

How to save bookmarks on Google Chrome and Coc Coc to your computer

Saving Chrome and Coc Coc bookmarks down your computer helps users get back their important bookmarks.

Bookmarking on the browser helps users to save important and necessary websites for review whenever needed. Users do not need to waste time searching for those important sites again, just open the bookmark. And if the computer is infected with a virus, or has trouble reinstalling Win or reinstalling the browser, these bookmarks will usually disappear, if the user does not back up the bookmark before.

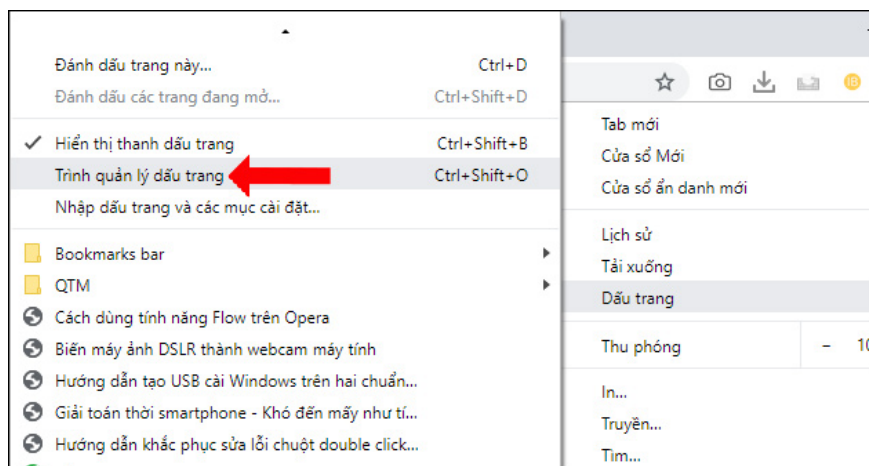

There are backup and restore features on browsers, which helps us retrieve all previous bookmarks. Bookmark is compressed into HTML file and when retrieved just enter the HTML file into the browser bookmark is done. The following article will guide you how to back up bookmarks on Chrome and Coc Coc.

1. How to manage Chrome bookmark folder by shortcut
2. Sync bookmarks, extensions and other browser data between computers
3. How to secure bookmarks on Google Chrome browser?
4. Fixing the Bookmark icon error on Chrome browser is "missing"

1. Backup and restore bookmark on Chrome

Step 1:

At the Chrome browser interface we click on **the 3 dot icon** and then select **Bookmark** in the displayed list, then select Next **bookmark manager** .

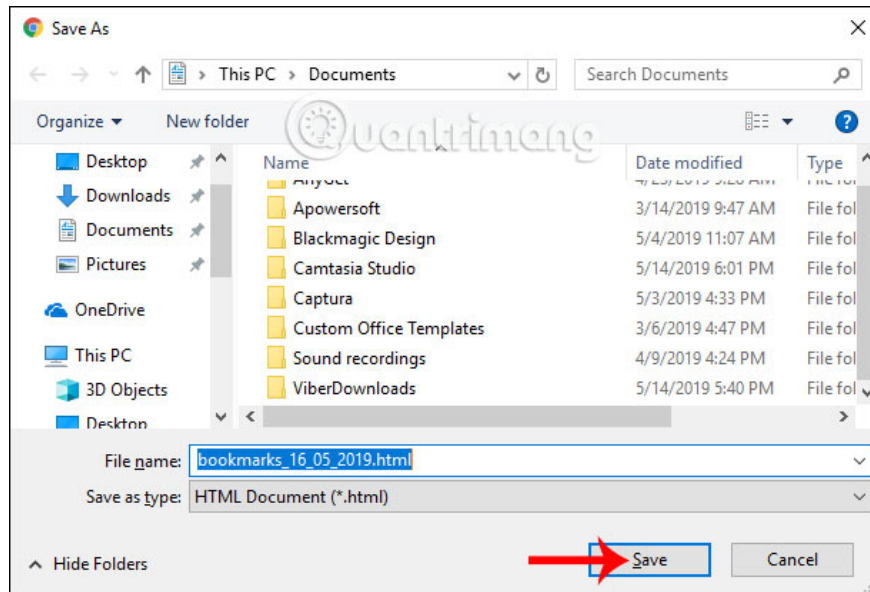

Step 2:

Displays the list of bookmark lists that you have saved in your browser. Here we click on **the 3 vertical dots icon** on **the far right of the screen**, then select **Export bookmarks** .

