

# How to save Firefox websites as PDF

Currently, all web browsers have supported you to save websites as PDF files. It's easy to save a webpage as a PDF in Firefox, just as you can save a webpage in Chrome as a PDF file.

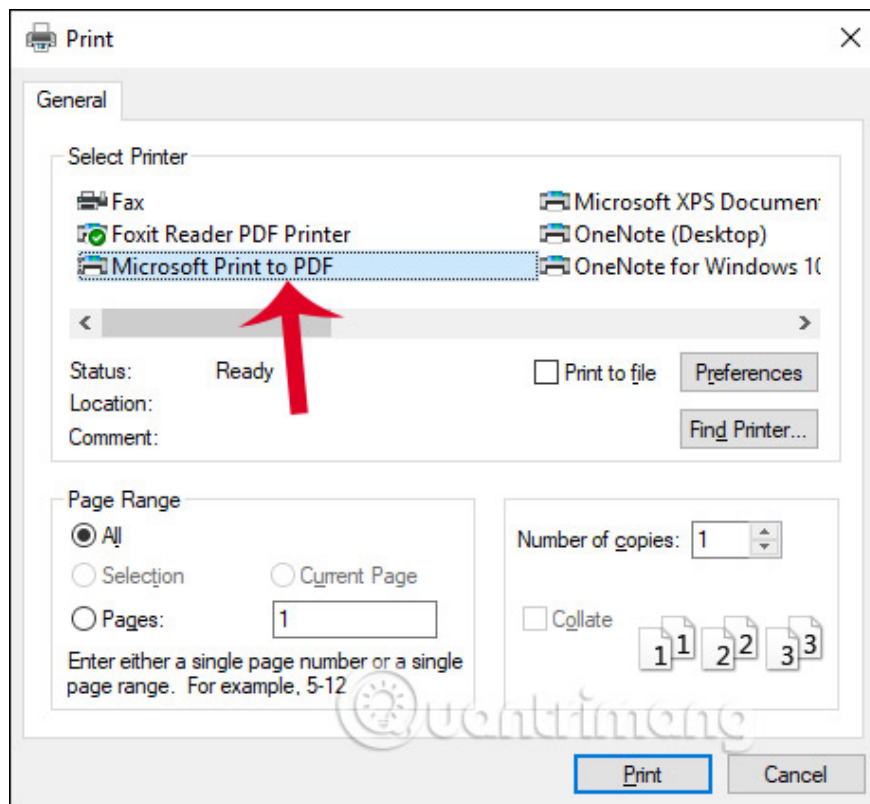

Currently, all web browsers have supported you to save web pages as PDF files so that users can share easily, or even read PDF files or edit content with PDF reader software. To save a webpage as a PDF in Firefox is very simple, similar to when you save a webpage in Chrome as a PDF file or save a webpage as a PDF file on Coc Coc. The following article will guide you how to save websites on Firefox in PDF.

