

# How to search by image on Google

How to search by image on Google. In addition to the search features by keyword, Google also supports users to search by voice and image. Image search is one of the most useful because it can find exactly what the user is looking for.

Google is the most famous search engine in the world today with a huge data warehouse. In addition to the search features by keyword, Google also supports users to search by voice and image. Image search is one of the most useful because it can find exactly what the user is looking for. Today, the Software Tips will guide you How to search by image on Google.

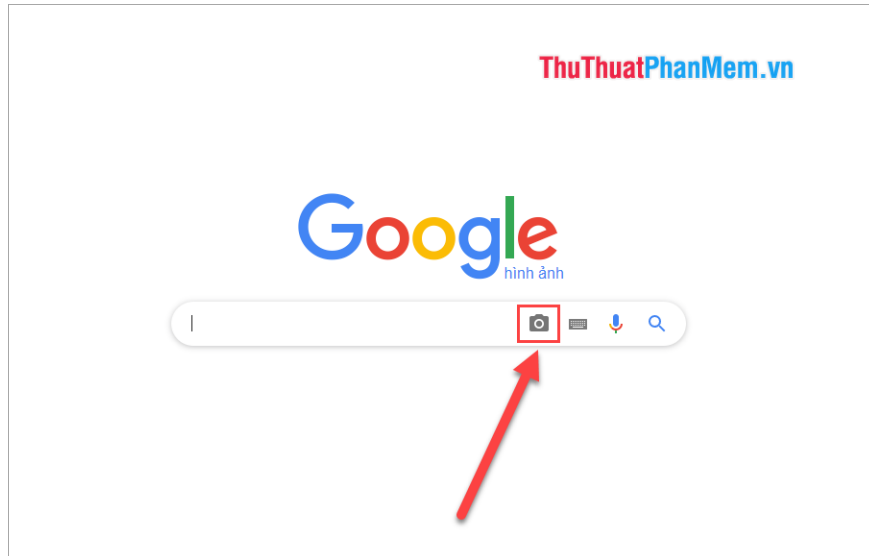

## Method 1: Search by image on the computer

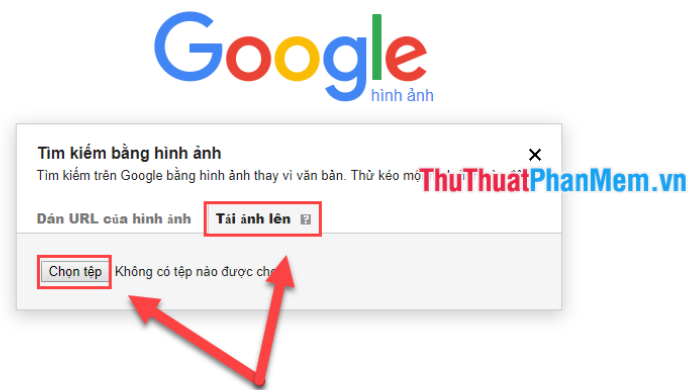

This way you can use when you've saved those images to your computer.

**Step 1:** You proceed to the following Web site and select the camera icon to use.

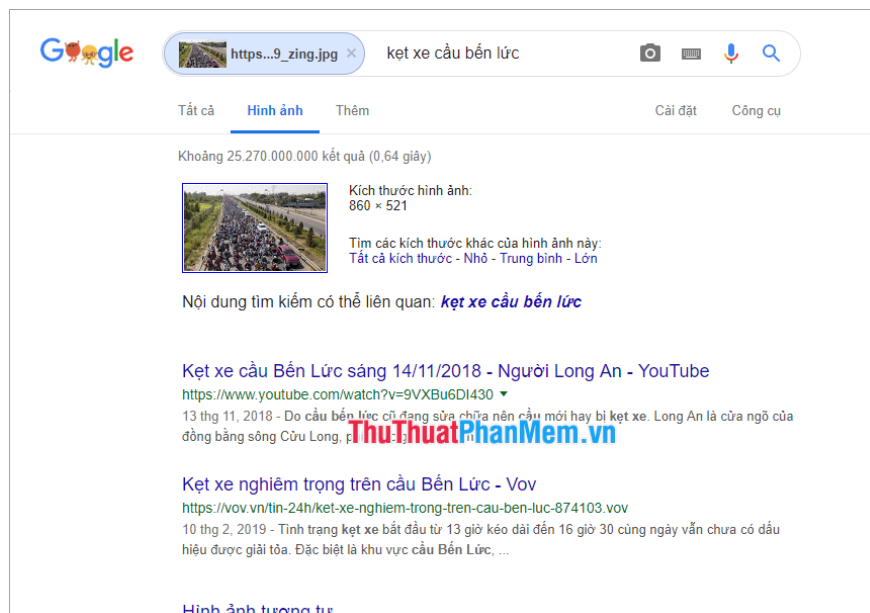

[https://www.google.com/imghp?hl=en\\_US](https://www.google.com/imghp?hl=en_US)

**Step 2:** You continue to select the **Upload photos** and **Choose file** . You choose the image you want to search.

Soon, Google will automatically search and give you results related to that image.

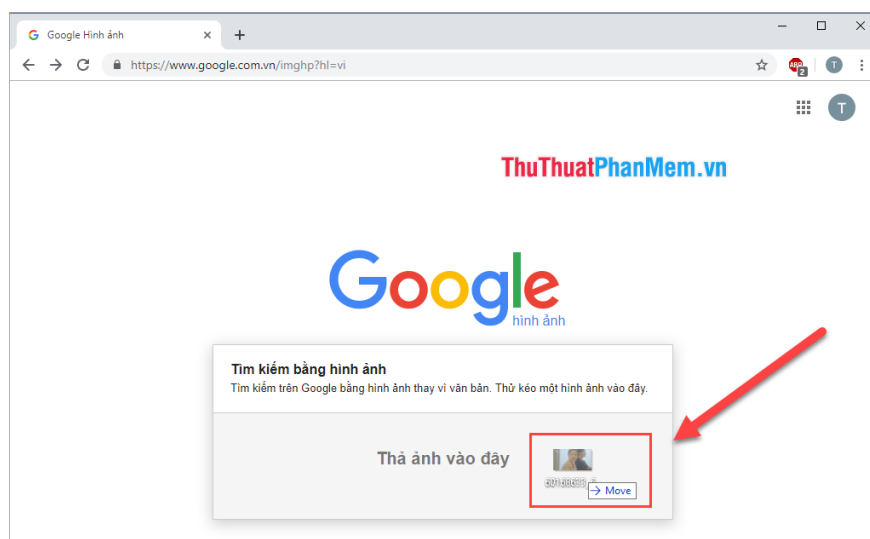

## Method 2: Drag and drop images directly from the computer

**Step 1:** You access the following Web site to use image search.

[https://www.google.com/imghp?hl=en\\_US](https://www.google.com/imghp?hl=en_US)

**Step 2:** You proceed to hold down the left mouse button on the image you want to search and drag into the browser.

## Method 3: Search directly by images on the Web

With images on Web pages, you can search directly on Google without downloading them to your computer.

On the Web page containing images, **right-click** on the image you want to search and select **Google Image Search**.

Vị này nhắc đến thực trạng đã có nhiều công trình, dự án có chủ trương đầu tư. Tuy nhiên, đã qua hơn 2 năm, trong khi cử tri mòn mỏi đợi chờ thì các công trình này vẫn đang trong triển khai một cách ỷ ạch, chậm chạp.
