

How to search bus routes in Hanoi and Ho Chi Minh City

BusMap is an application to find bus routes in Hanoi and Ho Chi Minh City. Ho Chi Minh City, helps users to capture the fastest information about the bus routes we need to go.

Buses today are the most popular means of public transport in our country, especially for students and students, buses become the main means of transportation. And to help users get the fastest information about bus routes that need to be in the city, the BusMap application on the phone will bring the necessary information to meet the user's bus search needs.

BusMap application is now fully updated with bus routes for 2 cities Hanoi and TP. Ho Chi Minh. In the following article, we will guide you how to use BusMap application to look up bus information in Hanoi and Ho Chi Minh City. Ho Chi Minh.

1. BusMap looks up buses in Ho Chi Minh City. Ho Chi Minh:

1. Download the BusMap app for Android
Download the iOS BusMap app

Step 1:

After downloading the BusMap application to the device, we start the application. In the first interface, users will be asked **to update the location** so that the application can be easily operated, click Yes.

Next, if you want to **receive notifications from BusMap** , click Yes.

Step 3:

In the main interface of the application, click on **the blue plus symbol** . You will see two items are Lookup and Path Search. Click **the Search button** first. A list of active bus routes appears in the city. Ho Chi Minh. We can enter keywords about the location in **the Quick search box** to get the bus route, based on the search term.

