

How to search over 100 services with SearchJumper

SearchJumper is a utility that provides search capabilities with 100 popular search services today such as Google, Bing, Wikipedia, Facebook,...

After installing the SearchJumper utility on the browser, users can easily search for the content they need in many other locations on the browser from the side bar, in the floating pop-up or in the right-click menu. Below are instructions for using the SearchJumper utility.

Instructions for searching over 100 services using SearchJumper

Step 1:

We download the SearchJumper utility for Chrome browser according to the link below.

Step 2:

After successfully installing the utility, open your browser and **highlight the word or phrase you want to search for** . You will now see a pop-up with search options for this content, including:

1. Activate the full page search screen and side search bar.
2. Search with Google.
3. Search with Google with website domain name.
4. Copy.
5. Highlight words and phrases found on the website.
6. Generate QR codes.
7. Search with IMDb.

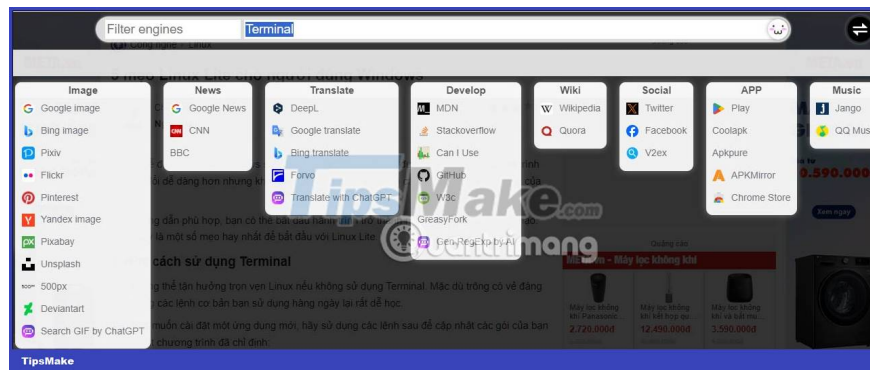

Step 3:

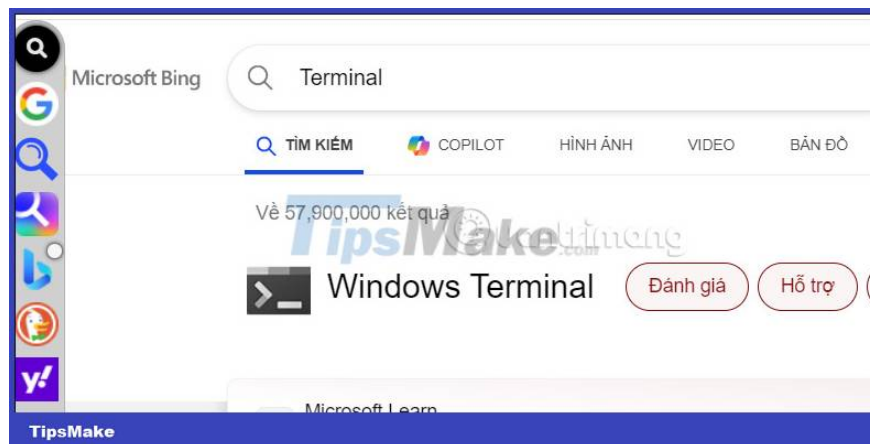

When you click on **the Search on page icon first** from the left, you will be transferred to the search interface with many different tools. Above displays the search content, below are the search services and you just need to

click to see the search results for that service in a new tab.

You drag the horizontal bar below to the right to see all groups of content search engines.