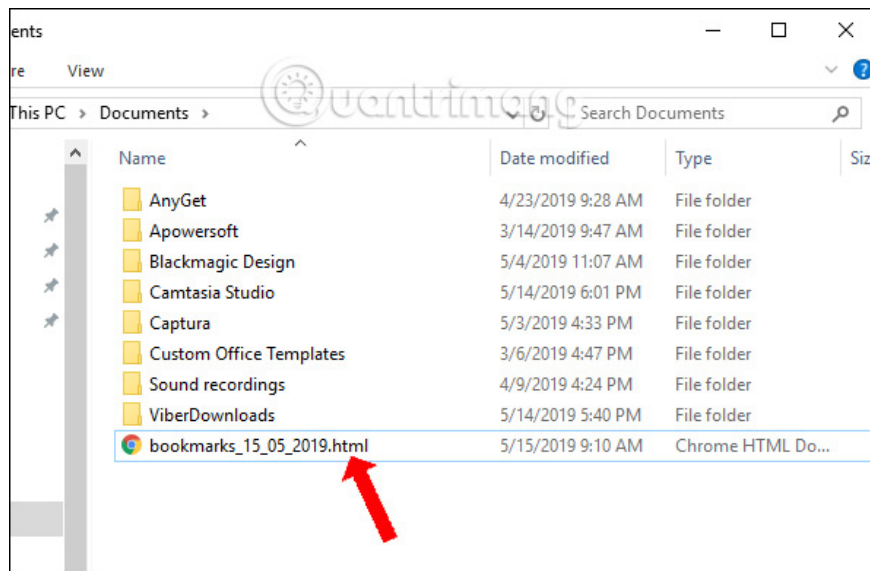

Step 3:

Display the computer folder so we can **save the HTML bookmark file** . The bookmark name is the time we back up the bookmark on Chrome to the computer. Click **Save** to save.