## 1. Save Firefox web page as PDF on Windows

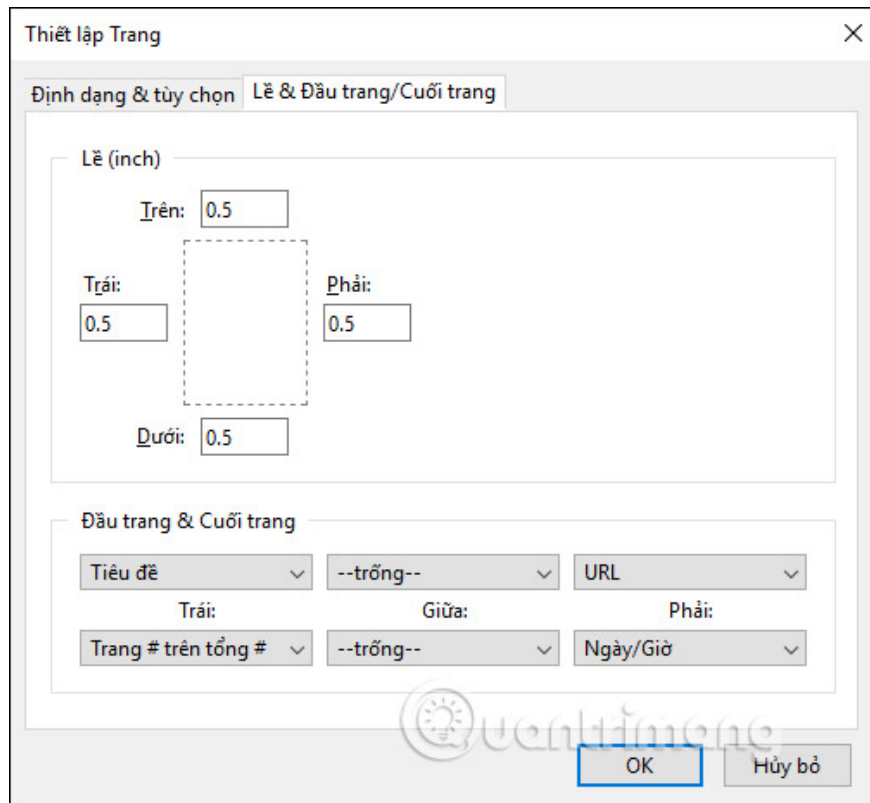

We open the web page we want to print as a PDF and then click on **the 3 dashes icon** and choose **Print** .

Now display the interface for you to set up the print page. Click **the Print button**, then in the **Select Printer** section, click on **Microsoft Print To PDF** .

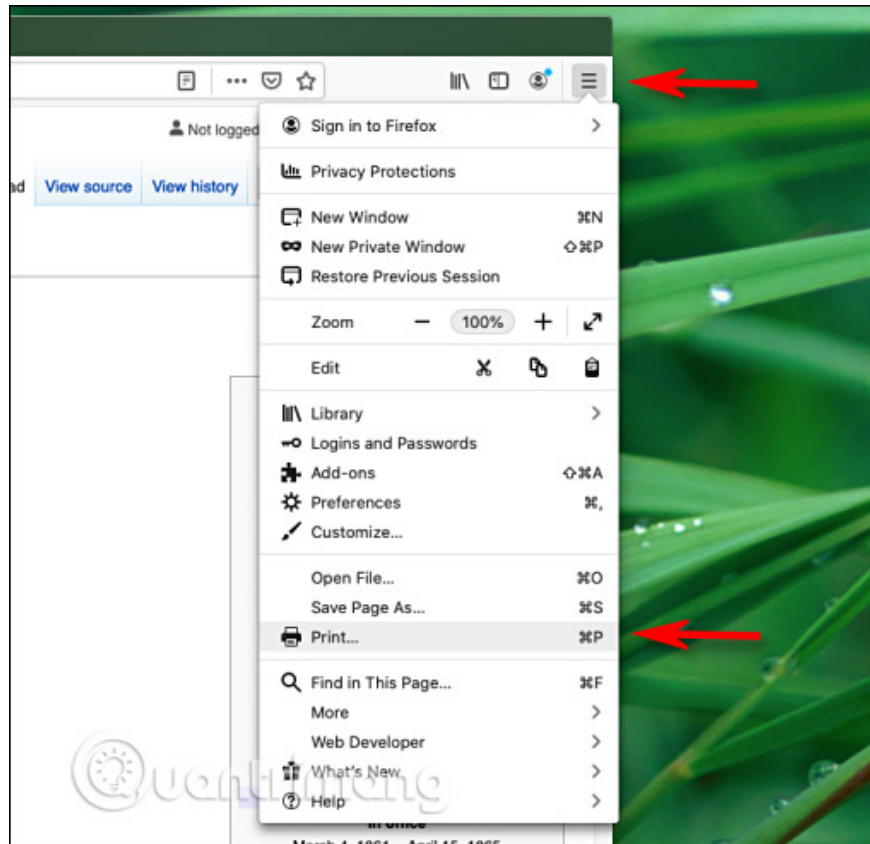

For other settings, you can change the settings by clicking **Page Setup** . If not, leave it as it is on the browser. Then display the directory so we save the site as a PDF file.