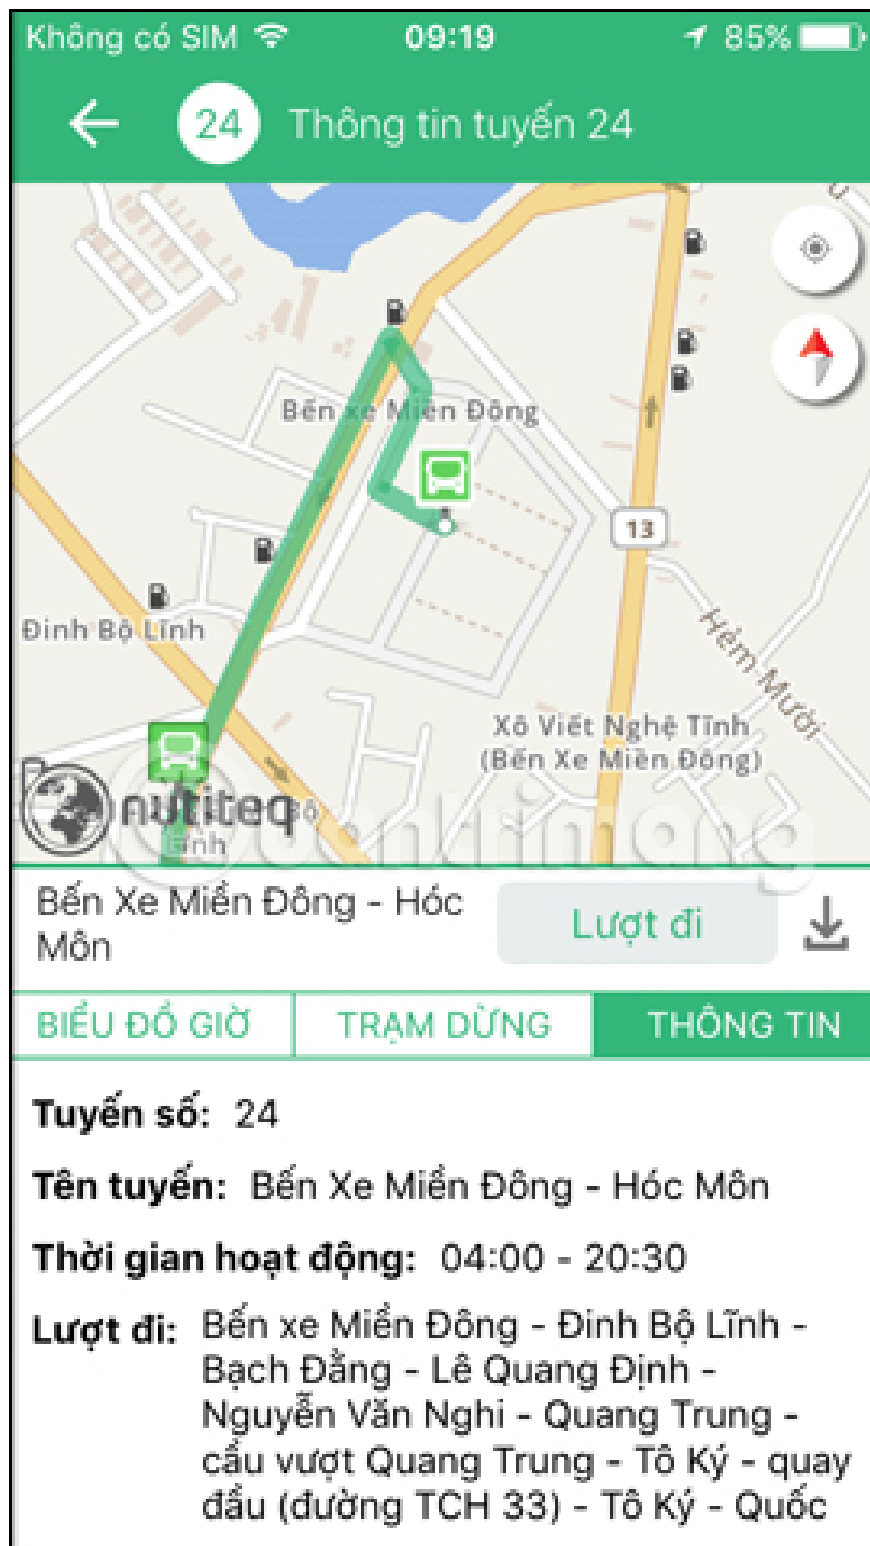

Step 4:

Each bus stop will have an instruction for each bus station, for example I will choose Route 24. The detailed route of Line 24 will appear shortly thereafter. The bus has the first station is Mien Dong Bus Station and the end is Bus Station 19/5. The Information section will be an overview of the bus route.

We just need to follow the points in the list to find the right station and need to pick up the bus.