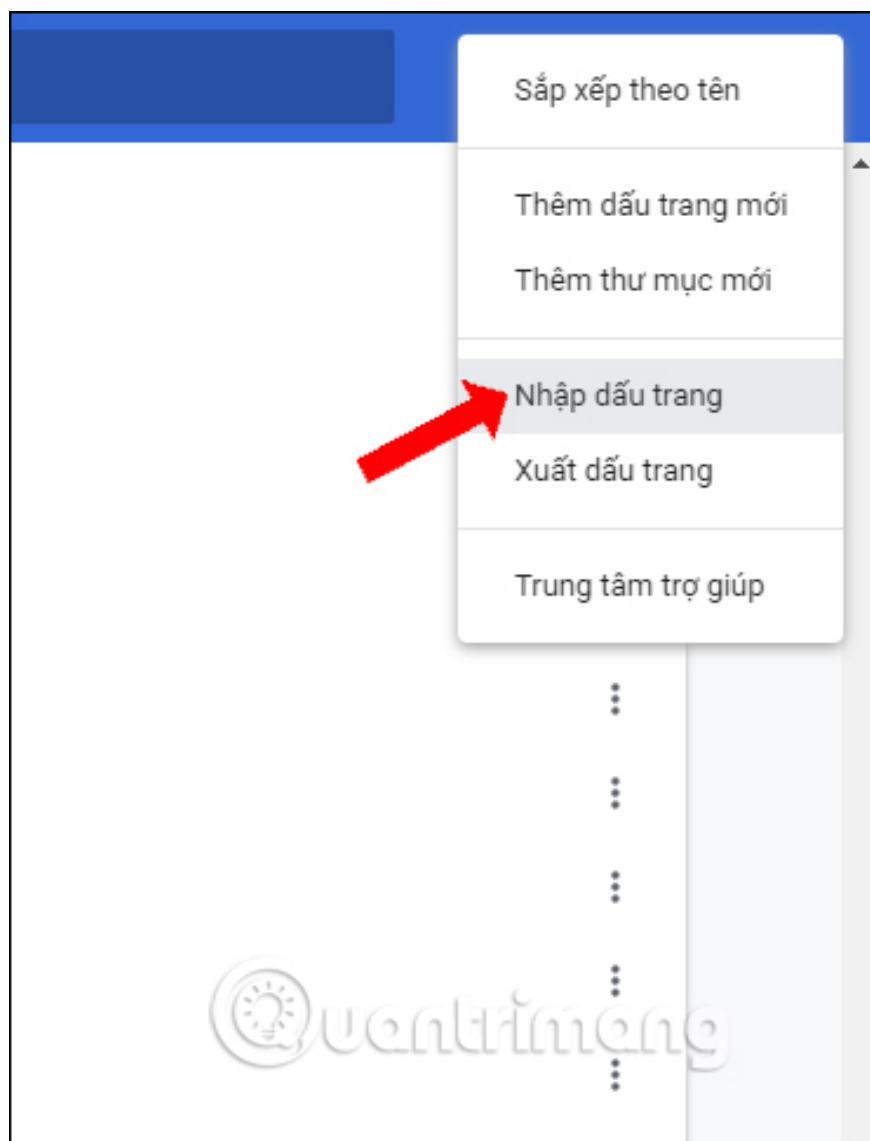

The result of the bookmark file is saved to the computer as shown below.

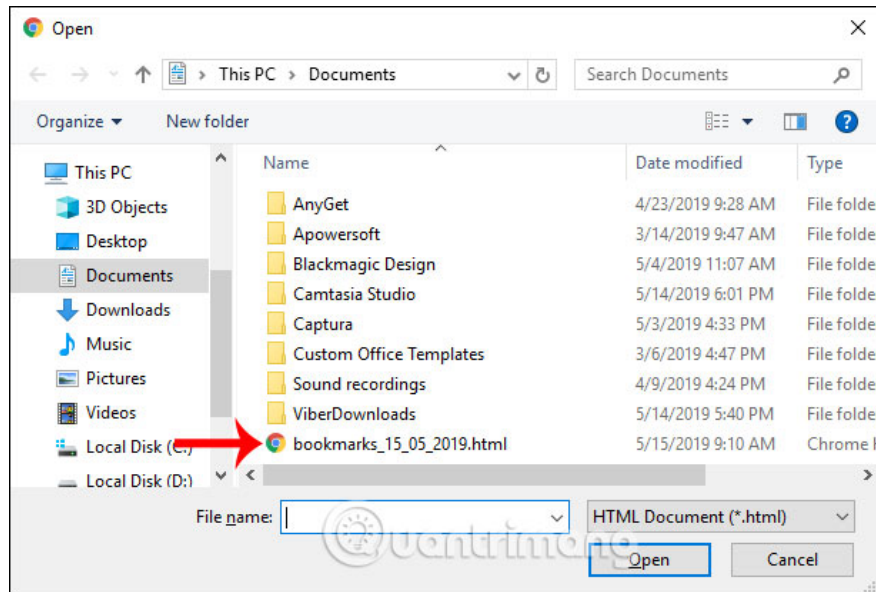

Step 4:

After reinstalling Win or Chrome and want to retrieve the bookmark file, **importing bookmarks into the Chrome browser** we also open the bookmark management interface. Click the **3 dot icon** and then select **Import bookmark** .