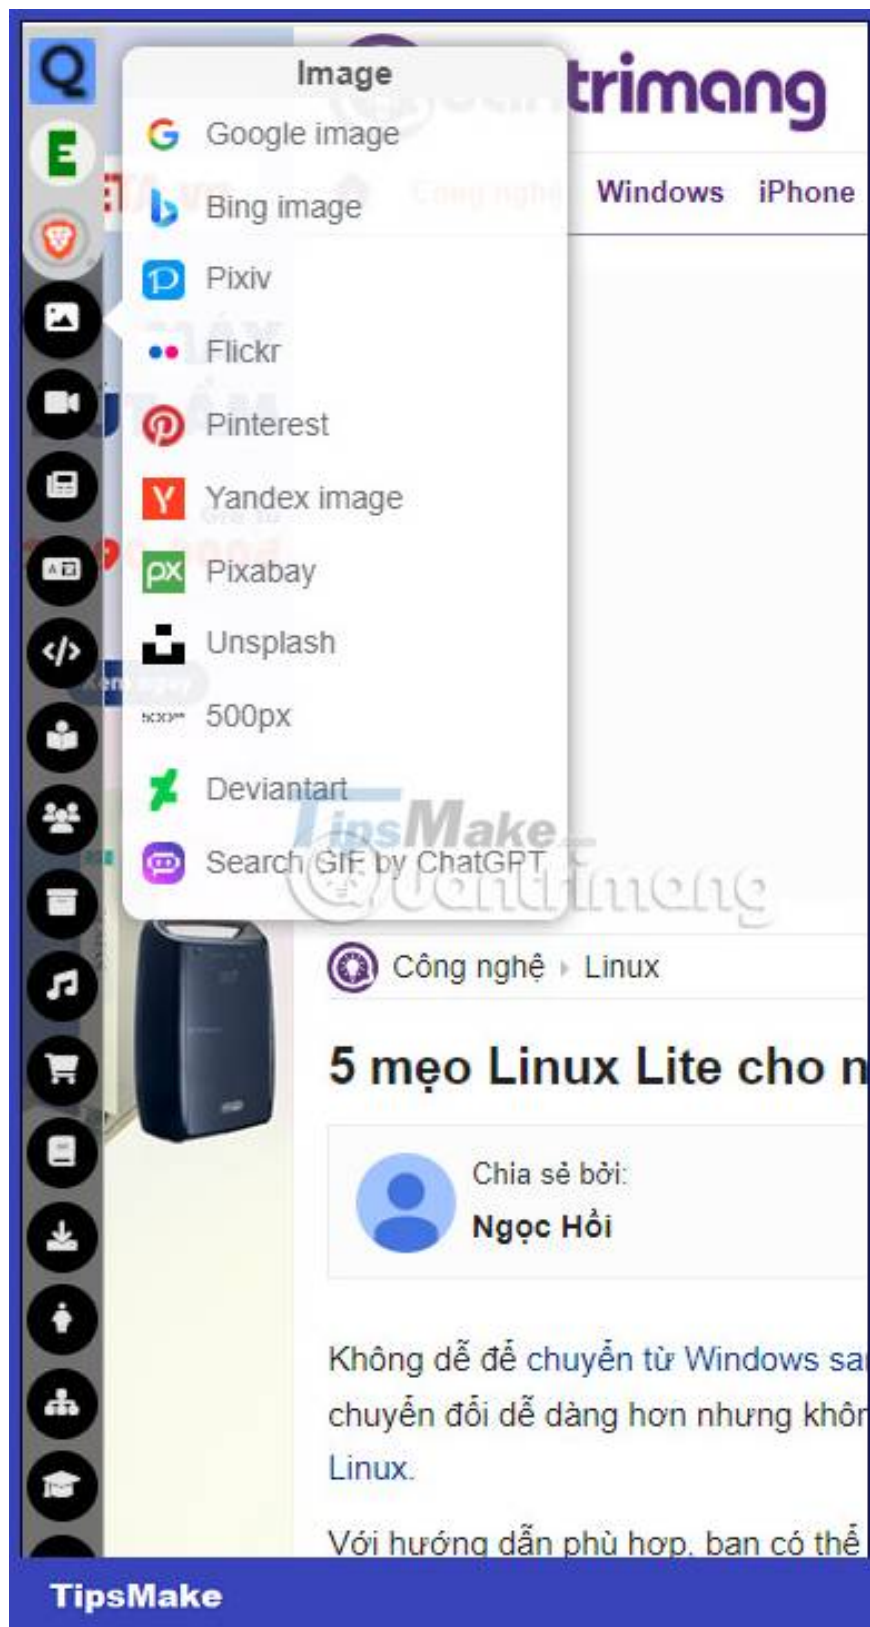

For example, searching for content on Google Search will immediately display results in a new tab.

Step 4:

In addition, the left edge of the interface also displays a search engine for you to use, when we highlight the content.
