

How to return to Windows 10's Start menu on Windows 11

Windows 11 has just been officially revealed with a new interface, a new attractive Start menu. However, if you do not want to use the new Start menu, you can still return to the old Start menu on Windows 10.

It's pretty simple to do, just follow these steps:

How to return to Windows 10's Start menu on Windows 11

To enable the old Start menu of Windows 10 on Windows 11 you need to modify the Registry Editor. There are two ways to edit Registry Editor, the first way is to download the pre-fixed file and install it, the second way is to find the key to edit it yourself.

Method 1: Download the pre-edited Registry file

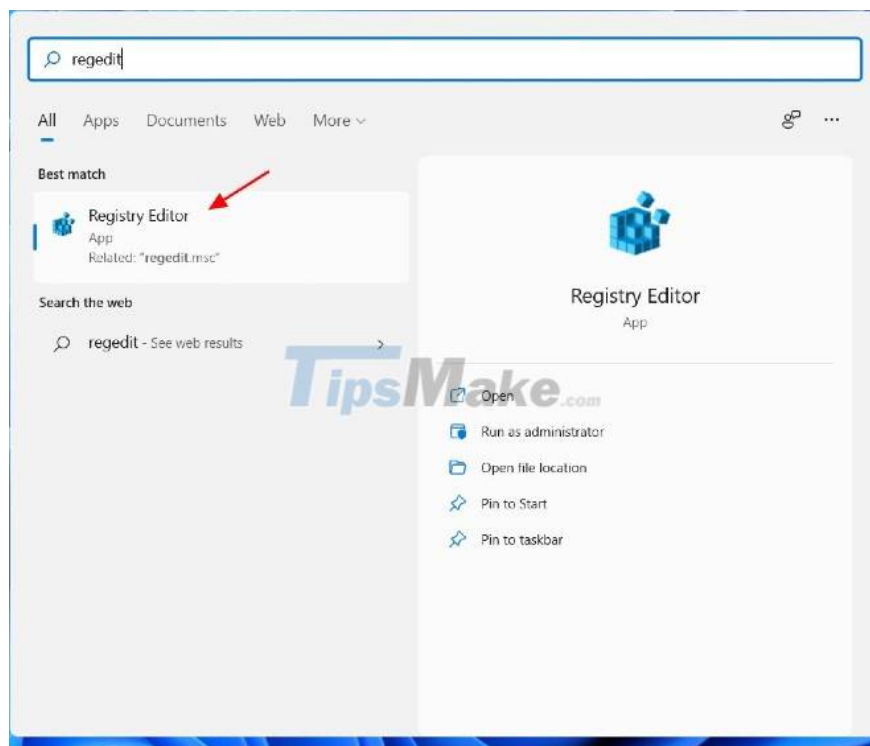

1. You access the link to download the pre-edited Registry file to download the pre-fixed .reg file to activate the Windows 10 Start menu on Windows 11
2. After downloading, you double-click the file to run
3. In the new confirmation window that appears, select **Yes > Yes** like in the image below

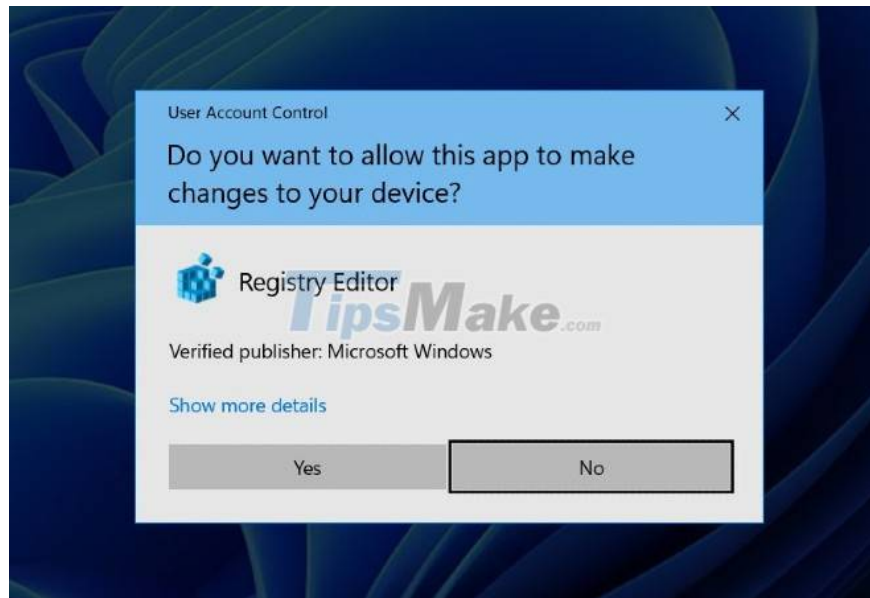

Once done, you just need to restart your computer to apply the changes to your Windows 11 computer.

