2005	6758	
18	Phạm Thu Thủy	7/3/2012	4311	
19	Hà Thị Mai	4/11/2015	2974
