Have you ever seen a video that was upside down? Surely when you see that case you will find very uncomfortable. So, the following article of TipsMake.com will guide you some ways to rotate a reverse video, please refer.

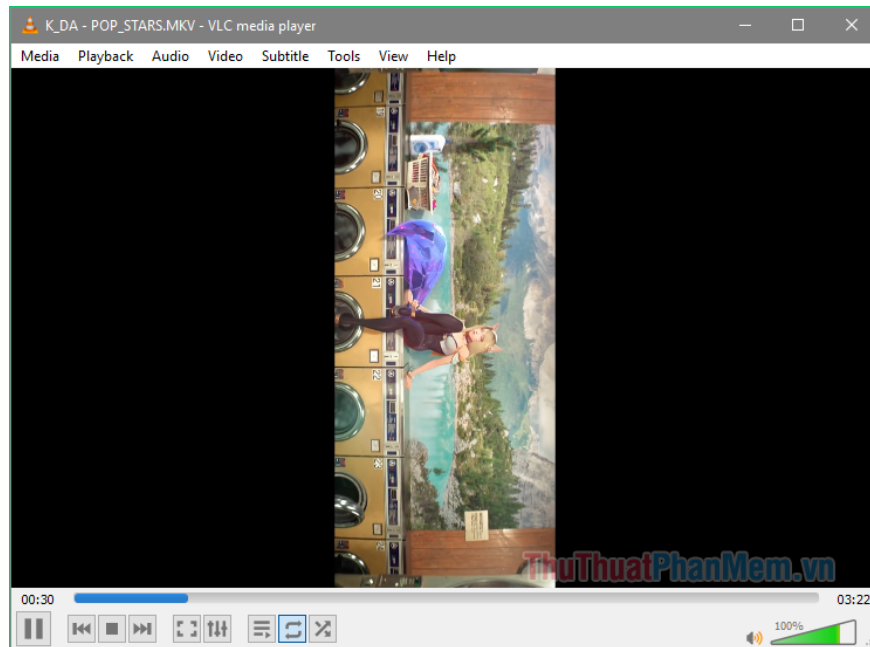

1. Use VLC Player to record video in the opposite direction

VLC Player is a famous video player software so you must know it. It is important that when watching videos with VLC we can freely rotate the video in any direction we want.

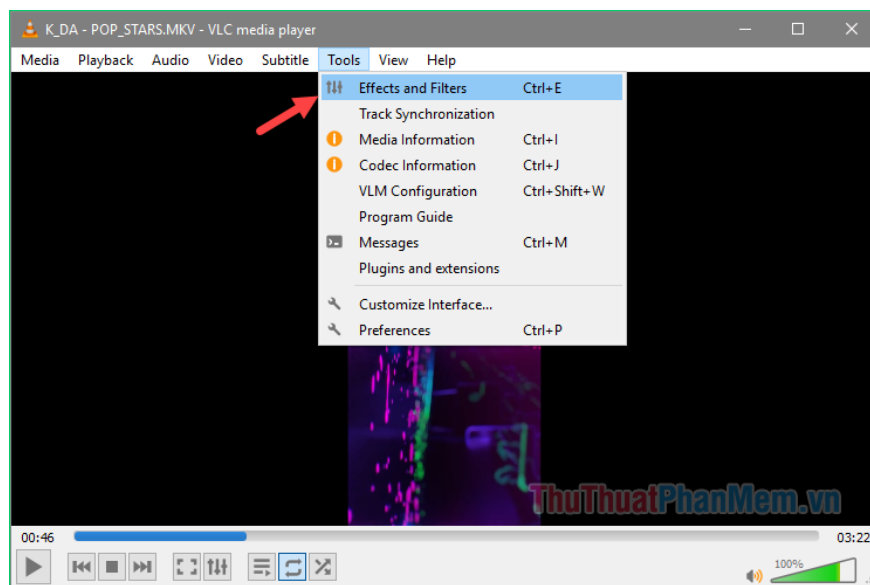

Step 1 : If your computer does not have VLC Player installed, download and install the VLC Player software here.

<https://www.videolan.org/vlc/download-windows.vi.html>

Step 2 : How to open the video turned upside down by VLC Player by right-clicking on the video and selecting Open with -> VLC Media Player.