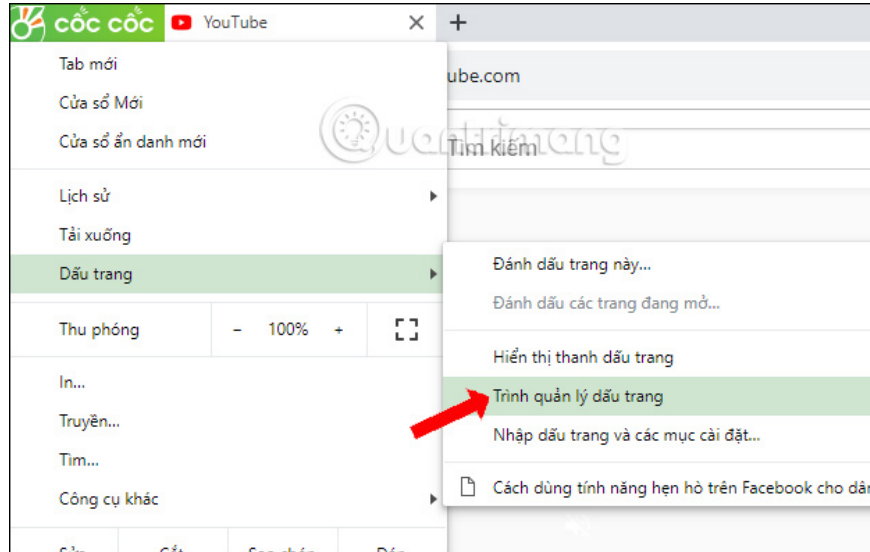

Then find the HTML bookmark file saved on your computer and click **the Open button** .

2. How to backup and restore Coc Coc bookmarks

Step 1:

At Coc Coc browser interface, we click on **Coc Coc** in the top left corner of the screen, select **Bookmark** and then click on **Bookmark manager**.

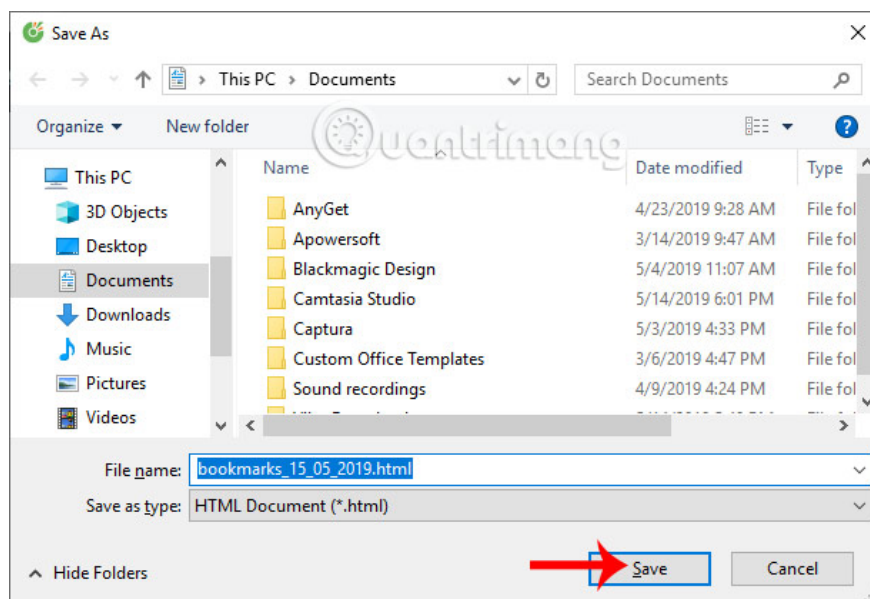

Step 2:

Switch to the new interface, users also click on **the 3 dots icon** in the right corner of the screen, choose to continue to **export bookmarks**.

Display folder to save HTML bookmark file for Coc Coc browser.

Step 2:

To **import saved bookmarks into the browser** , you click on **the 3 dots icon** in the browser bookmark page and select **Import bookmarks** . Then we just need to click the HTM bookmark file to import it into the browser.

Backup and restore operations are similar in Chrome and Coc Coc browsers. After restoring, the order in which the bookmarked web pages are displayed remains the same.

I wish you all success!
