3. How to search for photos on Opera via Google Images
4. 8 awesome search engines hidden in Google Photos

Instructions to find similar images on Bing

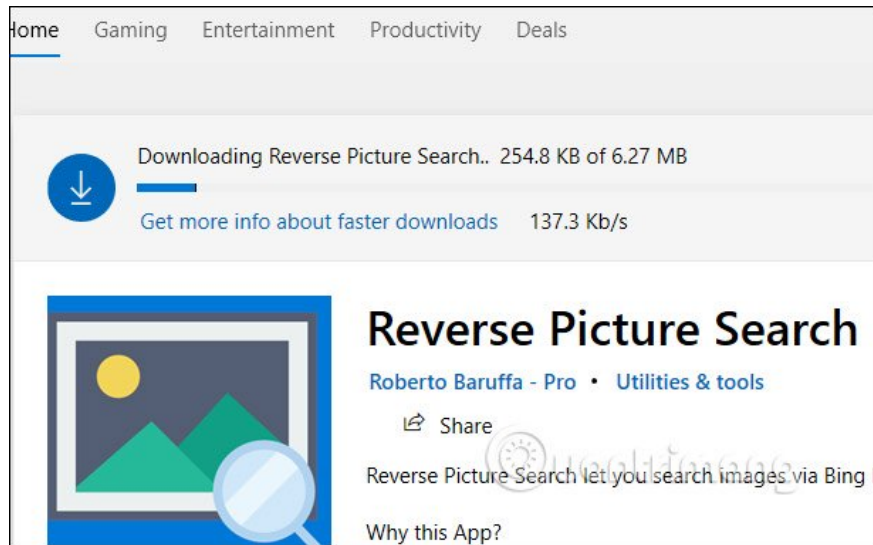

Step 1:

Users access the link below and then click Get to proceed to download the application.

1. Download the Reverse Picture Search app

We wait for the application installation to complete and click on the icon to use.

Step 2:

Display the main interface of Reverse Picture Search, users click **Search by image** to download the original image you want to find more similar images on Bing.

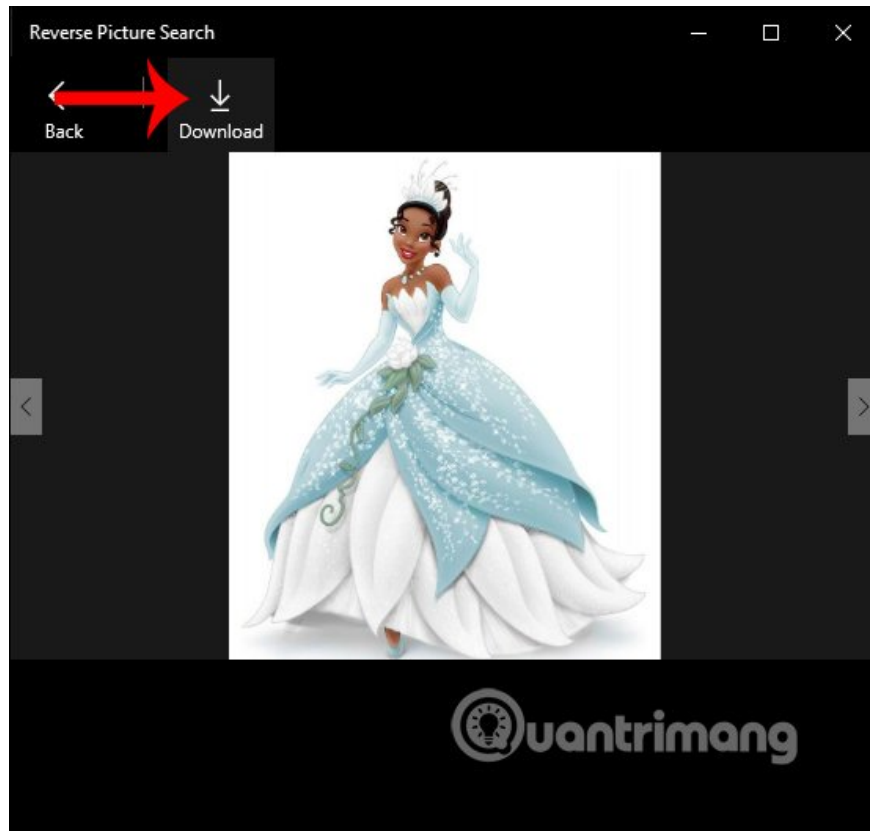

Step 3:

Display the folder on the computer so we can upload images to the application. Soon we will see images similar to the images you upload. The application produces a variety of results in thumbnail form like this. Use the scroll bar to view the contents below. To view the full size of an image, click on the image.

Step 4:

This interface displays only each image without any additional information. To download any image, click on the image. At this point in the interface displays the **Download icon** as shown below. To switch to another image, click the arrow at the left and right sides of the interface.

In general, Reverse Picture Search has a very simple interface, and is easy to use, not complicated or perform many steps. Maximum similar image size that Bing search applications will limit to 1 MB.

I wish you successful implementation!