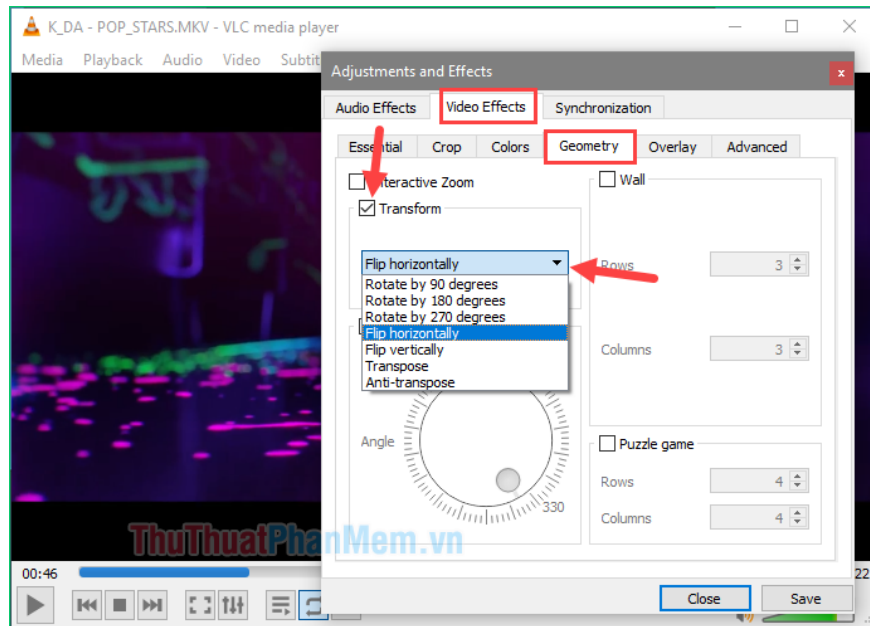

Step 3 : Select **Tool -> Effects and Filters** or press **Ctrl + E**.

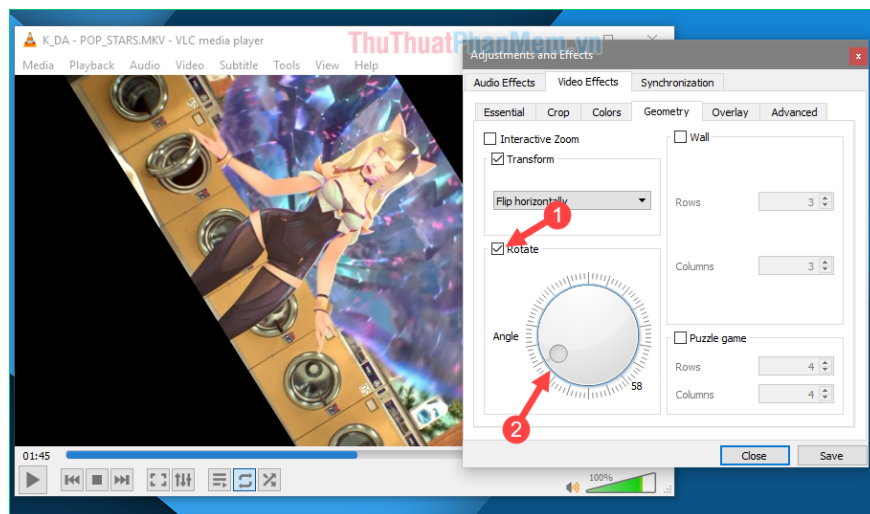

Step 4 : A new window appears, select the **Video Effects** tab and then select the **Geometry** tab .

Next, you tick the **Transform** box and then select the direction you want to rotate in the box below, you just select the turn so that the video straightens out.

Or you can check the Rotate box and rotate the circle button below, how much you rotate the image, the video will rotate the same way.

