

# How to save data played Adorable Home

To save what you played in Adorable Home, please follow the instructions below this article.

To own a spacious property in Adorable Home, you will be quite hard to build. Not to mention the "giu" that you have to leave your heart to own and a lot of other things.

However, Adorable Home does not have an account login mechanism to save the data you have played. So if you're playing Adorable Home on a computer and switching to a smartphone or playing on iOS and switching to Android, you'll have to play it from the beginning. Or when the game encountered an error that caused you to delete and reinstall the game from the beginning.

But don't worry, there's a way you can save what you've played on Adorable Home. However, this tip is only available on Android, to save the data played Adorable Home please follow the instructions below.

## Instructions to back up the data played in Adorable Home

**Step 1:** First, go to the Files Management application> select the Android folder> data> com.hyperbeard.adorablehome> Files and copy the 5 txt files as shown below.
