4. How to send SMS from computer

Instructions for sending an email without account on Eskiimo

Step 1:

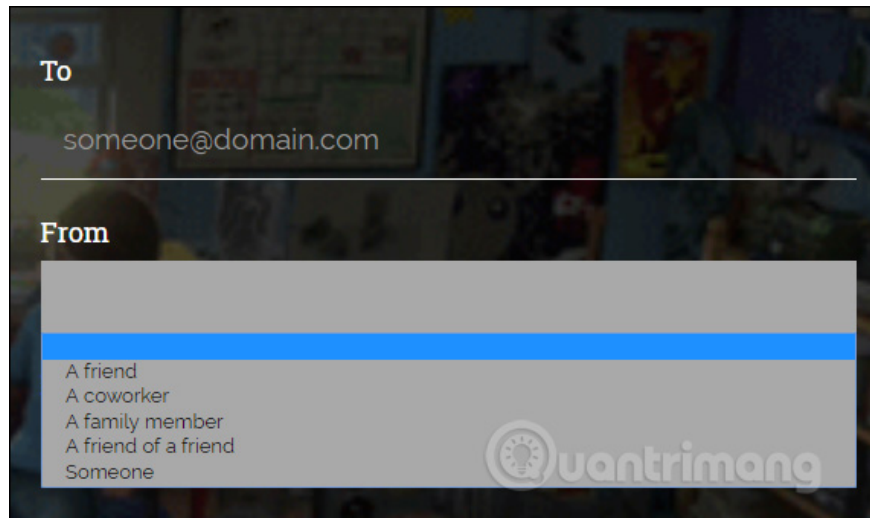

Users access the link below to access Eskiimo's homepage.

<https://eskiimo.com/>

Step 2:

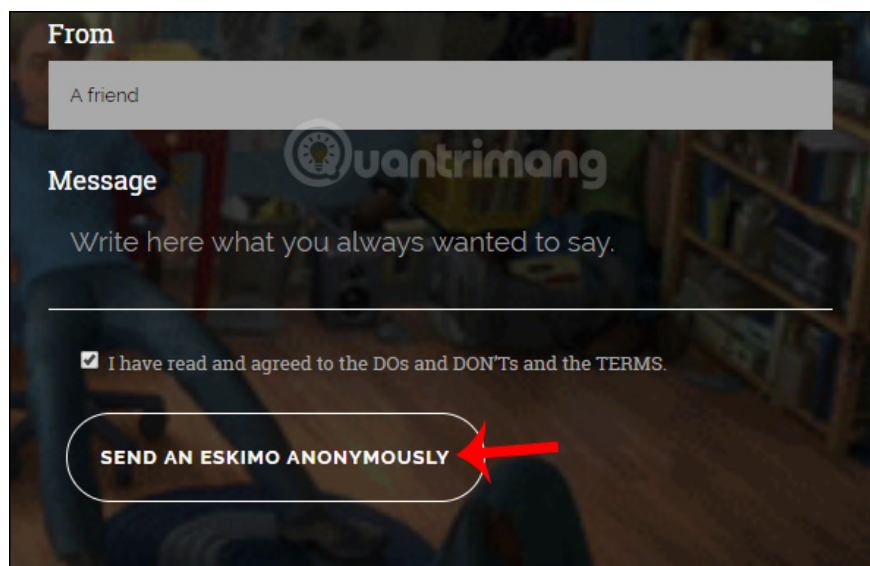

The main interface will immediately display the content of the email. We enter the full content to email.

1. To: Enter the recipient's email address.
2. From: Due to an anonymous email, Eskiimo has several options for senders, including A friend (a friend), A coworker (from a colleague), A family member (from a family member), A friend of a friend (from a friend of your friend) and Someone (from someone).

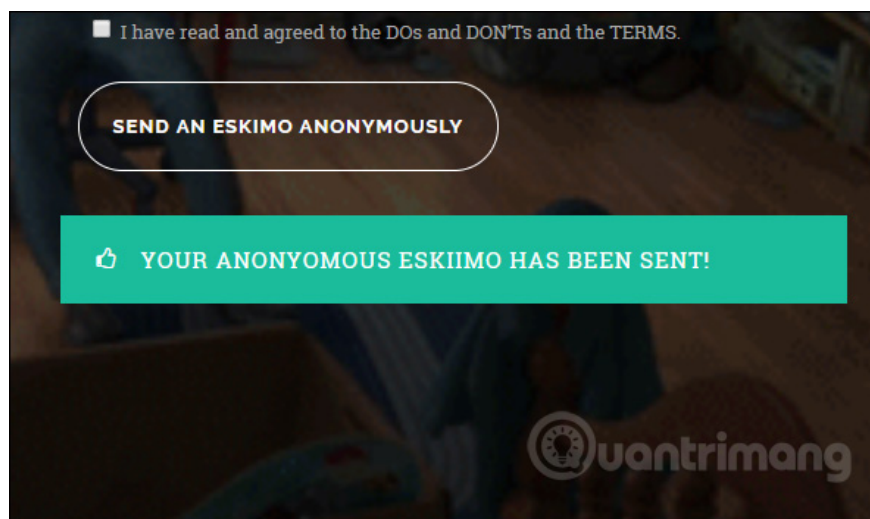

The message section needs to enter the content of the email to send. The sender should add annotated content to the recipient so they know exactly who the sender is.

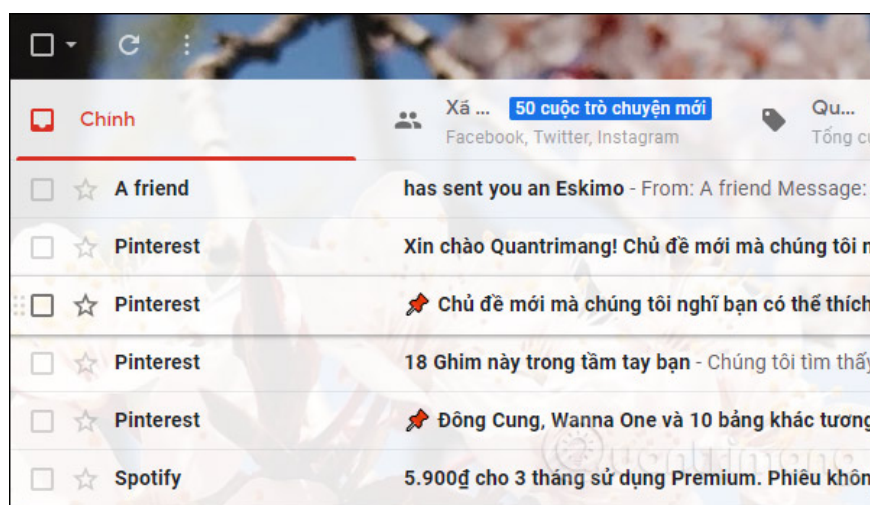

Select to **I have read and agreed to the DOs and DON'Ts and the TERMS** , then click **Send an Eskimo Anonymously** to send an email.

When the interface shows the **blue notification Your Anonymous Eskiimo has seen sent** , the email has been sent successfully.

So you have finished sending the email. For email recipients, when they access their email account, they will receive an email from Eskiimo, titled **Has sent you an Eskiimo** . The content of the email does not include the sender's name but only the content of the email received.

Eskiimo allows sending emails without account, registration information. Email recipients will only see the content of the mail being sent. And the sender doesn't need to reveal his identity.

I wish you all success!