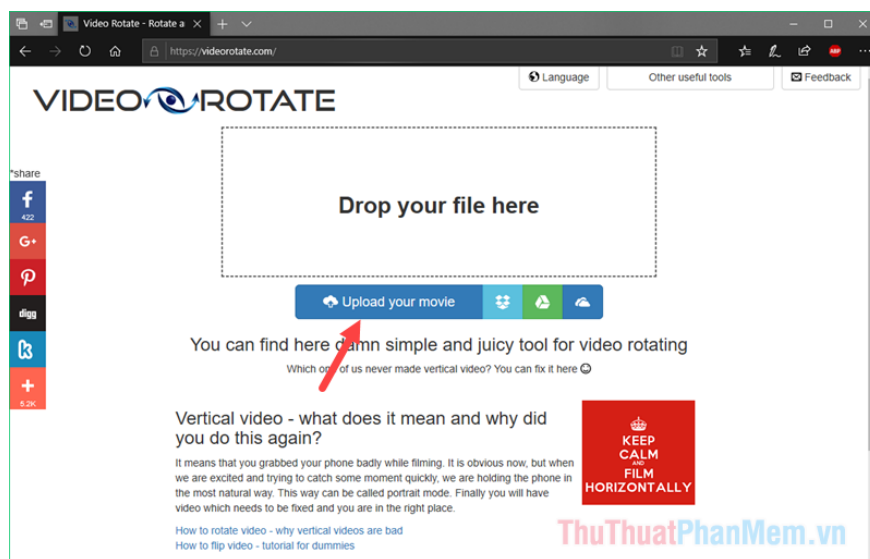

After finishing, click Save and the result will look like the picture:

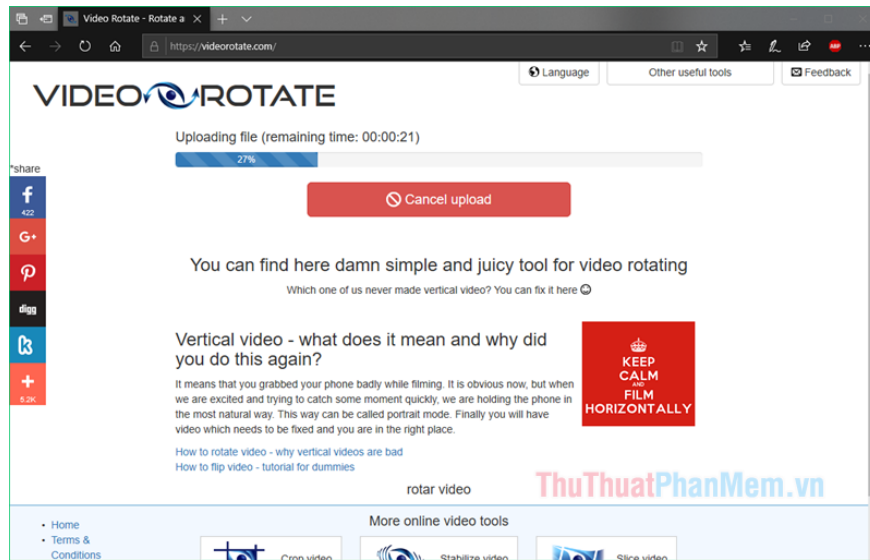

2. Rotate videos with online tools

Step 1 : Visit the website <https://videorotate.com/> to use the online video rotation tool **Video Rotate**.

You select **Upload your movie** or drag and drop videos into the rectangular frame to upload videos.

Video upload process is happening:

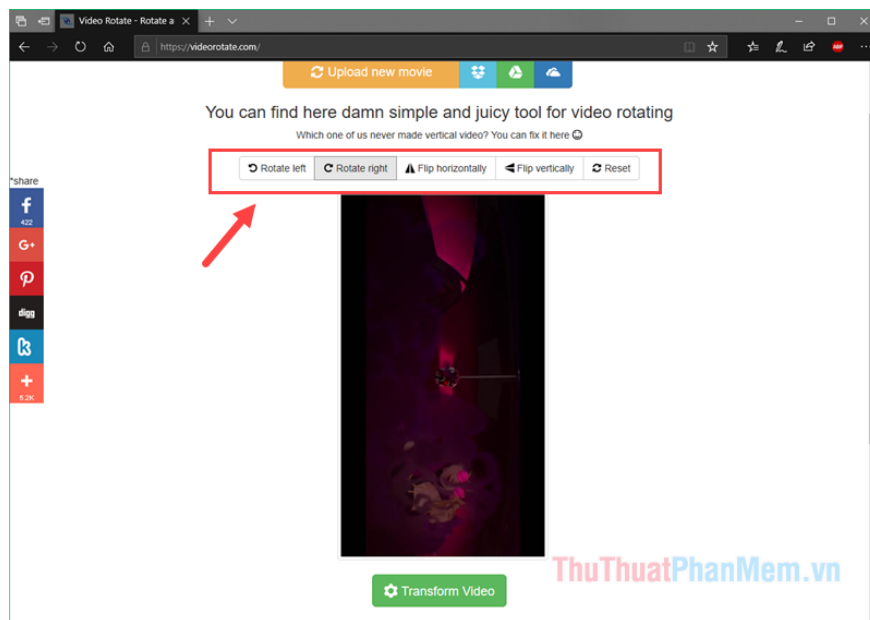

Step 2 : After the Upload is complete we have the following options:

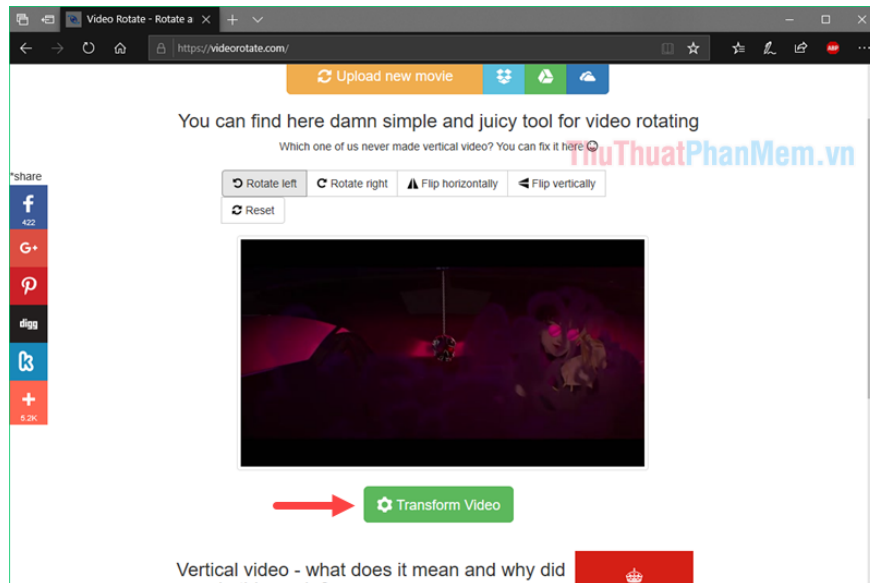

Rotate left, Rotate right : rotate left, rotate right.

Filp horizontally, Flip vertically : flip horizontally, flip vertically.

Reset : to original video.

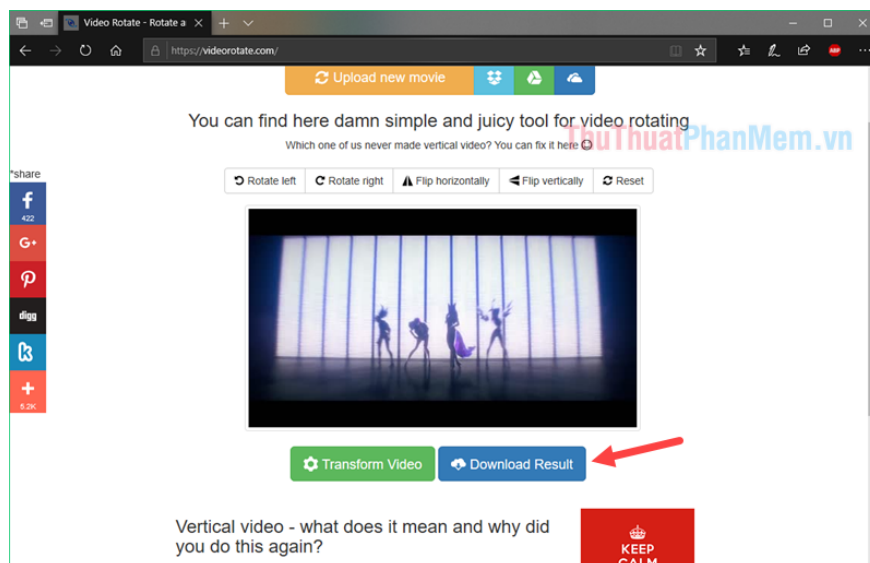

Step 3 : After rotating the video in the direction you like, select **Tranform Video** to start the conversion process.

The video conversion process is fast or slow depending on the video length.

Step 4 : After the video has been successfully converted, select **Download Result** to download the video to your computer.

Above TipsMake.com introduced to you a number of ways to be able to rotate the video backwards easily. Hope you see the article, wish you success!