Method 2: Edit the Registry file yourself

1. You press the **Windows + R** key combination to open **Run** then type **regedit** and press **Enter** to open the Registry Editor. Or press the **Start** button then type **regedit** and click Registry Editor in the search results qu?

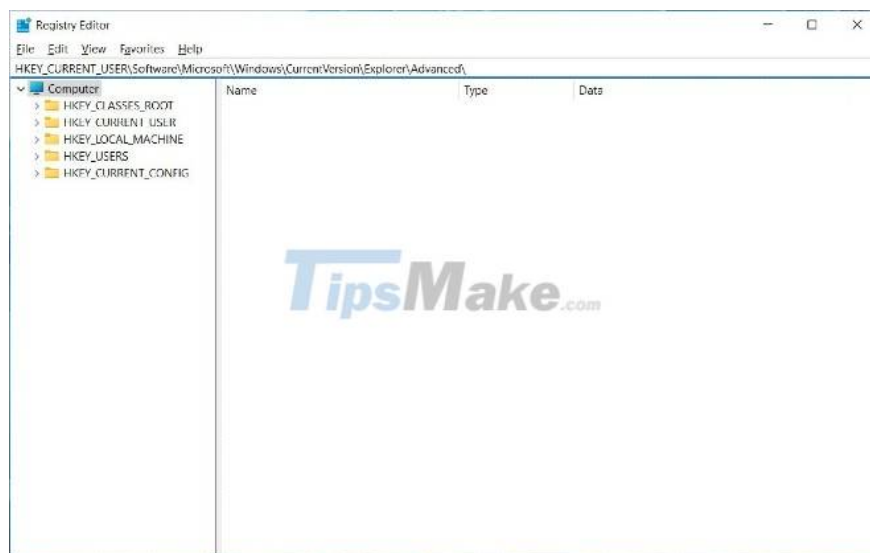

In the confirmation window, click **Yes** to access and modify the Registry Editor

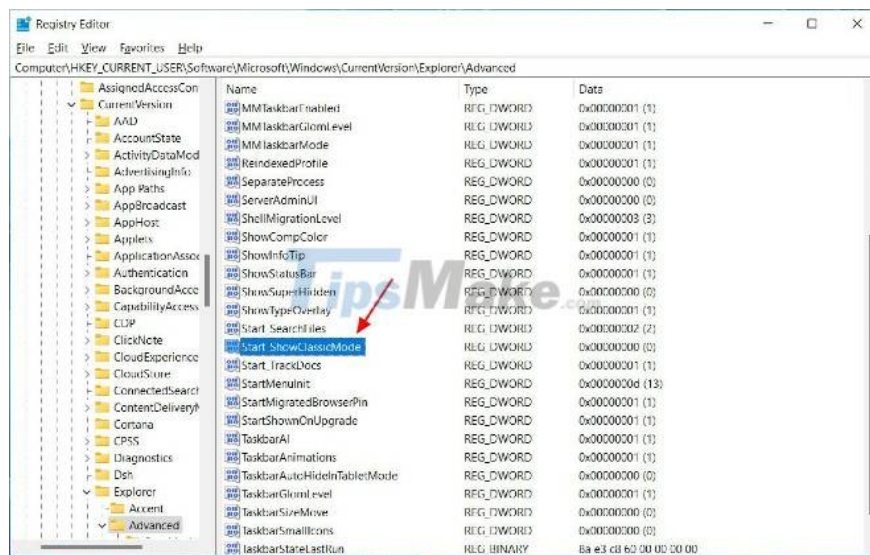

Next, you search for:

HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced?

You search for the key " **Start_ShowClassicMode** " and double click to open it

1. In the " **Value data** " box, enter **1** and then click **OK**
2. Now, close the Registry Editor and then restart your computer to apply the changes

Good luck!