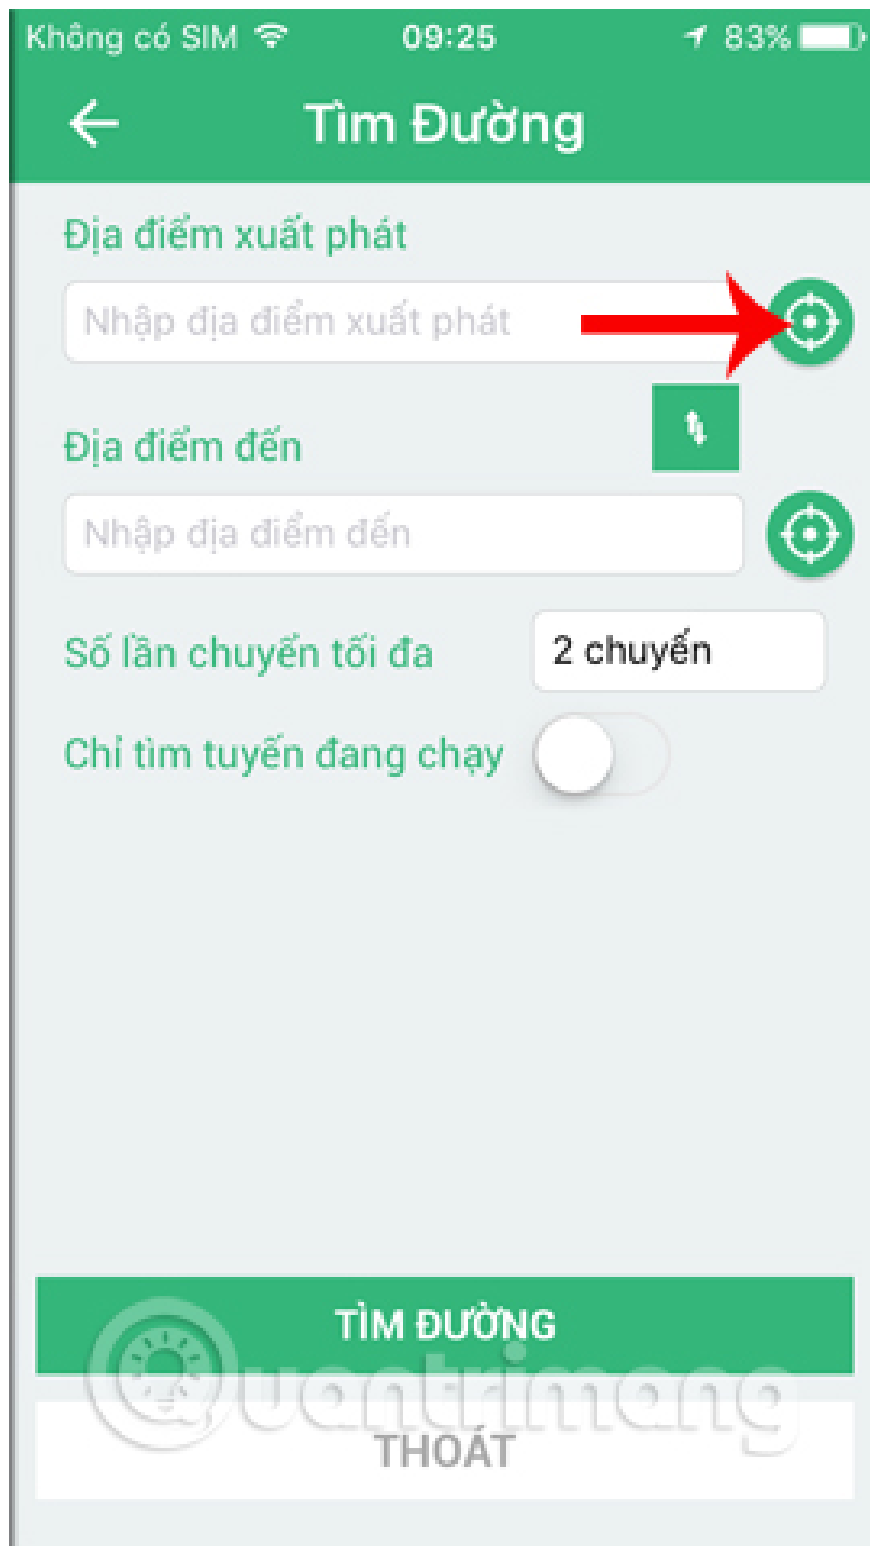

Step 5:

Go back to the bus map interface, click **the plus icon** and click on **Find a route**. In the Find route interface, we will see two positioning marks for the Start and Destination locations. Or you can enter the starting point and destination directly in the frame.

Enter the address name in the **Search** area. For example, I will choose the starting point of 1018 To Ky, District 12 and the destination is the Hang Xanh Church. Once you have obtained the location, click **Find a road** below.

1018 tô ky

Step 6:

Wait a few seconds for the application to search for information and return the results to you. At the **instructions**, there will be different bus routes for you to choose from.

How much is the walking route with the distance from the current location to the pen station. When you click on a bus route, you will have detailed instructions on how to go, from the starting point to the destination.

If we use positioning, the interface will appear green circle. When the green mark matches the green path in the map, you are on the right track.

So, you know how to find bus routes in the city. Ho Chi Minh is based on the starting point at the destination.

2. How to use BusMap to find buses in Hanoi:

Currently BusMapHN bus search application for Hanoi only version for Android. IOS version will be updated in the future.

1. Download the BusMapHN Android app

Step 1:

We download the BusMapHN application according to the link above and then proceed to start. In the first interface, we will also be asked to **select the language to use** , click Vietnamese. Then wait for the startup application to complete.

Step 2:

Next, **click on the checkmark** to skip the application introduction interface. At the main interface, we will see a general map of bus routes in Hanoi. Here, you also click on **the blue plus icon**, then click **Search**.