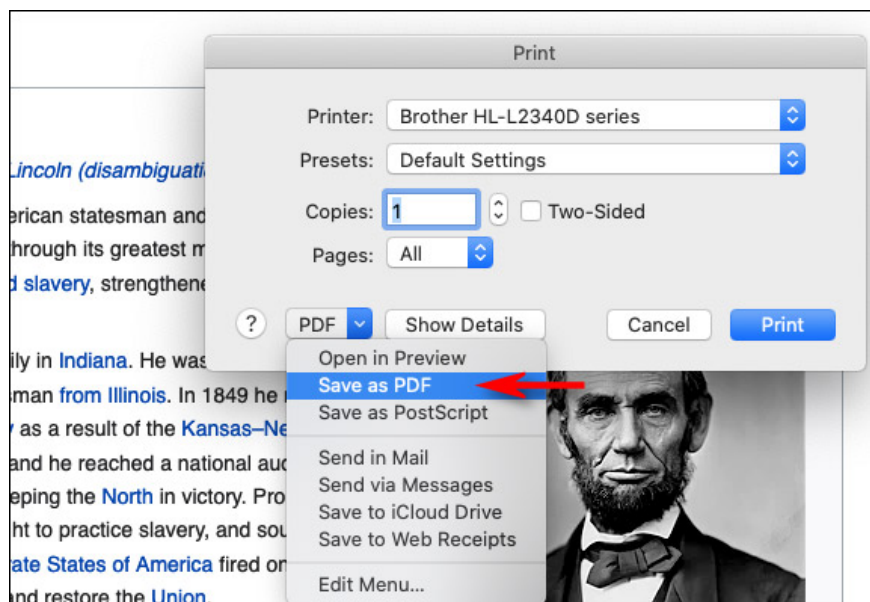

## 2. Save webpages as PDFs on Firefox Mac

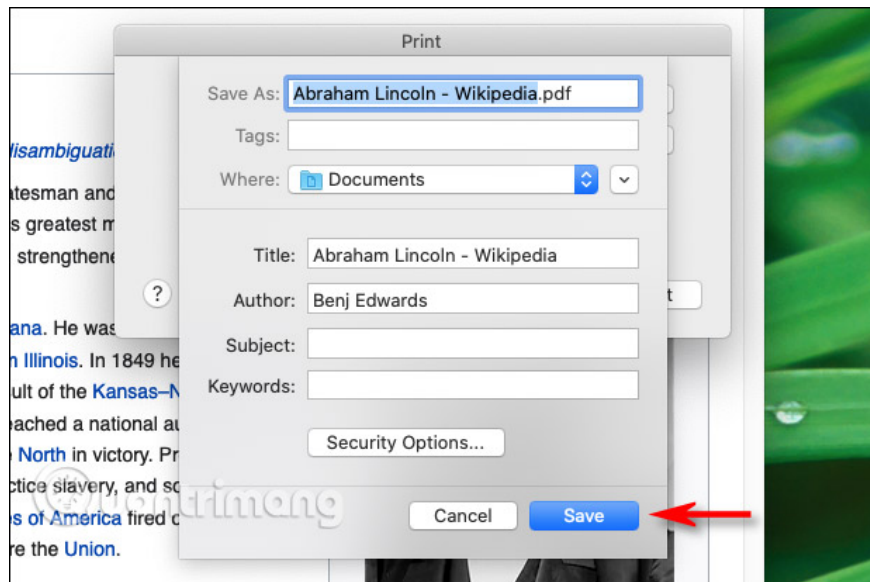

First, we also open the page you want to save in Firefox and then click on **the icon 3 dashes** , click on **Print** .

The Print dialog box appears so we can customize the document. At the **selection of print styles**, click **Save add PDF** .

Next we **enter the name for the PDF file** and then choose where to save the file. Finally click Save below to save is done.