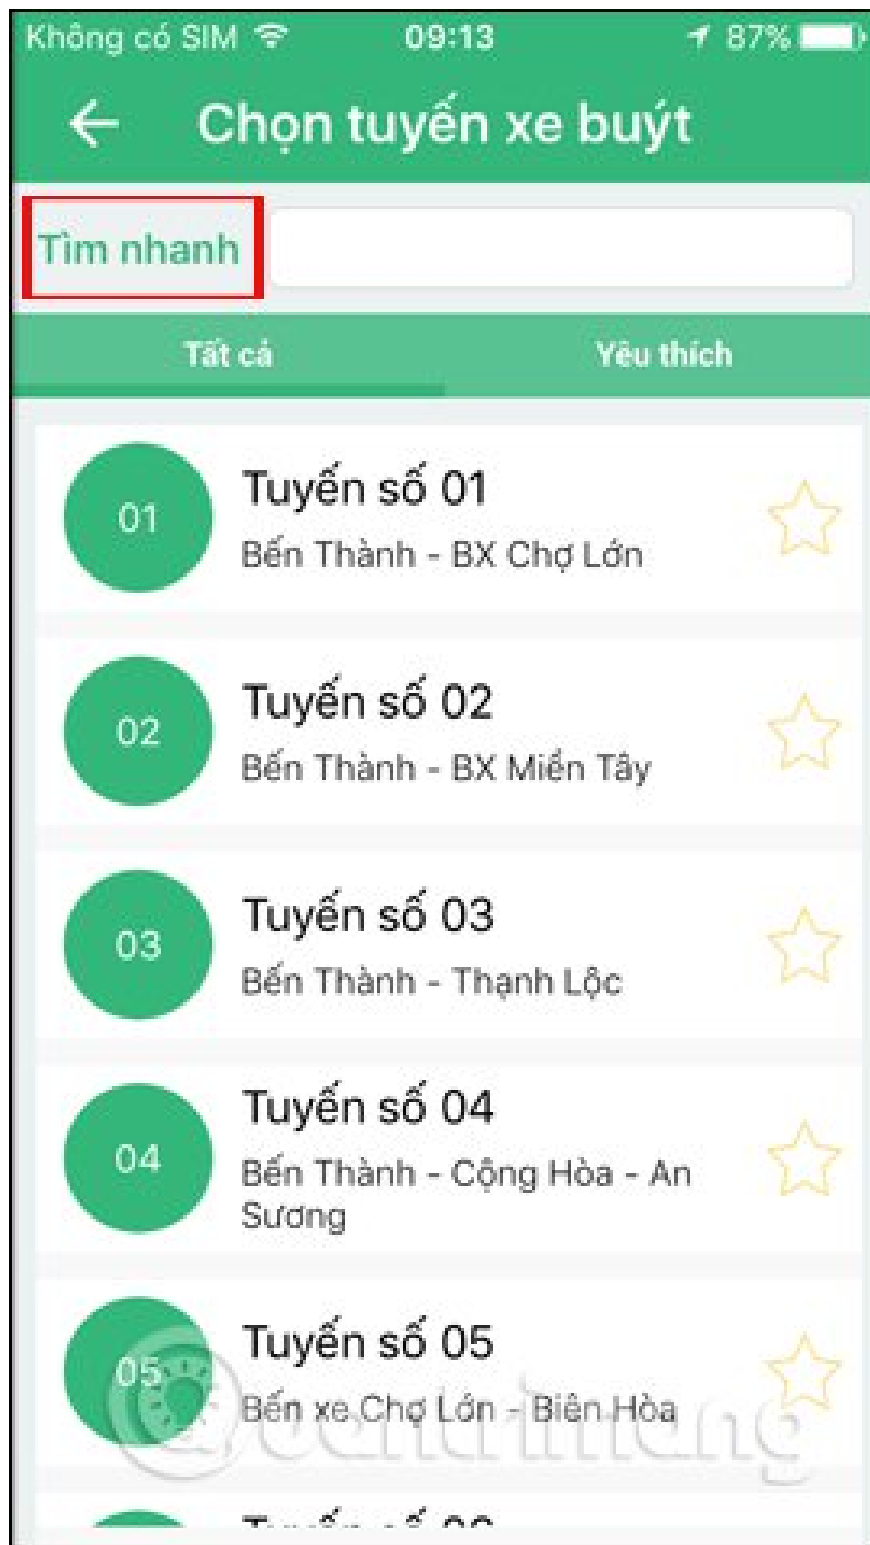

Step 3:

Switch to the interface **Select the bus route**, enter the location in the frame Quick search or click the bus route in the list. When you click on the bus route, for example, line 20 will see detailed information about the bus stops, the start and end points of the route.

When clicking on the points in the list, the bus map will transfer to the specific bus station for users to understand.
